(61) The statute upon which the order under review is based (being Chapter 57, Laws of 1913) is unreasonable, unconstitutional and invalid because it purports, or attempts to delegate, to the Board of Public Utility Commissioners, the power in its discretion to alter and amend the charters of the predecessors in interest of the prosecutor, to whose rights the prosecutor has succeeded.

(62) Said order and the statute upon which the same is based are illegal, unconstitutional and void in so far as they permit or require the prosecutor to relocate and reconstruct the highways mentioned in Reason (1), and to change the grade thereof, or parts thereof, outside of the right of way of the prosecutor at said crossings.

(63) The statute upon which said order is based is unreasonable and in violation of the Constitution of the United States, because it takes the property of the prosecutor without just compensation and without due process of law, and denies to it the equal protection of the laws and impairs the obligation of the prosecutor's contracts as follows:—

(a) The contracts made by the prosecutor with the holders of its stocks, bonds, notes and other obligations.

(b) The contracts made between the State of New Jersey and the prosecutor or its predecessors in interest, to whose rights prosecutor has succeeded.

(c) The contracts made between the prosecutor or its predecessors in interest, to whose rights the prosecutor has succeeded, and the Public Service Railway Company, or its predecessors in interest.

(d) The contracts made between the prosecutor, or its predecessors in interest, to whose rights prosecutor has succeeded, and the various corporations, copartnerships and individuals in pos-

Reasons of Erie Railroad Company.

session or enjoyment of various sidings, switches and other facilities, as described in the evidence and in the plan attached to said order.

(e) The contracts made between the corporations known respectively as "The President and Board of Directors of Paterson and Hudson River Railroad Company," and "Paterson and Ramapo Railroad Company"; and the prosecutor, or its predecessors in interest, to whose rights the prosecutor has succeeded. 10

in that the said statute imposes upon the prosecutor the entire expense of the alterations, changes, relocations or openings, including damages to adjacent property, caused by the alteration of crossings in the manner described in said statute—except such part of such expense not exceeding ten per cent., which may be imposed upon the street railway using such crossings, and except such part of such expense as the statute requires to be borne by the municipality, and except such part of such expense as the statute requires to be borne by any telegraph, telephone, gas, electric, lighting, power, water, oil, pipe lines or other companies, or corporations, co-partnerships or individuals. 20

(64) Said order and the statute upon which the same are based are unconstitutional, unreasonable and invalid in so far as they limit the proportion of expense of the alterations, changes, relocations or openings (as specified in said statute) to be paid by the street railway using such crossing, or crossings, for the following reasons: 30

(a) Said proportion is not commensurate with, or in proportion to, the danger to public safety or the impediment to public travel created by and chargeable to said street railway at such crossings, and each of them; nor is it commensurate with, or in proportion to, the protection made necessary by such danger or impediment.

(b) Said proportion is not a fair or reasonable amount of the expense of such alterations, changes, relocations or openings. 40

Reasons of Erie Railroad Company.

(c) Said proportion is less than that imposed upon, and assumed by, the street railway under the terms and conditions of existing agreements between said street railway company, or its predecessors, and the prosecutor or its predecessors, respecting the use, maintenance and protection of said crossings, and each of them.

10 (65) Said order is unreasonable and invalid in so far as it requires the prosecutor to alter said highway crossings named in Reason (1), and each of them, according to a plan which is more expensive to the prosecutor than is necessary for the purpose of removing danger to the public safety, or impediment to public travel at said crossings and each of them.

20 (66) Said order is unreasonable and invalid in so far as the Board of Public Utility Commissioners does not adopt the proposal of the prosecutor for the elimination of the highway grade crossings at Keen, Warren and River streets.

(67) Said order is unreasonable and invalid in so far as the Board of Public Utility Commissioners does not adopt the proposal of the prosecutor for the consolidation of the highway grade crossings at Straight and Clay streets.

30 (68) Said order is unreasonable and invalid in so far as it specifies the date on or before which the prosecutor is required to begin the actual work of construction in the performance and execution of said order, and the dates on or before which the prosecutor is required to begin and complete the divisions of said work, respectively marked and designated on the profile attached to said order as "A," "B," "C" and "D."

40 (69) Said order is unreasonable and invalid in so far as it arbitrarily requires the actual work of construction in the performance and execution of said order to be done according to certain divisions marked and designated in the profile attached to said order as

Reasons of Erie Railroad Company.

"A," "B," "C" and "D"; and in so far as it requires said work to be prosecuted in the sequence of divisions named in said order.

(70) Said order is unreasonable and invalid, and the statute upon which same is based is unconstitutional and invalid, for the reason that the testimony shows that it is impossible for the prosecutor to obey said order; but on failure to obey, the prosecutor becomes subject to a penalty of one hundred dollars per day for every day during which default continues; and the prosecutor and its officers, agents and employees, on such neglect or default, become liable to indictment for misdemeanor.

10

(71) Said order is unreasonable and invalid and in violation of the Constitution of the United States in that the cost to the prosecutor of compliance therewith is so great that it imposes a burden upon the interstate traffic of the prosecutor and interferes with and impairs its ability to perform its duty as an interstate carrier of freight and passengers, for the reason that said order compels the prosecutor to raise and expend moneys which (if available for any purpose), would otherwise be available for, and in the ordinary course of events, would be used by the prosecutor in the making of changes and improvements which are essential for the purpose of enabling the prosecutor to carry on its interstate traffic.

20

(72) Said order is in violation of the Constitution of the State of New Jersey in that it takes the private property of the prosecutor for a private use, and takes the property of the prosecutor for public use without just compensation; and takes the property of the prosecutor without offering to it any opportunity to protect said property, thereby depriving the prosecutor of its right and guaranty of enjoying and defending, acquiring, possessing and protecting its said property, Said order is likewise in violation of the Constitution

30

40

Reasons of Erie Railroad Company.

10 of the United States, in that it deprives the prosecutor of its liberty and property without due process of law, denies to the prosecutor the equal protection of the laws, abridges the privileges and immunities of the prosecutor, takes the private property of the prosecutor for public use without just compensation, creates a burden upon and operates as a regulation of and an interference with, interstate commerce, and impairs the obligation of contracts, for the reason that the effect of said order will be to deprive the prosecutor of the rights, benefits, advantages, privileges and contracts now possessed by it with reference to certain sidings in the following respects (numbers correspond to numbers of sidings on maps marked "Exhibit 23" and "Exhibit 23-A") :—

20	(a)	Passaic Steel Co.	No. 3
		R. H. McDonald	No. 4
		Paterson Vehicle Co.	No. 19
		Paterson Beef Co.	No. 20
		David C. Rodgers Co.	No. 24

Said order requires the destruction of each of said sidings.

	Grasselli Chemical Co.	No. 42	
	Auger & Simon Co.	No. 49	
	Center Paper Box Co.	No. 56	
	Waldo Silk Ribbon Co.	No. 57	

Said order requires the destruction of the leads and connections by which each of said sidings is now reached, and requires the construction of new leads and connections.

Reasons of Erie Railroad Company.

(73) Said order is illegal and unconstitutional in so far as it requires the construction and maintenance of sidings—

(A) on the right of way and other property of the prosecutor;

10 (B) off the right of way and other property of the prosecutor on the property of other persons or corporations;

(C) in, along and through public highways, for the reason that—

(a) The prosecutor has no legal duty or right to construct and maintain said sidings or any or either of them.

(b) The legal duty and right to construct and maintain the same rests on persons or corporations other than the prosecutor.

20 (c) No hearing has been given to the prosecutor as to whether said sidings, or any of them, should be constructed or maintained by it, nor as to the terms under which said sidings or any of them should be constructed or maintained.

(d) Existing contracts between the prosecutor and other persons or corporations with respect to the construction and maintenance of said sidings and each of them are impaired or destroyed.

30 (e) There is no right in the prosecutor to construct or maintain sidings in, along or through public streets, except under the limitations imposed by law.

(f) There is no power of jurisdiction in said Board of Public Utility Commissioners in this proceeding to order the prosecutor to construct or maintain the said sidings or any or either of them in the manner required by said order and plan.

40 (g) The order imposes a burden upon the interstate traffic of the prosecutor and interferes with and impairs its ability to perform its duty as an interstate carrier of freight and passengers.

Reasons of Erie Railroad Company.

(h) The construction and maintenance of said sidings, and each of them, by the prosecutor as required by said order would constitute an unjust discrimination, preference or advantage between interstate shippers, in violation of the provisions of the Interstate Commerce Act.

(74) Said order is invalid and unreasonable because it arbitrarily requires the alteration of said crossings named in Reason (1) according to and as shown on said plan and profile, without making any provision for such changes or modifications of the details of said plan and profile as may become necessary during the progress of the work for engineering, or other reasons. 10

(75) Said order is invalid and beyond the jurisdiction of the said Board of Public Utility Commissioners, because it prevents or impairs the right of the prosecutor to change the construction or use of switches, sidetracks, leads, bridges, yards, structures, facilities and other property of the prosecutor, comprehended in said plan, in such manner and to such extent as the necessities of its business may from time to time demand; and requires the prosecutor arbitrarily to devote and surrender its said structures, facilities and other property to the uses and purposes limited in and prescribed by said order and plan, and to maintain the same accordingly, and divests the prosecutor of the powers, duties and obligations imposed upon and delegated to it by law, with respect to the construction, use and maintenance of said structures, facilities and other property. 20 30

(76) The action of the Board in denying the prayer of the prosecutor for a further hearing was arbitrary, unjustified and unreasonable.

(77) Said Board should have granted the prayer of the prosecutor for a further hearing for the purpose of considering some one or more of the following 40

Reasons of Erie Railroad Company.

matters, as specified in the prosecutor's petition for such further hearing, to wit:—

10 (a) Whether any order made in this proceeding should not be made against the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company as the railroad companies operating the railroad over the crossings in question within the meaning of Chapter 57, Laws of 1913.

(b) Whether any order made in this proceeding should not be made against the Paterson and Hudson River Railroad Company, the Paterson and Ramapo Railroad Company and this respondent jointly, so that the cost thereof may be apportioned between and among said companies by appropriate proceedings.

20 (c) Whether this respondent is financially able to carry out the terms of any order made in this proceeding if the heaviest burden of the cost thereof falls upon it.

(d) Whether such order would impose a burden upon the interstate traffic of this respondent, and interfere with and impair its ability to perform its duty as an interstate carrier of freight and passengers.

30 (e) Whether in any order made in this proceeding the Public Service Railway Company should not be chargeable with ten per cent. of the total cost of eliminating all of the crossings involved in said plan or scheme adopted by the Board, in addition to all costs and expenses legally chargeable to said Public Service Railway Company under Section 4 of said statute.

40 (f) If the Board reaches the conclusion that under existing circumstances an order must be made requiring this respondent to eliminate the grade crossings in question, whether the danger to public safety and the impediment to public travel could not be removed by reducing the number of train movements over said crossings, or some of them, in accordance with plans which this respondent will submit.

Amendment to Reasons (Erie Railroad Company).

(78) The conclusion of said Board whereby it denied the prayer of prosecutor's petition for a further hearing with respect to the matters described in Reason (77), sub-division F, was arbitrary, unreasonable and unjustified, and was made without hearing and without any evidence in support thereof.

COLLINS & CORBIN,

Attorneys of Prosecutor.

10

**Amendment to Reasons
of
Erie Railroad Company.**

(Filed October, 1915.)

Prosecutor files the following amendment to the Reasons heretofore filed by it in the above cause:

20

1. Add to Reason (53) the following:

53 (c). The evidence taken before said Board does not show, nor does the said Board find, that the width and character of the bridges and passages ordered to be constructed at Taylor street and Montgomery street respectively are such as are suitable to the locality in which the same are situated.

2. Add to Reason (54) the following:

54 (g). The evidence taken before said Board does not show, nor does the said Board find, that the width and character of the bridges and passages ordered to be constructed at Essex street, Governor street and Fulton street respectively, are such as are suitable to the locality in which the same are situated.

30

3. Add to Reason (55) the following:

55 (f). The evidence taken before said Board does not show, nor does the said Board find, that the width and character of the bridges and passages ordered to be constructed at the highways named in Reason (1), or any or either of them,

40

1856

Reasons of Public Service Railway Company.

are such as are suitable to the locality in which the same are situated.

COLLINS & CORBIN,

Attorneys of Prosecutor.

We consent to the foregoing amendment.

FRANK H. SOMMER,

Attorney of Board of Public Utility Commissioners.

EDWARD F. MERREY,

Attorney of City of Paterson and Board of Finance of said city.

**Reasons
of
Public Service Railway Company.**

Filed September 11, 1915.

The prosecutor presents the following reasons for setting aside the order made by the Board of Public Utility Commissioners on the twentieth day of April, A. D. nineteen hundred and fifteen, and brought up for review by the writ allowed in the above stated cause:

1. The order brought up for review was and is not within the lawful jurisdiction of the defendant, Board of Public Utility Commissioners.
2. The order brought up for review is unlawful, unjust, unreasonable and oppressive to the prosecutor.
3. There was no evidence before the defendant, Board of Public Utility Commissioners, to support reasonably the said order brought up for review.
4. The order brought up for review makes an unjust and unlawful imposition and burden upon the prosecutor.

Reasons of Public Service Railway Company.

5. The order brought up for review, if enforced, would have the effect of taking property of the prosecutor for public use without just compensation, in violation of paragraph 16 of Article I of the Constitution of the State of New Jersey.

6. It is beyond the power of said Board of Public Utility Commissioners, by said order or otherwise, to compel the prosecutor to contribute specially to the expense of the abolishment of the grade crossings mentioned in said order, or any of them, or to contribute otherwise to such expense except its proportion in connection with other taxpayers.

7. The order, if enforced, would have the effect of levying a special tax on the prosecutor and its property for the cost of a general public improvement.

8. The order, if enforced, would have the effect of taxing the property of the prosecutor otherwise than by general laws and uniform rules according to its true value.

9. The order, if enforced, would violate the rights of the prosecutor secured by paragraph 12, Section 7, Article IV of the Constitution of the State of New Jersey.

10. The order brought up for review takes the property of the prosecutor without just compensation in violation of Section 1 of the 14th Amendment of the Constitution of the United States.

11. The order, if enforced, would have the effect of depriving the prosecutor of its property without due process of law, in violation of Section 1 of the 14th Amendment of the Constitution of the United States.

12. The order, if enforced, would deny to the prosecutor the equal protection of the law in violation of Section 1 of the 14th Amendment of the Constitution of the United States.

Reasons of Passaic Water Company.

13. The order, if enforced, would be an unjust and unlawful discrimination against the prosecutor, and would impose upon it part of the cost of a public improvement which ought to be borne, if incurred at all, by the taxpayers or property owners generally of the taxing district.

10 14. The order brought up for review is in divers other respects contrary to the Constitution of the United States and of the State of New Jersey and in violation of the laws thereof, and is illegal, unjust, unjustly discriminatory and oppressive.

The prosecutor therefore prays that the said order so brought up for review by the writ of *certiorari* in this cause be reversed, set aside and for nothing holden.

FRANK BERGEN,
Attorney for Prosecutor.

20

**Reasons
of
Passaic Water Company.**

(Filed September 11, 1915.)

The prosecutor files the following reasons upon which it will rely for a reversal of the proceedings under review in this case:

30 (1) The order under review and the statute upon which the same is based are invalid and unconstitutional under the Constitution of the State of New Jersey, in that said order and statute take the private property of the prosecutor for public use without just or any compensation, contrary to and in violation of Article I, Section 16 of the Constitution of the State of New Jersey.

40 (2) Said order and statute deny to the prosecutor the equal protection of the law and deprive it of its property without due process of law and take its private property for public use without just compen-

Reasons of Passaic Water Company.

sation and abridge its privileges and immunities as a citizen of the United States, contrary to and in violation of the Fifth and Fourteenth Amendments of the Constitution of the United States.

(3) Said order and statute take the property of the prosecutor without affording it any opportunity to protect its property, and thereby deprive it of its right and guaranty of enjoying, defending, possessing and protecting its property given and guaranteed to it by Article I, Section 1, of the Constitution of New Jersey. 10

(4) Said order and statute are contrary to and in violation of the Constitution of the State of New Jersey, in so far as they deprive the Court of Chancery of said State of its exclusive jurisdiction over the regulation of the use of easements, as provided in Article III, Section 1, and Article VI, Section 1, of said Constitution. 20

(5) Said order and statute are contrary to and in violation of Article I, Section 10, paragraph 1, of the Constitution of the United States, in that they impair the obligation of contracts.

(6) Said order and statute, in so far as they require changes in or the removal of property or constructions of the prosecutor consisting of water pipes, water mains and the appurtenances thereof, to be made at the expense of the prosecutor, and in so far as they require the prosecutor, at its own expense, to move or change the grade or location of its said property or constructions in conformity with said order of said Board, are contrary to and in violation of the Constitutions of the State of New Jersey and of the United States, in the respects hereinbefore set forth. 30

(7) Said order is invalid and beyond the jurisdiction of said Board, in so far as it purports to command the prosecutor to proceed with due diligence 40

Reasons of Passaic Water Company.

to the execution thereof and to comply with all the requirements thereof and the duties imposed upon it thereby, and by the said act under which said order is made and the laws of New Jersey, and that to that end it exercise in good faith all of the powers conferred upon it by the laws of New Jersey.

10 (8) Said order is invalid and beyond the jurisdiction of said Board in so far as it arbitrarily interferes with the judgment and discretion of the Board of Directors of the prosecutor and deprives it of the right given said directors by law to exercise their judgment and discretion in the management of prosecutor's business.

20 (9) Said order is invalid and beyond the jurisdiction of said Board for the reason that in carrying out the command thereof it will be necessary for the prosecutor to take, occupy, or use, or interfere with the property of other persons or corporations, in order to comply therewith, whereas said prosecutor is not now required or empowered by law, nor has said Board power to command it to take such property for such purposes.

30 (10) Said order, in so far as it requires changes in the grade or location of the prosecutor's water pipes, water mains and the appurtenances thereof, and the relocations, reconstruction or relaying thereof, in whole or in part, is invalid and beyond the jurisdiction of said Board for the following reasons:

(a) Said changes, reconstructions, relocations and relayings are not included within the prayer of the petition upon which said order is based.

(b) No appropriate action has been taken by or on behalf of municipal or other authorities necessary or required for said changes, reconstructions, relocations and relayings, or any or either of them.

Reasons of Passaic Water Company.

(c) Said order was not made after hearing, upon notice, as required by law.

(d) Said changes, reconstructions, relocations and relayings are not, nor is any or either of them, included within the powers conferred by law upon said Board.

(e) Said changes, reconstructions, relocations and relayings are no part of the duties or obligations imposed by law upon the prosecutor. 10

(f) It does not appear that said changes, reconstructions, relocations and relayings, or any or either of them, are reasonably necessary or required or appropriate for the elimination of the highway grade crossings named in said order, or any or either of them.

(g) Said order, and the statute upon which same is based, require or permit the property of the prosecutor to be taken for the private use of Erie Railroad Company, "The President and Board of Directors of the Paterson and Hudson River Railroad Company," Paterson and Ramapo Railroad Company, and Public Service Railway Company, or one or more of them. 20

(11) Said statute (being Chapter 57, Laws of 1913), is in violation of and contrary to Article IV, Section VII, paragraph 4, of the Constitution of the State of New Jersey, in that the object of the said statute is not expressed in the title thereof, and the said statute embraces more than one object. 30

(12) The property and construction of the prosecutor, referred to in said order, consisting of water pipes, water mains, and the appurtenances thereof, having been constructed and maintained by it under and by virtue of the provisions of a special Act of the Legislature of the State of New Jersey (constituting its charter) entitled "An Act to Incorporate the Passaic Water Company," approved February 13, 1849, and the various supplements and amendments thereto, under and by which said charter it was fully au- 40

Reasons of Passaic Water Company.

thorized and empowered to lay its pipes beneath such public roads, streets, avenues and alleys in the City of Paterson (among other places) as it might deem necessary for supplying the City (then Town) of Paterson (and other places) with water sufficient for extinguishing fires, culinary and other family uses, watering the streets and such other purposes as might conduce to the health and comfort of the citizens of Paterson; and with reference to any of said streets abutting on said crossings, referred to in said order which were laid out and constructed before the tracks and right of way of the President and Board of Directors of the Paterson & Hudson River Railroad Company, and those of the Paterson & Ramapo Railroad Company, now operated by Erie Railroad Company, came into existence, the said railroad company's title being subject to the burden of said streets, with all their incidents such as the public right to lay and maintain sewers, water pipes and gas pipes and electric conduits, etc., and with reference to any of said streets abutting upon said crossings referred to in said order, which were laid out and constructed by the City of Paterson across the then existing tracks and right of way of said railroad company, the said railroad company having received compensation once for all when said streets were opened, and the prosecutor in laying its pipes under all of said crossings having merely exercised the public easement conferred upon it by its charter, to which the said railroad company, whether it owned the land or had only a right of way, was bound to submit, the said order under review and the statute upon which same is based, in so far as they place the burden upon the prosecutor at its own expense, and not upon the said railroad company or companies, of changing and removing said property and construction, taken the private property of the prosecutor for public use without just or any compensation, and are contrary to and in violation of

1863

Reasons of Western Union Telegraph Company.

the Constitutions of the State of New Jersey and of the United States in the respects hereinbefore set forth, and the said order is therefore invalid and beyond the jurisdiction of said Board.

HUMPHREYS & SUMNER,
Attorneys for Prosecutor.

10

**Reasons
of
Western Union Telegraph Company.**

Filed September 20, 1915.

The prosecutor files the following reasons upon which it will rely for a reversal of the proceedings under review in this case:

20

(1) The order under review and the statute upon which the same is based are invalid and unconstitutional both under the Constitution of the United States and of the State of New Jersey, in that said order and statute take the private property of the prosecutor for public use without just or any compensation.

(2) Said order and statute deny to the prosecutor the equal protection of the law, and deprive it of its property without due process of law, and abridge its privileges and immunities as a citizen of the United States, contrary to and in violation of the Fifth and Fourteenth Amendments of the Constitution of the United States.

30

(3) Said order and statute take the property of the prosecutor without affording it any opportunity to protect its property, and thereby deprive it of its right and guaranty of enjoying, defending, possessing and protecting its property given and guaranteed

40

Reasons of Western Union Telegraph Company.

to it by Article I, Section 1, of the Constitution of the State of New Jersey.

10 (4) Said order and statute are contrary to and in violation of the Constitution of the State of New Jersey, in so far as they deprive the Court of Chancery of said State of its exclusive jurisdiction over the regulation of the use of easements, as provided in Article III, Section 1, and Article VI, Section 1, of said Constitution.

(5) Said order and statute are contrary to and in violation of Article I, Section 10, paragraph 1, of the Constitution of the United States, in that they impair the obligation of contracts.

20 (6) Said order and statute, in so far as they require changes in or the removal of the property or constructions of the prosecutor consisting of telegraph wires, poles and appurtenances to be made at the expense of the prosecutor, and in so far as they require the prosecutor, at its own expense, to move or change the grade or location of its property or constructions in conformity with said order of said Board, are contrary to and in violation of the Constitutions of the State of New Jersey and of the United States in the respects hereinbefore set forth.

30 (7) Said order is invalid and beyond the jurisdiction of said Board in so far as it purports to command the prosecutor to proceed with due diligence to the execution thereof and to comply with all of the requirements thereof and the duties imposed upon it thereby, and by the said act under which said order is made and the laws of New Jersey, and that to that end it exercise in good faith all of the powers conferred upon it by the Laws of New Jersey.

40 (8) Said order is invalid and beyond the jurisdiction of said Board in so far as it arbitrarily interferes with the judgment and discretion of the Board

Reasons of Western Union Telegraph Company.

of Directors of the prosecutor and deprives it of the right given said directors by law to exercise their judgment and discretion, in the management of the prosecutor's business.

(9) Said order is invalid and beyond the jurisdiction of said Board for the reason that in carrying out the command thereof it will be necessary for the prosecutor to take the property of other persons or corporations in order to comply therewith, whereas said prosecutor is not now required or empowered by law, nor has said Board power to command it, to take such property for such purposes. 10

(10) Said order, in so far as it requires changes in the grade or location of the prosecutor's telegraph wires, poles and appurtenances, and the reconstruction, relocation or rebuilding thereof, in whole or in part, is invalid and beyond the jurisdiction of said Board for the following reasons: 20

(a) Said changes, reconstructions, relocations and rebuildings are not included within the prayer of the petition upon which said order is based.

(b) No appropriate action has been taken by or in behalf of municipal or other authorities necessary or required for said changes, reconstructions, relocations or rebuildings, or any or either of them.

(c) Said order was not made after hearing, upon notice, as required by law. 30

(d) Said changes, relocations, reconstructions and rebuildings are not, nor is any or either of them, included within the powers conferred by law upon said Board.

(e) Said changes, relocations, reconstructions and rebuildings are no part of the duties or obligations imposed by law upon the prosecutor.

(f) It does not appear that said changes, relocations, reconstructions and rebuildings, or 40

any or either of them, are reasonably necessary or required or appropriate for the elimination of the highway grade crossings named in said order, or any or either of them.

10 (g) Said order and the statute upon which the same is based require or permit the property of the prosecutor to be taken for the private use of Erie Railroad Company and "The President and Board of Directors of the Paterson and Hudson River Railroad Company," Paterson and Ramapo Railroad Company and Public Service Railway Company, or one or more of them.

(h) Said changes, relocations, reconstructions impose a burden upon the interstate traffic of the prosecutor and interfere with and impair its ability to perform its duty as a common carrier of such interstate traffic.

20 (11) Said statute (being Chapter 57, Laws of 1913) is in violation of and contrary to Article IV, Section VII, paragraph 4, of the Constitution of the State of New Jersey in that the object of the said statute is not expressed in the title thereof and the said statute embraces more than one object.

COLLINS & CORBIN,
Attorneys of Prosecutor.

30 **Reasons
of
D. Fullerton & Co.**

Filed September —, 1915.

The prosecutor files the following reasons upon which it will rely for a reversal of the proceedings under review in this case.

40 (1) The order under review and the statute upon which the same is based, are invalid and unconstitutional, both under the Constitution of the United

States and of the State of New Jersey, in that said order and statute take the private property of the prosecutor for public use without just or any compensation.

(2) Said order and statute deny to the prosecutor the equal protection of the law and deprive it of its property without due process of law and abridge its privileges and immunities as a citizen of the United States, contrary to and in violation of the Fifth and Fourteenth Amendments of the Constitution of the United States. 10

(3) Said order and statute take the property of the prosecutor without affording it any opportunity to protect its property and thereby deprive it of its right and guaranty of enjoying, defending, possessing and protecting its property given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey. 20

(4) Said order and statute are contrary to and in violation of Article I, Section 10, Paragraph 1, of the Constitution of the United States, in that they impair the obligation of contracts.

(5) Said order and statute, in so far as they require changes in or the destruction or the removal of the property or constructions of the prosecutor, consisting of the buildings, equipment, sidings and other facilities now owned or used by the prosecutor, to be made at the expense of the prosecutor, and in so far as they require the prosecutor, at its own expense, to move or change the grade or location of its property or constructions in conformity with said order of said Board, are contrary to and in violation of the Constitution of the State of New Jersey and of the United States, in the respects hereinbefore set forth. 30

(6) Said order is invalid and beyond the jurisdiction of said Board in so far as it purports to command 40

the prosecutor to proceed with due diligence to comply with all the requirements thereof and the duties imposed upon it thereby, and by the said act under which said order is made and the laws of the State of New Jersey, and that to that end it exercise in good faith all the powers conferred upon it by the laws of the State of New Jersey.

- 10 (7) Said order and the statute upon which the same is based, in so far as they require changes in or the destruction or the removal of the property or constructions of the prosecutor (or changes in the grade or location of said property or constructions), are unconstitutional and invalid for the reason that the prosecutor is not included within the description of the term "public utility," as defined in the act entitled,
- 20 "An Act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers," approved April 21, 1911 (being Chapter 195, Laws of 1911), nor is the prosecutor otherwise subject to the jurisdiction of said Board.

(8) Said order is invalid and beyond the jurisdiction of said Board in so far as it imposes upon the prosecutor the duty or obligation of reconstructing or relocating its buildings, equipment, sidings and other equipment for the following reasons:—

- 30 (a) Said reconstructions and relocations are not included within the prayer of the petition upon which said order is based.

(b) No appropriate action has been taken by or on behalf of municipal or other authorities necessary or required for said changes, reconstructions and relocations, or any or either of them.

(c) Said order was not made after hearing, upon notice, as required by law.

- 40 (d) Said reconstructions and relocations are not, nor is any or either of them, included within the powers conferred by law upon said Board.

(e) Said reconstructions and relocations are no part of the duties or obligations imposed by law upon the prosecutor.

(f) The prosecutor has no legal power or authority to make said reconstructions or relocations, or any or either of them.

(g) It does not appear that said reconstructions and relocations, or any or either of them, are reasonably necessary or required or appropriate for the elimination of the highway crossings named in said order, or any or either of them. 10

(h) Said order and the statute upon which the same is based, require or permit the property of the prosecutor to be taken for the private use of Erie Railroad Company and "The President and Board of Directors of the Paterson and Hudson River Railroad Company," Paterson and Ramapo Railroad Company and Public Service Railway Company, or one or more of them. 20

(i) Said reconstructions and relocations, if made by the prosecutor as required by said order, would compel the prosecutor to accept or receive unjust discriminations, preferences or advantages, in violation of the provisions of the Interstate Commerce Act.

HUDSON & JOELSON,

Attorneys for Prosecutor.

**Reasons
of
Meyer & De Vogel.**

30

Filed September —, 1915.

The prosecutors file the following reasons upon which they will rely for a reversal of the proceedings under review in this case:

(1) The order under review and the statute upon which the same is based, are invalid and unconstitutional. 40

tional, both under the Constitution of the United States and of the State of New Jersey, in that said order and statute take the private property of the prosecutors for public use without just or any compensation.

10 (2) Said order and statute deny to the prosecutors the equal protection of the law and deprive them of their property without due process of law and abridge their privileges and immunities as citizens of the United States, contrary to and in violation of the Fifth and Fourteenth Amendments of the Constitution of the United States.

20 (3) Said order and statute take the property of the prosecutors without affording them any opportunity to protect their property and thereby deprive them of their right and guaranty of enjoying, defending, possessing and protecting their property given and guaranteed to them by Article I, Section 1, of the Constitution of the State of New Jersey.

(4) Said order and statute are contrary to and in violation of Article I, Section 10, Paragraph 1, of the Constitution of the United States, in that they impair the obligation of contracts.

30 (5) Said order and statute, in so far as they require changes in or the destruction or the removal of the property or constructions of the prosecutors, consisting of the buildings, equipment, sidings and other facilities now owned or used by the prosecutors, to be made at the expense of the prosecutors, and in so far as they require the prosecutors, at their own expense, to move or change the grade or location of their property or constructions in conformity with said order of said Board, are contrary to and in violation of the Constitution of the State of New Jersey and of the United States, in the respects hereinbefore set forth.

40 (6) Said order is invalid and beyond the jurisdiction of said Board in so far as it purports to com-

wanted the prosecutors to proceed with due diligence to comply with all the requirements thereof and the duties imposed upon them thereby, and by the said act under which said order is made and the laws of the State of New Jersey, and that to that end it exercise in good faith all the powers conferred upon it by the laws of the State of New Jersey.

(7) Said order and the statute upon which the same is based, in so far as they require changes in or the destruction or the removal of the property or constructions of the prosecutor (or changes in the grade or location of said property or constructions), are unconstitutional and invalid for the reason that the prosecutor is not included within the description of the term, "public utility," as defined in the act entitled, "An Act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers," approved April 21, 1911 (being Chapter 195, Laws of 1911), nor is the prosecutor otherwise subject to the jurisdiction of said Board.

(8) Said order is invalid and beyond the jurisdiction of said Board in so far as it imposes upon the prosecutor the duty or obligation of reconstructing or relocating its buildings, equipment, sidings and other equipment for the following reasons:

(a) Said reconstructions and relocations are not included within the prayer of the petition upon which said order is based.

(b) No appropriate action has been taken by or on behalf of municipal or other authorities necessary or required for said changes, reconstructions and relocations, or any or either of them.

(c) Said order was not made after hearing, upon notice, as required by law.

(d) Said reconstructions and relocations are not, nor is any or either of them, included within the powers conferred by law upon said Board.

Reasons of Fullers Express Company.

(e) Said reconstructions and relocations are no part of the duties or obligations imposed by law upon the prosecutor.

(f) The prosecutor has no legal power or authority to make said reconstructions or relocations, or any or either of them.

10 (g) It does not appear that said reconstructions and relocations, or any or either of them, are reasonably necessary or required or appropriate for the elimination of the highway crossings named in said order, or any or either of them.

(h) Said order and the statute upon which the same is based, require or permit the property of the prosecutor to be taken for the private use of Erie Railroad Company and "The President and Board of Directors of the Paterson and Hudson River Railroad Company," Paterson and Ramapo Railroad Company and Public Service Railway Company, or one or more of them.

20 (i) Said reconstructions and relocations, if made by the prosecutor as required by said order, would compel the prosecutor to accept or receive unjust discriminations, preferences or advantages, in violation of the provisions of the Interstate Commerce Act.

WILLIAM B. GOURLEY,
Attorney of Prosecutors.

30 **Reasons
of
Fullers Express Company.**

Filed September —, 1915.

The prosecutor files the following reasons upon which it will rely for a reversal of the proceedings under review in this case:

(1) The order under review and the statute upon which the same is based, are invalid and unconstitutional, both under the Constitution of the United

40

Reasons of Fullers Express Company.

States and of the State of New Jersey, in that said order and statute take the private property of the prosecutor for public use without just or any compensation.

(2) Said order and statute deny to the prosecutor the equal protection of the law and deprive it of its property without due process of law and abridge its privileges and immunities as a citizen of the United States, contrary to and in violation of the Fifth and Fourteenth Amendments of the Constitution of the United States. 10

(3) Said order and statute take the property of the prosecutor without affording it any opportunity to protect its property and thereby deprive it of its right and guaranty of enjoying, defending, possessing and protecting its property given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey. 20

(4) Said order and statute are contrary to and in violation of Article I, Section 10, Paragraph 1, of the Constitution of the United States, in that they impair the obligation of contracts.

(5) Said order and statute, in so far as they require changes in or the destruction or the removal of the property or constructions of the prosecutor, consisting of the buildings, equipment, sidings and other facilities now owned or used by the prosecutor, to be made at the expense of the prosecutor, and in so far as they require the prosecutor, at its own expense, to move or change the grade or location of its property or constructions in conformity with said order of said Board, are contrary to and in violation of the Constitution of the State of New Jersey and of the United States, in the respects hereinbefore set forth. 30

(6) Said order is invalid and beyond the jurisdiction of said Board in so far as it purports to command the prosecutor to proceed with due diligence to com- 40

Reasons of Fullers Express Company.

ply with all the requirements thereof and the duties imposed upon it thereby, and by the said act under which said order is made and the laws of the State of New Jersey, and that to that end it exercise in good faith all the powers conferred upon it by the laws of the State of New Jersey.

- 10 (7) Said order and the statute upon which the same is based, in so far as they require changes in or the destruction or the removal of the property or constructions of the prosecutor (or changes in the grade or location of said property or constructions), are unconstitutional and invalid for the reason that the prosecutor is not included within the description of the term, "public utility" as defined in the act entitled, "An Act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers," approved April 21, 1911 (being
20 Chapter 195, Laws of 1911), nor is the prosecutor otherwise subject to the jurisdiction of said Board.

(8) Said order is invalid and beyond the jurisdiction of said Board in so far as it imposes upon the prosecutor the duty or obligation of reconstruction or relocating its buildings, equipment, siding and other equipment for the following reasons:

- (a) Said reconstructions and relocations are not included within the prayer of the petition upon which said order is based.
- 30 (b) No appropriate action has been taken by or on behalf of municipal or other authorities necessary or required for said changes, reconstructions and relocations or any or either of them.
- (c) Said order was not made after hearing, upon notice, as required by law.
- (d) Said reconstruction and relocations are not, nor is any or either of them, included within the powers conferred by law upon said Board.

Reasons of Fullers Express Company.

(e) Said reconstructions and relocations are no part of the duties or obligations imposed by law upon the prosecutor.

(f) The prosecutor has no legal power or authority to make said reconstructions or relocations, or any or either of them.

(g) It does not appear that said reconstructions and relocations, or any or either of them, are reasonably necessary or required or appropriate for the elimination of the highway crossings named in said order or any or either of them. 10

(h) Said order and the statute upon which the same is based, require or permit the property of the prosecutor to be taken for the private use of Erie Railroad Company and "The President and Board of Directors of the Paterson and Hudson River Railroad Company," Paterson and Ramapo Railroad Company, and Public Service Railway Company, or one or more of them. 20

(i) Said reconstructions and relocations, if made by the prosecutor as required by said order, would compel the prosecutor to accept or receive unjust discriminations, preferences or advantages, in violation of the provisions of the Interstate Commerce Act.

(j) Said changes, relocations, reconstructions and rebuildings impose a burden upon the interstate traffic of the prosecutor and interfere with and impair its ability to perform its duty as a common carrier of such interstate traffic. 30

Attorney for Prosecutor.

1876

Reasons of Morris & Company.

**Reasons
of
Morris & Company.**

Filed September —, 1915.

10 The prosecutor files the following reasons upon which it will rely for a reversal of the proceedings under review in this case:

(1) The order under review and the statute upon which the same is based, are invalid and unconstitutional, both under the Constitution of the United States and of the State of New Jersey, in that said order and statute take the private property of the prosecutor for public use without just or any compensation.

20 (2) Said order and statute deny to the prosecutor the equal protection of the law and deprive it of its property without due process of law and abridge its privileges and immunities as a citizen of the United States, contrary to and in violation of the Fifth and Fourteenth Amendments of the Constitution of the United States.

30 (3) Said order and statute take the property of the prosecutor without affording it any opportunity to protect its property and thereby deprive it of its right and guaranty of enjoying, defending, possessing and protecting its property given and guaranteed to it by Article I, Section 1, of the Constitution of the State of New Jersey.

(4) Said order and statute are contrary to and in violation of Article I, Section 10, Paragraph 1, of the Constitution of the United States, in that they impair the obligation of contracts.

40 (5) Said order and statute, in so far as they require changes in or the destruction or the removal of the property or constructions of the prosecutor, con-

sisting of the buildings, equipment, sidings and other facilities now owned or used by the prosecutor, to be made at the expense of the prosecutor, and in so far as they require the prosecutor, at its own expense, to move or change the grade or location of its property or constructions in conformity with said order of said Board, are contrary to and in violation of the Constitution of the State of New Jersey and of the United States, in the respects hereinbefore set forth. 10

(6) Said order is invalid and beyond the jurisdiction of said Board in so far as it purports to command the prosecutor to proceed with due diligence to comply with all the requirements thereof and the duties imposed upon it thereby, and by the said act under which said order is made and the laws of the State of New Jersey, and that to that end it exercise in good faith all the powers conferred upon it by the laws of the State of New Jersey. 20

(7) Said order and the statute upon which the same is based, in so far as they require changes in or the destruction or the removal of the property or construction of the prosecutor (or changes in the grade or location of said property or constructions), are unconstitutional and invalid for the reason that the prosecutor is not included within the description of the term "public utility" as defined in the act entitled, "An Act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers," approved April 21, 1911 (being Chapter 195, Laws of 1911), nor is the prosecutor otherwise subject to the jurisdiction of said Board. 30

(8) Said order is invalid and beyond the jurisdiction of said Board in so far as it imposes upon the prosecutor the duty or obligation of reconstructing or relocating its buildings, equipment, sidings and other equipment for the following reasons: 40

Reasons of Morris & Company.

(a) Said reconstructions and relocations are not included within the prayer of the petition upon which said order is based.

(b) No appropriate action has been taken by or on behalf of municipal or other authorities necessary or required for said changes, reconstructions and relocations or any or either of them.

10

(c) Said order was not made after hearing, upon notice, as required by law.

(d) Said reconstructions and relocations are not, nor is any or either of them, included within the powers conferred by law upon said Board.

(e) Said reconstructions and relocations are no part of the duties or obligations imposed by law upon the prosecutor.

(f) The prosecutor has no legal power or authority to make said reconstructions or relocations, or any or either of them.

20

(g) It does not appear that said reconstructions and relocations, or any or either of them, are reasonably necessary or required or appropriate for the elimination of the highway crossings named in said order or any or either of them.

(h) Said order and the statute upon which the same is based, require or permit the property of the prosecutor to be taken for the private use of Erie Railroad Company and "The President and Board of Directors of the Paterson and Hudson River Railroad Company," Paterson and Ramapo Railroad Company, and Public Service Railway Company, or one or more of them.

30

(i) Said reconstructions and relocations, if made by the prosecutor as required by said order, would compel the prosecutor to accept or receive unjust discriminations, preference or advantages, in violation of the provisions of the Interstate Commerce Act.

WILLIAM B. GOURLEY,
Attorney of Prosecutor.

40

Petition for Rehearing.

Petition for Rehearing.

Filed June 15, 1915.

BEFORE THE BOARD OF PUBLIC UTILITY
COMMISSIONERS OF THE STATE OF NEW
JERSEY.

IN THE MATTER OF THE APPLICATION
OF THE CITY OF PATERSON TO
ALTER GRADE CROSSINGS ON LINE OF
THE PATERSON AND HUDSON RIVER
AND PATERSON AND RAMAPO RAIL-
ROADS.

10

Petition of Erie Railroad Company, respondent, for
rehearing on order of said Board dated April 20, 1915.

20

*To the Honorable, the Board of Public Utility Com-
missioners of the State of New Jersey.*

Erie Railroad Company, one of the respondents to
the above proceedings, respectfully shows as follows:

1. On the eleventh day of January, 1915, this
Board filed its report in which it concluded that the
crossings involved in this proceeding are such that
the grades thereof should be changed in accordance
with the prayer of the petition of the Board of Fi-
nance of the City of Paterson, as provided by the stat-
ute.

30

2. Said Board further ordered that said crossings
should be eliminated in accordance with the plan de-
scribed in the proceeding as Plan No. 2 of the City
of Paterson, with certain modifications thereof and
that the work should be permitted to be done in sec-
tions as specified by said report.

3. Thereafter, on February 5th, 1915, a hearing
was had before said Board on the question as to the

40

Petition for Rehearing.

time within which said work should be commenced and completed; on the said date this respondent submitted a petition for further hearing in which it urged, among other things, that an opportunity be given it to present plans whereby the number of train or engine movements or the manner of the same, or both, over said crossings might be changed so as to remove the danger and impediment to public travel; and in which it prayed that a further hearing be granted it for the purpose of considering, among other matters, the following:

“(f) If the Board reached the conclusion that under existing circumstances an order must be made requiring this respondent to eliminate the grade crossings in question, whether the danger to public safety and the impediment to public travel could not be removed by reducing the number of train movements over said crossings, or some of them, in accordance with plans which this despondent will submit.”

Thereafter, on April 20th, 1915, this Board filed an order to take effect May 20th, 1915, in which it ordered this respondent to alter said crossings and each of them, according to a certain plan described in said order and annexed thereto; and in which it further ordered that this respondent and the other parties to the proceeding proceed with due diligence to the execution of said order and that they exercise in good faith all of the powers conferred upon them by the laws of this state; and in which it further ordered that this respondent begin the actual work of construction required in the performance and execution of this order, on or before the first day of August, 1916, and complete all of the work required thereunder within eight years from the date of said order and that in the prosecution of said work it take up the divisions thereof in certain sections and complete the same within certain periods of time as specified in said order.

Petition for Rehearing.

5. On April 20th, 1915, the said Board filed its report and order denying the prayer of the respondent for the further hearing requested in its said petition filed February 5th, 1915; and as to the prayer of the respondent for leave to submit evidence on the point whether the danger to public safety and the impediment to public travel could not be removed by reducing the number of train movements over said crossing or some of them it concluded in said report that the respondents offer on this subject was so indefinite that it did not appear reasonable to delay the proceeding for that purpose. 10

6. Since the making of said order of April 20th, 1915, and the denial of respondent's petition for further hearing, this respondent has conducted a further investigation to show the feasibility of removing the danger and impediment to public safety and travel by reducing the number of train movements over said crossings. 20

7. Respondents submit the following plan :

A connection to be constructed between the Erie Railroad Company and the New York, Susquehanna and Western Railroad at Market street and Straight street, Paterson, the construction of which will involve the elimination of the Market street grade crossing of the Erie Railroad and the Straight street grade crossing of the New York, Susquehanna and Western Railroad by an elevation of the tracks of the railroads and a slight depression of the grade of the streets, such depression at Market street being the same as that provided for in the plan approved by the Board in its order of April 20th, 1915, also the closing of Ellison street across the tracks of the Erie Railroad. The existing station of the New York, Susquehanna & Western Railroad at Straight street, Paterson, will be abandoned as a passenger station, and the existing station of the Erie Railroad Company at Market 30 40

Petition for Rehearing.

street, Paterson, raised and reconstructed to conform to the new elevation of the railroad tracks. A track connecting the Paterson City Branch and the main line of the New York, Susquehanna and Western Railroad will be constructed immediately north of the Broadway (Paterson) station of the New York, Susquehanna and Western Railroad. A connection will also be constructed between the New York, Susquehanna and Western Railroad and the Erie Railroad at Hawthorne.

8. These connections will make it possible for a westbound train to pass from the main line of the Erie Railroad at Market street over the present Paterson City spur of the New York, Susquehanna and Western Railroad and the main line of the New York, Susquehanna and Western Railroad, returning to the tracks of the Erie Railroad at Hawthorne, and for an eastbound train to pass from the tracks of the Erie Railroad at Hawthorne to the tracks of the New York, Susquehanna and Western Railroad and thence over the Paterson City spur to the main line of the Erie Railroad at Market street, Paterson. Likewise it will be possible to run trains from Jersey City to Market street, Paterson, via the Erie Railroad, returning to Jersey City via the New York, Susquehanna and Western Railroad or *vice versa*, none of these movements involving any backing or switching, but all being under the proposed plan direct forward movements.

9. As soon as these connections are ready for use it is proposed to reduce the passenger train movement over the tracks of the Erie Railroad north of Market street from the present number of one hundred eighteen per day to seven per day. The seven trains referred to can, if desired, also be removed from the Erie Railroad north of Market street and run over the New York, Susquehanna & Western Railroad through Paterson.

Petition for Rehearing.

The proposed changes will be made without impairing the passenger train service to and from the City of Paterson via either railroad, and it is believed that by the rearrangement of schedules and the utilization of the proposed connections an improvement of service can be effected.

10. The proposed plan will afford direct railroad connection between points on the Erie Railroad south of Market street, Paterson, and north of Hawthorne, and points on the New York, Susquehanna & Western Railroad between Hawthorne and Jersey City. Tickets between Paterson and New York and Jersey City will remain interchangeable as to use on the two railroads, as at present. The removal of passenger trains from the Erie Railroad between Market street and Hawthorne will avoid the present interference with freight switching work in that territory and enable the company to very greatly decrease, certainly over 20 per cent., the present switch engine movements over the street crossings in that territory. The plan will largely increase the passenger train facilities available to the eastern section of the City of Paterson without impairing those available at Market street. The proposed plan will practically avoid interference with private side track facilities, the only side tracks affected at all being those between Van Houten street and Market street.

11. The proposed construction and routes are shown on maps attached hereto and marked Exhibits 1 and 2.

12. This respondent proffers itself as willing to undertake the necessary construction and to make the necessary arrangements for the purpose of carrying out the foregoing plan under the terms and provisions of the statute, if ordered so to do by this Board; and as willing to begin work thereunder not later than August 1st, 1916, and to complete the same

Petition for Rehearing.

within the length of time allowed by said order of April 20th, 1915, for the completion of the work designated therein as Section A.

10 Wherefore, this respondent respectfully prays that a rehearing of the order of April 20th, 1915, be granted for the purpose of considering the foregoing plan in lieu of the plan described in said order and for the taking of testimony thereon so far as may be necessary; and that pending consideration of this petition and the granting of rehearing on said order (petitioner's time to apply for writ of *certiorari* to review said order of April 20th, 1915, being about to expire) the effective date of said order be extended for such reasonable time as will permit a full consideration of this petition.

ERIE RAILROAD COMPANY,

20 By A. J. STONE,
Vice-President.

H. A. TAYLOR,
G. S. HOBART,
DUANE E. MINARD,

Attorneys for Erie Railroad Company.

Dated June 15th, 1915.

**Testimony
on
Petition for Rehearing.**

BOARD OF PUBLIC UTILITY COMMISSIONERS.

Newark, N. J., Monday, June 28th, 1915.

PETITION, ERIE RAILROAD, FOR RE-
HEARING IN MATTER OF APPLICA-
TION OF CITY OF PATERSON FOR
ALTERATION OF GRADE CROSSINGS
OF LINE OF ERIE RAILROAD.

10

Before the following commissioners: R. W. E.
Donges, Esq., J. J. Treacy, Esq., J. W. Slocum, Esq.

For the Erie Railroad Company appear G. S. Hob-
art, Esq., H. A. Taylor, Esq., D. E. Minard, Esq.

20

For the City of Paterson appears E. F. Merrey,
Esq.

For the Paterson & Hudson River Railroad and
Paterson & Ramapo Railroad appears W. I. Lewis,
Esq.

F. B. LINCOLN, sworn on behalf of Erie Railroad.

Direct examination by Mr. Hobart.

Q Mr. Lincoln, you are general superintendent of
the Erie Railroad Company, general manager of the
Erie Railroad Company?

30

A Yes.

Q You have examined this plan for the rearrange-
ment of tracks and for the elimination of the grade
crossing at Market street, as shown more in detail in
the petition of the Erie Railroad Company, for a re-
hearing of the order of this Board, dated April 20th,
1915, have you not?

A I have.

40

F. B. Lincoln, direct.

Q Will you kindly state in a general way, and by reference to such plans as you may have, what the proposed plan of the company is?

10 A The plan is to construct a connection between the existing main line of the Erie at Market street and the Paterson city spur of the New York, Susquehanna & Western, and the construction of a connection, a Y connection between the Paterson city spur and the main line of the New York, Susquehanna & Western near Broadway, Paterson, and a connection between the main line of the New York, Susquehanna & Western and the main line of the Erie west of the Passaic River near what we call Hawthorne station to permit the running of passenger service in looped lines. The construction of the connection between the main line and the Paterson city spur at or near Market street will eliminate the Market street grade crossing.

20 Q Eliminate it in what way, by raising the tracks?

A Raising the Erie tracks overhead and very slightly depressing Market street.

Q To the extent of about what, have you figured it out in detail?

A I cannot say.

Q A very slight depression?

A Very slight, as figured now. That is a matter that would have to be worked out by the detailed plans.

30 Q Would that involve the closing of the street known as Ellison street?

A Yes, in order to come down from this proposed elevation along the main line of the Erie we necessarily close Ellison street.

Q How would you go from the present main line of the Erie Railroad at or near the present Market street station to the spur of the Susquehanna Railroad?

40 A By constructing a connection around the corner overhead of Market street, swing in to the exist-

F. B. Lincoln, direct.

ing tracks of the Susquehanna easterly from the station.

Q What effect would that have on the present grade crossing of Straight street on the Susquehanna tracks?

A It would eliminate that.

Q The plans for this appears as shown on the blue print, copy of which is attached to the petition.

10

A Does that coincide with this?

Q Yes, substantially?

A Yes.

Q Have you other maps before you which show, on a somewhat larger scale and somewhat different illustration?

A That map shows the connection near Broadway between the Paterson city spur and the main line of the New York, Susquehanna & Western.

Q The map to which you refer is entitled Erie Railroad Co., proposed joint operation on main line and N. Y. S. & W. Railroad, Y connection at Paterson, Broadway, dated June 11th, 1915?

20

A Yes.

Q The proposed connection, as I understand it, is shown in red?

A Shown in red.

Mr. Hobart. I would like to offer this print.

Commissioner Donges. No objection. It will be admitted and marked.

30

(Map entitled, "Erie Railroad Co. proposed joint operation on main line and N. Y. S. & W. Railroad, Y connection, at Paterson, Broadway, dated June 11th, 1915," received and marked Ex. E-1.)

Q This map E-1 shows only the connection at Broadway with the Susquehanna Railroad?

A Yes.

Q Have you another map which shows the connection at Hawthorne?

40

F. B. Lincoln, direct.

A I have.

Q This plan is marked in red, proposed joint operation, main line and N. Y. S. & W. R. R. connection at Hawthorne, June 8th, 1915?

A Yes.

Q Hawthorne is west of the Passaic River is it not?

A It is.

10

Q According to the compass north, but according to the railroad west, of the Passaic River?

A West.

Q These two plans, as I understand it, Mr. Lincoln, simply show on a somewhat larger scale and little different manner the same plans, the same connections, as appear on the maps attached to the petition?

20

A Exactly the same thing, drawn to larger scale and more in detail.

Mr. Hobart. I would like to ask this second map of the Hawthorne connection be marked.

(Map entitled, "Proposed joint operation, main line and N. Y. S. & W. R. R. connection at Hawthorne, June 8th, 1915," received and marked Ex. E-2.)

Q What does this proposed plan contemplate, as to the Market street station and the Straight street station of the Susquehanna Railroad?

30

A It would necessarily involve remodeling and raising the Market street station, and it is proposed to abandon the Straight street station, consolidating the business in the one station.

Q That is, consolidating both stations at or near the present Market street station?

A Exactly.

Q Will you kindly state the method of operation that can be adopted, or that it is proposed to adopt if this plan is carried out?

40

F. B. Lincoln, direct.

Commissioner Donges. What was the question?

Mr. Hobart. The method of operation of the trains I meant particularly.

A The main line passenger trains, instead of going west from the Market street station on the main line, will be diverted to the city spur of the N. Y. S. & W. and a very considerable number of these trains would return to Jersey City over the line of the N. Y. S. & W. On the other hand, the N. Y. S. & W. trains from Jersey City to Paterson— 10

Commissioner Donges. I didn't get that.

Witness. The N. Y. S. & W. trains from Jersey City to Paterson would return via the main line of the Erie, going around the loop. In order to provide the necessary service west of Paterson some of the local trains would be turned through the Y connection at Broadway and go west over the main line of the N. Y. S. & W. through what is now Riverside station and back to the main line of the Erie at Hawthorne over the proposed connection, giving the service to Glen Rock and Ridgewood and points west of there that now obtains. 20

Eastbound trains from the main line of the Erie originating west of Ridgewood would come in at Hawthorne on the main line of the N. Y. S. & W. and pass through the Y connection at Broadway to Market street as they now do, and then east on the main line of the Erie. N. Y. S. & W. main line eastbound trains would follow the present route without interference, unless some operating requirement, or the passenger service requirements, necessitated their being diverted to the main line of the Erie. It makes a very much more flexible operating arrangement than exists now. For example, passengers from North Paterson or points west of there on the N. Y. S. & W. 30 40

F. B. Lincoln, direct.

would be taken into the Market street station in some event—

Q (*By Commissioner Donges.*) Down the main line?

A And go down the main line of the Erie. Such passengers for Passaic, for instance, would not have to change cars and be diverted from their route. They
10 would land at Passaic. Some of the through trains of the Susquehanna would probably, in the process of working this thing out, be run through Market street station. In diverting this traffic it would practically eliminate all of the passenger train movement on the main line of the Erie west of Market street.

Q West?

A West of Market street.

Q All west of Market street?

A All trains could be eliminated west of Market
20 street. That, of course, would depend on—

Q You mean in the city?

A In the city, in the working out of the details of the distribution of the trains. It would seem entirely practicable to consolidate River street and Riverside stations.

Q (*By Mr. Hobart.*) River street is on the main line?

A River street is on the main line of the Erie and Riverside on the main line of the N. Y. S. & W.

30 Q (*By Commissioner Donges.*) How far apart are they?

A I don't recall.

Mr. Hobart. The Riverside station on the Susquehanna is between Fourth and Fifth avenue on the map and River street on the main line of the Erie.

Commissioner Donges. About seven or eight blocks apart.

Witness. About seven or eight blocks apart.

F. B. Lincoln, direct.

Mr. Taylor. The two railroads opposite the River street station are shown by the map to be only four blocks apart.

Witness. The relocation of the Riverside station would probably put it in a situation where it could acceptably serve that territory as one station instead of two.

Q (*By Mr. Hobart.*) So that the River street station on the main line of the Erie could be abandoned entirely and the passenger service to that station— 10

A Be taken care of by the relocation of the Riverside station of the N. Y. S. & W. If that were done it would be possible to entirely eliminate all passenger service west of Market street in Paterson on the main line.

Q The result of that would be, it would be used for industrial siding for switching movements?

A That is all. 20

Q Would it be possible to regulate those switching movements so as to eliminate to a large extent the danger of the grade crossings as they now are?

A Yes, that could be regulated so that there would be no danger in the operation.

Q Will you state generally what effect upon the passenger service this proposed plan would have, so far as it affects the City of Paterson, would it improve it or otherwise?

A In my judgment it would be made to materially improve the service. There is such a flexibility of movement there that even with the existing number of trains in operation I believe a very much better service could be rendered, and of course it makes so many ways of train movement that almost any number of additional trains could be supplied as the growth of the passenger requirements necessitates. In a preliminary way, as we have made a study of it, there is no decrease in the number of trains in either direction serving the city. On the other hand, there 30 40

F. B. Lincoln, direct.

are more trains at Broadway and Market street, because the crossing over of the trains gives more service at those two points.

Q Have you also examined into this plan with a view to seeing what effect it would have upon the existing side track facilities?

A Well, it would have no particular effect except
10 one or two of those right close to Market street would have to be revised in some way. We could not get into the present Fullers express station, and I think Morris & Company would be affected. Except for that there would practically be no change.

Q (*By Commissioner Doughty.*) The present grade is maintained at all points?

A How is that?

Q The present grades are maintained?

A The present grade would be maintained west
20 of—

Q West of Broadway?

A Yes, on the Susquehanna, yes.

Q And on the Erie?

A On the Erie west of—well, Ellison street, about half a block west of Ellison street it would come down to grade.

Mr. Hobart. Near Van Houten street.

Witness. That is a matter of detail that has not been fully worked out. We have not had
30 time to make definite surveys on this, but in a general way that would be the result.

Q Market street would be crossed on an elevation?

A Yes.

Q And the connection across the city spur would be elevated between the main line and the Susquehanna tracks?

A Yes. As the line has been plotted, it would swing across about where the existing N. Y., S. & W. station is, and cross overhead of Straight street, and
40

F. B. Lincoln, cross.

come down to the existing grade about—well, in the cut, about a block west of Straight street.

Q A block west?

A A block north, really, it is on the map.

Q Of Straight street?

A Yes.

Q So it would cross—

A There would be no disturbance of the overhead crossings of the streets on the N. Y., S. & W. cut through there. 10

Mr. Merrey. At present there is a cut on the Susquehanna. It is only at grade at Eighteenth street.

Q (*By Mr. Hobart.*) All other streets at that point cross the tracks above grade?

A Yes.

Commissioner Donges. Graham avenue. 20

Mr. Merrey. All cross on bridges; I think all except Eighteenth street and Straight streets, the two ends.

Cross examination by Mr. Merrey.

Q Mr. Lincoln, what is your position?

A General manager, Erie Railroad.

Q Have you charge of operation or construction?

A I have operation.

Q Have you any control over construction?

A None. 30

Q You say that you have not had time to make definite surveys or work out detailed plans. Do you know whether this plan is feasible or not, can be operated?

A Yes.

Q I notice you have a fifteen per cent. curve marked in near the Market street station?

A You mean a fifteen degree curve.

Q A fifteen degree curve?

A Yes. 40

F. B. Lincoln, cross.

Q That is a rather stiff curve, isn't it?

A Yes.

Q Have you any others on your road?

A Yes.

Q At that point also there is a one and one-half per cent. grade?

A Yes.

10 Q Would it be possible to operate trains from the cut into the station, heavy trains?

A Yes.

Q Did you read the testimony of Mr. Paterson, given in the original case?

A Yes.

Q That is a one and a half per cent. grade, is very heavy, isn't it, for your road?

A Not particularly. It is not a very satisfactory grade to operate over, the less grade you have the
20 better operation, but a one and half per cent. grade is not a prohibitive grade at all.

Q But your engineer, when the city offered a plan said you did not want to go over one per cent.

A We would prefer not to, naturally.

Q He said it was almost impossible to operate.

A That was largely based on the freight.

Mr. Minard. Suppose you refer to his testimony.

30 *Witness.* The freight movement, I think, Mr. Merrey.

Q I understood you don't move your heavy freight over this main line.

A We don't.

Q You send it over the Bergen County Railroad?

A That is the reason I say that is a practical operation for passenger train movement only.

Q You have in mind then only the same passenger train movement at the time this former plan was offered?

F. B. Lincoln, cross.

A I was not here at that time.

Q You don't know whether you can get it in with as light a grade as one and a half per cent., do you?

A Yes, I think that has been practically determined.

Q Have profiles been made and plans worked out?

A Preliminary profiles, yes. The detailed plans have not been worked out, Mr. Merrey, but I should say offhand it is practicable to get such construction in there. 10

Q You are not sure?

A Why, not absolutely sure from having made the survey myself, but based on the best judgment of the men, the engineers whom we have had go into the matter again, I believe it is practical.

Q You don't know yourself?

A I have not made the survey myself, no.

Q Do you know whether the Vine street bridge can remain, the Summer street bridge, marked Vine street on this plan? 20

A Yes, as the plan is worked out now there would be no disturbance of that bridge.

Q Has the plan been worked out?

A The preliminary plan has been canvassed, yes.

Q We haven't it before us?

A No, it has not been gone into with sufficient detail that it would be practicable to submit it as a working drawing. 30

Q How many trains will be changed, so that instead of going north of Paterson, will sort of make a loop and turn into Jersey City?

A I believe we set forth in the petition one hundred and eighteen trains would be discontinued north of Market street, west of Market street.

Q Those same trains will be run over the Broadway crossing of the Susquehanna, will they not?

A No.

F. B. Lincoln, cross.

Q Not all?

A No.

Q How many will not, that is the point I am getting at?

Q How many will not run over Broadway?

Q Yes, Broadway on the Susquehanna.

A That is figured out sixty-one trains, I think.

10 Q That is the answer, sixty-one trains?

A Sixty-one.

Q (*By Commissioner Donges.*) Sixty-one trains will stop at Market street?

A Will not go over Broadway.

Q Will not be operated west of Market street station?

A Yes, not be operated west of Market street on the main line.

Q On either?

20 A No. We discontinue a hundred and eighteen trains west of Market street on the main line. They are all diverted to the Paterson City loop, sixty-one of those will go back over the N. Y., S. & W. main line and not pass over Broadway going west.

Q Will not be operated west of the junction point?

A Yes.

Q (*By Mr. Merrey.*) How many will be operated over Broadway on the Susquehanna line in addition to what are now operated there?

30

Commissioner Donges. The difference between sixty-one and one hundred and eighteen, I suppose.

Q There may be some other changes.

A It will be impossible for me to answer that question, because that is a matter of working out very considerable detail of the time-table and distribution of trains. I don't think we could say now how many trains we would cut off west of Broadway or crossing Broadway. We have made up this tentative plan

40

F. B. Lincoln, cross.

showing a practical distribution of this service, but it is a matter that will have to be worked out, depending on the requirements of the people. As a general proposition, all of the—practically all of the local trains which now terminate at Waldwick or North Paterson on the two lines will not go over Broadway. In other words, they will turn through this loop and go back via the alternate line, the Susquehanna trains going out will come back over the Erie and the Erie trains going out will come back over the Susquehanna, and that will be practically all of the local trains which terminate at North Paterson or Waldwick. We will have to get some service for the Riverside station, Glen Rock, Ridgewood, Hawthorne and North Paterson. That would be adjusted, some of these trains will go on through some of the Susquehanna trains will go on through as they do now, to North Paterson, those that terminate there. Some of the trains turning at Waldwick would have to go on through to Waldwick on the main line of the Erie, and they would cross Broadway. That wouldn't be additional movement over Broadway, above what now crosses Broadway, because as a whole the number of trains crossing Broadway on the Susquehanna would probably be quite materially decreased.

Q (By Commissioner Donges.) But not to the number of sixty-one?

A No, I don't think that.

Q As a matter of fact, the train movement, passenger train movements over the Broadway crossing of the Susquehanna would be very materially increased by this plan?

A No, I should not say that. I don't think it will make very much difference.

Q From the present conditions?

A Of course, there the main line trains come in there.

10

20

30

40

F. B. Lincoln, cross.

Q From the present conditions?

A From the present conditions, yes.

Q I don't mean Susquehanna trains; I mean all trains.

10 A I know. There are a great many Susquehanna trains now crossing Broadway going to North Paterson and tying up there, which would be diverted to this new route and not cross Broadway. On the other hand there would be the addition of a number of main line trains which would go in that way by the Hawthorne connection.

Q How many train movements over Broadway are there now on the Susquehanna?

A I don't know.

Q Would you say in the neighborhood of forty?

A I don't know.

20 Q How many are there over Market street, passenger train movements every day?

A One hundred and eighteen I think we set up in our petition. This has all been figured out. I didn't do the figuring. The details are shown in our report.

Q Unless you loop these trains and send some of them back to Jersey City, there will be one hundred and eighteen more train movements over the Broadway crossing than there are at present?

30 A Yes, if you did not loop them, but it is proposed to do that; that is what this is for.

Q There is a possibility of saving about sixty of those movements; you can arrange it that about sixty of those movements will not take place over the Broadway crossing of the Susquehanna?

A I might say it is pretty hard to determine off-hand.

Q (*By Commissioner Treacy.*) You said sixty-one.

40 A Sixty-one, in a preliminary way that was the thought in getting up the tentative schedule. Just how that will work out I am not prepared to say.

F. B. Lincoln, cross.

Q (*By Mr. Merrey.*) Then there is a possibility of from fifty-seven to one hundred and eighteen additional train movements over this Broadway crossing of the Susquehanna road than now made?

A I should not care to make that statement. I would rather see how that worked out in detail. I do not think we can give those figures with any degree of accuracy until we have made a further study of this proposition. 10

Q You will increase the number of train movements over the Park avenue crossing in Paterson?

A No, not at all, or a very little. The New York, Susquehanna trains, which now return via the Susquehanna, which follow that line only, would be going back via the Erie, and in turn their movement would be supplanted by trains going around from the Erie, so as to Park avenue, the train movement should be practically identical. We don't propose to decrease the service on the Susquehanna east of the Broadway station. There will be just as many trains to serve the people and fill the requirements of the time-table. Say half of those over the Susquehanna and the other half Erie, as it may work out, but it is not proposed to— 20

Q How many trains do you run over the Susquehanna into New York every day?

A How many do we?

Q Yes. 30

A I would have to look that up. Don't know, Mr. Merrey, without reference to the time-table, which I don't happen to have a copy of. You want what, from Paterson to Jersey City?

Q From Paterson to Jersey City, we will take that first.

A Twenty-six regular trains, except on holidays.

Q How many run from Jersey City through Paterson?

A The same number, they all have to go back. 40

1900

F. B. Lincoln, cross.

Q They may go back over the Erie?

A No, not now.

Q So there are twenty-six trains each way now on the Susquehanna from Jersey City to Paterson?

A Yes, to or through Paterson, as the case may be. They all serve Paterson.

10 Q What is the maximum that you can run through the loop, that is, running jointly over the new line without going north of Paterson?

A How is that?

Q That is the maximum movement that you could save over the Broadway crossing?

A Yes.

Q And to do that you would have to discontinue all service north of Paterson on the Susquehanna?

A Yes, to take them off the Broadway crossing.

20 Q Taking that into consideration, can you really save more than about thirty train movements over the Broadway crossing of the Susquehanna by this branch, that is thirty less than the combined movement at present over the Erie, over the Susquehanna?

30 A Well, I don't know. I am not prepared to answer any detail question, on the adjustment of that timetable, because, as I say, it is a matter that will have to be very carefully studied. It has been gone over in a preliminary way, but I don't consider we have exhausted the subject at all, or made any reasonable, any practical determination of what we could do there.

Mr. Merrey. I was inclined to think you have only scratched it. You haven't at all got the information we need.

Mr. Minard. I think we understand now we are simply holding a hearing as to whether we should go into this matter, at which time we would be prepared to show all the details, or are we now in our rehearing?

40 *Commissioner Donges.* No. You are now asked to support your plan sufficiently to appeal

F. B. Lincoln, cross.

to the discretion of this Board to give you a re-hearing.

Mr. Minard. Let me say on that, if that is the situation; I went away to Buffalo as soon as we were through that hearing on Wednesday, and I then had a case to try in Scranton, got there Friday afternoon and got home Saturday. Mr. Hobart was in the Adirondacks not intending to come back and came back last night purposely for this hearing, and Mr. Taylor was away and got back this morning, so the Board will have to excuse us a little bit if we haven't our case prepared to go on to-day. 10

Commissioner Donges. How long will it take you to prepare your case?

Mr. Minard. I don't know; we can get at it right away.

Commissioner Donges. The Board assumed 20 when you filed your petition that you were prepared to support it.

Mr. Minard. Which we are prepared to support it, and we could have gotten along better to-day if we could have gotten the notice a little earlier or if we had been home at the time the notice came.

Commissioner Donges. You had at least six days' notice.

Mr. Minard. I received notice Saturday morning. 30

Commissioner Donges. It was sent to your company, however.

Mr. Taylor. The company received the notice on Friday from Collins & Corbin.

Commissioner Donges. It was sent to your attorneys certainly not later than Tuesday of last week.

Mr. Merrey. June 22nd is the date that notice must have gone out. 40

F. B. Lincoln, cross.

Commissioner Donges. I think it was last Tuesday the notices went out. However, there is no disposition to limit you in presenting your proof.

10 *Mr. Minard.* And there is no disposition on our part to postpone the matter in any way. Mr. Lincoln will have to admit he got a hurried call Saturday afternoon to come over here. That is about the situation. This data that was prepared was all prepared before the petition was filed, in order to give us a general picture of what could be done.

Commissioner Donges. If you are not prepared to-day, will you be prepared, what day this week?

20 *Mr. Merrey.* It seems to me if they are going to prepare, they should prepare plans, and evidently there are no detail plans prepared. That will take them a month or two months.

Commissioner Donges. The Board has not suggested what they should do to prepare their case. The Board fixed to-day to take testimony in support of the petition to determine whether the rehearing should be granted.

30 *Mr. Minard.* Then the question arises, what further have we to prepare? The Board's order never would include the number of trains we should run one way or another, of course, we have presented a *prima facie* of what we propose to do, and the only reason I mentioned what I did was because Mr. Merrey has crowded us now for what trains we should run one way or another.

Commissioner Donges. No, it was because of your suggestion, Mr. Minard, that you were not prepared to-day.

40 *Mr. Minard.* We are not prepared to go into that problem.

1903

F. B. Lincoln, cross.

Commissioner Donges. The Board is not outlining or pretending to say to you what you should submit. You submit whatever you think you ought to submit in support of your petition. That is all. You may proceed, Mr. Merrey.

Q Mr. Lincoln, that will increase materially the number of train movements over East Eighteenth street, will it not, that is the one just before the Y? 10

A Yes.

Q The number of passenger train movements will be increased by at least 118 per day, will it not?

A It will be increased by whatever number are diverted from the main line of the Erie at Market street or Hawthorne.

Q You propose to divert all of your trains, do you not, from the main line of the Erie?

A Yes.

Q There will be a new grade crossing at Ellison Place, will there not? 20

A Yes.

Commissioner Donges. Just a moment. What do you mean by a new grade crossing? You mean at the junction with the Susquehanna?

Mr. Merrey. Yes, on that curve.

Witness. Where the Y crosses.

Q That will be a new grade crossing over Ellison Place? 30

A Yes.

Q And the same number of trains will cross there that cross just beyond at Broadway?

A No, not as many as cross Broadway, because some of the trains that go up the Susquehanna main line will follow the present route and not go through the Y.

Q Yes, another grade crossing on the Susquehanna at Hamilton avenue?

A Yes. 40

F. B. Lincoln, cross.

Q One at Godwin street?

A Yes.

Q And Governor street? There is a trolley crossing there?

A Yes.

Q At grade. There is a crossing at Harrison street at grade?

10

A Yes.

Q And Fulton?

A Wait a minute. I don't know whether all those streets cross in there or not. I am not familiar with all of them. Not all of those streets cross the railroad.

Q Not all of them are actually used and opened?

A No. My recollection is that all told I counted thirteen crossings the last time I went over there, between Broadway station and the river.

20

Q Grade crossings?

A I think there are thirteen streets cross the railroad in that distance.

Q At grade?

A At grade. I think that is all there are. The map shows some twenty odd streets here, so it would not be correct for me to answer yes at every one of these crossings as you named them.

Q There are about thirteen streets cross the Susquehanna grade north of the Broadway station?

30

A Yes.

Q And this plan would put a very materially increased train movement over every one of those grade crossings?

A Yes—no. Not a very materially increased train movement. There would be some increase.

Q Something between sixty and a hundred and eighteen.

A A very considerable number of these short haul trains are diverted to the other route.

40

Q Not more than fifteen each way probably?

1905

F. B. Lincoln, cross.

A Possibly not.

Q It is limited by the number of trains over the Susquehanna, the number you can divert, and you cannot divert all of them?

A No.

Q So that about half of them—you cannot divert more than half of them—that would be thirteen train movements each way. This plan then practically transfers the grade crossing trouble from the main line of the Erie and puts it on the Susquehanna, does it not? 10

A Well, no; I don't think you can exactly express it that way. It increases some of the train interruptions on the crossings west of Broadway on the Susquehanna, and it does or can eliminate all of the train movement, passenger train movement west of Market street on the main line.

Q (*By Commissioner Donges.*) All of it? 20

A I say it can do that. We have figured in this tentative plan to leave, I think, seven trains, local trains to serve River street, but it is entirely practicable in my mind to eliminate that entirely and serve that section up there from the Susquehanna, as I said before, by the rearrangement of the Riverside station on the Susquehanna, so that would leave nothing but switch engine movements in that territory.

Q The Straight street crossing on the Susquehanna is eliminated by this plan? 30

A Yes.

Q That isn't a very dangerous crossing, is it?

A I don't know whether it is any different from any other.

Q I will call your attention to the—

A Why is it any different from any other?

Q Because the train movements must necessarily be slow, it is so near the end of the Susquehanna route. 40

F. B. Lincoln, cross.

A No slower than the train movements on the main line.

Q Every train crossing Straight street is about coming to a stop, is it not?

A Yes, sir.

Q For the Straight street station?

A Yes.

10 Q And as a matter of fact, a great many of them stop right on the street?

A Yes.

Q So the movement must necessarily be slow?

A All trains on the main line stop at Market street.

Q Yes, but they cross Market street at a faster rate of speed?

A Not any faster than they pass Straight street. I don't believe they are in approaching—the eastbound
20 trains crossing Market street are all coming in prepared to stop at the station right across the street. Practically the same condition obtains as approaching Straight street.

Q How many trains per day have you into the Straight street station?

A That I would have to check up.

Q Something less than twenty-six?

A Yes, a number of the trains do not come in there.

30 Q Will not the situation at the Broadway station be an extremely dangerous one under this plan, because of the tracks being on three sides of the station, practically surrounding it?

A I should not consider it was. I don't see any particular increased element of danger. It is not an uncommon condition.

Q Vehicles passing up Ellison place will be in the center of a triangle on which trains are being run?

A Yes.

40 Q Isn't that a rather dangerous situation, confusing?

F. B. Lincoln, cross.

A I don't know why it should be, sir.

Q Don't you think it is rather confusing to a driver to have bells ringing behind him and in front of him, not knowing just where the train is coming from?

A I don't see why there should be any confusing or element of risk if he pays attention to his business and watches the gate crossings and the crossing watchman and the gates. It is reasonable to assume we would have proper protection at that point. 10

Q Do you know whether it is possible under this plan to make an undergrade crossing at Broadway and Ellison Place instead of a grade crossing?

Commissioner Donges. On the Susquehanna you mean?

Mr. Merrey. Yes.

A Why, it is possible to put the railroad over the streets. 20

Q Over or under at Broadway and at Ellison place?

A Why all things are possible, Mr. Merrey, but I should consider it a very impracticable piece of operation and a very difficult piece of engineering to get the railroad under Broadway as it exists on its present grade. I am not thoroughly familiar with the ground around Broadway, except as I have seen it from the train. It would probably be possible from an engineering standpoint to get Broadway over the railroad leaving the railroad on its existing grade but it would be pretty difficult to work in that Y connection and change the grade of the railroad, within a reasonable expense. All things are possible in that line. 30

Q (*By Commissioner Donges.*) I understand, Mr. Lincoln, that there will be some changes in the grade of tracks in the main line east of Market street under this proposed plan?

A Yes.

Q What changes? 40

F. B. Lincoln, cross.

A We would have to go back two or three blocks, three or four blocks, and commence to rise in order to get up over Market street.

Q Will it eliminate any—or separate the grades of any streets and the railroad, east of Market street?

A No, that is not contemplated in this plan.

10 Q (*By Mr. Merrey.*) As I understand, you start to elevate as shown on the plan on Section A of the order of the Commission?

A Yes, substantially so.

Q (*By Commissioner Donges.*) And you carry that elevation to a point west of Market street?

A Yes.

Q No other changes in grade on either the Susquehanna line or the main line of the Erie?

20 A No, except coming off of this rise down to the west, coming down past Ellison street, we have to come off of that elevation down to the existing railroad west of Market street by a descending grade, and that would necessarily under this scheme, close up Ellison street as we came down. We would strike the existing grade about Van Houten street.

Q You mean on the Susquehanna?

Mr. Merrey. On the Erie.

Q On the Erie, you mean?

A Yes, on the Erie.

Q Close Ellison and leave Van Houten as it is?

30 A Yes. In other words, we would be able to come down off of this elevation in that distance.

Q (*By Mr. Hobart.*) The rise, Mr. Lincoln, as you approach Market street from the east, would be, according to this plan, a one per cent. grade?

A Would be what?

Q A one per cent. grade?

A Yes, that is the working out of it so far.

40 Q And that would not involve, as I understand, any change in the location of the streets or crossings to the east of Market street?

F. B. Lincoln, cross.

A No.

Q There is already an undergrade crossing at Essex street, the first street east of Market?

A Yes.

Q This two per cent. grade, to which reference was made, would be a grade west of Market street?

A To come down off the elevation.

Q And on that there would be only these switching movements or perhaps the train movements that have been suggested? 10

A There might be some passenger train movement there probably.

Mr. Lewis. My appearance has been entered for the Paterson & Hudson River Railroad and the Paterson & Ramapo Railroad, and I would like to ask one question.

Q (*By Mr. Lewis.*) Mr. Lincoln, as I understand it, the contemplated plan does not involve in any way the abandonment of any part of the existing right of way of the Erie Railroad? 20

A None whatever.

Q (*By Mr. Hobart.*) Reference has been made to that fifteen degree curve; is that curve itself on the grade, or does the grade cease before the curve begins?

A Both. The curve would be partly on the grade in all probability. Working that out, I doubt if we could begin—I think we would have to begin to turn off from the main line before we got to the top of the rise, as the thing looks now. A small portion of the curve might be on the grade. 30

Q But it would be only a small portion?

A Just a small portion.

Q With regard to these trains on the Susquehanna that now run to North Paterson; is North Paterson a terminal point where you have a round house and some side tracks, and so on, for trains to lay up?

A Yes. 40

H. B. Lincoln, cross.

Q In itself it is a comparatively small place, is it not, a small station?

A Yes.

Q So that trains running to that point run only because that is the terminal point?

A That is all.

Q Not to accommodate people necessarily?

10 A That is all, to our roundhouse.

Q Is the same thing also true of this place called Waldwick on the main line of the Erie?

A Yes.

Q That is a terminal point, a comparatively small station, isn't it?

A Yes.

Q (*By Commissioner Treacy.*) How about Ridgewood, Ridgewood is a pretty fair-sized place?

20 A Yes. Ridgewood would be served by practically the same number of trains as now.

Q I understood you to say that sixty-one of the regular trains that now go west of Market street will be cut off, even on the Susquehanna line; am I correct?

A They will go around the loop and go back the other way.

Q (*By Mr. Hobart.*) Sixty-one includes both?

A Yes.

30 Q (*By Commissioner Treacy.*) West of Market street, those are movements that would supply North Paterson, Hawthorne, Riverside, Ferndale, Ridgewood and Waldwick, aren't they, Hohokus?

A Not to any extent. Quite a considerable number of our trains are run as equipment trains from Paterson to Waldwick.

Q How many trains do you propose to take off that are now running to Ridgewood?

A You mean how much would we decrease the Ridgewood service?

40 Q Yes, the Ridgewood service?

F. B. Lincoln, cross.

A Very little. I cannot say just how many. I don't know as we would make much difference in that Ridgewood service. A number of these trains that go up through there now are empty trains, simply equipment trains run out of schedule at Paterson on Fern-
dale or River street, as the case may be, and run up
over the third track to Waldwick, don't carry any
passengers west of River street. Some of them don't
carry any passengers west of Glen Rock, run up the
other track. Those are the character of trains that
would be turned and sent back over the Susquehanna.
They go up to Waldwick, turn and go back. Instead
of doing that we would run them around the loop and
run them back to Jersey City.

10

Q Trains that don't furnish service west of Market street?

A Yes. We could not decrease the service up in that Ridgewood territory. We could not take off any
trains to amount to anything that now serve them, so
we would have to utilize these trains that are simply
dead-heading up there for this service.

20

Q You say there are sixty-one such trains?

A No, I didn't say how many there were. I don't recall how many equipment trains we do run in there.

Q (*By Mr. Merrey.*) You cannot take off any more of those trains than there are now trains over the Susquehanna; that is the way you are limited, by the movement over the Susquehanna which is twenty-
six trains each way?

30

A Yes.

Q And you cannot do that without taking off all the service up the Susquehanna, so if you interfere with half the Susquehanna service, then you just gain about thirteen trains each way?

A Yes.

Q That is what limits you?

Mr. Minard. Why can't we run more trains over the Susquehanna than we do?

40

P. M. Linceda, cross.

Mr. Herrey. Because you don't need them.

Mr. Minard. But if we use them for the Erie then we will need to run more. I don't see the point in your suggestion.

Mr. Herrey. The point is, you won't increase the Susquehanna business over what you need. To Paterson it is five miles longer to Jersey City over the Susquehanna.

10

Mr. Minard. I don't know.

Mr. Herrey. Nearly five miles by your map.

Commissioner Dongra. Five miles what?

Mr. Herrey. Five miles more by the Susquehanna from Paterson to Jersey City than by the Erie, nearly that, not quite. It shows on the little map annexed, 20.15, and the other is 15.7

20 *Q (By Mr. Hobart.)* One other question about Ridgewood. Doesn't Ridgewood have the advantage of being on what is called the Bergen County short-cut?

A On the main line, but all the Bergen County trains go through there.

Q And there is service now from Ridgewood to New York over the short-cut?

A Yes.

Q Trains which don't pass Paterson at all, but which run direct to New York to accommodate the commuter service?

30 *A* In rush hours considerable of the traffic is handled that way.

Q (By Mr. Herrey.) Four trains a day?

A In the rush hours, I say, most of the travel from Ridgewood is taken care of in that way.

Q There are five trains a day?

A Each way, four one way and five the other.

Q Five and three, isn't it, five one way and three the other way, over the Bergen County cut?

40 *A* That is strictly Bergen County service. They have got the main line?

F. R. Lincoln, cross.

Q (By Mr. Hobart.) Of course, that could be increased, if necessary, to accommodate Ridgewood?

A Yes.

Q Your attention was called by Mr. Merrey to the fact that there are, as you counted then, thirteen grade crossings now existing between the Broadway station on the Susquehanna and Hawthorne?

A Yes.

Q You are familiar generally with that section of the city, from observation?

A From riding through there on the trains, that is all. I never lived there or never walked there.

Q Is it built up or used to the same extent as some of these crossings on the Erie main line, like Market street?

A No.

Q A comparatively small amount of traffic, street traffic?

A As compared with Market street, yes.

Q (By Commissioner Donges.) Where is this?

A The intermediate crossings west of Broadway, between there and the river, on the N. Y., S. & W.

Q When did you make your observations?

A I am up and down frequently, sir. I was over that line on an inspection trip within a week.

Q How long did you remain at these crossings?

A We didn't stop at the crossings on this last trip. Two weeks ago I was up in a motor car, inspection trip, and was around there for an hour at the different crossings, looking at the gates, looking over the situation generally.

Mr. Hobart. That is all.

Commissioner Donges. If there is nothing further we will take the matter into conference.

Mr. Lewis. As I understand it, the present application is merely one affecting the plan. It does not effect, it is not an application for a rehearing upon any of the matters adjudicated by the Commission,

10

20

30

40

Discussion.

except as to the plan fixed by such adjudication, as I read the prayer.

10 *Commissioner Donges.* Of course, the application speaks for itself, but the prayer is, wherefore, this respondent respectfully prays that a rehearing of the order of April 20th, 1915, be granted for the purpose of considering the foregoing plan in lieu of the plan described in said order, and for the taking of testimony thereon so far as may be necessary, and that pending consideration of this petition and the granting of rehearing on said order—this relates to the *certiorari*, but it is simply that this plan be considered in lieu of the one heretofore.

Mr. Lewis. Yes, so I need not put my clients to the expense of further attendance.

20 *Mr. Taylor.* From the course of the cross examination and some questions asked by the members of the Commission, I anticipate that perhaps they would feel they should have in considering even this preliminary application of ours, which is preliminary in a sense because we merely ask for a rehearing, more detailed information about these train movements just how it is proposed to change them around. Mr. Minard stated a few moments ago some of the reasons why we are not prepared at this time to go into great detail on that point, and I would like to suggest, if it is agreeable to the Board and to Mr. Merrey, that
30 this record be held open for the balance of this week, say, or for such time as the Board may direct, so if we find it practicable in the next few days to work up some more definite statement on that subject we may be permitted to file it and send a copy to Mr. Merrey, and if he wants to send anybody to cross examine on the subject, if we file such a statement we will be glad to produce a man at the proper time.

40 *Mr. Merrey.* I think the situation is made very clear by Mr. Lincoln. He must realize the question of these train movements. It cannot be claimed you

Discussion.

can divert more trains over this proposed loop than now run over the Susquehanna, and you cannot divert all of them, so that brings it down to a matter of less than thirty trains.

Mr. Taylor. I don't quite understand your statements. As I understand it, we have say 118 trains to take off the Erie line north of Market street. We propose to make no substantial decrease in the traffic. That means that those trains must be run over the Susquehanna north of Broadway except in so far as they are taken around the loop, but there are also some Susquehanna trains which can be taken off the line north of Broadway, and run around the loop so that makes a difference in the net increase of traffic north of Broadway. We all agree to that. It is only a question as to just how much the precise number of trains is to be affected. 10

Commissioner Donges. Mr. Merrey, it is scarcely worth while to discuss now the effect of any such testimony. The point is whether the company ought to be afforded an opportunity to put in any supplemental information that it desires and whether you require the production of a witness, or whether you will agree that it shall be put in in the form of a statement subject to your right to cross examine if you desire. 20

Mr. Merrey. I am arguing now it is not necessary, because it sufficiently appears to the Commission, that situation is sufficient for the purpose. Here is the situation: There are 118 trains run out of Jersey City into Paterson. Those trains would be diverted into the present Susquehanna cut, and then run north on the Susquehanna, except so many of those as can be turned and run down on the Susquehanna to Jersey City. 30

Mr. Taylor. Then there would be a further decrease of those trains, which can be taken off the Susquehanna. 40

Discussion.

10 *Mr. Merrey.* Pardon me. Let me get through. Then there are a certain number of other trains which will go up the Susquehanna and be diverted on the Erie. The amount of that service will not exceed the present service over the Susquehanna without taking trains from Ridgewood and taking trains from the main Paterson station. That will not increase the
 20 Present service over the Susquehanna, which is twenty-six trains each way, and every train that is operated under this plan, instead of running it out to the Susquehanna and running it down to Paterson and that way over the main line, is a train which is taken away from the service above. I say they cannot take more than half of them, which is thirteen trains each way, or twenty-six so the number of movements which they can save is twenty-six out of the 118 at the maximum, probably in that way. The point I am making, it is sufficiently clear to the Commission now
 30 that there will be at least ninety additional train movements over everyone of these thirteen crossings, and so far as the Eighteenth street crossing is concerned there will be at least 118 more over that, and the new crossing at Ellison Place, over which there will be about ninety passenger train movements every day. I think that is sufficiently clear, and I don't think there is any need of taking any more testimony. They may prove there will be five or six or ten movements, more or less from that, but that is the limit.

30 *Mr. Taylor.* I made the suggestion about furnishing more detailed information of this sort because it seemed to me that Mr. Merrey was looking for it, by the questions he asked. It seems to us, from the character of the application which we have made, that we have gone as far as necessary. While we are perfectly willing to furnish this information, if Mr. Merrey don't want it, we don't care about—

40 *Commissioner Donges.* Then you don't care to supplement your proofs?

Discussion.

Mr. Taylor. Not unless the Board wants it.

Commissioner Donges. It is a matter for your judgment, Mr. Taylor. If there is nothing further then—

Mr. Merrey. The position of the city is distinctly against this plan as it stands now. Our position is—

Commissioner Treacy. The proposed plan, the new plan?

Mr. Merrey. Against the proposed plan. We realize it will give a better train service, but it is transferring the danger from grade crossings from one part of the city to another, and it is creating a situation which we think materially increases the danger. 10

Commissioner Donges. Why?

Mr. Merrey. Because of the peculiar triangle arrangement which they have in the vicinity of the Broadway station, where there is a great deal of traffic. It will put a man in the position where there may be trains in front of him, in back of him, and off to the side. 20

Commissioner Donges. At Ellison place?

Mr. Merrey. At Ellison place it will make a particularly bad situation. The Broadway crossing will be just as bad on the Susquehanna as it is at the Erie, with very little difference—not quite as bad, but nearly as bad. This whole section the Susquehanna traverses is a rapidly growing section, a great deal of traffic over it, and with this plan, it is probable we won't get much relief in the future when it will be badly needed. We would have been willing to consider a plan which would have eliminated Broadway, with some others, Ellison place and Eighteenth street. If this plan could be so modified that it would eliminate these crossings, I think we would be glad to have it, with the prospect of some time in the future having the other crossings eliminated, but for the present it would do that. But our position now is that the situation would be probably worse; it would probably be worse than it is today. 30 40

Discussion.

Commissioner Donges. You say that the section of the city through which the Susquehanna runs is as thickly populated—

Mr. Merrey. No.

Commissioner Donges. And that the crossings over the Susquehanna have as much traffic, pedestrian and vehicular traffic over them as the main line?

- 10 *Mr. Merrey.* No, they have not, but there are more crossings, on the Susquehanna north of Broadway than there are on the Erie north of Market street, and although the section is not as thickly populated, yet it is growing very rapidly; it is the growing section of the city. So far as the Broadway crossing is concerned, the use of that is very nearly the use of the present Broadway crossing on the Erie, a great deal of automobile traffic coming in from Hackensack and New York uses Broadway, and the same trolley line
- 20 as crosses down at the Erie station, and there are more cars run over the lower crossing than there are this. There is the Governor street line which crosses at the Erie, crossing at Broadway, and does not cross the Susquehanna, but does cross over on Governor street at another point.

Commissioner Donges. It turns up Eighteenth street?

- Mr. Merrey.* No, it crosses at Governor and then goes up Eighteenth street, so there are just as many trolley cars crossing Broadway across the Susque-
- 30 hanna at grade as do now. That is at Broadway, not counting the Market street ones, and there isn't much difference in the vehicular traffic at the Susquehanna Broadway crossing and the Erie Broadway crossing.

Mr. Hobart. Do I understand the city's position to be that they will be satisfied with this plan except for the difficulties you suggest at Broadway and Ellison place?

- Mr. Merrey.* We would be willing to agree with the
- 40 Company, I think, about this, if we could at the pres-

Report on Rehearing.

ent time have eliminated the proposed crossings at Ellison place, Eighteenth street and Broadway.

Mr. Hobart. Eighteenth street, too?

Mr. Merrey. Yes, and then with the expectation that in the future some time these other crossings, of course, would be eliminated.

Commissioner Donges. We will take the matter into conference.

Writ of Certiorari on Rehearing.

Writ of Certiorari.

(On Rehearing.)

NEW JERSEY, ss.

The State of New Jersey to the Board
(L. S.) of Public Utility Commissioners, GREET-
ING:

We being willing for certain reasons to be certified
of a certain report, determination or order of said
Board dated July 9, 1915, denying an application by
Erie Railroad Company for a rehearing of the pro-
ceeding entitled "In the matter of the application of
the City of Paterson for alteration of grade crossings
on the line of the Erie Railroad," which resulted in an
order of said Board dated April 20, 1915, whereby
said Erie Railroad Company was ordered to alter cer-
tain crossings and each of them named in said order
according to the plan therefor thereto annexed and
made part thereof by substituting therefor crossings
not at the grade of said streets, which application for
rehearing was for the purpose of considering a plan
suggested in said application in lieu of the plans ap-
proved by said Board, do command you that the said
report, determination or order, together with the said
application for rehearing, the testimony and exhibits
offered before said Board, and all other proceedings
by or before said Board concerning the same, as
fully and entirely as before you they remain or are in
your custody or control, you do certify and send, to-
gether with this writ, to our Supreme Court at Tren-
ton on the eleventh day of August, nineteen hundred
and fifteen, that we may cause to be done thereupon
what of right and according to the law ought to be
done.

Witness, William S. Gummere, Esquire, Chief Just-
ice of our Supreme Court at Trenton, this twenty-sec-

10

<p>ERIE RAILROAD COMPANY, <i>Prosecutor,</i></p> <p style="text-align: center;">vs.</p> <p>BOARD OF PUBLIC UTILITY COM- MISSIONERS, CITY OF PATERSON, AND BOARD OF FINANCE OF SAID CITY, <i>Defendants.</i></p>	}
--	---

*On Certiorari.
(Re Application
for re-
hearing of
order of
April 20,

Reasons.*

20

The prosecutor files the following reasons upon which it will rely for a reversal of the proceedings under review in this case:

1. The action of the Board of Public Utility Commissioners in denying the application of the prosecutor for a rehearing of the order of said Board, dated April 20, 1915, was arbitrary and unjustified, and was not supported by the evidence taken before said Board.
2. Said application for a rehearing of said order of April 20, 1915, should have been granted for the purpose of considering the plan proposed by the prosecutor in said application for a rehearing, in lieu of the plan described in said order, and for the purpose of taking testimony thereon so far as might be necessary.
3. The application of the prosecutor that the effective date of said order of April 20, 1915, be extended for such reasonable time as would permit a full con-

40

Reason on Rehearing.

consideration of said petition for a rehearing, should have been granted.

4. The evidence shows that the action of said Board in denying said application for a rehearing, was:

- (a) Purely arbitrary.
- (b) Without any reasonable basis upon which to rest.
- (c) Unsupported by the facts laid before said Board.

10

5. The action of said Board in denying said application for a rehearing was contrary to the undisputed testimony taken before said Board upon said application.

6. Said application of the prosecutor for a rehearing should have been granted for the reason that the undisputed testimony before said Board taken on such application showed that it was feasible and practicable to remove the danger to public safety and the impediment to public travel at the highway crossings, and each of them, involved in this proceeding, by adopting the plan proposed by the prosecutor in said application, in lieu of the plan described in said order, dated April 20, 1915.

Depositions.

10

Depositions taken before me, David A. Newton, a
Supreme Court Examiner, of the State of New Jersey,
on Thursday, September 30, 1915, at 11.30 a. m., at No.
243 Washington street, Jersey City, New Jersey.

20

Appearances:

George S. Hobart, Esq., of Messrs. Collins & Cor-
bin, for the prosecutor.

Frank H. Sommer, Esq., for the Board of Public
Utility Commissioners.

Edward F. Merrey, Esq., for the City of Paterson
and the Board of Finance of said city.

It was stipulated and agreed by the respective coun-
sel that the depositions be taken stenographically by
the examiner, by him transcribed, and the signatures
of the witnesses thereto were waived.

30

Mr. Sommer. Enter the objection by myself, in be-
half of the Board of Public Utility Commissioners, to
the giving of notice by the prosecutor, and that at the
hearing we will object to the reading of the depositions
upon the ground that there is no authority for the
making of the order under which these depositions are
taken; and state that Mr. Merrey joins in the objec-
tion.

Mr. Merrey. Yes, state that I join on behalf of the
city.

40

George H. Palmer, direct.

GEORGE H. PALMER, a witness produced in behalf of the prosecutor, upon being duly sworn according to law on his oath, testified as follows:

Direct examination by Mr. Hobart.

Q You are the assistant land and tax agent of the New York, Susquehanna & Western R. R.?

A Assistant general land and tax agent.

10

Q Have you examined the records of the company with a view to determining what the records show as to the title of certain land commonly called Crosby Place in the City of Paterson?

A I have.

Q Have you the deeds and other instruments affecting that title so far as they relate to the New York, Susquehanna and Western Railroad Co. and its predecessors?

20

A Yes, sir.

Q Have you prepared a blue print on which appears the property in question?

A Yes.

Q Please produce the deeds and agreements?

A You just merely want the name of the deeds or do you want to explain what they cover?

Mr. Hobart. First I will offer the blue print which the witness produces.

30

The Witness. I beg pardon, I think I have got a better blue print here; it is a better one than that.

(Blue print marked Exhibit Erie 1.)

Q Does this blue print show by various colored markings as indicated in the legend thereon the title to the land commonly called Crosby Place?

A It does.

Q And have you the deeds and instruments which are referred to on the blue print?

40

A Yes. The deeds or copies of deeds I have.

George H. Palmer, direct.

Q Please identify them in some way and read them into the record sufficiently to identify them?

A The tracts of land designated by blue shaded boundary lines and marked "First," "Third" and "Fourth" were conveyed by Garret A. Hobart and wife to the Paterson Extension Railroad Company by deed dated March 10, 1882, recorded in Passaic County Clerk's office July 29, 1882, in Book E-7 of Deeds, 10 pages 397, etc.

Mr. Hobart. May we use copies?

Mr. Sommer. You may use copies.

(Said deed marked Exhibit Erie 2.)

Mr. Sommer. These are all compared—these copies?

The Witness. Yes, sir.

A (Continuing.) The tract of land designated by yellow shaded boundary lines was conveyed by The Mutual Life Insurance Company of New York to the Paterson Extension Railroad Co. by deed dated May 28, 1881, recorded in Passaic County Clerk's Office May 28, 1881, in Book T-6 of Deeds, page 447. 20

Mr. Hobart. I offer the deed.

(Said deed marked Exhibit Erie 3.)

The Witness. Do you want a statement as to the consolidation?

Q Well, are there any other deeds that should be offered to show the property? 30

A No other deeds to the company.

Q Any deeds or agreements from the company?

A Yes.

Mr. Merrey. Did you put in the tract marked 1?

The Witness. That is all here in blue.

Mr. Merrey. You put in first, third and fourth?

The Witness. Left out second.

Q Please put in any deeds or agreements you have from the company? 40

George H. Palmer, direct.

A The portion of the yellow tract designated C was conveyed by the New York, Susquehanna and Western Railroad Co. to Henry B. Crosby by deed dated August 30, 1883, recorded in Passaic County records—in Passaic County Clerk's office, I should say—September 1, 1883, in Book 202 of deeds—I mean in Book M-7 of deeds, page 202.

10 *Mr. Hobart.* Offered.

(Said deed marked Exhibit Erie 4.)

Mr. Merrey. That is one cut off by the red line?

The Witness. Yes.

A (Continuing.) The triangular parcel of land enclosed in red lines, being a portion of the first tract of land, was conveyed—

Mr. Merrey. Conveyed by the Mutual Life.

20 *The Witness.* No, I mean this little triangle in here.

A (Continuing)—being a portion of the first tract of land conveyed by Hobart and wife to the Paterson Extension Railroad Co. was conveyed by the New York, Susquehanna and Western Railroad Co. to Henry B. Crosby by deed dated September 7, 1883, recorded in Passaic County Clerk's office in Book M-7 of Deeds, at page 311.

(Said deed marked Exhibit Erie 5.)

30 The tract of land designated by red shaded lines and marked E, being a portion of the two tracts of land, one conveyed by Mutual Life Insurance Co. of New York and the other of the first parcel of land conveyed by Hobart before referred to was conveyed by the New York, Susquehanna and Western Railroad Co. to Henry B. Crosby by deed dated October 30, 1884, recorded in Passaic County Clerk's office in Book U-7 of Deeds, page 618.

(Said deed marked Exhibit Erie 6.)

George H. Palmer, direct.

The tract of land bounded by red lines and marked F, which is a portion of the two tracts of land conveyed by the deeds from the Mutual Life Insurance Co. of New York and Hobart and wife, above referred to, was conveyed by the New York, Susquehanna and Western Railroad Co. to Henry B. Crosby by deed dated August 7, 1886, recorded in Passaic County Clerk's office in Book U-8 of Deeds, page 392.

10

(Said deed marked Exhibit Erie 7.)

By agreement between the New York, Susquehanna and Western Railroad Co. and Henry B. Crosby dated November 1, 1884, recorded in Passaic County Clerk's office May 6, 1903, in Book X-15 of Deeds, pages 470, etc., the New York, Susquehanna and Western Railroad Co. granted to Crosby the right to lay and maintain for a period of ninety-nine years from the date of the agreement a flag sidewalk upon these lands.

20

(Said agreement marked Exhibit Erie 8.)

The Witness. Better say upon the driveway.

Mr. Hobart. Well, the whole thing will be printed anyway.

Q These deeds and agreements to which you have referred, are they all the papers on record that affect the title to the lands in question?

A Yes.

Q Some of these papers referred to the Paterson Extension Railroad Co., do you know whether that company is a predecessor of the New York, Susquehanna and Western Railroad Co.?

30

A It is, or was.

Q Have you before you a summary showing the chain of title leading into the present New York, Susquehanna and Western Railroad Company?

A Yes.

Mr. Hobart. Of course, Mr. Merrey, I can put in evidence, if you want, all of these—about a dozen different consolidation agreements; but I

40

George H. Palmer, cross.

do not see any objection, unless you want them, and I thought I would have Palmer state it just as he did in the main case.

Mr. Merrey. Probably that is all right.

Q Proceed, Mr. Palmer.

A The Paterson Extension Railroad Co. was consolidated with the Midland Railroad Co. of New Jersey and other companies to form The New York, Susquehanna and Western Railroad Co. by articles of consolidation dated May 26, 1881, acknowledged June 16, 1881, filed in the office of the Secretary of State of New Jersey June 17, 1881.

The New York, Susquehanna and Western Railroad Co. was consolidated with the Blairstown Railway Co. by agreement dated December 22, 1882, the name of the new company being New York, Susquehanna and Western Railroad Co. New York, Susquehanna and Western Railroad Co. was consolidated with the Hudson River Railroad and Terminal Company by agreement dated April 5, 1893, the name of the new company being the New York, Susquehanna and Western Railroad Co., which is the present company.

Cross examination by Mr. Merrey.

Q Are you familiar with this roadway known as Crosby Place?

A Yes, that is I have not been up there recently. I have been there a good many times in the past.

Q You know that it is lighted by the City of Paterson?

A I do not know.

Q You know there is an electric light there—city light?

A I do not recollect.

Q It is an open, traveled, public thoroughfare?

A It is an open way apparently traveled by the public.

Q Generally?

George H. Palmer, re-direct.

A Generally.

Q And has been for more than twenty years?

A Yes. It is also used by patrons of the Railroad Company.

Q The Paterson City station of the railroad company is located upon this thoroughfare and also on Straight street?

A Yes.

10

Q The general public coming from Straight street to Park avenue frequently cross along this roadway?

A Yes.

Q And on the east and south sides it is entirely built up?

A Yes.

Q With stores located right along the entire front?

A Yes.

Q And patrons of those stores go in and out over it as a public street to Park avenue and to Straight street?

20

A They use it in going to and from the stores.

Q As a matter of fact there is no other means for the patrons of those stores to reach Park avenue or Straight street without going over this road?

A The fronts of the stores; I cannot say as to the rear.

Re-direct examination by Mr. Hobart.

30

Q Have you personal knowledge of the use of that so-called street for twenty years, Mr. Palmer?

A Yes.

Q Do you know whether there is any other way for passengers and other patrons of the Susquehanna Railroad to get to the Paterson City station except by way of Crosby Place?

A They can go around through Park avenue and Straight street.

40

Albin M. Smith, direct.

Q They could get in through Straight street and Crosby Place, but they cannot get in from the north?

A No, or the west.

Mr. Merrey. You mean they cannot get in now?

The Witness. Yes.

Re-cross examination by Mr. Merrey.

10 Q How long have these deeds been in your possession?

A Ever since 1896 or 1897.

Q Where did you find them?

A To-day?

Q Yes.

A They are in our records.

Q When they originally came into your possession in 1896 or 1897, how did they come into your possession?

20 A They were sent to us by the secretary.

Q Secretary of what?

A Either the secretary or the chief engineer they called him at that time.

Q You have had them since 1896 or 1897 in your own possession?

A Yes, that is, they have been in the office.

Q They are all recorded, too?

A Yes; some of them are copies I brought here.

30 ALBIN M. SMITH, a witness produced in behalf of the prosecutor, upon being duly sworn according to law on his oath, testified as follows:

Direct examination by Mr. Hobart.

Q Are you the agent of the New York, Susquehanna & Western Railroad Co. at its Paterson City station?

A Yes.

Q That is the station located near Straight street in that city, is it not?

40 A Yes, sir.

Albin M. Smith, direct.

Q How long have you been such agent?

A Twenty-three years.

Q Calling your attention to this blue-print, Exhibit Erie 1, are you familiar with the location of the passenger station of the Susquehanna Railroad as indicated on this plan?

A Yes, sir.

Q And you know the street, so-called, described as Crosby Place? 10

A Yes, sir.

Q Have you observed for what purpose that street has been used?

A Yes, it is used to get—it is used to get to our passenger depot from people down in the lower part of—below the Erie tracks.

Q And in order to get to your passenger depot how do persons approaching the station from that direction come; that is, what part of Crosby Place do they cross over? 20

A Well, they cross over at Market street first, as a rule, and come right up Crosby Place to the depot.

Q Do you recall that there is a sidewalk on each side of the street leading up from Market street?

A Yes, sir.

Q And do passengers going to the station use those sidewalks?

A Yes, sir.

Q Where is the freight station of the Susquehanna Railroad? 30

A On the opposite side of Straight street from the passenger depot.

Mr. Merrey. Towards the east?

Mr. Hobart. Towards Jersey City?

The Witness. Towards the east.

Q Is Crosby Place used by persons going to and from the freight station with vehicles?

A Yes, sir.

Albia M. Smith, direct.

Q Is it also used by persons or vehicles going to the passenger station?

A Yes, sir; you cannot get to the passenger station without—with a vehicle unless you do come through Crosby Place.

Q Can you with a vehicle approach the passenger station from any direction except from Market street?

10 A Yes, off of Straight street.

Q But do people in fact approach on the roadway leading up from Market street? —

A Oh, yes.

Q And has that been your observation for a number of years past?

A Yes.

Q Is there an express office located in the passenger station?

20 A Not in the passenger station, but on the opposite corner from the passenger station on Crosby Place.

Q How long has that been there?

A Well, it was there when I first came twenty-three years ago; but it has been transferred down to the Erie depot now.

Q When was that transfer made?

A Within a couple of years.

Q Before it was transferred to the Erie depot did persons coming to and from the express office for express business, did they use Crosby Place?

30 A Yes, sir.

Q In the same way as passengers used it in order to reach the station?

A Yes, express wagons and vehicles could not get to that place unless they did use Crosby Place there—through Straight street or Market street, could not get there at all.

Q The statement you have made as to the use of Crosby Place by passengers going to the passenger station and by vehicles going to the passenger station

Albin M. Smith, director.

or to the freight station or to the express office, is that true generally during the time you have been there?

A Yes.

Q Is there any sign at any point on Crosby Place erected by the railroad company?

A Yes.

Q What sign and where located?

10

A There is one sign located at the end of the path leading down to Park avenue on the corner in that position (indicating on blue-print).

Q Indicating the southerly extremity of Crosby Place?

A Southerly extremity where it connects with Park avenue, where it runs into Park avenue.

Q And is there another sign besides that?

A Yes, there is another sign up here (indicating) on the Straight street corner.

20

Q Near Straight street?

A Right at the corner of Straight street, right alongside the freight siding.

Q And what do those signs say?

A So thoroughfare.

Q And how long have they been there?

A As I remember, it is at least three years and it may have been—may be four.

Q Do the tracks of the Susquehanna Railroad as they run into the Straight street station to which you have referred, do they terminate shortly beyond the end of the station?

30

A Yes, sir; they terminate at the turn of the path or sidewalk leading from Park avenue through to Straight street.

Q Are there two sidewalks, that is one on each side of Crosby Place leading from Park avenue and Market street towards the passenger station?

A No, there is only one sidewalk leading from Park avenue up to the station but there is another on

40

Albin M. Smith, direct.

the other side of Crosby Place which comes up and does not go direct to the station but follows around on to Straight street.

Q Persons using that sidewalk in order to get to the station would have to cross the street?

A Yes.

10 Q Persons using the first mentioned sidewalk can they follow and do they follow that sidewalk all the way along until they reach the Susquehanna tracks and the station platform?

A Yes, sir.

Q And does the sidewalk I have just mentioned, does that run alongside of and parallel with the tracks of the Erie Railroad Company?

A Yes.

Q What is there between that sidewalk and the tracks of the Erie Railroad Co.?

20 A Bar fence.

Q Is there any wall?

A There is a wall; yes, there is a wall, because this pavement or sidewalk is up on top of the wall. There is a bar fence to protect passengers from falling over this wall into the Erie tracks.

Q How high is the wall?

A It starts about three feet, maybe $2\frac{1}{2}$ feet at Park avenue and runs up here opposite this passenger station. It elevates to 5 feet, $5\frac{1}{2}$ probably.

30 Q When the sidewalk reaches that elevation does it then turn or does it strike the Susquehanna platform or how do passengers get the rest of the distance?

A It turns to the station.

Q And then does it connect with the Susquehanna platform?

A Yes, sir.

40 Q Is there any other way of getting to the Susquehanna passenger station except by way of Crosby Place?

Albin M. Smith, direct.

A Not with a vehicle.

Q Well, as to passengers, how else could they get to the Susquehanna station?

A They would be coming in from Straight street to get to the station.

Q As a matter of fact which way do most of them come—from Straight street or from Park avenue?

A That depends upon what part of the city they come from. If they come from anywhere off to Broadway or anywhere from Broadway over to Park avenue— 10

Q Which way do they come then?

A Then they come down; for instance, if they come down Ellison street they go down to Straight and through Straight to this Ellison Place.

Q Crosby Place?

A Yes, and so on down, making a short cut of it.

Q But passengers approaching the station from Market street and that section of the city, can they get to the passenger station any way except by Crosby Place? 20

A No, sir. They could not go across the Erie tracks and they could not come along the Erie track and go up to it in any way. The only way from Market street is right through Crosby Place.

Q Are these sidewalks all in the roadway that you described?

A Yes. 30

Q The railroad tracks of the Susquehanna are located on the northerly side of the station?

A Yes.

Q To the north of the tracks is there any means of access to the station?

A No, sir.

Q What prevents the access?

A Our switches, turning cars; that is the loading and unloading—

Q It is a freight yard? 40

Albin M. Smith, cross.

A Freight yard.

Q And from the westerly side the access is cut off by this fence and wall that you have described?

A Yes.

Cross examination by Mr. Merrey.

Q You are the station agent at Paterson station?

A Yes, sir, and freight agent.

10 Q This passenger station is sometimes referred to as the Straight street station?

A Yes.

Q If Crosby Place was closed up entirely could not passengers get to and from the passenger station over Straight street?

A Yes, sir.

Q Could not vehicles stop on Straight street in front of the station and deliver their passengers there?

20 A Yes, but they've got to walk from the street over to the platform of the station.

Q There is a sidewalk at that point?

A Sidewalk on Straight street.

Q And right adjoining that sidewalk is the platform of the station, is it not?

A Yes.

Q So that it would mean a walk of about 15 feet from the curb at Straight street, would it not, to the passenger station?

30 A Over that. I think there is 28 or 30 feet of space between the station.

Q So that there is no hindrance from people going over Straight street to the station if Crosby Place was closed?

A Well, unless different arrangements was made there for access to the station.

Q What different arrangements would have to be made?

Albin M. Smith, cross.

A Well, there would need to be this vacant space between Straight street and the depot to drive a wagon to it.

Q The wagon could stop right at the curb, could it not, discharge its passengers on this sidewalk, and then they could cross a little open space owned by the railroad and which is part of the station to the station proper?

10

A Yes, sir.

Q That is a paved space now, is it not?

A Well, not exactly, no.

Q Well, it is paved with broken stone?

A Broken stone.

Q People do walk to and fro every day?

A Yes.

Q Crosby place makes it a little more convenient for passengers?

A It does, because the baggage department is on the opposite side and to bring baggage to the baggage department you have got to enter in this Crosby place. 20

Q That could be done from Straight street?

A What?

Q They could enter on from Straight street on to Crosby place?

A Yes, sir.

Q Suppose the part adjoining the Erie Railroad was entirely closed up, could not passengers and vehicles reach the baggage department and all parts of the station? 30

A If it was only partly closed.

Q That is, I mean all the part adjoining the Erie Railroad were closed?

A Yes, then there would be room for to come through this open part of Crosby place to get to the baggage room and discharge baggage.

Q Crosby place has been used for a great many years by the general public in addition to the passengers to the station? 40

Albin M. Smith, cross.

A Oh, yes; there was never any hindrance.

Q As a matter of fact a great many more people use Crosby place who are not going to the station than those who are going to the station?

A Well, I should say yes.

10 Q And many more vehicles that are not to stop at the station or the baggage department and express company cross over Crosby place than those who do stop at those places?

A Yes, sir.

Q It makes a little short cut?

A Yes.

Q It makes it very convenient for the general public?

A For the general public that are going through that part of the city.

20 Q And no hindrance has been made for over twenty years to the passage of the general public over this Crosby place?

A Nothing, but this sign of no thoroughfare.

Q And that sign was put up about three years ago?

A Between three and four years ago.

Q And after the sign was put up no attempt was made to stop anybody from using it?

A No, sir.

Q In appearance it is the same as any public street?

30 A Yes, because it is macadam.

Q Do you know who macadamized it?

A No, I do not.

Q There is an electric light in the center of it?

A Along the sidewalk just off from the Erie tracks.

Q Do you know who maintains that light?

A I do not.

Q Is it not maintained by the City of Paterson?

A I do not know.

Q It is the ordinary street electric light?

40 A Yes.

Albin M. Smith, cross.

Q And one side of this thoroughfare is built up with private houses?

A Yes; stores, buildings.

Q And the express company occupy a building not owned by the company?

A Not owned by what company.

Q By the express company or the railroad company?

10

A Yes.

Q It was on property referred to as being owned by Crosby?

A Yes.

Q What is located in that store now?

A Nothing.

Q Vacant?

A Yes.

Q And adjoining that is a saloon, is there not?

A Yes, sir.

20

Q And a number of other retail businesses in the other stores?

A Only one there.

Q What is that?

A Electric light appliances and fixtures and such as that.

Q And is there a store of any kind on Crosby Place in the vicinity of Straight street?

A Yes, there is a garage there, that is the only one.

Q A large public garage?

30

A It is rather large, I suppose thirty or forty feet front.

Q And they sell automobiles there?

A I don't know whether they sell them.

Q They did at one time?

A I don't know that they ever sold them.

Q But they store them there?

A Yes, they store them.

Q And the patrons of that garage go over Crosby Place into straight street and Park avenue?

40

David Bosman, direct.

A Yes, sir.

Q Ever been any objection on the part of the company to the passage of those automobiles?

A Not through me. I don't know what other officers of the company have had instructions to do anything with regard to that matter; but not through me.

10 DAVID BOSMAN, a witness produced in behalf of the prosecutor, on being duly sworn according to law on his oath, testified as follows:

Direct examination by Mr. Hobart.

Q You are the vice-president and secretary of the Erie Railroad Company, Mr. Bosman?

A Yes.

Q And as such have charge of its records and papers of various kinds?

20 A I do.

Q Have you a copy of the certificate of incorporation?

A Yes, sir.

(Said certificate offered in evidence and marked Exhibit Erie 9.)

Q Have you produced at my request copies of the agreements between the Erie Railroad and the Fullers Express Company and the Erie Railroad and Morris & Co.?

30 A You have got the Morris Co. and the other there.

Q These are the originals?

A Yes.

Q They are still in effect, are they, and have been from the date of the respective agreements?

A Yes, sir.

Mr. Hobart. I offer in evidence agreement dated January 24, 1908, between Erie Railroad Company and Fullers Express Company.

40 (Marked Exhibit Erie 10.)

David Bosman, direct.

Mr. Hobart. I offer in evidence lease dated May 14, 1910, between Erie Railroad and Morris & Co.

(Marked Exhibit Erie 11.)

It is stipulated that Exhibit Erie 10, agreement between Erie Railroad and Fullers Express Co., may also be considered in evidence in the *certiorari* proceeding instituted by Fullers Express Co., subject to the same objection heretofore made. 10

It is further stipulated that lease dated May 14, 1910, between Erie Railroad Co. and Morris & Co., Exhibit Erie 11, may also be considered as in evidence in the *certiorari* proceedings instituted by Morris & Co.

Q Mr. Bosman, have you made a search for the original of agreement between Erie Railroad Co. and Jacob Meyer & Kommer De Vogel, partners, etc.? 20

A I have.

Q Have you been able to find the original of any such agreement?

A No, sir.

Q I show you a printed form of agreement entitled on the back "Agreement for construction of siding," is that the standard form of agreement of Erie Railroad?

A Yes, sir. 30

Q Was there any standard form of such an agreement in use in 1897 and 1898?

A Not to my knowledge.

Q I show you another paper, being in the form of a letter dated February 25, 1898, with two collection vouchers attached. This purports to refer to a bill against Meyer & DeVogel for construction of siding. So far as you know, do those papers represent the agreement with Meyer & DeVogel or the understanding with them as to the construction of this siding? 40

David Bosman, direct.

A So far as I know they do.

Q You have not been able to find any original agreement and you have no record of it in your office?

A I have not been able to find it, and have no record.

10 *Mr. Hobart.* By consent I offer in evidence said letter of February 25, 1898, and the collection vouchers attached.

(Marked Exhibit Erie 12.)

It is stipulated that these papers may also be considered in evidence in the *certiorari* proceeding instituted by Meyer & DeVogel, subject to the same objection.

Q Have you the certain agreements between the Erie Railroad or its predecessors and Public Service Railway Co. or its predecessors?

20 A I have got one agreement here of February 6, 1912, between the Public Service Railway Co. and the Erie Railroad Co.

Q That recites the execution of an earlier agreement of February 26, 1892?

A Yes, between the Paterson Railway Co., and the New York—

Q And have you the latter agreement?

A Both of them, yes, sir.

30 *Mr. Hobart.* I offer in evidence the agreement dated February 26, 1892, between Paterson Railway Co. and New York, Lake Erie & Western Railroad Co. Any objection? These—this is for the crossings at Market street, Park avenue and River street and Broadway.

Mr. Sommers. You've got a right to put it in, Mr. Hobart, if you want to.

(Marked Exhibit Erie 13.)

(Copy marked by consent.)

David Bosman, direct.

Mr. Hobart. I offer in evidence the agreement of February 6, 1912, between Erie Railroad Co. and Public Service Railway Co.

(Marked Exhibit Erie 14.)

(Copy marked by consent.)

Mr. Hobart. May I ask you gentlemen to stipulate that the Paterson Railway Co. is the predecessor of the present Public Service Railroad Co., and that the New York, Lake Erie & Western Railroad Co. is the predecessor of the present Erie Railroad Co.; is that agreed? 10

Stipulation made as proposed.

Q Have you with you the forms of the notes or other obligations issued from time to time by the Erie Railroad and referred to in the testimony heretofore taken before the Board of Public Utility Commissioners? 20

A All of them except the real estate mortgage called for on page 1342.

Q That was a small mortgage of thirty or forty thousand dollars?

A \$37,000.

Q As I understand it, that only covers certain property in the freight yard, doesn't touch the main line tracks at all?

A At 28th street. There is just one other annual payment there of \$52,000 in 1917, and one or two other \$52,000 in 1916 I think. Those payments are called for under the agreement with the Grade Crossing Commission of the City of Buffalo. There are no obligations issued, but merely as work is done we bear our proportion of the cost. 30

Mr. Hobart. I offer in evidence the various forms of notes, car trust certificates and other obligations referred to by the witness.

(Marked Exhibit Erie 15.)

William H. Brameld, direct.

Cross examination by Mr. Merrey.

Q These papers which you have offered are all in your possession?

A Yes, sir.

Q And they have been for the last three or four years?

A Yes, sir.

10 Q They were in your possession at the time the testimony was taken before the Public Utility Commission?

A Yes, sir.

WILLIAM H. BRAMELD, a witness produced in behalf of the prosecutor, upon being duly sworn according to law on his oath, testified as follows:

Direct examination by Mr. Hobart.

20 Q Have you made a study of the order under review in this case with the plan and profile thereto attached?

A I have.

Q I call your attention to the provision of the order and plan relating to the increased width of the crossing at Essex street, is there at the present time an undergrade crossing and what is the width of that crossing?

30 A Thirty-two feet as shown on the plans submitted by the City of Paterson.

Q What is the proposed width of that crossing as required by this order and plan forming part thereof?

A Fifty feet.

Q Have you made an estimate of the cost of widening Essex street as required by that order and plan?

A I have.

40 Q In that estimate have you used the same unit prices as in the previous estimates made in the hearings before the Board of Public Utility Commissioners?

William H. Brameld, direct.

A Yes, this estimate is—it is a separation of the items of the work which it will be necessary to do in connection with the widening of this undergrade crossing.

Q That is to say, this estimate is included in the total of the figures as previously given in the testimony before the Board?

A It is merely a separation of the items to show the cost of this particular piece of work. 10

Q Which did not appear in the previous testimony?

A The items in this form do not appear, but they were included in the previous testimony submitted.

Q What is the amount of your estimate for this one item, the widening of Essex street?

A \$80,225.73.

(First estimate marked Exhibit Erie 16.)

Q If the work of eliminating the several crossings involved in this proceeding was carried out as ordered by the Board, but leaving Essex street at its present width of 32 feet, would the company be saved this estimate of \$80,000? 20

A Yes.

Q In other words, this estimate represents the increased cost to the company due solely to the widening of Essex street?

A Yes. 30

Q When you refer to the city plan as showing the present width of Essex street as thirty-two feet what plan did you refer to?

A The plan which is in evidence in this case, being the plan of the present tracks through the City of Paterson.

Q It is not the plan which the city offered to the Board as the plan under which it desired to have the crossings eliminated? 40

A It is not a plan showing the proposed elimination of grade crossings, but simply a map showing the existing conditions.

Q On the city's plan presented to the Board, on the basis of which it requested the elimination, Essex street is shown as fifty feet?

A It is shown as fifty feet.

10 Q And the Board apparently adopted that part of the plan?

A They did.

Q You have made a careful study in connection with this case of the entire scheme of eliminating grade crossings in Paterson, have you not, for some two or three years past?

A Yes.

20 Q Is there any occasion or any necessity to increase the width of Essex street from thirty-two feet to fifty feet in order to eliminate the grade crossings in question in this proceeding?

A I can see no reason for it.

Q According to the plan as ordered by the Board and which you have examined, will you please state whether this increased width of Essex street involves a widening of the street only on one side, or does it involve a widening on both sides?

A According to the plans it involves a widening on both sides.

30 Q The result of which would be that both of the existing abutments or walls at this present under-grade crossing would have to be removed?

A Yes.

Q In this estimate Exhibit Erie 16 have you made any allowance for the value of the old material from those walls?

A No, sir.

Q Would that amount to any considerable sum?

40 A Yes, sir. The present value of those walls is about \$14,000.

1951

William H. Brameld, direct.

Q Would they be worth \$14,000 to the Erie after they were torn down?

A No, sir.

Q Then this estimate of \$14,000, if I understand you correctly, represents the—

A Value of the—

Q Of the walls?

A Yes, sir.

Q Of the walls as they now are which would have to be destroyed? 10

A Yes, sir.

Q And have you also included in an estimate a statement of the value of the existing bridge at Essex street?

A Yes.

Q Would that also have to be destroyed in case the street were widened?

A It would.

Q What does the whole thing amount to, of all the materials? 20

A The walls, the present value of the structure that would be destroyed is \$27,535.

Q And no part of that is included in this estimate of increased cost?

A No, sir.

Q Now turn to the proposed new station at Market street, does the plan of the Board require the relocation and reconstruction of a passenger station at Market street? 30

A It does.

Q Have you prepared an estimate of what it would cost to relocate and rebuild Market street as required by order of the Board?

A I have.

Mr. Sommer. Market street or the station?

Mr. Hubart. Market street station.

Q Does that estimate already appear in the figures you have already presented? 40

William H. Brumeld, direct.

A It does.

Q But not the details or the particular items as I understand it?

A No.

Q Then the present estimate shows the details of that as distinguished from the general figures which were heretofore offered, is that correct?

10 A Yes, this estimate covers the increased cost of the items that we would have to consider in addition to the items that it would be necessary to consider just for raising the tracks and leaving the station where it is. In other words, it is the increased cost due to moving the station from one side to the other of Market street.

Mr. Hobart. I offer the estimate.

(Second estimate marked Exhibit Erie 17.)

20 Q In order to carry out the plan for the elimination of grade crossings as required by this order, is there any occasion or necessity for changing the location of the station at Market street?

A No.

Q Can the present station where it now stands be modified in such a way as to conform to the proposed reconstruction of the tracks?

A It can.

Q In what way?

30 A We could erect platforms elevated to the new level of the track with canopies to protect the passengers waiting for trains and with stairways up from the side of the present station.

Q And would—what would be the approximate cost of so doing?

A The cost of the canopies and elevated platforms are already in the estimate and are not considered in the estimate just submitted, but the cost of building stairways and changing the roof could be done for
40 between six and seven thousand dollars.

William H. Brameld, direct.

Q With particular reference to the station platforms at Market street, is there any way of changing or shifting the tracks when elevated as proposed so that the present station at Market street might still be used without changing it over to the other side of Market street as required by the order?

A I believe there is enough width between the track and Ramapo avenue for a platform. If the width was not sufficient the platform could overhang Ramapo avenue as there is sufficient height to enable vehicles to get underneath, and stairways could be built down from this platform. 10

Q And I suppose as a last resort we could ask the city to vacate Ramapo avenue?

A Yes, we could move the tracks further to the south and get more platform room.

Q Or vacate Ramapo avenue in whole or in part?

A We could; it is possible to do so. 20

Q According to the plan as proposed, as required by the order, what becomes of the present station building?

A It is destroyed.

Q Do you know what the present value of the station building is?

A In the neighborhood of \$21,000. I believe the tax returns show it is \$21,800.

Q Is that a fair estimate, in your judgment?

A It is. 30

Q Have you examined this plan with particular reference to proposed change of location of Market street station with a view to see whether the new location would encroach upon the property of any other railroad company?

A I have.

Q What property would it encroach on?

A The property of the New York, Susquehanna and Western Railroad Company.

Q At what point and to what extent? 40

William H. Brameld, direct.

A Adjacent to the right of way of the Erie Railroad Co. and immediately west of Park avenue it is proposed to build a waiting shed and stairways to the platform on the New York, Susquehanna and Western property, and to move the present sidewalk out into the roadway, narrowing up the driveway on Crosby Place.

- 10 Q You are familiar with the situation at present at Crosby Place, are you not?

A Yes.

Q This new location of the sidewalk which adjoins the present right of way of the Erie Railroad or the Paterson and Ramapo Railroad—

A Yes.

Q Would that sidewalk be interfered with by this new location?

- 20 A It would. It would be entirely used by the new waiting shed and stairway.

Q Would any part of the roadway at Crosby Place be used or interfered with?

A I believe a small portion of it would, but the present sidewalk would be moved out and narrowed up to a four or five-foot sidewalk which will be located in the present roadway.

Q That is to say, the present sidewalk would be entirely occupied by a part of the new station?

A By a part of the new station.

- 30 Q And the plan requires another sidewalk to be constructed which would extend into the roadway four or five feet?

A Yes, sir.

Q Referring now to the part of the order and plan which requires a change of the siding and other facilities of Morris & Co., will you state what the plan as ordered requires to be done in that connection?

- 40 A The present facilities of Morris & Co. will be destroyed to provide a location for the new passenger depot at Market street. The plan proposes to

1955

William H. Brameld, direct.

erect a new building for Morris & Co. on Railroad avenue just opposite the present freight station in the vicinity of Cedar street.

Q Have you made an estimate of what that would cost?

A Yes, \$40,000. That already appears in the testimony.

Q That includes a reproduction, as I understand it, of their present facilities? 10

A Yes, in the new location.

Q Does not include anything for cost of land because Morris & Co. does not own the land where they now are?

A No.

Q Does not include any item for loss of business, if any?

A No.

Q Is there anything on this plan as proposed for the elimination of these crossings which makes it necessary as a part of the plan of elimination to destroy the present facilities of Morris & Co. and to change the location of them and furnish new facilities as required by that plan and order? 20

A No. If the grade crossings were eliminated without moving Market street station, then Morris & Company's facilities could remain where they are, but the track serving them would have to be elevated.

Q Is there anything in the elimination plans as required which make it necessary for the railroad company or anybody else for that matter to relocate the facilities of Morris & Co.? 30

A Yes; the moving of the station—

Q The moving of the station would—

A Would require the destruction and the finding of other facilities for Morris & Co.

Q Provided they wanted to keep on doing business?

A Yes, sir.

William H. Brameld, direct.

Q Is there anything in the elimination of the crossings?—

A No.

Q —which makes it necessary?

A No, the crossings could be eliminated without making these proposed changes in Morris & Company's facilities.

10 Q And without providing new facilities for them?

A Yes.

Q Have you examined the plans with reference to the Fullers Express Co.?

A I have.

Q And what is required by the plan as to that company?

20 A The destruction of their present facilities and the rebuilding of their buildings and additional side tracks in a new location on the side of the present passenger station.

Q What is the estimated cost of doing that work?

A \$12,000.

Q You have included that in the estimate on the same sheet as the estimate of Morris & Co.?

A I have. It is the same figure that was used in the previous testimony taken in the grade crossing case.

Mr. Hobart. I offer this estimate for Morris & Co. and Fullers Express Co.

30 (Marked Exhibit Erie 18.)

Q Is there anything in the elimination plan which makes it necessary to make these changes in the location of Fullers Express Co.?

A No.

Q Can the elimination be carried out properly and successfully without making any change whatever in Fullers Express Co.?

40 A No, there would be some changes to be made to adapt the building to the level of the tracks.

1957

William H. Brameld, direct.

Q Is there anything in the elimination of the crossings which would make it necessary to destroy the building now occupied by the Express Company?

A No, the crossings could be eliminated without doing that.

Q And is there anything in the elimination which would make it necessary to the success of carrying out the elimination scheme which makes it necessary to provide other facilities for Fullers Express Co. as required by this order? 10

A No.

Q I ask you to turn to the River street station, have you prepared an estimate of the cost of the relocation and rebuilding of that station?

A I have.

Q And this estimate is based upon the order under review and the plan?

A It is. 20

Q And what is the amount of that estimate?

A \$24,265.

Mr. Hobart. I offer the estimate.

(Marked Exhibit Erie 19.)

Q This estimate of \$24,265, does that represent the increased cost of relocating and rebuilding the River street station as required by the order as compared with the cost of modifying the present station?

A Yes. 30

Q What would it cost to adapt the present station to the tracks if elevated as required by the order?

A Not over \$1,500.

Q For the purpose of carrying out the elimination plan is there any occasion or necessity for rebuilding or relocating River street station?

A No, sir.

Q Is it necessary as a part of the plan to tear down the old station?

A No, sir. 40

1958

William H. Brameld, direct.

Q What is the present value of that station?

A In the tax returns I find it is valued at \$1,180.

Q Does the plan require the destruction of the existing station?

A It does.

Q And the construction of a new station?

A Yes.

10 Q On a different location?

A Yes.

Q On that relocated station at River street is there any part of the order or plan which requires the relocation or the reconstruction of sidewalks?

A There is.

Q Please state what that is as shown on the plan as ordered by the Board?

20 A The crossing at River street is moved farther west than at present, and where the sidewalk crosses diagonally at the present time it is changed to run parallel to the railroad track on the railroad right of way to the new undergrade crossing.

Q Is the location of the sidewalk shown on the plan?

A The location of the proposed sidewalk is shown on the plan.

Q And it is different from the existing location of the sidewalk at that crossing or as you approach the crossing?

30 A Yes.

Q Shown on that plan by what—dotted lines?

A Dotted lines.

Q Now, I will ask you to turn to the crossings at Clay and Straight streets, does the plan as ordered continue those crossings as they now are?

A The plan proposes to eliminate the crossings by undergrade crossings on the lines of the present streets.

40 Q And to have two undergrade crossings at the lines of the present streets?

1959

William H. Brameld, direct.

A One at each street.

Q Separate crossing at each street?

A Yes.

Q Have you considered the question of eliminating the existing grade crossings at Clay and Straight streets by a consolidation of those two crossings?

A I have.

Q Have you prepared a plan showing how Clay and Straight street crossing could be consolidated? 10

A I have.

Q And is this the blue-print that you have before you?

A Yes.

Q And have you prepared an estimate of the saving to the railroad company?

A I have.

Q How much does that amount to?

A The saving in the plan amounts to \$58,951.13. 20

Q That is the saving in the plan by consolidating the two crossings over what the order of the Board requires, that is to say, to keep each crossing separate as they now are?

A Yes.

Mr. Hobart. I offer the blue-print and the estimate together.

(Marked Exhibit Erie 20, consisting of two sheets and a blue-print.)

30

Q Will you state generally how this consolidation of these two crossings could be made at this saving? Of course the plans speak for themselves, but you may state it in a general way, if you will.

A The plan proposes to lay out new street lines, the center line of the street commencing at the south side of the tracks at the intersection of Clay and Straight streets; thence running across the railroad to a point midway between the intersection of Plum street and Clay street and Peach street and Straight 40

1960

William H. Brameld, direct.

10 street. The highway parallel to the railroad is directly in a line with the intersection of Plum street and Clay street and Straight and Peach street. The plan calls for a 36-foot driveway and two 12-foot sidewalks, making a 60-foot roadway. The grades proposed on the new streets are four per cent., the same as used in the plan ordered by the Board of Public Utility Commissioners, and the track work is just the same as that ordered by the Board of Public Utility Commissioners; in other words, the track is raised and there are only three tracks as shown on the plan. This plan simply proposes a change in the layout of the streets.

Q And of those two streets only?

A Yes.

Q It does not affect the general plan for elimination as ordered by the Board?

20 A No.

Q Have you included in your estimate of the cost of doing the work in this manner any allowance for the real estate that would be required to be taken?

A I have.

Q You put that in at \$45,000?

A \$45,000 land and damages. Damages probably about \$1,000, and \$44,000 for the land.

30 Q I want to call your attention to that part of the order and plan which substitutes for the existing crossing at Cedar street a crossing under the railroad at Taylor street; is there at the present time a crossing at Cedar street?

A Yes, sir.

Q Have you examined the order and the plan to see whether or not it requires the railroad to construct a crossing at Taylor street?

A The order and plan requires the construction of an undergrade crossing at Taylor street.

Q Is there a crossing there at the present time?

40 A There is not.

1961

William H. Brameld, direct.

Q Never has been?

A To my knowledge, no.

Q Have you made a detailed estimate of the cost of constructing this undergrade crossing at Taylor street?

A I have.

Mr. Hobart. I offer it.

(Marked Exhibit Erie 21.)

10

The Witness. This estimate covers the items that are affected by the building of this undergrade crossing and are included in the estimates as previously submitted in this case.

Q It is not in addition?

A These figures are all in on the old estimate, but this is a separation of them showing the items that are chargeable to this undergrade crossing.

Q Is there anything in the plan for the elimination of these crossings which makes it necessary to construct this new crossing at Taylor street?

20

A No.

Q Can the plan for the elimination of the crossing be carried out just as well without building any such new crossing at Taylor street?

A It could.

Q Now, call your attention to that part of the order and plan which requires the construction of an undergrade crossing at Montgomery street, is there any crossing at grade or otherwise at that street at the present time?

30

A There is not.

Q Does the plan require the railroad to build a crossing at Montgomery street?

A The plan requires the railroad company to build an undergrade crossing at Montgomery street.

Q Have you prepared an estimate showing the cost of that part of the work?

A I have.

40

William H. Brameld, direct.

Q Is that included in the general or total estimates previously offered in evidence?

A It is.

Q And this is merely a separation of the items chargeable to that particular work also?

A It is.

Mr. Hobart. I offer it.

10 (Marked Exhibit Erie 22).

Q Is there anything in the elimination plan which makes it necessary to construct a new undergrade crossing at Montgomery street?

A No.

Q Could the plan be carried out just as well without such a construction?

A It could.

20 Q Now, calling your attention to the crossings at Governor street and Fulton street; at the present time are there undergrade crossings there?

A There are undergrade crossings at both at the present time.

Q And what does this plan of the Board require to be done with those crossings?

A Requires that abutments and bridges be raised, and that new approaches be constructed for a side walk.

30 Q Have you made an estimate of the cost of changing the existing undergrade crossings at those two streets in order to conform to this plan as ordered?

A I have.

Mr. Hobart. I offer estimate of the cost of changing crossings at these two streets.

(Marked Exhibit Erie 23.)

40 Q Have you included in the estimates for Governor street and for Fulton street any allowance for the present value of the material that would be de-

1963

William H. Brameld, direct.

stroyed by making these changes as required by the Board?

A I have not. At Governor street it would be \$4,250 and at Fulton street \$3,400.

Q You have included those estimates in the estimate previously referred to as the present value of the material destroyed at Essex street, have you not?

A Yes, sir.

10

Mr. Hobart. I offer this estimate.

(Marked Exhibit Erie 24.)

Q I want to call your attention to an estimate previously made by you for Madison avenue, being included in Exhibit R-104 at page 1327 of the present record, in which appears among other items an item of \$15,000 for land; what is the occasion for including that allowance in the estimated cost relating to Madison avenue?

20

A The order of the Public Service Commission calls for the relocating of a portion of the street to enable the approaches to the overhead crossing to be built so that the present traffic from Madison avenue into the highway running parallel with the railroad to Lakeview will not be disturbed, and the amount used in the estimates for the value of that land was \$15,000, to provide for the relocation of Madison avenue.

Q Under the present order of the Board the tracks at Madison avenue are not changed, are they?

30

A No.

Q How is the crossing eliminated?

A By an overhead crossing.

Q That is, the street is carried over?

A The street is carried entirely over the railroad.

Q So far as the tracks are concerned, is there any occasion for changing the location of the highways, any necessity for it?

A No.

40

William H. Brammell, direct.

Q Now, calling your attention to an estimate which was included under the item of signals and wires, Exhibit R-102 at page 1307 of the present record, you have included in this a charge of \$20,000 for signals and wires, does that include all the wires and signals along the present right of way?

A It does.

10 Q Which would be affected by the Board's order?

A Yes.

Q What part of that, approximately, would be Western Union Telegraph wires as distinguished from other wires?

A Why, taking care of the wires will cost about \$15,000. About two-thirds of that, or \$10,000, would be the cost to the Western Union, and the other third would be chargeable to the Erie Railroad Company's wires.

20 Q Have you prepared another and entirely different plan for the elimination of the crossings at Straight street, Clay street and Cedar street, involving the combination of Straight street and Clay street?

A I have.

Q And have you prepared an estimate of it?

A I have.

Mr. Hobart. I offer the estimate and blue-print together.

30

(Marked Exhibit Erie 25.)

Q State generally what this last mentioned plan contemplates to be done?

A I find that by combining Clay street and Straight street into one crossing midway between the present location of the streets that the tracks can be—that it is not necessary to raise the tracks as high as in the plan ordered by the Board. Under this plan the tracks will be raised 4 feet at Straight and Clay

40

streets, and the drainage will be into the 40-inch

1965

William H. Brameld, direct.

brick sewer on Clay street draining to the manhole at the corner of Madison street and Clay street.

Q And what becomes of the Cedar street crossing?

A The Cedar street grade crossing will be eliminated by an undergrade crossing.

Q Substantially on the present lines of Cedar street?

A Within the present lines of Cedar street for the undergrade crossing. The undergrade crossing will consist of one roadway twenty-four feet wide and one six foot sidewalk, the sidewalk running from Straight street to Railroad avenue, and thence to the present surface of Railroad avenue by means of stairs. The approach to the subway on Railroad avenue will be twenty-four feet wide without any sidewalk. 10

Q Now does this proposed plan of yours cover any particular subdivision of the crossings as designated in the order of the Board?

A This plan covers the eliminations of the same crossing as is done under section C of the plan ordered by the Board. 20

Q Does it cover all of C?

A It covers all of C.

Q And what is the estimated saving in the cost to the Railroad Company as shown by your estimate Exhibit Erie 25?

A \$360,381.20.

Q And is there anything in this present plan of yours which would affect the elimination of the other crossings in the other sections as ordered by the Board? 30

A No.

Q Those other crossings could be taken care of in the same way as now ordered?

A They could. If you want me to further describe these driveways—

Q Please give further details as to the approaches and the driveways at Cedar street under your present plan? 40

William H. Brumfield, direct.

A We leave an eighteen foot driveway along the McNabb & Harlin building on Cedar street, and the plan contemplates the purchase of a ten foot strip from the Graham Brewing Co. and the moving of their frame stables ten feet in on their property. This is to provide an eighteen foot driveway to Ramapo avenue.

10 Q Anything further on this plan?

A I would say that under this plan the Railroad Company's facilities in connection with the yard and freight house would remain—would operate as at present.

Q As contrasted with what method of operation as ordered by the Board?

A As contrasted with the operation on the plan ordered by the Board, being from the middle of the yard with a switchback movement into the freight house.

20 Q Which is the better scheme from the operating standpoint?

A This scheme.

Q The one that you now suggest?

A Yes.

Q Have you made a careful study of the plan and profile attached to the order of the Board with a view to ascertaining the effect of carrying out said plan upon the various sidings?

30 A I have.

Q And have you before you a copy of the plan attached to the order?

A I have.

Q Referring to this plan and the profile in connection with it, state what effect the carrying out of the order in conformity with that plan and profile would have upon the siding of the Passaic Steel Company?

40 A The siding of the Passaic Steel Company from Straight street to the Newark branch will be destroyed.

William H. Braumfeld, direct.

Q Is there any provision for another siding to take its place?

A There is no provision made on the plan for another siding to take the place of it.

Q What effect does the plan have upon the siding of R. H. McDonald?

A The siding will be destroyed.

Q And the Paterson Vehicle Co.?

10

A The siding will be destroyed.

Q And the Paterson Beef Co.?

A The siding will be destroyed.

Q And David G. Rogers Co.?

A The siding will be destroyed.

Q And as to all of them is there any provision made for any other siding or any other facilities?

A No.

Q Have you prepared an estimate of the value of those sidings that are thus ordered to be destroyed?

20

A I have.

Q Is this the estimate?

A Yes.

Mr. Hobart. I offer it.

(Marked Exhibit Erie 26.)

Q Now take up the sidings described in the proceedings as the sidings of G. A. Zabriskie, Commercial Lumber & Millwork Co., Christopher Kelley, M. Gobel, National Wood Co. and Standard Oil Co.; what effect does the order have upon those sidings?

30

A The siding to G. A. Zabriskie—the siding at present is on the railroad right of way. The building is owned by the occupant and is built on land leased by the Railroad Company. Siding is moved to an average distance of twenty feet from the building. Siding at present is practically level. Plan proposes to put this siding on a 2.3 per cent. grade, depressing track at the end of the building .6 of a foot and raising it at the west end of the building .6 of a foot.

40

William H. Brameld, direct.

The owner will have to build—there will have to be a platform built in front of the building.

Commercial Lumber & Millwork Co. The siding is in front of their building and is on their own property, and it will have to be lowered three feet, which will interfere with unloading as the siding is close to the building and the doors will have to be changed.

- 10 C. Kelley. The siding is on the railroad right of way. Building is owned by C. Kelley, land owned by Railroad Co. and leased to C. Kelley. Siding at present close to building. Will be moved to an average distance of 15 feet from buildings and placed on a 2.3 per cent. grade. Track will be raised .6 of a foot on east end and three and one-half feet at west end. Will have to build platform for unloading purposes.

- 20 M. Gobel. Siding on railroad right of way. Building owned by M. Gobel. Land leased from Railroad Co. Siding at present time close and parallel to building. Plan proposes to move it to average distance of forty-two feet from building and place on a 2.3 per cent grade. Track will be raised three and one-half feet at east end of building and 4.6 feet at west end.

- 30 National Wood Co. Siding on railroad right of way. Building owned by National Wood Co. on land leased from Railroad Co. Siding at present close to and parallel to building. Plan proposes to move siding to average distance of sixty-five feet from building and place on 2.3 per cent. grade. Track raised 4.6 feet east end and five feet on west end of building.

Standard Oil Co. The siding is off—siding and building off railroad right of way. The siding will be moved to an average distance of thirty feet from property line and raised six and one-half feet. The sidings for G. A. Zabriskie, Commercial Lumber Co., C. Kelley, M. Gobel, National Wood Co. and Standard Oil Co. are all served from the same siding at the present time.

- 40 Q At the present time?

William H. Brameld, direct.

A Yes. The new plan proposes to serve the Commercial Lumber Co. and G. A. Zabriskie from one siding. C. Kelley, M. Gobel and National Wood from another siding, and Standard Oil Co. from still another siding. These sidings will require two bridges over the proposed undergrade crossing at Taylor street.

Q Is there any bridge across Taylor street at the present time which corresponds to the proposed bridge as required by this plan? 10

A No.

Q In each of the cases that you have mentioned, namely, Zabriskie, Commercial Lumber Co., Kelley, Gobel, National Wood Co. and Standard Oil Co., are the sidings as they now exist required to be destroyed by this order. By sidings I mean the actual rails and ties on the ground?

A Except the Commercial Storage Warehouse Co. Their siding on their own property is simply lowered but the leads to it from the siding on the railroad property will be destroyed—will be changed altogether. 20

Q In other words, the existing sidings, with the exception you have named, are destroyed?

A Are taken up. They are destroyed as far as their present location is concerned. They are taken up and relaid in other places.

Q Provided the material is in condition to be relaid? 30

A Yes; I have estimated that it is.

Q Please give us a little further description of the proposed new bridge across Taylor street as required by this plan as to size and location, etc.?

A The siding of the Standard Oil Co. requires an entire new bridge spanning the entire street, and the sidings serving Commercial Lumber Co., Zabriskie, Kelley, Gobel and National Wood Co. require the construction of another bridge over Taylor street completely spanning the street. 40

William H. Brameld, direct.

Q Two separate bridges?

A Two separate bridges.

Q Neither of which now exists?

A Neither of which now exists.

Q Would these several sidings to which you have just referred, if they were built or rebuilt as required by that plan be capable of being used unless these two new bridges were built?

10

A No.

Q Please turn to the sidings of John Agnew Co. and state the effect of the order upon those sidings. There are two of them I think?

20

A Yes, two of them. There are really three. The siding of John Agnew running off the property of the company near the freight house at Cedar street and through Green street to Mr. Agnew will not be affected. The siding leading from the railroad property across Hamilton avenue into the coal shed of John Agnew Co. will be raised sixteen feet. This siding west of Hamilton avenue is off the railroad company's property. The lead from Hamilton avenue east to the main track is on the company's property. Will necessitate reconstruction of trestle and sheds on whole property and to reach same will require a bridge over Hamilton avenue.

Q Is there any bridge at the present time over Hamilton avenue?

30

A There is not. The siding just east of Governor street leading off from the company's property and on to the property of John Agnew Co.—these sidings will have to be torn down and rebuilt at the height of twenty-six feet whereas now there—now they are only sixteen. Thirty-two feet I should say, whereas they are only sixteen now.

Q In each case those two sidings would be destroyed and rebuilt?

A Yes.

William H. Brameld, direct.

Q Using that material—the old material—if practicable?

A I doubt whether you would be able to use the old material in this case.

Q Now turn to the several sidings described in the proceedings. Sidings of McNabb & Harlin Co., Graham Brewing Co., National Biscuit Co., Hygeia Ice Co., Paterson Consolidated Ice Co. and Bon Arbor Chemical Co. Please state the effect of the order upon those sidings? 10

A The sidings in front of the buildings themselves where they are used will not be changed. The lead from the westbound main track to the siding will be lengthened on account of the elevation of the tracks. The lead at the present time starts from the track about 250 feet east of Essex street and on the new plan will leave the main track about twenty feet east of Essex street. This lead will necessitate the construction of a retaining wall in Ramapo avenue. 20

Q That is one of the public streets in Paterson?

A Yes.

Q Are any of these sidings just mentioned at the present time located on or through public streets?

A The entire siding, with the exception of the lead, is on a public street; that is the portion of the siding west of Cedar street is. East of Cedar street it is on the property of McNabb & Harlin Manufacturing Co. 30

Q Well how much of this proposed new lead is located in a public street according to the plan?

A There is about 160 feet of it located entirely in the street and for 320 feet there is half on the railroad company and half within the public street, and the remainder of it is on the railroad company's property, that is, the division line between the railroad company's property and the street runs down the center of the track.

Q Now refer to Morris & Co. and Fullers Express Co., you have already given us the details of them, 40

William H. Brameld, direct.

but just to follow the thing in order, you may state generally what the result of the order is as to them?

A The building occupied by Morris Beef Co., which is owned by the Railroad Company on railroad land at present time, will be destroyed.

Q How about the siding?

10 A And the siding will also be destroyed to make room for the new depot. The Morris Beef Co.—the plan calls for the erection of a building for Morris & Co. on Railroad avenue just west of Cedar street.

Q And for a new siding at that point?

A No, the present siding will be moved over a little bit to accommodate.

Q Is there at the present time—

A There is a siding there and Morris & Co. in the new location can use that siding with slight modification.

20 Q What is that siding used for now?

A Team track.

Q It is a public siding?

A Public siding.

Q Not for the private use of any particular company?

A No.

Q Now as to Fullers Express Co.?

30 A The building occupied by Fullers Express Co. is on property of the railroad company. The building will be destroyed, and the siding will be destroyed to make room for the new depot. The plan proposes to build a new building for the Fullers Express Co. on the site of the present passenger station just east of Market street with a siding from the yard extended to serve their new building.

Q Is there any siding at that point at present?

A No.

Q So far as that siding is concerned it will be new construction?

40 A Yes.

William H. Brameld, direct.

Q Please turn to the siding that leads to the properties of Herman Co. and Sulzberger Sons Co.?

A The location of the siding—

Q There is one siding for both of those concerns?

A There is a siding that leads to Sulzberger Sons Co. and it is an extension of the siding that passes the property of Herman Co. There is only one lead from the main line track to reach both of these sidings. 10

Q What does the order require as to that siding?

A Requires that the siding be raised fifteen feet and requires a bridge over Ellison street. The siding at the present time for the Sulzberger Sons Co. is entirely on the Sulzberger Company's property. The siding to the Herman Co. is half on and half off the railroad company's property.

Q And where will the new sidings be with reference to the railroad property? 20

A Will be in exactly the same location as at present.

Q Same relative position?

A But raised fifteen feet.

Q Is there any bridges at the present time over Ellison street?

A There is not.

Q Turn now to the siding of Armour & Co., what effect does the order have upon that?

A At the present time the siding to Armour & Co. 30 leaves the main track 360 feet west of Hamilton avenue and runs for 210 feet on the railroad company's property, and then leaving the railroad company's property runs about 130 feet through Ramapo avenue to Armour & Company's building. The plan proposes that Armour & Co. shall be served by a siding leaving the main track just east of Keen street and paralleling the main track over Lafayette, Montgomery, Fulton and Governor streets to the place where the siding leaves the railroad company's right of way at the present time. 40

William H. Brameld, direct.

Q Is that an entirely different location from the existing siding?

A It is.

Q Are there any new bridges required in connection with that new siding?

A There are four new bridges required.

Q At what points?

10 A One at Lafayette street, one at Montgomery street, one at Fulton street and one at Governor street.

Q Are there any bridges at those points at the present time?

A Not for any sidings; there are two main track bridges only.

Q At each of the four streets?

A At Governor street and Fulton street but not at Montgomery street or Lafayette street.

20 Q Now turn to the siding of the Hinchcliffe Brewery; what effect does the order have upon that siding?

A The siding is entirely upon the railroad company's right of way and the location will not be changed. The siding will be raised sixteen and one-half feet.

Q It will be in the same relative position?

A Same position as it is now, but just sixteen and one-half feet higher.

Q Turn to the siding of the Katz Brewery?

30 A The siding, the present siding for the Katz Brewery, leaves the main track about fifty feet east of Fulton street and extends to within about thirty feet of Governor street paralleling the main track. The plan proposes to move this track over approximately thirteen feet adjoining the long siding which is to be built to be used by Armour & Co. about seventy feet east of Fulton street, and thence using the long siding across Fulton street, Montgomery street, Lafayette street, and joining the main track just east
40 of Keen street.

William H. Bramfeld, direct.

Q At those streets will this siding be carried over on the same bridges that you mentioned in connection with the siding of Armour & Co.?

A Yes.

Q Take the siding of P. S. Van Kirk Co.?

A At the present time the siding for P. S. Van Kirk Co. leaves the main track about seventy feet east of Montgomery street and extends on the company's property about 170 feet, then off the railroad company's right of way a distance of about 200 feet. The plan proposes to raise this siding about three feet and connect with the long siding described as running to Armour & Co. across Montgomery street, Lafayette street and joining the main track just east of Keen street.

10

Q Take the siding of the Diamond Coal Co.?

A The siding of the Diamond Coal Co. at present leaves the siding to the P. S. Van Kirk Co. about 160 feet east of Montgomery street, thence on the railroad company's property for a distance of about 210 feet, and then paralleling the railroad company's property for a distance of about 100 feet. The plan proposes to place this siding on a trestle partly on and partly off the company's property.

20

Q Olive Oil Soap Co.?

A The Olive Oil Soap Co. uses the same siding as P. S. Van Kirk Co.

Q And the same remarks apply to it as to P. S. Van Kirk Co.?

30

A Yes.

Q Taking the siding of A. H. Smith?

A At the present time the siding of A. H. Smith leaves the main track about 100 feet east of Warren street, and thence parallels the main track to within ten feet of Lafayette street about thirteen feet distant from the main track. The siding is entirely upon the railroad company's property. The plan proposes to move this siding about seventeen feet to a position

40

William H. Brameld, direct.

parallel with the right of way line of the railroad company and raising it twelve feet. This siding will lead toward the long siding described as being built to reach Armour & Co. just east of Lafayette street and extends parallel to the right of way line across Franklin street and then becomes a part of the siding to Meyer & De Vogel.

10 Q Is this new siding partly off the railroad property?

A The plan shows a siding leading from the siding above mentioned on to the property of A. H. Smith.

Q To what extent is it off the railroad property?

A The plan only shows it extending approximately twenty-five feet off the railroad company's right of way.

Q Now the siding of Meyer & De Vogel; what happens to that under the order?

20 A The siding of Meyer & De Vogel leaves the siding to A. H. Smith, about thirty feet west of Keen street and thence crossing Keen street parallels the right of way line of the railroad company and Franklin street. The new plan proposes to make the Meyer & De Vogel siding an extension of the new siding to A. H. Smith and it will be built at an elevation fifteen feet higher than the present siding.

Q Is it partly off the right of way?

30 A Entirely on the railroad company's right of way.

Q Armstrong Sons' Co.; what happens to that siding?

40 A Armstrong Sons' Co. siding will be raised sixteen feet and is entirely upon the railroad company's right of way. The present siding is an extension of the siding leading across—leading from Warren street across Keen and Franklin and Lafayette streets. The proposed plan is to make the lead for this siding from the main track about 110 feet east of Montgomery street, crossing Montgomery street on a new bridge

William H. Brameld, direct.

and thence on a trestle on the railroad company's right of way 150 feet long. The new track will be sixteen feet higher than the present siding.

Q Is there any bridge at Montgomery street at the present time?

A No.

Q There is another siding of A. H. Smith which has been referred to in the proceedings here and on the siding map Exhibit 23a as No. 32, what happens to that? 10

A That is the industry adjacent to the railroad just west of Lafayette street. The present siding is a continuation of the siding from Warren street across Keen and Franklin streets, the lead to said siding being a cross-over between the siding and the main track located just east of Franklin street. This siding is entirely on the railroad company's right of way. The new location is the same as the present but is raised sixteen feet. 20

Q Now the siding of D. Fullerton & Co.?

A The same remarks as apply to A. H. Smith No. 32.

Q Now take the sidings of Atherton Grain Co. and J. A. Lydecker?

A The sidings serving the Atherton Grain Co. and the J. A. Lydecker Co. are on the long siding extending from Warren street across Keen to Franklin street. Entirely upon the railroad company's right of way. The new siding is—the proposed siding is on the same location as the present but will be raised sixteen feet, requiring a bridge across Keen street. 30

Q Is there any bridge there at the present time?

A No.

Q Take now the siding of the Public Service Gas Co.?

A At the present time the Public Service Gas Co. have two sidings leading from the siding serving the Erie freight station at River street. They cross Wait 40

William H. Brammald, direct.

street into the property—on to the property of the Public Service Corporation of New Jersey. The present—the proposed plan leads this siding from the siding to J. A. Vander Hendel at the east end of the freight house, extends through Wait street to a point just east of Lyon street and thence on to the lands of the Public Service Corporation of New Jersey.

- 10 Q Does the new siding cross or pass through one or more public streets?

A Passes through Wait street.

Q For how long a distance approximately?

A 390 feet. No, more than that, 420 feet.

Q What part of the new siding for the Public Service Gas Co. is required to be constructed off the railroad right of way?

A All of it.

- 20 Q Take the siding of J. Vander Hendel, is that affected?

A J. Vander Hendel siding is not affected otherwise than to install this turnout from it.

Q Take the sidings of Swift & Co., H. M. Post, Ashley & Bailey, National Silk Dyeing Co., Grasselli Chemical Co., Auger & Simon Co., Center Paper Box Co. and Waldo Silk Ribbon Co., what effect does the order have upon those sidings?

- 30 A The siding to Swift & Co. at the present time leaves the siding to the freight house at a point about forty feet west of Lowe street. The plan proposes to lead the switch to Swift & Co. from a new track to be built parallel and about eight feet from the right of way line of the company. The change made will practically be all on the lands of the Erie Railroad Company. Henry M. Post siding will not be changed, except that a turnout will be laid where this siding leaves the main track to enable the building of the track from which Swift & Company's siding will lead. The siding to Ashley & Bailey will not be changed as
40 to location, but the turnout where it leaves the siding

William H. Brameld, direct.

on the railroad company's property will be raised about six inches. The same applies to the National Silk Dyeing Company's siding, but the track will be raised about two feet, necessitating the raising of the track across the public street, which will require re-grading to get over the raised elevation of the siding. The same applies to the Grasselli Chemical Co. whose siding will be raised approximately two feet where it leaves the main side track and the street will have to be raised about two feet where this siding crosses it. The same applies to the Auger & Simon Silk Dyeing Company's siding. The siding to the Center Paper Box Mfg. Co. and the Waldo Ribbon Co., both concerns using the same siding, will remain in its present position and will be raised about three feet. All of the siding except the turnout is located off the railroad company's right of way.

10

Q Of these several sidings last mentioned, Swift & Co., H. M. Post, etc., can you state which of the required construction is off the right of way and which is on?

20

A The raising of the turnout and a small portion of the track is on the railroad company's right of way, and there will be about sixty to seventy feet of the track will have to be raised within the limits of Wait street.

Q How about the leads or connections of these several last mentioned sidings?

30

A They will have to be raised on the railroad company's property to make the connection with the new grade of the sidings.

Q So that the present connections will have to be destroyed and these other connections made?

A They will have to be raised up. Some of it might be destroyed. The present ballast would be destroyed and they would put new ballast in. I do not think it will be necessary to take it up altogether. I just figured on raising—

40

William H. Brauwald, direct.

Q Together with the total?

A Yes.

Q You have testified to the necessity of constructing certain bridges in order to conform to the Board's plan as ordered?

A Yes.

Q Have you included the cost of those bridges in this estimate Exhibit Erie 28?

10

A I have.

Q And how have you divided that cost with reference to the several siding owners?

A I have divided the cost of the bridges between—equally among the siding owners using said bridges.

Q And as to some of these leads, you mentioned several leads that went to different sidings or at least to more than one?

A Where there is more than one switch owner on a siding, I have divided the cost up equally between the siding owners for the common work. That is, the work on the siding where it would be used by each of them.

20

Q In this estimate that you have here there is apparently a summary of the cost, have you taken that summary from actual details?

A Actual detail figures.

Q Which you prepared?

A Which I did myself.

Q Referring again to these several bridges which you mentioned in connection with the construction of the new sidings or new leads, are there any of those bridges that carry the main line tracks as they now exist or that proposes to carry main line tracks?

30

A No.

Q In every case do they carry merely side tracks?

A Just the siding tracks or leads.

Q So far as the elevation of the main line tracks is concerned as required by this order, is there any necessity for the construction or building of these new

40

William H. Bramfeld, direct.

Q At any rate, there would have to be some changes made?

A Yes.

Q Have you taken the plan attached to the order and indicated on that plan in any way the various changes in the sidings to which you have testified?

10 A I have taken the plan attached to the order of the Board of Public Utility Commissioners, and on that plan I have shown in red the location—the present location—of the sidings where they will be changed as to location. The present location of the siding being shown in red.

Q The plan as I understand it shows the sidings as they will be when this work is done?

A The plan shows the sidings as they will be when this work is completed.

20 Q And have you this plan with these sidings noted there in red before you?

A I have.

Mr. Hobart. I offer it.

(Marked Exhibit Erie 27.)

Q Have you prepared an estimate of the cost of making these changes to which you have testified in the sidings and leads and connections and buildings and the new bridges to which you have referred?

A I have.

30

Mr. Hobart. I offer it in evidence.

(Marked Exhibit Erie 28.)

Q Have you in preparing this estimate divided the cost with reference to the constructions that are on the railroad property as compared with the constructions off the railroad property?

A Yes.

Q And you have so indicated on the estimate in the appropriate column?

40

A I have.

William H. Brameld, direct.

bridges for the sidings and leads; in other words, is it necessary to have those other bridges if you elevated merely the main line tracks and cut off your connection with the sidings?

A No. You could raise the sidings up to the level of the main line tracks and get on to them just as you do now without crossing the streets.

10 Q Would any bridges be necessary under such an arrangement?

A It might be necessary to build a bridge over Keen street.

Q If, however, the main line tracks alone are elevated and the sidings are not touched, is there anything in the elevation of the main line tracks which would require either the elevation of the siding tracks or the construction of bridges on which the siding tracks might be placed; in other words, can you elevate the main line and disregard entirely these sidings and these new bridges that are required?

20

A Yes, but by cutting off the industries.

Q Have you examined this plan of the Board with a view to determining what effect it would have upon the present construction of the railroad yards and the operation of those yards?

A I have.

Q And what would be the effect upon the construction and the operation?

30 A I think that the plan as proposed would seriously interfere with and impair the operation of the yard.

Q For what reason?

A On account of the grades that are used and the movement into the yard not being a direct movement but a switchback movement. It would require considerable more switching and probably heavier engines or using lighter trains and more engines to perform the amount of switching that has to be performed

40

at this time.

William H. Brameld, cross.

Q Would it be more expensive to the railroad to operate it that way than at present?

A It would.

Cross examination by Mr. Merrey.

Q All these matters that you have testified to were contained in the plan proposed by the City of Paterson to the Board of Public Utility Commissioners, were they not? 10

A Not all. The plans—the changing of the sidings and the estimates for the sidings were all contained in the proceedings before the Board of Public Utility Commissioners, but they were not separated into the items as they are separated now. The matter of the combination of Straight and Clay streets into one crossing was brought to the attention of the Board as a suggestion by Mr. R. C. Falconer, superintendent of construction of the Erie Railroad Company, and the suggested treatment of Cedar street, due to the plan proposed at Straight and Clay by combining the crossing and only raising the track four feet enabled us to work out a plan such as has been presented on Cedar street. That plan was not presented to the Board, but works out in consequence of the suggestion made by Mr. Falconer as to the combining of Straight and Clay streets. 20

Q The plan adopted by the Commission is substantially the plan proposed by the City of Paterson, was it not? 30

A It is, with the exception of Madison avenue.

Q Outside of the treatment of Madison avenue, then all these criticisms might have been directed to the plan of the City of Paterson as proposed to the Commission?

A I believe so.

Q At the time the matter was pending before the Commission you were called by the Erie Railway Company to criticize a plan that was proposed by the city?

A Yes. 40

William H. Brameld, cross.

Q And outside of the suggestion as to the consolidation of Clay and Straight streets, did you make any of these suggestions which you have made to-day?

A There is only one change suggested that I have made to-day, which was the treatment of Cedar street. Outside of that—

10 Q You suggest now the changing of the station, that is, instead of putting the new station as proposed by the plan by the city you say the station may remain where it is now and serve its purpose by having plat-

forms erected on either side of the track?
A I believe I have testified to that as could be done. I have prepared estimates showing the cost of making the change or moving the station across the street, which I submitted, and incidentally that would require the taking care of the present facilities in their present location if that was not done. I have just
20 merely shown the increased cost to the railroad by doing that.

Q But you did not suggest in your examination before the Commission that it was possible to maintain the depot at its present place instead of changing it?

A I don't remember that I did.

Q You did not criticize or object to the widening of Essex street at that time?

A I think not.

80 Q And the widening of Essex street was as proposed by the city in its original plan?

A It was.

Q Nothing was said as to maintaining the Nelson Morris & Company's beef house in its present location was there before the Utility Commission?

A I do not remember that anything was by this company. I believe I remember Morris & Company's attorney or representative at that time mentioning something about it.

40 Q But no plan was suggested to the Commission whereby that might be done?

William H. Brameld, cross.

A No.

Q Nor whereby the Fullers Express Company building could be maintained in its present location?

A None that I know of.

Q The building of the Fullers Express Company is an old freight station?

A It is.

Q And it is in a very dilapidated condition now? 10

A It is.

Q And would probably be very difficult to elevate it or move it about any way?

A That all depends upon the construction of it and I have not examined it in detail.

Q The company did suggest a change, did it not, at River street, in the city's plan?

A I do not know that I suggested it. It may have been suggested by Mr. Falconer or some other official of the company. 20

Q And this is the first plan that you know of for the consolidation of the crossing at Straight and Clay streets that has been presented?

A Yes, the first plan.

Q The suggestion was made heretofore that it might be done?

A Yes, by Mr. Falconer.

Q This plan that you offer now for the consolidation of Straight and Clay streets requires the taking of some private property at this point for the connection with the street on the one side of the railroad with Straight street and Clay street? 30

A It does.

Q The property sought to be taken is property owned by the Commercial Lumber and Millwork Co. or E. M. Stiles?

A It is.

Q And is referred to in various parts of this testimony because of the switch running into it? 40

William H. Brameld, cross.

A It is. It also takes the property of Robert McDonald on the corner of Straight and Peach streets.

Q That is property that McDonald occupies?

A Occupies.

Q You don't know who the owner of the property is?

10 A I don't. I think McDonald. As far as I know, McDonald does.

Q You have given an estimate that the cost of making an undergrade crossing at Montgomery street would be about \$38,451?

A Yes, just for the work; building the abutments, bridges, and work in the street.

Q Is not Montgomery street now opened at grade?

A No.

20 Q The plan of the Commission that proposes the opening of Montgomery street, does it not propose the closing of a street nearby?

A It does.

Q You have given us the estimated cost of putting in an undergrade crossing at Taylor street. This crossing is put in in lieu of the one now at Cedar street, is it not?

A It is.

30 Q And in your new proposed plan for changing the plan of the Board at Cedar, Clay and Straight streets have you considered the saving by not opening Taylor street?

A Yes.

Q You have given us the cost of the changing of the undergrade crossing at Governor street and at Fulton street; those streets are now open?

A They are.

Q What does the order of the Commission provide?

40 A For raising the abutments and bridges sixteen feet higher than they are at the present time, and also for the construction of a new bridge at each street to serve industries.

1987

William H. Brameld, cross.

Q In this estimate which you gave us and which is shown in exhibit marked Erie 23, was the cost of those bridges to serve industries charged?

A Yes.

Q So that we have those in Exhibit Erie 23 and also in Erie 28?

A Those are the same figures.

Q They are duplicated?

10

A Duplicated.

Q The same thing would refer to Fulton street?

A Yes.

Q If the tracks of the company are elevated as proposed by the Commission it is necessary to do this work at Governor and Fulton streets?

A Not necessary, no. That is, it is necessary to do the—to raise the abutments, yes, and raise the bridges.

Q And in Erie 23 you are simply giving us the cost of doing that work?

20

A Yes.

Q That work cannot be saved and the tracks elevated at that point?

A No.

Q You have shown us in Exhibit Erie 24 the value of the work on Essex street which is destroyed; now then if Essex street was not widened to fifty feet as proposed by the Commission some of that present value would be retained?

30

A It would.

Q And could the walls of Essex street be used in case the tracks were raised as required by the Commission?

A The walls of the—on most of the structure would be or could be. All across the yard those walls could be retained if the street was not widened, and the bridges could be retained, just simply raised a foot.

40

William H. Brameld, cross.

Q You testified that one of the sidings of the Passaic Steel Co. marked No. 3 would be destroyed if this plan were followed?

A So the plan shows.

Q How many sidings are there into the works of the Passaic Steel Co.?

A I should think there were seven or eight.

10 Q And these others are not affected in any way?

A No.

Q So that the plan does not contemplate the cutting off of service to the Passaic Steel Co., but merely the elimination of one of their several buildings?

A Yes.

Q Can the company be served over these other sidings in lieu of No. 3, which is destroyed?

A I could not say that.

20 Q The siding of David S. Rogers is destroyed; is that now in use?

A Yes, I have occasionally seen cars in there—coal cars.

Q But it is not used for serving the mill?

A I don't believe so; it is used for getting in coal.

Q And the siding of the Paterson Beef Co., is not now in use?

A I could not say. I have seen cars in there on the siding; whether they were using it or not I don't know.

30 Q Has not the Paterson Beef Co. gone out of business and its business taken over by Morris & Co.?

A I could not say. I know the National Conditioning Co. is in there.

Q The siding of the Paterson Vehicle Co. is not in use at present?

A It is there and can be used. Whether they do use it or not I am unable to say.

Q You mentioned in your testimony that it would be necessary to put a number of bridges over Mont-

William H. Brameld, cross.

gomery and Fulton and Lawrence and some other streets in order to relieve those industries?

A Yes.

Q Those are merely extensions of the main line bridges, are they not?

A No, they would have to be entirely new bridges, separate bridges, because they are at a different elevation from the main track.

Q But these bridges are all adjacent to the bridges which carry the main track?

A Oh, yes.

Q And they would be built upon the same retaining walls?

A But the retaining walls to support the main tracks would be about sixteen feet higher than the retaining walls to support these bridges to the industries.

Q And there would simply be little extensions of the retaining walls that hold up the main track?

A They would be extensions of the abutments that hold up the main track?

Q And they are necessary in order that you may serve these various industries?

A According to the plans proposed by the Commission, yes.

Q You made a statement that by filling up and bringing this up to the height of the main tracks it would not be necessary to do that. I wish you would explain that?

A Take Armour & Co. If their siding was built on a trestle or a bridge up to their second story, their siding could leave the main tracks in their new elevation, and it would not be necessary to carry their siding down across Fulton street.

Q Then I take it that the siding of Armour & Co. runs into their industry at about the present grade?

A It does.

Q So that it must be carried down from the main tracks which are elevated?

William H. Brameld, cross.

A Yes.

Q And your proposition is that if instead of carrying them at grade they were brought at the same grade as the main tracks that the bridge would be saved?

A You would not have to build the bridge because you could get right off the main track.

10 Q But that would give us an amount of trestle?

A It would.

Q In any of these estimates have you shown the cost of this other kind of construction?

A No, I have just shown the cost of construction as proposed by the Board of Public Utility Commissioners, and I have not suggested any other method of treatment.

20 Q So that it may be that the method you suggest would be just as expensive in the end as the method proposed by the Commission?

A It may be.

Q And that because of other changes which would be made necessary?

A It might be just as expensive.

Q In referring to the McNabb & Harlin switch, you refer to the siding being on a public street, the new siding being on a public street; that is known as Ramapo avenue, is it not?

A Ramapo avenue.

30 Q That street is not paved?

A No.

Q And is not really used as a public thoroughfare?

A No, it is just used by the industries that are located on it for teaming purposes, and I believe there is one dwelling on it that is used just behind Royal's machine shop.

Q And that is at the lower end of the street?

A Lower end of the street.

40 Q And that part of the street is not affected by the proposed plan?

William H. Brameld, cross.

A Not affected.

Q The principal industry on this street is McNabb & Harlin?

A It is.

Q As a matter of fact it is the only industry upon the street at that point?

A No, there is a brewing company, and Bon Arbor Chemical Co. and National Biscuit Co.

10

Q But the brewing company does not use this street to go in and out?

A No.

Q They can get in from Straight street and also another side street?

A Yes.

Q The switch running from—running through this street now is somewhat above the grade of the roadway?

A Only at the lower end. The major portion of it, I would say, is about the level of the roadway.

20

Q The road is hardly passible for teams?

A Hardly.

Q Do you know whether McNabb & Harlin use it to team in or out?

A I do not know who is using it, I have seen teams in there.

TESTIMONY CLOSED FOR PROSECUTOR.

DAVID A. NEWTON,
Supreme Court Examiner.

30

*Exhibit Erie 1—Erie 2.***Exhibits for Prosecutor.**

Offered in connection with affidavits taken pursuant to order of September 27, 1915.

EXHIBIT ERIE 1.

10 Map entitled "New Busq. & Western R. R. map of lands at Straight street terminal, Paterson."

EXHIBIT ERIE 2.

20 THIS INDENTURE, made the tenth day of March in the year of Our Lord, One Thousand Eight Hundred and Eighty-two between GARRET A. HORART and JENNIE HORART, his wife, of the City of Paterson, in the County of Passaic and State of New Jersey of the First Part; and THE PATERSON EXTENSION RAIL ROAD COMPANY, a corporation organized under the laws of the State of New Jersey of the Second Part:

WITNESSETH:

30 That the said party of the first part, in consideration of the sum of One dollar to them duly paid before the delivery hereof, have remised, released and forever quit-claimed, and by these presents do remise, release and forever quit-claim to the said party of the second part, and to its successors, heirs and assigns, ALL those certain tracts or parcels of land and premises hereinafter particularly described, situate, lying and being in the City of Paterson, in the County of Passaic and State of New Jersey.

40 The First Tract: BEGINNING on what is now or was formerly known as the old road leading to what was formerly known as Posts Tavern adjoining lands now or late of Capt. Henry Van Blarcum and running thence North five degrees and forty minutes East one hundred and sixty-five feet along said Van Blarcum's land thence North eighty-three degrees and twenty minutes West sixty-six feet, thence South five degrees

and forty minutes West one hundred and sixty-five feet to the road thence along the road South Eighty-three degrees and twenty minutes East sixty-five feet to the place of Beginning. Containing one quarter of an acre.

The Second lot: BEGINNING on the Easterly line of the Paterson and Ramapo Rail Road at the distance of two hundred and seven feet six inches Southerly from the Southerly line of Ellison Street running thence (1) Easterly one hundred and thirty feet six inches to the North East corner of the Van Blarcum lot thence (2) Southerly along said lot fifty-six feet (3) Westerly one hundred and twenty-seven feet six inches to a point in the Westerly line of the said Rail Road distant seventy feet Southerly from the aforesaid Beginning (4) Northerly along the Rail Road seventy feet to the place of beginning. 10

Third Lot: BEGINNING on the South side of lands now or late belonging to the Society for Establishing Useful Manufacturers and running thence Southerly along the line of Straight Street one hundred and fifty feet to a lot of land designated as lot No. 9 on a map of lands belonging to the Estate of the late Jacob Van Blarcum deceased made by Cornelius Van Wagener Surveyor thence Westerly along the line of said lot one hundred and eleven feet six inches to lands now or lately owned by Thomas O. Colt thence Northerly along the line of said Colt one hundred and fifty feet to land of the Society aforesaid thence Easterly along said lands about one hundred feet to Straight Street the place of Beginning. Being lots designated Nos. 10, 11, 12, 13, 14 & 15 on said map above referred to and bounded on the North by lands of the Society U. M. West by lands of Thomas O. Colt South by lot No. 9 and East by Straight Street. 20 30

The Fourth Lot: BEGINNING at the point where the Northerly line of Willis Street intersects the Easterly line of Paterson and Ramapo Rail Road thence (1) 40

Exhibit Eric 1--Eric 2.

10 Northerly along said Rail Road two hundred and seventy two feet to the South West corner of a lot conveyed to Henry Muxxy & George H. Welles by the Society for Establishing Useful Manufacturers by deed dated July 7-1854 (2) Easterly along that lot one hundred and twenty seven feet six inches to Van Blaricum's lot (3) Southerly along that lot one hundred feet to the North East corner of the Parker lot (4) Westerly along that lot sixty six feet to the North west corner of said Parker lot (5) Southerly along said lot one hundred and sixty five feet to Willis Street (6) Along Willis Street Westerly forty eight feet to the place of Beginning.

20 EXCEPTING however thereout and from the above the following: Beginning on the Northerly line of Willis Street at the South West corner of a lot now of Hugh Riddle (1) Westerly along Willis Street sixty three feet (2) Northerly parallel with the said Riddle's Westerly line one hundred and twenty feet and nine tenths of a foot (3) Easterly sixty three feet to a point on the Westerly side of said Riddle's lot produced Northerly one hundred and nineteen feet and six tenths of a foot from the Northerly line of Willis Street and (4) Southerly along said Riddle's lot one hundred and nineteen feet and six tenths of a foot to Willis Street and place of Beginning. The above described premises being the same as were conveyed by
30 the party of the first part hereto by deed of Thomas Beveridge and wife by deed dated April 15, 1881 and recorded in Passaic County Clerk's Office in Book 8-6 of deeds page 617 &c. with the appurtenances, and all the estate, right, title and interest, dower and right of dower of the said party of the first part therein.

EXHIBIT ERIE 9.

**CERTIFICATE OF INCORPORATION
of the
ERIE RAILROAD COMPANY**

Dated November 13, 1895.

Filed and Recorded November 14, 1895, in the
Office of the Secretary of State of the State of New York. 10

Certificate of Incorporation of the Erie Railroad
Company.

WHEREAS, The property and franchises of The New
York, Lake Erie and Western Railroad Company, a
domestic stock corporation, were sold pursuant to
the judgment and decree of the Circuit Court of the
United States for the Southern District of New York,
the same being a court of competent jurisdiction, to
Charles H. Coster, Louis Fitzgerald and Anthony J. Thomas, and said sale having been duly confirmed by
said Court, the said property and franchises were, in
pursuance of said decree and the orders of said Court
made thereon, conveyed to the said Charles H. Coster,
Louis Fitzgerald and Anthony J. Thomas, who have
thereby acquired title to the said property and fran- 20
chises in the manner prescribed by law;

AND, WHEREAS, The said purchasers, Charles H.
Coster, Louis Fitzgerald and Anthony J. Thomas,
have associated with themselves the following-named 30
persons, namely: Temple Bowdoin, John Henderson
Emanuel, Jr., Albert Henry Gillard, Abran Banta
Hopper, Thomas Washington Joyce, Walter Schnyler
Kemeys, John Pierpont Morgan, Jr., Francis Lynde
Stetson, Mortimer Fitzalan Smith, William Stevens
Townsend, John Henry Tierney, Eben Briggs
Thomas, all of whom are citizens and residents of the
State of New York; and the said purchasers and their
associates desire to become a corporation pursuant
to the laws of the State of New York, and as such to 40

Exhibit Erie 9.

take and possess the property and franchises thus sold and which were at the time of sale possessed by said The New York, Lake Erie and Western Railroad Company, except the leases and contracts which, as specified in said deed of conveyance, said purchasers have elected not to assume or adopt, and such other leases and contracts sold with said property as the
 10 new corporation formed hereunder by said purchasers and their associates shall hereafter lawfully elect not to assume:

Now, THEREFORE, In conformity with the provisions of the laws of the State of New York in such case made and provided, we, the undersigned, Charles Henry Coster, Louis Fitzgerald, Anthony Johnson Thomas, Temple Bowdoin, John Henderson Emanuel, Jr., Albert Henry Gillard, Abram Banta Hopper, Thomas Washington Joyce, Walter Schuyler Kemeys,
 20 John Pierpont Morgan, Jr., Francis Lynde Stetson, Mortimer Fitzalan Smith, William Stevens Townsend, John Henry Tierney, Eben Briggs Thomas, being the said purchasers and their associates, do hereby certify:

FIRST. The name of the corporation whose property and franchises they have acquired as aforesaid is The New York, Lake Erie and Western Railroad Company, and said corporation was organized under a certain act of the Legislature of the State of New
 30 York, entitled "An Act to facilitate the reorganization of railroads sold under mortgage, and providing for the formation of new companies in such cases," passed May 11, 1874, being Chapter 430 of the Laws of 1874, as amended by an act, passed June 2, 1876, being Chapter 446 of the Laws of 1876, entitled "An Act to amend chapter four hundred and "thirty of "the laws of eighteen hundred and seventy-four, entitled 'An Act to facilitate the reorganization of rail-
 "roads sold under mortgage, and providing for the
 40 "formation of new companies in such cases.'"

Exhibit Erie 9.

SECOND. The sale aforesaid was made by authority of the United States Circuit Court for the Southern District of New York, under and pursuant to a decree authorizing and directing the same, which decree was made and entered in said court on the 21st day of August, 1895, in a certain consolidated cause in equity pending in said court, wherein bills in equity were filed by Trenor Luther Park against said The New York, Lake Erie and Western Railroad Company, and by the Farmers' Loan and Trust Company against said The New York, Lake Erie and Western Railroad Company and Trenor Luther Park; and also by authority of a decree of the Circuit Court of the United States for the Northern District of New York, entered on the 28th day of August, 1895; a decree of the Circuit Court of the United States for the District of New Jersey, entered on the 3d day of September, 1895; a decree of the Circuit Court of the United States for the Eastern District of Pennsylvania, entered on the 26th day of August, 1895; a decree of the Circuit Court of the United States for the Western District of Pennsylvania, entered on the 28th day of August, 1895; a decree of the Circuit Court of the United States for the Northern District of Ohio, Eastern Division, entered on the 30th day of August, 1895; a decree of the Circuit Court of the United States for the southern District of Ohio, Western Division, entered on the 29th day of August, 1895; a decree of the Circuit Court of the United States for the District of Indiana, entered on the 30th day of August, 1895; a decree of the Circuit Court of the United States for the Northern District of Illinois, entered on the 27th day of August, 1895; a decree of the Circuit Court of the United States for the Southern District of Illinois, entered on the 28th day of August, 1895; each of which decrees was ancillary to said decree of the Circuit Court of the United States for the Southern District of New York.

Exhibit Erie 3.

THIRD. (This paragraph is a description of the property sold at said sale. Included in said description is the following) :

10 "All and singular the railway of said The New York, Lake Erie and Western Railroad Company, from and including Piermont, on the Hudson River, to and including the final terminus of the said railway on Lake Erie, and the railway known as the Newburgh Branch from Newburgh to the main line, and also all that part of the railway designated as the Buffalo Branch of the Erie Railway, extending from Hornellsville to Attica, in the State of New York, and also all other railways belonging to the defendant Railroad Company, in the States of New York, Pennsylvania and New Jersey, or any of them, together with

20 all the lands, tracks, lines, rails, bridges, ways, buildings, piers, wharves, structures, erections, fences, walls, fixtures, franchises, privileges and rights of the said company, and also all the locomotives, engines, tenders, cars, carriages, tools, machinery, manufactured or unmanufactured materials, coal, wood and supplies of every kind belonging or appertaining to said Railroad Company, and all the tolls, income, issues and profits arising out of the said property, and all rights to receive or recover the same; also all the estate,

30 right, title and interest, terms and remainder of terms, franchises, privileges and rights of action of whatsoever name or nature in law or in equity conveyed or assigned unto the New York and Erie Railroad Company, or unto the Erie Railway Company, or by Union Railroad Company, a corporation existing under the laws of the State of New Jersey. * * *

FOURTH. The name of the new corporation intended to be formed by the filing of this certificate is

40 **ERIE RAILROAD COMPANY.**

Exhibit Eric 9.

FIFTH. The maximum amount of the capital stock of such new corporation shall be one hundred and forty-six million dollars (\$146,000,000), divided into one million four hundred and sixty thousand shares. Said capital stock shall consist of

Three hundred thousand shares of Non-Cumulative Four Per Cent. First Preferred Stock, of the par value of one hundred dollars each;

10

One hundred and sixty thousand shares of Non-Cumulative Four Per Cent. Second Preferred Stock, of the par value of one hundred dollars each, and

One million shares of Common Stock of the par value of one hundred dollars each.

THE FIRST PREFERRED STOCK shall be entitled to non-cumulative dividends, at the rate of, but not exceeding, four per cent. per annum, in each and every fiscal year beginning after the 30th day of June, 1896, in preference and priority to any payment, in or for such fiscal year, of any dividend on other stock; but only from undivided net profits of the Company when and as determined by the Board of Directors, and only if and when the Board shall declare dividends therefrom. If, after providing for the payment of full dividends for any fiscal year on the First Preferred Stock, there shall remain any surplus undivided net profits, the Board out of such surplus may declare and pay dividends for such year upon the Second Preferred Stock.

20

30

THE SECOND PREFERRED STOCK shall be entitled to non-cumulative dividends, at the rate of, but not exceeding, four per cent. per annum, in each and every fiscal year beginning after the 30th day of June, 1896, in preference and priority to any payment, in or for such fiscal year, of any dividend on the Common Stock; but only from undivided net profits of the Company remaining after providing for the payment of the full dividends for such fiscal year on the First

40

Exhibit Erie 9.

Preferred Stock when and as such undivided net profits shall have been determined by the Board of Directors, and only if and when the Board shall declare dividends therefrom.

THE COMMON STOCK shall be subject to the prior rights of holders of all classes of Preferred Stock at any time outstanding, according to the preferences thereof.

10

If, from the business of any particular fiscal year, excluding undivided net profits remaining from previous years, after providing out of the net profits of such particular fiscal year for the payment of the full dividends for such fiscal year on the First and Second Preferred Stock, there shall remain surplus net profits, the Board of Directors may declare, and out of such surplus net profits of such year may pay, dividends upon any other stock of the Company. But no dividends shall in any year be paid upon any such other stock out of net profits of any previous fiscal year in which the full dividends shall not have been paid on the First and Second Preferred Stock.

20

The new corporation shall have the right to redeem at any time either or both classes of its Preferred Stock at par in cash, if such redemption shall then be allowed by law.

30

All classes of stock of the new Company (except such number of shares as may be disposed of to qualify Directors) are to be vested in voting Trustees in the manner and for the period of time and subject to the terms and conditions set forth in the plan of readjustment and reorganization hereinafter mentioned.

SIXTH. The affairs of the new corporation shall be managed by thirteen Directors. The names and post-office addresses of the Directors for the first year are as follows:

(Then follow names and addresses.)

40

SEVENTH. Previous to the time of such sale, the purchasers thereof entered into a plan for, or in anti-

Exhibit Erie 9.

pation of, the formation of such new corporation and of the readjustment of the respective interests of the mortgage creditors and stockholders of said The New York, Lake Erie and Western Railroad Company, and for the representation of such interests of creditors and stockholders in the bonds or stock of such new corporation, and such purpose was made pursuant to such plan.

10

Such plan is as follows, viz:

(Then follows details of Plan of Readjustment and Reorganization of Interests in the New York, Lake Erie and Western Railroad Company.)

EIGHTH. No mortgage other than that provided for in such plan shall be put upon any property vested under such plan in the corporation, or hereafter acquired by the use of any of the bonds to be issued under its said mortgage, nor shall the amount of the First Preferred Stock be increased, except in each instance of the execution of any such mortgage, or of the increase of the First Preferred Stock, with the consent of the holders of a majority of the whole amount of the First Preferred Stock and a majority of the whole amount of the Second Preferred Stock, given at a meeting of the stockholders called for that purpose, and with the consent also of the holders of a majority of such part of the Common Stock as shall be represented at such meeting, the holders of each class of stock voting separately; nor shall the amount of the Second Preferred Stock of such corporation be increased except with like consent by the holders of a majority thereof and also of a majority of such part of the Common Stock as shall be represented at the meeting; but nothing herein contained shall limit the right or the power (hereby expressly reserved) of the new corporation to execute a mortgage in the nature of a purchase-money mortgage upon the Buffalo and Southwestern Railroad to secure bonds for the prin-

20

30

40

Exhibit Erie 10.

cipal sum of \$1,000,000 (besides interest), to be issued in part payment for the stock of that Company.

- 10 NINTH. The corporation may purchase, acquire, hold and dispose of the stocks, bonds and other evidences of indebtedness, of any corporation, domestic or foreign, and issue in exchange therefor its stocks, bonds or other obligations, from time to time, when and as determined by the Board of Directors; and the President and such other officers as shall from time to time be designated by the Board of Directors may, and when elected shall, in behalf of this corporation, act as Director in any other corporation in which this corporation shall be stockholder.

(Then follows testimonium clause and signatures of incorporators, acknowledgment and certificate.)

20

EXHIBIT ERIE 10.

THIS AGREEMENT, made and executed in duplicate, this 24th day of January, 1908, by and between the ERIE RAILROAD COMPANY, (hereinafter called the "Railroad Company") party of the first part, and FULLERS EXPRESS COMPANY, (hereinafter called the "Express Company") party of the second part:

WITNESSETH:

- 30 THAT WHEREAS, the Express Company is engaged in the handling of property and merchandise between the Cities of Jersey City, New Jersey, and Paterson, New Jersey, and desires to arrange with the Railroad Company for the use of certain property of the Railroad Company at Jersey City and Paterson for the more convenient handling of such property and merchandise and for the transporting of the same between said points.

- 40 NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00) to each of the parties herein by

Exhibit Erie 10.

the other in hand paid, the receipt whereof is hereby duly acknowledged, and of the mutual covenants and agreements herein contained, the parties hereto agree as follows:

FIRST: The Railroad Company hereby agrees to permit the Express Company to use the freight house in the City of Paterson which has heretofore been used by said Express Company, located between Ellison and Market Streets, for receiving, loading, unloading, billing and recording of property and merchandise handled by said Express Company; and the said Express Company agrees not to use said freight house for any other purpose than for the transaction of the business covered by this agreement, and not to permit said premises or any part thereof to be used for any other purpose without the written consent of the Railroad Company.

10

SECOND: The Railroad Company hereby agrees to permit the Express Company to use the portion of the freight house on Pavonia Avenue in Jersey City, formerly known as the freight house of the Northern Railroad of New Jersey, which has heretofore been used by said Express Company for receiving, loading, unloading, billing and recording of property and merchandise handled by said Express Company; and the said Express company agrees not to use said freight house for any other purpose than for the transaction of the business covered by this agreement, and not to permit said premises or any part thereof to be used for any other purpose without the written consent of the said Railroad Company.

20

30

THIRD. The Railroad Company agrees, without extra charge, to do the necessary switching and placing of cars for the Express Company at the aforesaid freight stations in Paterson and Jersey City, for the purpose of loading and unloading; and the Express Company agrees, at its own expense, to load and

40

Exhibit Erie 10.

unload into and from cars, all property and merchandise shipped or received by it, and to properly tally and record the same without any charge to the Railroad Company.

10 FOURTH: It is understood and agreed that in case the Railroad Company shall at any time during the existence of this agreement deem it necessary or convenient to provide the Express Company with freight
20 house facilities at points in Paterson or Jersey City other than those hereby assigned to this service or subsequently assigned in accordance with this article in place and in lieu thereof, the Railroad Company may assign other locations suitable for handling the traffic of the Express Company, and the Express Company agrees, at its own expense, to vacate the premises theretofore assigned and to transfer its business
20 to such other places as may be so assigned, and all of the provisions of this agreement shall thereafter apply to such new locations and the business transacted thereat to the same extent as to the prior location and the business previously transacted thereat.

 FIFTH. All business handled under this contract shall be way-billed by the Express Company in the customary manner for way-billing by express companies, and the Express Company agrees to forward to the Auditor of the Railroad Company at the close
30 of each month, and not later than ten days thereafter, all original way-bills for property and merchandise transported in either direction under this agreement during such month, also all forwarded and received
30 abstracts covering such billing, together with recapitulations or summaries and such other statements as may be requested by the Railroad Company, in order that the same may be checked by the Auditor of the Railroad Company. The Express Company further
40 agrees that it will always keep its books at Paterson, Jersey City or New York City in such manner that its

Exhibit Erie 10.

way-bills and statements of weight and revenue can at any time be verified, and said books shall at all times be accessible to the Railroad Company, its officers or agents, for such inspection.

SIXTH: It is further agreed and understood by and between the parties hereto that if the said Railroad Company shall at the request of the Express Company place or make delivery of cars at any other points than the freight houses at Jersey City and Paterson assigned to the Express Company's business or other locations substituted therefor in accordance with Article Fourth hereof or public team delivery tracks, the Express Company shall pay the Railroad Company switching charge for such service in addition to the other payments herein provided for. 10

SEVENTH: The Railroad Company hereby agrees to transport the property and merchandise of the said Express Company to and from Jersey City and Paterson only in the local passenger or freight trains of the said Railroad Company which run between those points, it being understood that freight trains will be used as far as possible, and that only when the traffic cannot be handled satisfactorily in such trains shall the Railroad Company be required to move the traffic on passenger trains. 20

EIGHTH: It is understood and agreed that the rate to be paid by shippers to the Express Company for traffic carried under this agreement shall in no case be less than the regular published tariff freight rate of the Railroad Company between New York and Paterson. 30

NINTH: The Express Company hereby covenants and agrees to pay to the Railroad Company an amount equal to thirty per cent. of the gross revenue derived from transportation, cartage, handling or other sources on all traffic handled by said Express between New York City, Jersey City and 40

Exhibit Erie 10.

Paterson, in either direction, which amount shall be paid in monthly payments covering an amount equal to thirty per cent. of the gross revenue so derived during the preceding month, and shall be paid promptly by the Express Company upon receipt of bill or voucher from the Railroad Company therefor; it being understood and agreed that the payment assured to the Railroad Company by the Express Company shall not in any event be less than Thirty-five thousand dollars (\$35,000) per annum.

At the end of each year while this agreement is in force, an accounting shall be had and the Express Company shall promptly pay to the Railroad Company any balance that may be found due the latter Company on account of the minimum hereinbefore provided for.

TENTH: The said Express Company further agrees to work exclusively over the lines of the said Railroad Company between the points herein specified, and further agrees to use every possible endeavor to increase and enlarge the business between those points, co-operating in every way with the officials of the Railroad Company.

ELEVENTH: The Express Company assumes all liability for loss of or damage to property or merchandise transported by the Railroad Company for the Express Company, and agrees to indemnify and save harmless the said Railroad Company and all lines or companies owned, leased or operated by it, their respective successors or assigns, of and from all such liability so assumed by the Express Company, whether arising from the dishonesty or negligence of the Railroad Company its officers, agents or employes, or from any other cause whatever, and from all costs and expenses connected therewith.

The said Express Company further assumes all risk of loss of or damage to its property or of injury to the persons of its officers, agents or employes occa-

Exhibit Erie 10.

sioned by, arising out of, or in any way connected with the carrying out of this agreement or the enjoyment of the rights and privileges herein provided for, whether caused by the negligence of the said Railroad Company or by that of any line or company leased, owned or operated by it or of its or their officers, agents or employes or otherwise, and hereby agrees to indemnify and save harmless it or them or either of them of and from all claims for such loss, damage or injury so assumed, and from all costs and expenses connected therewith.

10

TWELFTH: It is hereby further understood and agreed by and between the said Railroad Company and the said Express Company, that nothing in this agreement shall be construed or understood as giving to the said Express Company exclusive rights or privileges which may not be given to other parties upon the same terms as expressed in this agreement.

20

THIRTEENTH: The Express Company further agrees that it will not do any business between the said or any other points in opposition to the Railroad Company, but will contribute to the growth of the traffic of said Railroad Company, and said Express Company further agrees not to sell, assign, transfer or sublet any of its rights under this agreement or the whole or any part of the premises referred to herein to any other person or persons without the written consent of the Railroad Company first had and obtained, and in consideration thereof the Railroad Company agrees in every practicable and lawful way to protect the Express Company in the maintenance, enjoyment and increase of the traffic under the trade-mark which it uses as long as it continues to handle its business via the lines of the Railroad Company.

30

FOURTEENTH: It is mutually understood and agreed by and between the parties hereto, that in case

40

Exhibit Erie 10.

any decision of the courts or of any lawful constituted commission or body of the United States or of the States of New Jersey or New York having jurisdiction thereof shall be rendered, or any act of the Legislature of either of the said States, or of the Congress of the United States shall be passed, adverse to the continuance of the arrangement herein provided for, then this agreement shall cease and become null and void, and the said Railroad Company shall be released from all its obligations hereunder.

FIFTEENTH: The Railroad Company agrees, during the continuance of this agreement, so far as it lawfully may, to issue three annual passes good between Jersey City, New Jersey, and Paterson, New Jersey, to employes of said Express Company.

SIXTEENTH: This agreement, unless abrogated as hereinbefore provided, shall continue in full force and effect for the period of one (1) year from the date hereof, and shall continue thereafter until terminated by either party giving to the other one (1) year's notice in writing of its intention to cancel and terminate the same.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed by their respective presidents, and their corporate seals, attested by their respective secretaries, to be hereto affixed on the day and year first above written.

*Exhibit Erie 11.***EXHIBIT ERIE 11.**

THIS LEASE, made in duplicate this 14th day of May, A. D. 1910, by and between ERIE RAILROAD COMPANY, hereinafter designated as the Lessor, and MORRIS AND COMPANY, a corporation duly organized and existing under and by virtue of the laws of the State of New Jersey, hereinafter designated as the Lessee;

10

WITNESSETH THAT:

Said Lessor, in consideration of the rents to be paid and the covenants to be performed by said Lessee, as hereinafter recited, hereby leases to said Lessee the following described premises situate in the City of Paterson, County of Passaic and State of New Jersey, viz:

20 BEING so much of the first floor of the brick building known as the "Old Machine Shop" of said Lessor located on the northerly side of Market street, as lies south of a partition crossing said building at right angles distant one hundred two (102) feet eight (8) inches, measured northerly along the outside of the easterly wall of said building, from the southeasterly corner of same.

30 AND ALSO so much of the second floor of said building as lies directly over said first floor between the above mentioned partition and a partition on the second floor crossing said building at right angles at a point distant twenty-four (24) feet eight (8) inches, measured northerly along the outside of the easterly wall of said building, from the southeasterly corner of same to a height not exceeding five (5) feet ten (10) inches.

AND ALSO the premises bounded and described as follows:

40 BEGINNING at a point in the northerly line of Market street, which point is the southwest corner of the said "Old Machine Shop": running thence northerly along the westerly side of the said "Old Machine

Exhibit Eric 11.

Shop" ninety-seven (97) feet; thence westerly at right angles to the last mentioned course six (6) feet; thence northerly at right angles to the last mentioned course twenty-five (25) feet; thence westerly at right angles to the last mentioned course nineteen (19) feet; thence southerly parallel to said westerly side of the said "Old Machine Shop" to the said northerly line of Market Street; thence southeasterly along said line of Market Street twenty-seven (27) feet to the point of beginning, in substantially the location and position shown enclosed by red lines on the blue print hereto annexed and made a part hereof. 10

TO HAVE AND TO HOLD the same unto said Lessee for the term of one year from the first day of February, A. D. 1910, subject to all the conditions and covenants hereinafter recited: it being mutually understood and agreed that his lease may be terminated and cancelled by said Lessor, its successors or assigns, at any time by giving at least sixty (60) days previous notice in writing to said Lessee of the time when the same will be so terminated and cancelled; but in case of non-payment of rent by said Lessee as hereinafter provided, or the violation of any of the other provisions of this lease by said Lessee, said Lessor, its successors or assigns, may terminate and cancel this lease by giving not less than three (3) days similar notice to said Lessee: it being further understood and agreed that if this lease shall continue for the full term above specified, then it shall continue on the same terms and conditions except as modified by mutual agreement until terminated by either party hereto giving to the other party hereto at least sixty (60) days previous notice in writing of such termination. The notice herein provided for to be given by said Lessee shall be served on the General Land and Tax Agent hereinafter mentioned, and either of the notices herein provided for to be given of said Lessor, its successors or assigns, may be served personally 20 30 40

Exhibit Erie 11.

upon said Lessee, or by leaving it with any person occupying said premises, or with any servant or employe of said Lessee on said premises or by mailing such notice directed to said Lessee at Paterson, N. J., aforesaid, and upon expiration of the time limited in any notice herein provided for, said Lessor, its successor or assigns, may forthwith enter upon and take
10 and maintain possession of said leased premises and remove all persons therefrom without let or hindrance and without liability therefor; any law, usage or custom of said State to the contrary notwithstanding.

Said lease hereby agrees to pay for said premises the yearly rent of One thousand (\$1000.00) Dollars payable in equal semi-annual payments in advance to the Station Agent of said Lessor, its successors or assigns, at Paterson, N. J.: it being mutually understood that rent paid in advance for a period subse-
20 quent to the termination of this lease shall be repaid to the Lessee within thirty (30) days after demand unless such termination shall be on account of violation of non-fulfillment of any of the provisions of this lease by said Lessee, and that any demand of rent made by the Lessor after the date it is due shall have the same effect as if made on the day it is due, any law or custom of said State to the contrary notwithstanding.

Said Lessee further agrees that so long as this lease
30 continues it will, at its own cost and expense, keep all buildings and other structures covered by this lease and on said premises in as good condition and repair as they are at the beginning of this lease, ordinary wear and decay and casualties unavoidable with due care and caution excepted and put any and all such additions and repairs on said buildings and other structures as it itself may require, and said Lessee shall have the privilege of removing any building and improvements placed by it on said premises,
40 provided the same can be removed without injury to

Exhibit Erie 11.

the freehold; keep said leased premises and appurtenances in good sanitary condition free from all accumulations of rubbish so as to fully meet the requirements of the Health Officer or any other proper authority of the City in which said leased premises are located; perform all the duties imposed upon the owners or occupants of said premises as to the care of the same and in general keep said leased premises and appurtenances in good order and occupy and use the same in a careful, safe and orderly manner and so as not to interfere in any way with the maintenance or operation of the Railroad or any of its appurtenances operated by said Lessor, its successors or assigns, and use said premises for the purpose only of an office and cold storage meat warehouse and site for shed and stable. 10

Said Lessee further agrees to pay such portion of all taxes, assessments, water rates or rents, assessed, charged or levied during the continuance of this lease on or on account of said premises and any other property which may be assessed or charged therewith as the value of the premises herein demised and the improvements thereon of said Lessee bear to the value of the entire premises against which such taxes, assessments, water rates or rents are assessed, charged or levied, and said Lessee further agrees that the Lessor, its successors or assigns, may at its or their option pay such taxes, assessments, water rates or rents, and that in case of such payment said Lessee will repay such portion thereof as aforesaid to said Lessor, its successors or assigns, within thirty (30) days after receipt of bill or voucher therefor. 20 30

Said Lessee further agrees that so long as this lease continues, it will not sell, barter or give away or permit to be sold, bartered or given away on or about said leased premises any intoxicating liquor, either spirituous, vinous or fermented without the consent of said Lessor, its successors or assigns, first had in writing. 40

Exhibit Erie 11.

Said Lessee, for itself, its successors and assigns, hereby assumes all risk of loss, damage or injury by fire or otherwise to property or person on or about said leased premises, arising out of the condition or location of said leased premises or the operation, maintenance or existence of the railroad operated by said Lessor, its successors or assigns, or any of its appurtenances and agrees to indemnify and save harmless said Lessor, its successors and assigns, from all claims for any and all such loss, damage or injury, whether caused by the negligence of said Lessor, its successors or assigns, or by the negligence of its or their servants, agents or employees or otherwise.

Said Lessee further covenants and agrees to give to said Lessor, its successors or assigns, the transportation of all materials and products under the control of said Lessee, shipped to and by said Lessee, to and from Paterson, N. J., aforesaid, from and to all points reached by the lines of said Lessor, its controlled and allied Companies and their connections provided that the rates for such transportation shall be as low as by any other line or lines of Railroad to and from the same points.

Said leased premises shall not be sublet nor shall this lease be assigned in whole or in part by said Lessee without the consent of said Lessor, its successors or assigns, first had in writing.

It is mutually understood that this lease is given without covenant of warranty on the part of the Lessor and is accepted subject to all encumbrances, conditions, covenants and easements to which the title or possession of the Lessor is subject.

It is mutually agreed that this lease supersedes and cancels as of February 1, 1919, a certain lease dated April 1st, 1908, from said Lessor to said Lessee covering a portion of the above described premises, said lease being known as No. A-638.

Exhibit Erie 12.

IN WITNESS WHEREOF, the parties hereto execute this lease: dated the day and year first above written.

Feb. 25, 1898.

Bill against Myer & DeVogel, Paterson, for construction of siding.

My Dear Mr. Gaddis,

I return herewith bill against Myer & DeVogel of Paterson.

30

It appears that our Superintendent, Mr. Maguire, holds a written agreement dated October 26th, 1897, wherein Myer & De Vogel agreed to pay not to exceed \$454.03 on account of this switch, and this amount has been reduced to \$430.19.

The figures given herein are the actual cost of the switch, of which you will also note the Erie assumed a proportion amounting to \$70.74.

40

Exhibit Erie 12.

It would be impracticable for us to make any reduction in this bill.

Yours truly,

R. M. PARKER,

2nd Asst. Gen. Frt. Agent.

10

WITNESSETH:

WHEREAS, the route of the Paterson Railway Company, owning and operating a line of horse or street railroad within the City of Paterson, New Jersey, crosses or may cross the tracks of the Paterson and Ramapo Railroad, or the tracks of the Paterson, Newark and New York Railroad Company called and known as the Newark Branch, now and for a long time past leased and operated by the said Erie Railroad Company, at River Street, Market Street, Broadway and divers other streets within the City of Paterson.

20

AND WHEREAS, the said Paterson Railway Company are about to use electric power upon their said line and route and to carry passengers over the same in cars propelled by said power or by other power than by horses.

30

AND WHEREAS, the use of such power increases the danger in the estimation of the said Erie Company, of such crossings, and it is contemplated that in operation by means of such electric power overhead wires shall be used.

AND WHEREAS, the Erie Company is willing that such crossings shall be made upon the terms and conditions hereafter stated.

NOW, THEREFORE, THE SAID COMPANIES AGREE with each other as follows:

40

First. The Erie Company agrees that the Paterson Company may continue and maintain their street

Exhibit Erie 13.

railway across the present tracks of said Paterson and Ramapo Railroad or of said Newark Branch or any other track or tracks of either of said railroads leased to the Erie Company, within the city aforesaid, as more particularly shown and specified upon the map and diagram hereto annexed and marked Schedule A. and at the points delineated thereon.

Second. The Paterson Company shall at their own cost and expense construct said crossings at the points shown upon said diagram, and in the manner agreed upon with the representatives of the Erie Company, and will thereafter keep and maintain such crossings and their tracks thereat in good and safe condition, satisfactory to the Erie Company, during the continuance of this agreement, and so as shall from time to time be best adapted to secure safety at such crossings, and under the supervision and direction of the Erie Company, and shall restore to it or to their former condition any such track or tracks of the said Erie Company displaced or injured in constructing or repairing said crossings, work to be commenced with all convenient speed after the execution of this contract.

Third. The Paterson Railway Company will stop all their cars at or before reaching the said crossings or any of them for at least ten seconds and sufficiently to ascertain if there is any danger in crossing, and will stop no car on either of said crossings at any time.

Fourth. The Erie Company may, if it see fit at any time do any reasonable work, construction or repair to the said crossing or either of them, which the said Paterson Railway Company shall fail to do and which shall be necessary or advisable to be done for the safe operation of the said crossing, and the expense thereof shall be payable by the Paterson Railway Company to the Erie Company on demand.

Exhibit Erie 13.

Fifth. The Erie Company shall in all cases have the right of way and passage over their said railroad for their cars and trains and rolling stock whatsoever, whenever arriving in preference and precedence of the cars of said Paterson Railway Company, the passage by said Erie rolling stock never to be impeded by any of said Paterson Railway cars.

- 10 Sixth. Flagmen and gatemen shall be employed by the said Erie Company at such crossings in such number and at such wages as said Erie Company shall think best, the service of said flagmen and gatemen to be regulated as to time and hours by the said Erie Company. The said Paterson Railway Company shall pay to the said Erie Company one-third of the expense of said employment of said flagmen and gatemen monthly or on or before the fifteenth day of each month, the bills for such payment or for any other
20 expense in connection with said crossings agreed to be borne by the Paterson Company to be rendered between the first day and the eighth day of each month.

- Seventh. Should it in the future become necessary or in the judgment of the Erie Company expedient to erect gates at any of the crossings over the streets aforesaid, the same are to be built by and at the expense of the Erie Company, and said Paterson Railway Company are thereupon to pay one-third of the
30 cost of such erection, and of all repairs and renewals thereof, and of maintaining the same, such costs to be certified to them by the said Erie Company monthly as aforesaid, and such payment of the proportion of said Paterson Railway Company to be made on or before the fifteenth day of the said month in which such certificate shall be delivered.

- Eighth. It being contemplated that the cars of said Paterson Railway Company shall be propelled
40 as aforesaid by electric power derived by use of over-

Exhibit Erie 13.

head wires, it is further agreed that any overhead wires erected or used by said Paterson Company shall be erected and kept and maintained at a height of at least twenty feet in the clear above the top of the rails of the railroad tracks of the said Erie Company at such points of crossing, and that no poles or supports for said wires shall be *pleased* so near the tracks of said Erie Company or their lessors as in the opinion of the Engineer of the Erie Company to be a source of danger or inconvenience to said Erie Company in operating its railroad.

10

Ninth. The crossing by said Paterson Railway Company hereby permitted and agreed for shall be by not more than two tracks covering a space of no more than twenty nine feet in width, running as nearly as possible, having regard to the Paterson Company's necessities, at right angles to the lines of the said Erie Company's tracks or track.

20

Tenth. It is mutually agreed that this contract shall not impair or in any wise affect any of the legal or equitable rights of either of the said Companies as they would exist if this contract had not been made, except so far and so far only as each Company has agreed herein.

Eleventh. It is further mutually agreed that in case of the failure of said Paterson Company to make the payments herein provided for when due, or to keep and observe all said covenants and agreements, the Erie Company shall have the right upon thirty days notice in writing to terminate this contract and declare the same null and void, whereupon the same shall forthwith cease and determine.

30

IN WITNESS WHEREOF each of said corporations has caused its corporate seal to be affixed, attested by the signature of its President and Secretary, this

20

EXHIBIT ERIE 14.

THIS AGREEMENT made in duplicate this sixth day of February in the year one thousand nine hundred twelve between Erie Railroad Company (hereinafter called the Erie Company), party of the first part and Public Service Railway Company (hereinafter called the Public Service Company), party of the second part,

30

WITNESSETH THAT

WHEREAS on February 26, 1892, the New York, Lake Erie and Western Railroad Company, the predecessor in interest of the Erie Company, and The Paterson Railway Company, the predecessor in interest of the Public Service Railway, entered into an agreement covering the construction and maintenance of the street railway of the Paterson Railway Company across the tracks of the Paterson and Rama-

40

Exhibit Erie 14.

po Railroad Company at Market street in the City of Paterson, N. J., it being provided in said agreement that said crossing by said Paterson Railway Company should "be by not more than two tracks covering a space of not more than twenty-nine feet in width" and

- 10 WHEREAS, the Public Service Company desires to construct, maintain and operate one additional track across the tracks of the Paterson and Ramapo Railroad Company at Market street and Park avenue in said City of Paterson, N. J., and the Board of Public Utility Commissioners of the State of New Jersey on September 6th, 1910, approved an ordinance of the Board of Public Works of the City of Paterson, passed August 2, 1910, approved August 3rd, 1910, entitled "An ordinance granting permission to Public Service Railway Company to construct, operate
20 and maintain additional street railway tracks and connections along the route of its street railway in the City of Paterson, County of Passaic and State of New Jersey" which ordinance so approved, among other things granted permission to the Public Service Company to construct and lay a track at grade across said tracks of Paterson and Ramapo Railroad Company at Market street and Park avenue in said City of Paterson, and

- 30 WHEREAS, Said Board of Public Utility Commissioners by a certificate dated January 2nd, 1912, determined that the construction of said additional track by the Public Service Company across the tracks of the Paterson and Ramapo Railroad Company at Market street and Park avenue in said City of Paterson will constitute an added factor of safety and granted permission to said Public Service Company, subject to the terms of said ordinance, to construct said additional track across the tracks of said Paterson and Ramapo Railroad Company at Market
40 street and Park avenue in said City of Paterson.

Exhibit Erie 14.

NOW, THEREFORE, in consideration of the premises and of the mutual covenants and conditions herein contained, IT IS AGREED that the Public Service Company shall be allowed to construct one additional track across the tracks of the Paterson and Ramapo Railroad Company at Market street and Park avenue in the City of Paterson, N. J.; that said crossing shall be constructed at grade and in substantially the location and position indicated by parallel red lines on the blueprint attached hereto, marked Exhibit "A" and hereby made a part hereof, and that said additional track shall be constructed, maintained and operated under and in accordance with the following terms and conditions:

10

FIRST: The Public Service Company shall bear and pay the entire cost and expense of the installation of said crossing by said additional track and the entire cost and expense of the construction, maintenance, repair, renewal or removal of said additional track, including the installation, maintenance and operation of such derails in said additional track as shall be approved by the General Superintendent or such other officer as may be designated from time to time by the Erie Company, or by the Board of Public Utility Commissioners;

20

SECOND: The work of constructing said additional track and installing said crossing shall be performed by the Public Service Company under the supervision and direction and subject to the acceptance and approval of the Superintendent or such other officer as the Erie Company may designate and at such times and in such manner as shall not unnecessarily interfere with or endanger the operation of the railroad of the Erie Company;

30

THIRD: It is the intention of the parties that when said additional track has been constructed by the Public Service Company across the tracks of the Pat-

40

Exhibit Erie 15—(1).

erson and Ramapo Railroad Company in the manner hereinbefore provided, the provisions of said agreement of February 26th, 1892, shall apply to and cover said additional track and the obligations and liabilities of the parties with respect thereto to the same extent and as fully as though said additional track were specifically referred to therein.

10 IN WITNESS WHEREOF the parties hereto have caused this agreement to be executed the day and year hereinbefore first above written.

(1)

LEASE.

EDWARD T. STOTESBURY to ERIE RAILROAD COMPANY,
dated June 1st, 1905.

AGREEMENT.

Between EDWARD T. STOTESBURY and GIRARD TRUST
COMPANY and ERIE RAILROAD COMPANY. For issue of
\$2,000,000 Gold Equipment Trust Certificates. Dated
40 June 1st, 1905. SERIES "H."

LEASE.

Agreement dated June 1, 1905, between Edward T. Stotesbury and Erie Railroad Company. Witnesseth:

That for and in consideration as well of the sum of one dollar paid by the Railroad Company to the Lessor as of the rents and covenants hereinafter mentioned, the Lessor has let and leased and by these presents doth let and lease to the Railroad Company for the term of ten years from and after the first day of June, 1905; unless sooner terminated as hereinafter provided, the following described railroad equipment or rolling stock, to wit: (Then follows description and statement of numbers of 37 freight engines, 19 passenger engines and 100 freight engines) which said locomotive engines shall be delivered to the Railroad Company as they shall from time to time be received by the Lessor from the builders under the contracts dated December 29, 1904, and February 17, 1905, respectively, between the builders and the Lessor, at and for the rent hereinafter set out, and upon the terms and conditions and covenants following, to wit:

First. That the Railroad Company shall and will pay to the Lessor or his assigns at the office of Girard Trust Company in the City of Philadelphia as rent or hire for the said locomotive engines:

I. Upon demand on or after June 1, 1905, a cash payment of Five Hundred and Twenty-three Thousand Thirty-two Dollars and Fifty Cents (\$523,032.50).

II. Half-yearly on the thirty-first day of May and the thirtieth day of November in each year, the first payment to be made on the 30th day of November, 1905:

(a) A sum equal to two per cent. on Two Million Dollars (\$2,000,000), which sum thus paid shall be reduced from time to time by an amount

Exhibit Erie 15—(1).

equal to two per cent. on such sum as the Railroad Company shall pay to the lessor to be applied in reduction of the sum of two million dollars as specified in paragraph III of this article.

(b) A sum equal to all reasonable expenses incurred by the Lessor or his assigns in enforcing the covenants and terms of this lease.

10 (c) A sum equal to the taxes upon the income or property of the trust which the Lessor or his assigns may be liable in taxes which may by law be charged against the Lessor on account of payments of rental hereunder.

III. Half-yearly on the 31st day of May and the 30th day of November in each year, beginning with the 30th day of November, 1905, the following sums, respectively:

20 On November 30, 1905.....\$100,000
On May 31, 1906 100,000

(Then follows provision for further payments of \$100,000 each on November 30th and May 31st of each year down to and including May 31, 1915).

Second. The Railroad Company covenants and agrees with the Lessor, or his assigns, in addition to its agreement to pay the said rent on the days and in the manner above provided for, to keep and maintain at its own expense the said locomotive engines in good order and repair, and to cause the said locomotive engines to be kept numbered as herein before mentioned and all of said locomotive engines to be plainly marked upon both sides thereof, with the words:

30

"E. T. STOTESBURY, Trustee, Owner."

And that it, the Railroad Company, will replace at its own cost any of said locomotive engines which may be destroyed from any cause whatever during the continuance of this lease, by other locomotive engines of

Exhibit Erie 15—(1).

equal value as those destroyed and of substantially as good material, character and construction, and that it, the Railroad Company, will not allow the name of any person, association or corporation to be placed on any of the said locomotive engines as a designation which might be interpreted as a claim of ownership thereof; PROVIDED, however, that the Railroad Company may cause the said locomotive engines, and each of them to be lettered "Erie" for convenience of identification of its lessee interest therein. 10

Third. The Company agrees to furnish an inventory of the engines once each year.

Fourth. The Company agrees there shall be no assignment or transfer of its rights, or interest in the engines without the consent of the Lessor or his assigns.

Fifth. That in case the Railroad Company shall make default in the payment of any part of said rental for more than thirty days after the same shall have become payable or shall fail to keep the said locomotive engines in good serviceable condition or to perform any of the other covenants herein contained to be performed on its part, the Lessor or his assigns may declare this lease terminated and thereupon all installments of rent reserved hereunder whether said installments shall then have fallen due or not shall at once become forthwith due and payable, and the Lessor or his assigns may by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said locomotive engines may be and may retake the said locomotive engines and withdraw the same from said railroad or premises. 20 30

Sixth. In case of such retaking the Company agrees to draw the engines to such points as shall be designated by the Lessor or his assigns and to deliver same.

Seventh. The said Lessor hereby covenants and agrees with the said Railroad Company that when it, 40

Exhibit Eric 15—(1).

- the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay, he, the said Lessor, shall and will, upon the payment by the Railroad Company to the Lessor or his assigns of the additional sum of one dollar, sell, assign and transfer or cause to be sold, assigned or transferred to the Railroad Company its successors and assigns as its absolute property all the locomotive engines held under this lease and evidence such sale and transfer by an appropriate bill of sale so that thereupon and thereafter the absolute ownership in said locomotive engines shall be and become vested in the Railroad Company, its successors and assigns; *Provided*, however, and it is hereby understood that it is the intention of the Lessor to forthwith upon the execution of this instrument, assign, transfer and set over unto Girard Trust Company as Trustee, all his right, title and interest in and to said locomotive engines hereby leased unto the Railroad Company, and as well all his claims, demands and remedies under this lease accruing or to accrue; and that any bill of sale of said equipment or any part thereof at any time hereafter executed by said Girard Trust Company as Trustee, or any duly appointed successor Trustee, and delivered unto the Railroad Company, its successors or assigns, as in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor.

The Lessor hereby transfers and assigns unto the Railroad Company all its rights, claims and demands arising or which may arise against the Baldwin Locomotive Works (Burnham, Williams & Company), or the American Locomotive Company the builders, or either of them, under said contracts of December 29th, 1904, and February 17th, 1905, respectively, in case of the failure of either of said companies to deliver said

Exhibit Erie 15—(1).

locomotive engines or any of them at the times or in the manner therein provided.

(Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated June 1, 1905, between Edward T. Stotesbury, Girard Trust Company and Erie Railroad Company, WITNESSETH:

10

Recites the above lease; also that certain Bankers have secured subscriptions for \$2,000,000 to "Erie Railroad Equipment Trust 'Series H'"; further, that Edward T. Stotesbury proposes to secure to the parties subscribing to said fund the repayment thereof in twenty semi-annual installments as follows:

Then follows list of repayments, beginning December 1, 1905, and ending June 1, 1915, each for the sum of One hundred thousand dollars—with interest at the rate of four per cent.

20

Now, THEREFORE, this agreement witnesseth:

First. That the said Edward T. Stotesbury hereby assigns and sets over unto Girard Trust Company, as Trustee for the holders of the certificates hereinafter described, all the right, title and interest of the said Edward T. Stotesbury in and to a certain Indenture of Lease bearing date the first day of June, 1905, made by the said Edward T. Stotesbury to Erie Railroad Company, a copy of which is hereunto annexed, as hereinbefore stated, and in and to said locomotive engines so leased as aforesaid.

30

Second. The Trustee covenants and agrees that contemporaneously herewith it will execute and deliver to Drexel & Co. for distribution to the several subscribers to said "Erie Railroad Equipment Trust, Series H," Two thousand certificates in the following form, to wit:

Then follows form of Equipment Trust Certificates and of Dividend Warrant.

40

Exhibit Erie 15—(1).

Third. Trustee agrees to keep a register at its office.

Fourth. The Trustee, as assignee of the said Edward T. Statesbury, Lessor, further covenants to perform and, so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of the said Lease and to apply and distribute the rentals thereunder when and as the same shall be received,
10 for the following purposes, to wit:

(a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad locomotive engines as are usual in cases of trust estates.

(b) To the payment of any taxes upon the income or property of the trust which it may be required to pay and any tax which may by law be deductible from the principal of said certificates or the dividends thereon.
20

(c) To the payment of the dividend warrants attached to the said trust certificates when and as the same shall become payable.

(d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable; the said warrants and certificates to be cancelled upon payment thereof.

It being distinctly understood and agreed that neither the Trustee nor any successor in the trust shall
30 be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own willful and intentional breach thereof.

Fifth. Erie Railroad Company becomes a party hereto in order to express its assent to the assignment herein contained by Edward T. Statesbury to Girard Trust Company, as Trustee for the benefit of the subscribers to said "Erie Railroad Equipment Trust Series H," and does hereby accept all the terms of this
40 assignment including the obligation to make payment

Exhibit Erie 15—(1).

of the reasonable expenses of said Trustee and of all taxes herein above mentioned for which the Trustee may be liable or may by law be required to deduct from the principal of the said certificates or the dividends thereof.

Sixth. It is further herein settled and provided that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease reserved for more than thirty (30) days after the same shall become payable or shall fail to keep and perform all the terms and covenants of the said lease, that the Trustees shall have the right as assignee of the said Edward T. Stotesbury, to declare the principal of all of said car trust certificates hereby intended to be secured to be due so far as the rights of the holders thereof are concerned, and to thereupon enforce all the terms and stipulations of said lease, and in case the Trustee shall retake possession of the said locomotive engines, it may either hold or lease or dispose of said locomotive engines or so many thereof as it may deem necessary, in such manner, at public or private sale, for cash or upon credit as the Trustee may deem most beneficial; and the proceeds of such lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may, by law, be required to pay in respect to the trust property or the certificates aforesaid or the dividends thereof,

(1) to the dividend warrants then due and

(2) to the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and, if not, then *pro rata*.

and such retaking possession of the said locomotive engines by the Trustee shall not be a bar to the recovery by the Trustee from Erie Railroad Company for

Exhibit Erie 15—(2).

future accruing rent until such sum is realized, as, with the proceeds of the sale of said locomotive engines, is sufficient for the payment in full of all taxes and expenses as aforesaid together with all accrued dividend warrants and the principal of all of the said certificates;

Then follows testimonium clause and acknowledg-
10 ments.

EXHIBIT "ERIE-15."

(2)

CAR LEASE AND AGREEMENT.

STANDARD STEEL CAR COMPANY to ERIE RAILROAD
COMPANY,

Dated November 1st, 1906. SERIES J.

20

LEASE.

Agreement dated November 1, 1906, between Standard Steel Car Company, called the Lessor, and Erie Railroad Company, called the Railroad Company. WITNESSETH:

In consideration of One dollar and of the rents and covenants herein mentioned, the Lessor has leased for the term ending November 1, 1916, unless sooner terminated, five hundred Steel Underframe Gondola
30 Cars; five hundred Steel Underframe Flat Cars.

Cars to be delivered to the Erie Railroad Company at the Car Works of the Lessor, between November 1, 1906, and March 1, 1907, on the following terms:

First. That the said Railroad Company shall and will pay to the Lessor, or its assigns, at the office of the Railroad Company in the City of New York, as rent or hire for the said railroad cars:

I. Upon demand a cash payment of Two Thousand One Hundred and Ninety-five Dollars (\$2,195.00),
40 and the air brakes, springs (truck and draft), brake

Exhibit Erie 15—(2).

beams, brake shoes, journal boxes and lids, journal bearings and wedges and couplers for equipping such cars, receipt of which appliances is hereby acknowledged.

II. Half-yearly, on the first days of May and November in each year, the first payment to be made on the first day of May, 1907, the following sums:

(a) A sum equal to two per cent. on Nine hundred and Fifty Thousand Dollars, which sum thus paid shall be reduced from time to time by an amount equal to two per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of Nine Hundred and Fifty Thousand Dollars, as specified in Paragraph III of this Article: 10

(b) A sum equal to the taxes upon the property leased hereunder which the Lessor or its assigns may be liable to pay. 20

III. Half-yearly for nine and one-half years, on the first day of May and the first day of November in each year, beginning with the first day of May, 1907, the sum of Forty-seven Thousand Dollars, making nineteen semi-annual payments of Forty-seven Thousand Dollars each, and on the first day of November, 1916, the sum of Fifty-seven Thousand Dollars, making in all twenty payments amounting to Nine Hundred and Fifty Thousand Dollars. 30

IV. The payments of rental provided for in paragraphs II (a) and III shall be evidenced by Car Trust notes or certificates to be executed by the Railroad Company, and payment of such certificates and the coupons thereof shall be for all purposes equivalent to payment of the said portions of rental to the said Lessor, and such certificates and coupons shall be in form substantially as follows:

Then follows form of Car Trust Note, Trustee's Certificate and Coupon. 40

Exhibit Erie 15—(2).

Second. The Railroad Company covenants and agrees with the Lessor, in addition to its agreement to pay the said rent on the days and in the manner above provided for, to keep and maintain at its own expense the said railroad cars in good order and repair and to cause the said railroad cars in good order and repair and to cause the said railroad cars to be kept numbered as hereinbefore mentioned, and all of said railroad cars to be plainly marked upon both sides thereof with the words, "Bankers Trust Company, Trustee, Assignee, Owner, and Lessor," and that it, the said Railroad Company, will replace at its own cost any of the said cars which may be destroyed from any cause whatever during the continuance of this lease, by other railroad cars of equal value as those destroyed and of substantially as good material, character and construction, and that it, the said Railroad Company, will not allow the name of any person, association or corporation to be placed on any of the said railroad cars as a designation which might be interpreted as a claim of ownership. PROVIDED, however, that the Railroad Company may cause the said cars and each of them, to be lettered "Erie," for convenience of identification of its lessee interest therein. PROVIDED, however, that the Railroad Company may, at its option, instead of replacing any of said cars, which may be worn out, lost or destroyed, pay to the Lessor the sum of Nine Hundred and Fifty Dollars for each car so worn out, lost or destroyed, all such money to be held by the Lessor until the termination of this lease, and, in the event that the Railroad Company exercises the option of purchase herein provided, after default or otherwise, to be turned over to said Railroad Company at the time of such purchase, and the Lessor agrees to pay to the Railroad Company interest thereon at a reasonable interest rate, not less than the highest rate paid general depositors of the Bankers Trust Company, of

Exhibit Erie 15—(2).

New York, said interest to be retained by the Lessor, its successors or assigns, until all payments have been made in accordance with Article First, Paragraphs I, II and III.

It is provided further, that the Railroad Company shall exercise such option of substituting money for cars within thirty days after notice to the Accounting Department of the Railroad Company of the wearing out, loss or destruction of any such cars, or shall, within such period, notify the Lessor, its successors or assigns, of its election to replace said cars, and shall so replace the same as speedily as possible thereafter. 10

Third. The Railroad Company agrees to furnish an inventory in each year.

Fourth. The Railroad Company agrees that there shall be no assignment of its rights or interest without the consent of the Lessor or its assigns. 20

Fifth. In case the Railroad Company (a) shall make default in the payment of any part of said rental for more than thirty days after the same shall have become payable, or in case (b) the Railroad Company shall fail to keep the said cars in good and serviceable condition, or to perform any other obligations and covenants herein contained to be performed on its part, and such last mentioned default or defaults shall have continued for a period of thirty days after written notice thereof from the Lessor, then, and in each and every case of default as aforesaid, the Lessor may declare this lease terminated, and all outstanding bonds due and payable, and thereupon all installments of rent reserved herein and all said bonds, whether said installments of bonds shall have fallen due or not, shall at once become due and payable, and the Lessor may, by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein said cars may be, 30 40

Exhibit Erie 15—(2).

and may retake said cars and withdrew the same from said railroad or premises.

10 But in such case of default the Railroad Company shall have the right, within thirty (30) days, after the Lessor shall have declared the lease terminated, to pay all outstanding bonds and interest thereon to the date of such payment. Thereupon, upon receipt of evidence of such payment and of the cancellation of all such bonds and interest coupons thereon, the Lessor, its successors or assigns, will make and deliver to the Railroad Company a bill of sale of all its rights, title and interest in and to the cars covered by this lease, and return to the Railroad Company all sums deposited by the Railroad Company with the Lessor, its successors or assigns, on account of cars worn out or destroyed, with accrued and unpaid interest.

20 Sixth. In case of such retaking the Railroad Company agrees to draw and deliver the cars to the Lessor.

Seventh. On payment of the rent, Lessor agrees to sell and transfer the cars to the Railroad Company.

Then follows testimonium clause and acknowledgment.

AGREEMENT.

30 Dated February 9, 1907, between Standard Steel Car Company, Bankers Trust Company and Erie Railroad Company.

Recites above lease; also that the Car Company has secured subscriptions to the amount of Nine hundred and fifty thousand dollars to a fund to be known as "Erie Railroad Equipment Trust, Series J"; recites that Car Company proposes to secure to the subscribers the repayment of Nine hundred and fifty thousand dollars in twenty installments, to wit, nineteen semi-annual payments of Forty-seven thousand dol-

40

Exhibit Erie 15—(2).

lars each, beginning May 1, 1907 and a final payment of Fifty-seven thousand dollars on November 1, 1916, with interest at the rate of 4%.

THIS AGREEMENT, WITNESSETH:

First. Car Company assigns to the Trust Company as Trustee for the holders of the certificates all its right, title and interest in and to the railroad cars; also its right, title and interest to the above lease. 10

Second. The Trustee agrees to deliver to the Car Company Nine hundred and fifty certificates; then follows form of certificate, trustee's endorsement and form of coupon.

Third. Trustee agrees to keep a register in its office.

Fourth. Agreement as to payment of interest.

Fifth. The Trustee, as assignee of the said Standard Steel Car Company, Lessor, further covenants to perform and, so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of the said lease, and to apply and distribute the rentals thereunder when and as the same shall be received, for the following purposes, to wit: 20

(a) To the payment of any taxes upon the railroad cars leased which it may be required to pay.

(b) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable. 30

(c) To the payment and redemption of the principal of the said certificates when and as the same shall become payable. The said coupons and certificates to be cancelled upon payment thereof. Provided, however, that the Railroad covenants and agrees to pay bonds or certificates and coupons issued under said lease at its office, in accordance with the terms and provisions of said bonds and coupons and 40

Exhibit Eric 15—(2).

of this instrument and of said lease, and such payments shall to the extent thereof be satisfaction of the rental reserved in said lease and a discharge to the Trustee from all obligation to require the payment of rentals to that extent and to apply and distribute the same.

10 It being distinctly understood that neither the said Trustee nor any successor in the trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

Sixth. The Railroad Company agrees to the assignment of the lease to the Trust Company.

20 Seventh. It is further herein agreed and provided that in case the Railroad Company (a) shall at any time make default in the payment of any part of the rental in said lease reserved for more than thirty days after the same shall have become payable, or in case (b) the Railroad Company shall fail to keep the said cars in good and serviceable condition or to perform all other obligations and covenants in said lease contained to be performed, on its part, and such last mentioned default or defaults shall have continued for a period of thirty days after written notice thereof from the Trustee, then and in each and every case of default as aforesaid, the Trustee shall have the right, as assignee of said Car Company, to enforce all
30 the terms and stipulations of said lease subject to the right of the Railroad Company to exercise its option of purchase as therein set out, and in case the said Trustee shall re-take possession of the said cars, it may either hold or lease, or dispose of said cars or so many thereof as it may deem necessary in such manner at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial, and the proceeds of said lease or sale, together with any
40 moneys in the hands of the Trustee in lieu of lost,

Exhibit Erie 15—(2).

worn out or destroyed cars, and any unpaid interest thereon, shall be applied by the Trustee to the payment, after deducting all taxes which the Trustee may by law be required to pay in respect to the railroad cars covered by the said lease.

(1) Of the dividend warrants then due.

(2) Of the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and if not, then pro rata. 10

And such re-taking possession of the said railroad cars by the said Trustee shall not be a bar to the recovery by the Trustee from the Railroad Company for future accruing rent until such sum is realized as, with the proceeds of the sale of said cars, is sufficient for the payment in full of all taxes aforesaid, together with all accrued interest warrants and the principal of all of the said certificates. 20

The Trustee assumes no liability, however, saving for its own willful or gross neglect; for the neglect of its agents it assumes no such liability. It shall undertake no active duty, however, in the way of taking care of, or taking possession of, equipment, until fully secured from all liability. No duty of insurance or of recording or of taking care of any of the Trust property is incumbent upon it.

Eighth. Provides for temporary receipts.

Ninth. Provides for compensation to the Trustee. 30

Tenth. Car Company agrees to protect the Trustee from all claims arising out of the use of any patents employed in the construction of said cars.

Then follows testimonium clause and acknowledgments.

Exhibit Eric 15—(3).

EXHIBIT "ERIE-15."

(3)

AGREEMENT dated April 1, 1913, between ERIE RAILROAD COMPANY, STANDARD STEEL CAR COMPANY and WELLS FARGO AND COMPANY.

10 Recites that the Express Company conducts the express business on the line of the Railroad Company and that twenty-five additional express cars are required, and that the Car Company is willing to construct, sell and deliver the same to the Express Company, and the Express Company is willing to purchase the same and lease them to the Railroad Company.

It is agreed as follows:

20 First. The Car Company shall construct, sell and deliver to the Express Company and the Express Company shall receive and purchase from the Car Company twenty-five (25) standard express cars to be numbered 375 to 399 inclusive at the prices and upon the terms hereinafter mentioned, each of said cars shall be constructed and equipped strictly in accordance with the Railroad Company's drawings and specifications therefor which have been agreed upon heretofore by the Car Company and the Railroad Company and uniform with the twenty-five express cars recently built by the Barney and Smith
30 Car Company for the Express Company and leased to the Railroad Company, except that said cars are to be equipped with the Car Company's make of steel six wheel trucks as shown on a certain blue print numbered 14,630 heretofore delivered to the Railroad Company by the Car Company, with the Car Company's make of springs and with solid steel wheels manufactured by the Forged Steel Wheel Company; the aforesaid drawings, specifications and blue print being hereby made a part hereof to the
40 same effect as if they were attached hereto.

Exhibit Erie 15—(3).

The Car Company shall promptly assemble the material for the construction of said cars and shall deliver them to or upon the order of the Express Company f. o. b. tracks of the Boston and Maine Railroad Company at Worcester, Massachusetts, during the month of May, 1913, unless prevented by strikes, fires, delays of material-men or carriers or other contingencies which are unavoidable or beyond the control of the Car Company, and which necessarily delay the prosecution or completion of the work of constructing said cars; and in the event of any delay so caused the time herein fixed for the completion and delivery of said cars shall be extended for a period equivalent to the time lost by reason of any or all of the aforesaid causes. It is understood that said cars are to be leased by the Express Company to the Railroad Company and it is agreed that the time herein specified at which the said cars are to be delivered to the Express Company shall be of the essence of this agreement.

Second. The total cash cost of constructing, equipping and delivering said cars in the manner hereinbefore provided shall be Seven thousand, eight hundred and forty-eight and 71/100 Dollars (\$7,848.71) each and the Express Company shall pay such total cash cost to the Car Company in New York Exchange at the office of the Car Company upon the delivery of said cars in the manner hereinbefore provided and upon the certificate of an inspector or inspectors duly authorized by the Railroad Company, stating that said cars have been constructed and equipped in accordance with the provisions contained herein.

The Express Company shall also pay promptly upon the receipt thereof from the Railroad Company from time to time as the work of constructing said cars progresses all invoices or bills covering materials which the Express Company agrees under Article Third hereof to furnish or cause to be furnished

Exhibit Eric 15—(3).

to the Car Company free of expense in connection with the construction of said cars; provided, however, that said vouchers or bills shall first be approved by the General Mechanical Superintendent of the Railroad Company or other officer designated by it.

- 10 Third. Provides for certain "specialities" to be included as part of the construction of said cars.

Fourth. Provides that the Railroad may have an inspector at the works of the Car Company.

Fifth. Concurrent with the delivery of said cars and their acceptance in the manner hereinbefore provided full legal title thereto shall be vested in the Express Company to the end that the Express Company shall lease said cars to the Railroad Company upon the terms and conditions hereinafter set forth.

- 20 Sixth. The Express Company hereby leases to the Railroad Company all and singular the said cars from the dates of the respective deliveries thereof until the first day of April, 1913, or the earlier termination of this agreement and lease as hereinafter provided.

- 30 Seventh. The Railroad Company agrees to accept and receive as and when ready for delivery at Worcester, Massachusetts, in good order and complete according to plans and specifications as agreed upon, all of such cars, in such installments as may from time to time be ready for delivery, upon and subject to all the terms and conditions of this agreement, and promises and agrees to faithfully perform and carry out all the terms and conditions hereof.

- 40 Eighth. The Railroad Company shall pay to the Express Company as rental for said cars the entire amount of money to be paid as aforesaid by the Express Company, including the total cash cost of all of said cars constructed and delivered pursuant to the

Exhibit Erie 13—(3).

terms of this agreement and all sums paid in settlement of invoices or bills for materials furnished or caused to be furnished by it hereunder, in ten (10) semi-annual payments with interest payable semi-annually upon each part thereof as shall be outstanding at the rate of five per centum (5%) per annum; shall pay all taxes, licenses, assessments and charges of any kind which may be assessed or levied upon said cars or any part thereof; shall retain upon said cars the plate or stencil to be placed on each side thereof in the manner hereinbefore provided up to the time the last payment is made hereunder by the Railroad Company to the Express Company, and the lien of the Express Company upon said cars shall continue up to the time of making such final payments.

The Railroad Company hereby expressly reserves the right (which the Express Company agrees that the Railroad Company shall have) at any time during the continuance of this agreement, upon giving thirty (30) days' notice in writing of its intention so to do, to pay off all such sum or sums of money together with the interest thereon which it may owe to the Express Company under the provisions of this agreement.

Ninth. The Railroad Company agrees to assume and pay the cost of maintenance, renewals and repairs.

Tenth. Car Company agrees to pay royalties and other charges because of the use of patents.

Eleventh. The Railroad Company hereby agrees that in case of default by it in the payment when due of any sums herein agreed to be paid, the Express Company may withhold so much of any and all amounts due or to become due to the Railroad Company from the Express Company under the aforesaid agreement existing between said companies cov-

Exhibit Erie 15—(3).

ering the conduct of express business over the lines of the Railroad Company as shall be necessary to pay said sums so in default and may apply the amount so withheld to the payment of said sums so in default until they are fully paid and satisfied.

Twelfth. The Express Company may in its discretion resort to any proceeding, legal or equitable, in its judgment necessary or proper for the enforcement of this indenture, and any remedies specially conferred by any of the provisions of this indenture shall be deemed cumulative and in addition to all other remedies in law or in equity in favor of the Express Company.

Thirteenth. The Express Company hereby covenants and agrees that when the Railroad Company shall have completed the payment of all the sums which it has agreed to pay as rental for said cars and has kept and performed all and singular the obligations and covenants of this agreement on its part, it, the said Express Company, shall and will, upon the payment by the Railroad Company to the Express Company, its successors or assigns, or the additional sum of One Dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned, and transferred to the Railroad Company, its successors and assigns, as its absolute property all of the said cars constructed and leased hereunder, and evidence such sale and transfer by an appropriate bill of sale or such other instrument as may be reasonably required by the Railroad Company, so that thereupon and thereafter, the absolute ownership in said cars shall be and become vested in the Railroad Company, its successors and assigns.

Then follows testimonium clause and acknowledgments.

(4)

AGREEMENT dated March 8, 1911, between ERIE RAILROAD COMPANY and BUFFALO, ROCHESTER AND PITTSBURGH RAILWAY COMPANY.

Recites the parties desire that a portion of said line of said railroad be revised by eliminating the curvature thereof. 10

AGREED

First. Pittsburgh Company to furnish labor, tools and material necessary for the work as therein described.

Second. Pittsburgh Company agrees to comply with all ordinances, laws, etc.

Third. The entire cost of all labor, tools and materials employed on said work and all other costs and expenses connected therewith shall be borne and paid by the parties hereto in the following proportions and manner: 20

(a) That part of said cost and expense chargeable to operating expenses under the Classification of Expenditures for Additions and Betterments as prescribed by the Interstate Commerce Commission for Steam Roads in accordance with Section 20 of the Act to Regulate Commerce shall be borne and paid for by the parties hereto in the proportions that their respective wheel mileage upon said line of railroad for the second half of the fiscal year next preceeding the date of the satisfactory completion of said work in the manner provided herein bear to the total wheel mileage thereon during said period. 30

(b) That part of said cost and expense chargeable to Capital Account under the aforesaid Classification shall be advanced and paid in the first instance by the Pittsburgh Company and the entire amount of said cost and expense chargeable to Capital 40

Exhibit Erie 15—(4).

tal Account so advanced and paid by the Pittsburgh Company as aforesaid shall be repaid by the Erie Company to the Pittsburgh Company in five equal, successive, annual payments, the time of making said payments to be reckoned from the date of the satisfactory completion of said work in the manner provided for herein and the first of said payments to be made at the expiration of one year from said date, with interest on unpaid balances at the rate of four and one-half per centum ($4\frac{1}{2}\%$) per annum from the respective dates when the advances were made by the Pittsburgh Company, said interest to be payable semi-annually on the first day of June and the first day of December in each year; PROVIDED, however, that the Erie Company at its option may repay the whole of said amount or any part thereof to the Pittsburgh Company on any interest date prior to the date on which the last of said five annual payments shall be due.

(c) From and after the date of the completion of said work in the manner provided for herein and so long as the aforesaid agreement between the parties hereto dated July 1st, 1907, shall remain in effect, the Pittsburgh Company shall pay to the Erie Company interest at the rate of four and one-half per centum ($4\frac{1}{2}\%$) per annum payable semi-annually on the first day of June and the first day of December in each year on such proportion of the aforesaid part of the cost and expense of said work chargeable to Capital Account as aforesaid as its wheel mileage upon said line of railroad for the period of six months of the fiscal year next preceding the interest date bears to the total wheel mileage thereon during said period.

Fourth. Said work to be fully completed on or before December 1, 1911.

Fifth. Agreement as to method of charging for loss or damage to property or person.

Exhibit Erie 15—(5).

Sixth. The revised line is to become the property of the Erie Company or its Lessor the New York, Lake Erie and Western Coal and Railroad Company, and the Pittsburgh Company is entitled to the joint use thereof.

Then follows testimonium clause and acknowledgment.

(5)

LEASE.

EDWARD T. STOTESBURY to ERIE RAILROAD COMPANY, dated December 1st, 1905.

AGREEMENT.

Between EDWARD T. STOTESBURY and THE PENNSYLVANIA COMPANY FOR INSURANCE ON LIVES AND GRANTING ANNUITIES and ERIE RAILROAD COMPANY, for issue of \$7,000,000. Gold Equipment Trust Certificates. Dated December 3d, 1905. Series "I." 20

LEASE.

Agreement dated December 1, 1905 between Edward T. Stotesbury, called the Lessor, and the Erie Railroad Company, Witnesseth:

The Lessor leases to the railroad company, for the term ending June 1, 1916, unless sooner terminated, 30 certain cars and locomotives as follows:

- 2,000 Steel Underframe box cars.
- 500 Steel Underframe box cars.
- 1,500 Steel Underframe box cars.
- 1,000 Steel Hopper cars.
- 1,000 Steel Hopper cars.
- 500 Steel Underframe Gondola cars.
- 25 Consolidation Freight Locomotives.
- 50 Consolidation Freight Locomotives.
- 25 Pacific Type Passenger Locomotives. 40

Exhibit Erie 15—(5).

upon the terms and conditions and covenants following, to wit:

First. That the said Railroad Company shall and will pay to the Lessor, or his assigns at the office of The Pennsylvania Company for Insurance on Lives and Granting Annuities, in the city of Philadelphia, State of Pennsylvania, as rent or hire for the said railroad cars and locomotives:

1. Upon demand after February 1st, 1906, a cash payment of one million six hundred and twenty-five thousand dollars, (\$1,625,000);

2. Half-yearly, on the first days of June and December in each year, the first payment to be made on the first day of June, 1906, the following sums:

(a) A sum equal to two per cent. on seven million dollars (\$7,000,000), which sum thus paid shall be reduced from time to time by an amount equal to two per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of seven million dollars, as specified in paragraph 3 of this article;

(b) A sum equal to all reasonable expenses incurred by the said Lessor or his assigns in enforcing the covenants and terms of this lease;

(c) A sum equal to the taxes upon the income or property of the trust which the Lessor or his assigns may be liable to pay, and any taxes which may by law be charged against the Lessor on account of the payments or rental hereunder.

3. Half-yearly, for ten years, on the first day of June, and the first day of December in each year, beginning with the first day of December, 1906, the following sums, respectively:

On December 1st, 1906.....	\$350,000
On June 1st, 1907.....	350,000

Exhibit Erie 15—(5).

(Then follows provisions for further payments of \$350,000 each on December 1 and June 1 of each year down to and including June 1, 1916.)

Second. The Railroad Company covenants and agrees with the Lessor, in addition to its agreement to pay the said rent on the days and in the manner above provided for, to keep and maintain at its own expense the said railroad cars and locomotives in good order and repair, and to cause the said railroad cars and locomotives to be kept numbered as hereinbefore mentioned, and all of said railroad cars and locomotives to be plainly marked upon both sides thereof with the words, "E. T. Stotesbury, Trustee, Owner," and that it, the said Railroad Company will replace at its own cost any of the said cars or locomotives which may be destroyed from any cause whatever during the continuance of this lease, by other railroad cars or locomotives of equal value as those destroyed and of substantially as good material, character and construction, and that it, the said Railroad Company, will not allow the name of any person, association or corporation to be placed on any of the said railroad cars or locomotives as a designation which might be interpreted as a claim of ownership. Provided, however, that the Railroad Company may cause the said cars and locomotives, and each of them, to be lettered "Erie" for convenience of identification of its lessee interest herein.

10

20

30

Third. The railroad company agrees to furnish an inventory of the cars and locomotives.

Fourth. The company agrees that there shall be no assignment or transfer of its rights or interest in the cars or locomotives without the consent of the Lessor, or his assigns.

Fifth. Divides cars and locomotives into three classes designated as numbers one, two and three; and provides for execution and delivery of a bill of sale at certain dates.

40

Exhibit Erie 15—(5).

10 Sixth. That in case the Railroad Company shall make default in the payment of any part of the said rental for more than thirty days after the same shall have become payable, or shall fail to keep the said railroad cars and locomotives in good serviceable condition, or to perform any of the other covenants herein contained to be performed on its part, the Lessor or his assigns may declare this lease terminated, and thereupon all installments of rent reserved herein, whether said installments shall then have fallen due or not, shall at once become due and payable, and the Lessor or his assigns may, by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said railroad cars or locomotives may be, and may retake the said railroad cars and locomotives and withdraw the same from the said railroad or premises.

20 Seventh. In case of such retaking the company agrees to draw the cars and locomotives to such points as shall be designated by the Lessor or his assigns, and to deliver same.

30 Eighth. The said Lessor hereby covenants and agrees with the said Railroad Company that, when it, the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay, he, the said Lessor, shall and will, upon the payment by the Railroad Company to the Lessor, or his assigns, of the additional sum of one dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned and transferred, to the Railroad Company, its successors and assigns, as its absolute property, all the railroad cars and locomotives held under this lease (or so many thereof as shall not have been previously assigned and transferred), and evidence such sale and transfer by an appropriate bill of sale, so that, thereupon and thereafter, the absolute ownership in said railroad cars and locomotives shall be and become vested in
40 the Railroad Company, its successors and assigns.

Exhibit Eric 15—(5).

Provided, however, and it is hereby understood, that it is the intention of the Lessor to forthwith upon the execution of this instrument, assign, transfer and set over unto the Pennsylvania Company for Insurance on Lives and Granting Annuities, as Trustee, all his right, title, and interest in and to said cars and locomotives hereby leased unto the Railroad Company, and as well all his claims, demands and remedies under this lease accruing or to accrue; and that any bill of sale of said equipment or any part thereof at any time hereafter executed by said The Pennsylvania Company for Insurances on Lives and Granting Annuities, as Trustee, or any duly appointed successor Trustee, and delivered unto the Railroad Company, its successors or assigns, as in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor. 10 20

The Lessor hereby transfers and assigns unto the Railroad Company all the rights, claims and demands arising or which may arise against the American Car and Foundry Company, The Barney and Smith Car Company, Standard Steel Car Company, Pressed Steel Car Company, American Locomotive Company, or the Baldwin Locomotive Works (Burnham Williams & Co.), the builders, or any one or more of them, under the contracts under which the said cars and locomotives are built by them, respectively, in case of the failure of any of said companies to deliver said cars or locomotives or any of them at the times or in the manner therein provided. 30

(Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated December 2, 1905, between Edward T. Stotesbury, Pennsylvania Company for Insurance on Lives and Granting Annuities and Erie Railroad.

10 Recites the above lease; also that certain bankers have secured subscriptions to the amount of \$7,000,000 to Erie Railroad Equipment Trust, Series "I"; further, that Stotesbury proposes to secure to the parties subscribing to said fund the repayment thereof in 20 semi-annual instalments, as follows: (Then follows list of repayments beginning December 1, 1906, each for the sum of \$350,000) with interest at the rate of four per cent. This agreement witnesseth:

20 First. That the said Edward T. Stotesbury hereby assigns and sets over unto The Pennsylvania Company for Insurance on Lives and Granting Annuities, as Trustee for the holders of the certificates hereinafter set forth, all the right, title and interest of the said Edward T. Stotesbury in and to said railroad cars and locomotives leased, as aforesaid, unto the Railroad Company, and as well all the claims, demands and remedies of the said Edward T. Stotesbury accruing or to accrue under the lease aforesaid.

30 Second. The said Trustee covenants and agrees that contemporaneously herewith it will certify and deliver to Drexel & Co., for distribution to the several subscribers to said "Erie Railroad Equipment Trust, Series 'I,'" seven thousand certificates in the following form, to wit: (Then follows form of equipment trust certificate, dividend warrant and guaranty).

Third. Trustee agrees to keep a register.

40 Fourth. The Trustee, as assignee of the said Edward T. Stotesbury, lessor, further covenants to

Exhibit Erie 15—(5).

perform, and, so far as possible, to enforce the performance of all and singular the terms, conditions, and covenants, of the said lease, and to apply and distribute the rents thereunder when and as the same shall be received for the following purposes, to wit:

(a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad cars and locomotives, and usual in cases of trust estates. 10

(b) To the payment of any taxes upon the income or property of the trust which it may be required to pay, and any taxes which may by law be deductible from the principal of said certificates or the dividends thereon.

(c) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable. 20

(d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable. The said coupons and certificates to be cancelled upon payment thereof.

It being distinctly understood that neither the said Trustee nor any successor in the trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own willful and intentional breach thereof. 30

Fifth. The Erie Railroad Company becomes a party hereto in order to express its assent to the assignment of the said lease by the said Edward T. Stotesbury to the said The Pennsylvania Company for Insurance on Lives and Granting Annuities, as Trustee for the benefit of the subscribers to said "Erie Railroad Equipment Trust, Series 'I'," and does hereby accept all the terms of this assignment, including the obligations to make payment of the reasonable expenses of the Trustee, and of all taxes 40

Exhibit Eric 15—(5).

hereinabove mentioned, for which the Trustee may be liable, or may by law be required to deduct from the principal of the said certificates or the interest thereon.

- 10 Sixth. It is further herein agreed and provided that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease reserved for more than thirty (30) days
after the same shall become payable, or shall fail to keep and perform all the terms and covenants of said lease, that the Trustee shall have the right as assignee of the said Edward T. Stotesbury to declare the principal of all of said car trust certificates hereby intended to be secured to be due so far as the rights of the holders thereof are concerned, and to thereupon enforce all the terms and stipulations of said lease, and that in case the said Trustee shall re-
20 take possession of the said railroad cars or locomotives it may either hold or lease or dispose of said railroad cars or locomotives or so many thereof as it may deem necessary, in such manner, at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial, and the proceeds of said lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may by law be required to pay in respect to the trust property, or
30 the certificates aforesaid, or the interest thereon:

(1) Of the dividend warrants then due.

(2) Of the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and if not, then *pro rata*.

And such retaking possession of the said railroad cars or locomotives by the said Trustee shall not be a bar to the recovery by the Trustee from the Railroad Company for future accruing rent until such
40

Exhibit Erie 15—(6).

sum is realized as, with the proceeds of the sale of said cars and locomotives, is sufficient for the payment in full of all taxes and expenses aforesaid, together with all accrued interest warrants and the principal of all of the said certificates.

The Trustee assumes no liability however saving for its own wilful or gross neglect; for the neglect of its agents it assumes no such liability. It shall undertake no active duty, however, in the way of taking care of, or taking possession of, equipment, until fully secured from all liability. No duty of insurance or of recording or of taking care of any of the Trust property is incumbent upon it. 10

(Then follows testimonium clause and acknowledgments.)

LEASE.

EDWARD T. STOTESBURY to ERIE RAILROAD COMPANY, dated December 2, 1912.

AGREEMENT OF ASSIGNMENT OF LEASE

Between Edward T. Stotesbury and Commercial Trust Company, Trustee, and Erie Railroad Company, for issue of \$2,000,000 Gold Equipment Trust Certificates, dated December 3rd, 1912. Series "S." 30

LEASE.

Agreement dated December 2, 1912, between Edward T. Stotesbury and Erie Railroad Company, Witnesseth:

That for and in consideration as well of the sum of one dollar, paid by the said Railroad Company to the Lessor, as of the rents and covenants herein-after mentioned the Lessor has let and leased, and by these presents doth let and lease to the Railroad 40

Exhibit Erie 15—(6).

Company for the term of ten years from December 2nd, 1912, and ending December 2nd, 1922, unless sooner terminated as hereinafter provided, the railroad equipment more particularly described as follows: (Then follows description and statement of numbers of 1,000 steel underframe box cars, 500 steel underframe box cars, 30 Mikado locomotives, 5 K-2 Pacific locomotives) upon the terms, conditions and covenants following to wit:

Article First. The Railroad Company shall and will pay to the Lessor, or his assigns at the office of the Commercial Trust Company, in the City of Philadelphia, State of Pennsylvania, as rent or hire for the said railroad equipment:

I. Upon demand after December 2nd, 1912, each payment aggregating five hundred and eleven thousand two hundred and nineteen (\$511,219) dollars.

II. Half-yearly, on the first days of June and December in each year, the first payment to be made on the first day of June, 1913, the following sums:

(a) A sum equal to two and one-fourth per cent. on two million (\$2,000,000) dollars, which sums thus paid shall be reduced from time to time by an amount equal to two and one-fourth per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of two million (\$2,000,000) dollars, as specified in paragraph III of this article.

(b) A sum equal to all reasonable expenses incurred by the said Lessor or his assigns in enforcing the covenants and terms of this lease.

(c) A sum equal to the taxes upon the property hereby leased which the Lessor may be liable to pay, and any tax which may by law be charged against the Lessor on account of the payment of rentals hereunder.

Exhibit Erie 15—(6).

III. Half-yearly, for ten years on the first day of June and the first day of December in each year, beginning with the first day of June, 1913, the following sums respectively:

On June 1st, 1913.....\$100,000.

On December 1st, 1913..... 100,000.

(Then follows provision for further payments of \$100,000, each on June 1st and December 1st of each year down to and including December 1st, 1922.) 10

Article Second. The Railroad Company covenants and agrees with the Lessor, in addition to its agreement to pay the said rent on the days and in the manner above provided, to keep and maintain at its own expense, the said railroad equipment in good order and repair, and to cause the said railroad equipment to be kept numbered as hereinbefore mentioned, and all of said railroad equipment to be plainly marked upon both sides of each car or locomotive with the words: "E. T. Stotesbury, Lessor, Commercial Trust Company, Trustee, Owner." And that it, the said Railroad Company, will not allow the name of any person, association or corporation to be placed on any of said railroad equipment as a designation which might be interpreted as a claim of ownership. Provided, however, that the Railroad Company may cause the said railroad equipment and each of them to be lettered "Erie," for convenience of identification of its lessee interest therein. 20 30

The Railroad Company covenants and agrees that it, the said Railroad Company, will replace at its own cost any of the said equipment which may be destroyed from any cause whatever during the continuance of this lease, by other railroad equipment of equal value as those destroyed and of substantially as good material, character and construction, and marked in like manner.

Third. The Company agrees to furnish inventory. 40

Exhibit Erie 13—(6).

Fourth. The Company agrees that there shall be no assignment or transfer without the consent of the Lessor.

10 Fifth. In case the Railroad Company shall make default in the payment of any part of the said rentals for more than thirty (30) days after the same shall have become payable, or shall fail to keep the said railroad
20 equipment in good serviceable condition, or to perform any of the other covenants herein contained to be performed on its part, the Lessor or his assigns may declare this lease terminated, and thereupon all instalments of rent reserved herein, whether said installments shall then have fallen due or not, shall at once become due and payable, and the Lessor, or his assigns, may by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said railroad equip-
ment may be, and may retake the said railroad equipment and withdraw the same from the said railroad or premises.

Article Sixth. In case of such retaking the company agrees to draw the said equipment to such points as shall be designated by the Lessor, and to deliver same.

30 Article Seventh. The said Lessor hereby covenants and agrees with the said Railroad Company that, when it, the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay, he, the said Lessor, or his assigns, shall and will, upon the payment by the Railroad Company to the Lessor, or his assigns, of the additional sum of one dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned and transferred to the Railroad Company, its successors and assigns, as its absolute property, all the railroad equipment held under this lease, and evidence such sale and transfer by an appropriate bill of sale, so that thereupon and thereafter the ab-
40

Exhibit Erie 15—(6).

solite ownership of said railroad equipment shall be and become vested in the Railroad Company, its successors and assigns.

Article Eighth. Recites intention of the Lessor to assign all his right, title and interest to Commercial Trust Company as Trustee.

Article Ninth. Lessor transfers and assigns to the Railroad Company all claims against the builders of the equipment, in case of failure of said builders of said equipment to deliver same as required by the conditions of the contracts therefor. 10

(Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated December 3, 1912, between Edward T. Stotesbury, Commercial Trust Company and the Erie Railroad Company, witnesseth: 20

Recites the above lease; also that certain bankers have secured subscriptions for \$2,000,000. to Erie Railroad Equipment Trust, Series "8", and that the subscribers are to be repaid in 20 semi-annual instalments of \$100,000. each beginning June 1, 1913, and ending December 1, 1922, with interest at the rate of 4½ per cent. Now therefore, this agreement, witnesseth:

First. That the said Edward T. Stotesbury hereby assigns and sets over unto the Commercial Trust Company, as Trustee, for the holders of the certificates hereinafter set forth, all the right, title and interest of the said Edward T. Stotesbury in and to said railroad equipment leased as aforesaid, unto the Railroad Company and to said lease and as well all the claims, demands and remedies of the said Edward T. Stotesbury accruing or to accrue thereunder, and to all rentals therein reserved, excepting only the cash payments aggregating five hundred and eleven thousand two hundred and nineteen (\$511,219) dollars 30 40

Exhibit Erie 15—(6).

due on demand after December 2nd, 1912, which said cash payments are to be paid to him the said Edward T. Stotesbury when and as collected by the Trustee and used by him in part payment for said railroad equipment.

10 Second. The said Trustee covenants and agrees that contemporaneously herewith it will certify and deliver to Drexel & Company for distribution to the several subscribers to said "Erie Railroad Equipment Trust, Series 'S'," two thousand certificates substantially in the following form, to wit: (Then follows form of equipment trust certificate and dividend warrant.)

Third. Trustee agrees to keep a register at its office.

20 Fourth. The Trustee, as assignee of the said Edward T. Stotesbury, lessor under said lease, further covenants to perform and so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of the said lease, and to apply and distribute the rentals payable on and after June 1st, 1913, thereunder, when and as the same shall be received for the following purposes, to wit:

30 (a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad equipment and usual in cases of trust estates.

(b) To the payment of any taxes upon the income or property of the trust which it may by law be required to pay, and any taxes which may by law be deductible from the principal of said certificates or the dividends thereon.

(c) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable.

40 (d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable.

Exhibit Erie 15—(6).

The said warrants and certificates to be cancelled upon payment thereof.

It is distinctly understood and agreed that neither the Trustee nor any successor in the trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

10

Fifth. The Erie Railroad Company becomes a party hereto in order to express its assent to the assignment herein contained of the said lease by the said Edward T. Stotesbury for the said Commercial Trust Company, as Trustee, for the benefit of the holders of the certificates of said "Erie Railroad Equipment Trust Series 'S,'" and does hereby accept and become bound by all the terms of this agreement and covenants to make payment of the reasonable expenses of the Trustee and of all taxes hereinable mentioned, for which the Trustee may be liable, or may by law be required to deduct from the principal of the said certificates or the dividends thereon.

20

Sixth. It is further covenanted and agreed that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease reserved for more than thirty (30) days after the same shall become payable or shall fail to keep and perform all the terms and covenants of said lease, the Trustee shall have the right as assignee of the said Edward T. Stotesbury, to declare the principal of all of said equipment trust certificates hereby intended to be secured to be due, so far as the rights of the holders thereof are concerned, and to thereupon enforce all the terms and stipulations of said lease, and in case the Trustee shall retake possession of the said railroad equipment, it may either hold or lease or dispose of said railroad equipment or so much thereof as it may deem necessary, in such manner, at public or private sale,

30

40

Exhibit Erie 15—(6).

for cash or upon credit, as the Trustee may deem most beneficial; and the proceeds of said lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may, by law, be required to pay in respect to the trust property, or the certificates aforesaid, or the dividends thereon,

- 10 (1) To the dividend warrants then due,
 (2) To the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and, if not, then *pro rata*.

20 And such retaking possession of the said railroad equipment by the Trustee shall not be a bar to the recovery by the Trustee from Erie Railroad of the future accruing rent until such sum is realized, as, with the proceeds of the sale of said railroad equipment, is sufficient for the payment in full of all taxes and expenses as aforesaid, together with all accrued dividend warrants and the principal of all of the said certificates.

30 Seventh. There shall be no duty upon the Trustee to insure or repair or take care of any of the trust property, nor to record this agreement, or the Agreement of Lease, nor shall it be responsible for the performance or non-performance of any of the covenants and agreements undertaken by the parties to said agreement; nor shall it be required to undertake any active duty hereunder until fully indemnified to its satisfaction, the Trustee assuming no liability save for its own wilful or gross neglect.

40 The Commercial Trust Company hereby constitutes and appoints Thomas Dewitt Cuyler to be its attorney for it and in its name and as and for its corporate act and deed to acknowledge this instrument before any person having authority by the Laws of the Common-

Exhibit Erie 15—(7).

wealth of Pennsylvania to take such acknowledgment to the intent that the same may be duly recorded.

The Erie Railroad Company hereby constitutes and appoints F. D. Underwood to be its attorney for it and in its name and as and for its corporate act and deed to acknowledge this instrument before any person having authority by the Laws of the Commonwealth of Pennsylvania to take such acknowledgment to the intent that the same may be duly recorded.

10

(Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE 15."

(7)

American Car and Foundry Company, Columbia-Knickerbocker Trust Company, Trustee, and Erie Railroad Company. Conditional Sale Agreement and Indenture of Lease. Dated June 14, 1913. Series "T."

20

Recites request of railroad to the Trustees to secure certain cars. Parties agree as follows:

First. The Car Company agrees to manufacture for and to sell and deliver to the Trustee, f. o. b. tracks at Car Company's works at Madison, Ill., on or prior to the 31st day of December, 1913, the following described railroad equipment and rolling stock, to wit:

Fifteen Hundred 30-ton steel underframe box cars to be numbered 87500 to 88999, both inclusive, and to be lettered "Erie," (comprising the trust equipment in this instrument mentioned), built in accordance with specifications heretofore agreed upon between the Railroad and the Car Company; and agrees to accept as full payment for all said cars, the principal sum of One Million Five Hundred and Eighty-seven Thousand Three Hundred and Twenty-five (\$1,587,325.00) dollars, of which sum Two Hundred and Sixty-seven Thousand Three Hundred and Twenty-

30

40

Exhibit Eric 15—(7).

five (\$267,325.00) Dollars shall be paid in cash in the manner and at the times hereinafter provided, and the remaining One Million, Three Hundred and Twenty Thousand (\$1,320,000) Dollars of said principal sum shall be in the "equipment notes" (hereinafter described) of the Railroad to be issued and delivered as hereinafter provided for.

- 10 **Second.** The Trustee agrees to, and does hereby, lease unto the Railroad, and the Railroad does hereby hire and lease from the Trustee, all and singular the said trust equipment, from the times and at the place of the respective deliveries thereof to the Trustee by the Car Company and until the 15th day of June, 1923 (or the earlier termination of this agreement as hereinafter provided for), at the rental and upon and subject to the terms and conditions hereinafter stated.

- 20 **Third.** The railroad agrees to receive and accept the equipment and to pay for the same as set forth in the agreement; the delivery and acceptance of the equipment of the railroad shall not vest any right or title in the railroad other than as defined.

And it is further covenanted and agreed by and between the parties:

- 30 **I.** The Railroad agrees, as a consideration for the leasing to it of the trust equipment, to faithfully observe and comply with all and every the terms, provisions and conditions of this agreement by it to be observed and complied with; and agrees to pay to the Trustee, to and for the account of the Car Company, in cash and in the manner and at the times hereinafter provided, the sum of two hundred and sixty-seven thousand three hundred and twenty-five (\$267,325.00) dollars; and agrees to pay as rental for said trust equipment:

- 40 (a) The entire principal sum of the equipment notes issued in accordance with the provisions hereof according to their tenor, as the same severally mature,

Exhibit Erie 15—(7).

together with interest at the rate of five (5%) per cent. per annum upon the principal of said notes, according to the tenor of the coupons thereto attached—all such payments both of principal and interest to be in gold coin of the United States of the present standard of weight and fineness, or its equivalent; (b) any and all taxes which may be assessed or levied upon the trust equipment, or any part thereof; and any and all taxes which the Trustee may be required to pay on the equipment notes issued hereunder, and the interest coupons thereon, or by reason of this agreement; (c) compensation and expenses of the Trustee hereunder; and (d) all expenses incurred in the printing or lithographing (or both) of the notes and coupons herein provided for, and in the execution, acknowledgment filing and recording of this agreement and of all agreements supplemental hereto or amendatory hereof wherever in the opinion of the Trustee or the Car Company it may be necessary or proper to record or file the same for the complete protection of the holders of the notes issued in accordance with the terms of this agreement, and for the purpose of securing the Trustee in the ownership of the trust equipment until all payments herein provided to be made shall have been made and until all things herein required to be done by the Railroad shall have been done.

II. The Railroad agrees to forthwith execute and deliver to the Trustee its notes (herein designated "equipment notes") aggregating in principal amount One Million Three Hundred and Twenty Thousand (\$1,320,000) Dollars. Such notes shall be designated as "Erie Railroad Equipment Notes, Series T"; shall be for the principal sum of One Thousand Dollars each; shall all be dated as of June 14, 1913 and bear interest (to be evidenced by interest coupons attached) from June 15, 1913, at the rate of five per cent. per annum, payable semi-annually, on the fifteenth day

Exhibit Erie 15—(7).

of December, and of June in each year, beginning December 15, 1913, and ending June 15, 1923.

Said notes shall be numbered consecutively from 1 to 1320 inclusive; each said note shall have endorsed thereon a certificate of the Trustee, as hereinafter specified; and said notes shall mature as follows: (Then follows list of numbers and dates of maturity of the notes, running from number 1 to number 1320, and maturing between December 15, 1913 and June 15, 1923.

Then follows the form of note, coupon and Trustees certificate and further provisions as to the amount and the terms of such notes).

III. The Car Company agrees to complete the delivery of the entire trust equipment on or prior to December 31, 1913—its obligation with respect to deliveries however, being made expressly subject to delays caused by accidents, labor troubles, fires, delays of sub-contractors or in receipt of material, or any other cause or causes beyond the control of itself or of its sub-contractors it being understood that time is of the essence of this agreement.

The Trustee hereby transfers and assigns unto the Railroad, for the protection of the Railroad's interests as lessee hereunder, all the rights, claims and demands arising or which may arise against the Car Company as the builder of said railroad equipment, or any part thereof, under the contract which the said railroad equipment is built by it, in case of the failure of the Car Company to deliver said railroad equipment, or any part thereof at the times or in the manner and in accordance with the specifications therefor as in said contract provided, but nothing in this article contained shall affect or divest the title of the Trustee in and to said equipment.

IV. Railroad agrees to keep an inspector at the works of the car company.

Exhibit Erie 15—(7).

V. (a) The Railroad agrees that upon delivery of each one hundred (100) cars of the trust equipment, and from time to time as the same are delivered, it will execute and deliver, in duplicates, to the Car Company and to the Trustee a certificate or certificates executed by its President or by one of its Vice-Presidents and by either its Secretary, one of its Assistant Secretaries, its Treasurers, or one of its Assistant Treasurers, showing the number (in every case one hundred (100) or a multiple thereof) of the cars so delivered and the road numbers thereof—which certificate shall be taken and acted on by the Trustee as conclusive evidence of its right to pay to the Car Company, either in cash or partly in cash and partly in equipment notes, as hereinafter specified, for the cars so delivered. 10

(b) The Railroad agrees to pay to the Trustee the sum of \$267,325, specified in Article I hereof, and to pay said sum to the Trustee at such times and in such amounts as will enable the Trustee forthwith to make to the Car Company the payments hereinafter specified for the cars as delivered. 20

(c) Upon or at any time after the Trustee shall have received from the Railroad the equipment notes (whether permanent or temporary) above mentioned, it shall, upon the written request of the President or Treasurer of the Car Company, authenticate and deliver all of said notes, provided, however, that such authentication and delivery shall not be made unless the Trustee shall receive for the notes so authenticated and delivered an amount in cash equal to the face value of the notes so authenticated and delivered with accrued interest thereon to the date of such authentication and delivery. In the event of such authentication and delivery of the equipment notes, the cash so received by the Trustee shall be held by it in trust for the benefit of the Car Company, to be paid to it from time to time not otherwise than as hereinafter pro- 30 40

Exhibit Erie 15—(7).

vided for, viz: Whenever there shall be delivered to the Trustee a bill or bills of the Car Company for cars forming part of the trust equipment delivered by it (in every case one hundred (100) or a multiple thereof), approved as to amount by the President or a Vice-President of the Railroad, and accompanied by a certificate executed as specified in foregoing subdivision (a) hereof, together with a certificate of inspection executed as specified in Article IV of this instrument, the Trustee shall pay over in cash to the Car Company the full amount of such bill or bills—retaining the balance of the said moneys so received by it in trust for the benefit of the holders of the equipment notes, but subject to its prior obligation to pay therefrom the bills of the Car Company for cars forming part of the trust equipment that shall thereafter be delivered by the Car Company in conformity with the provisions hereof.

In no event shall the Trustee be liable to the holders of outstanding equipment notes, nor to the Car Company, for an amount in excess of the cash which it shall receive under the provisions of this article V and of preceding Article I of this agreement.

(d) If there shall be no authentication and delivery of the equipment notes as provided for in preceding subdivision (c) hereof, then the Trustee, upon the presentation to it of certificate or certificates executed as specified in preceding subdivision (a) hereof, and upon the payment to it of the moneys specified in preceding Article I of this instrument, in accordance with the provisions of subdivision (b) of this Article V of this instrument, shall pay to the Car Company, with respect to each lot of one hundred (100) cars, in cash, the sum of Seventeen thousand eight hundred dollars (\$17,800) out of the moneys to be paid to it by the Railroad for the account of the Car Company as specified in said Article I of this instrument; and shall also certify and deliver to the

Exhibit Erie 15—(7).

Car Company, or on its order, with respect to each lot of one hundred (100) cars, the equipment notes of the Railroad of the face value of Eighty-eight thousand Dollars (\$88,000)—in each case of the earliest maturities then remaining undelivered by the Trustee.

Any balance of the cash or of the equipment notes not theretofore paid or delivered shall be adjusted upon the delivery to the Trustee of the certificate of the Railroad respecting the last lot of cars to be delivered hereunder. And as soon as may be after the delivery of the last lot of cars, the Railroad and the Car Company shall account together respecting such allowance of interest as may be due from the Car Company to the Railroad, and the Railroad will thereupon pay to the Trustee for the account of the Car Company the balance of the cash payment hereunder of Two Hundred and Sixty-seven Thousand, Three Hundred and Twenty-five (\$267,325.00) dollars then remaining unpaid, less such amount of interest as may then be owed by the Car Company to the Railroad. 10 20

As the cars comprising the trust equipment are paid for, as hereinabove specified, title thereto shall vest in the Trustee, and the Trustee shall be entitled to have from the Car Company a bill or bills of sale, or other instrument or instruments evidencing that fact.

Anything herein contained to the contrary notwithstanding, in the event that any of the cars deliverable by the Car Company hereunder shall remain undelivered on April 1, 1914, all moneys theretofore deposited with the Trustee by the Car Company or the Railroad as hereinbefore provided, and then remaining on deposit unapplied to cars delivered shall be applied by the Trustee under the direction of the Railroad to the purchase of steel underframe box cars of the same general design as the cars hereinbefore described and bearing the same lettering as to interest or ownership, and the cars so purchased shall be and 30 40

Exhibit Erie 13—(7).

become subject to this Agreement as fully and in all respects as though said cars had been cars manufactured and delivered by the Car Company to the Railroad hereunder; and the title to all equipment so purchased shall be vested in the Trustee for the protection of the holders of the notes issued hereunder in like manner as the title to the other equipment
10 herein described.

VI. Railroad to have possession and use of the equipment upon its railroad and connecting railroads. Equipment to be marked in a certain manner.

VII. Railroad agrees to keep equipment in proper order and repair, to replace such parts thereof as may be worn out or destroyed; shall furnish inventory of the numbers and descriptions of the cars included in the equipment.

20 VIII. Railroad agrees that it will not assign or transfer this indenture, or any of its rights hereunder, without the consent of the Trustee.

IX. The Railroad agrees that the title of the Trustee shall not be affected by any failure to comply with the Laws of the United States or of any State.

X. The Railroad agrees that the notes and coupons shall be paid at maturity, and that no notes or coupons in substitution thereof shall be issued; nor shall the railroad consent to the extension of the time
30 of payment of the principal of any such notes or coupons.

XI. The Railroad agrees to make, execute and deliver all further agreements as the car company, or the Trustee, may require.

XII. Upon payment by the Railroad of the notes and interest, and upon performance by it of its covenants, the Trustee will execute and deliver a bill of sale to the railroad.

Exhibit Erie 15—(7).

XIII. The railroad entitled to possession of the equipment so long as it observes the conditions of the agreement; but in case of default which continues for 30 days after notice in writing by the Trustee, the Trustee may, at its option, retake the Trust equipment; on such default the railroad agrees to deliver the equipment to the Trustee and relinquish all claims or rights in and to the same.

Upon such election by the Trustee to retake the equipment, the whole of the principal of the notes may be declared due and shall be so declared upon the written request of the holders of at least one-fourth of the notes then outstanding; Trustee may sell the equipment with or without notice to the railroad and apply the net proceeds to the payment of its expenses and of the principal and interest on the notes.

The holders of fifty per cent. of the notes may waive default on the part of the railroad and shall have the right to direct and control the action of the Trustee.

XIV. The Trustee not to be liable for delay in delivery of the equipment, or for any failure or default on the part of the Railroad, or of the car company, or for any defect in equipment.

XV. Provides for service of notice upon the railroad by serving certain of its officers, either personally or by mail.

XVI. Trustee may resign on giving certain notice; or may be removed by a majority of the outstanding notes.

XVII. All parties may treat the bearer of any note or coupon as the absolute owner thereof.

XVIII. Defines the companies intended by the expressions "Car Company," "Trustee," and "Railroad."

Then follows testimonium clause and acknowledgments.

EXHIBIT "ERIE-15."

(8)

Agreement dated December 1, 1911, between Erie Railroad Company, Barney and Smith Car Company and Wells Fargo & Company.

10 Recites, the Express Company conducts the express business and that 25 additional express cars are required; and that the car company is willing to construct, sell and deliver the cars to the express company, and the express company is willing to purchase the cars and to lease them to the railroad. Agreed as follows:

First. The car company agrees to construct and sell to the express company 25 express cars in accordance with certain drawings and specifications.

20 The car company agrees to deliver same at Dayton, Ohio, commencing March 1, 1912, and to complete delivery March 31, 1912.

Second. The total cash cost of constructing and delivering said cars in the manner hereinbefore provided shall be as follows:

(a) For each of said cars provided with large automobile door in one and six thousand one hundred forty five and 63/100 dollars (\$6,145.63).

30 (b) For each of said cars not so provided Six Thousand, One Hundred Thirty Two and 93/100 Dollars (\$6,132.93).

The Express Company shall pay said total cash cost to the Car Company in New York Exchange at the office of the Car Company upon the delivery of said cars to it in the manner hereinbefore provided and upon the certificate of inspectors duly authorized by the Railroad Company stating that said cars have been constructed and equipped in accordance with the provisions contained herein.

The Express Company shall also pay promptly upon the receipt thereof from the Railroad Company from time to time as the work of constructing said cars progresses all invoices or bills covering materials which the Express Company agree under Article Third hereof to furnish or cause to be furnished to the Car Company free of expense in connection with the construction of said cars; provided, however, that said vouchers or bills shall first be approved by the General Mechanical Superintendent of the Railroad Company or other officer designated by it. 10

Third. Express Company agrees to furnish certain special specialities.

Fourth. The railroad agrees to keep an inspector at the works.

Fifth. The delivery of the cars and their acceptance to vest legal title in express company. 20

Sixth. The express company leases the cars to the railroad company from the dates of delivery until December 1, 1916.

Seventh. The railroad company agrees to accept cars as the same may be ready for delivery.

Eighth. The Railroad Company shall pay to the express company as rental for said cars the entire amount of money to be paid as aforesaid by the Express Company, including the total cash cost of all of said cars constructed and delivered pursuant to the terms of this agreement and all sums paid in settlement of invoices or bills for material furnished or caused to be furnished by it hereunder, in ten (10) semi-annual payments with interest payable semi-annually upon such part thereof as shall be outstanding at the rate of five per centum (5%) per annum; shall pay all taxes, licenses, assessments and charges of any kind which may be assessed or levied upon said cars or any part thereof; shall retain upon said 30 40

Exhibit Erie 15—(8).

cars the plate or stencil to be placed on each side thereof in the manner hereinbefore provided up to the time the last payment is made hereunder by the Railroad Company to the Express Company, and the lien of the Express Company upon said cars shall continue up to the time of making such final payment.

- 10 The Railroad Company hereby expressly reserves the right (which the Express Company agrees that the Railroad Company shall have) at any time during the continuance of this agreement, upon giving thirty (30) days notice in writing of its intention so to do, to pay off all such sum or sums of money together with the interest thereon which it may owe to the Express Company under the provisions of this agreement.

Ninth. The Railroad Company assumes cost of maintenance and repairs.

- 20 Tenth. The Car Company agrees to pay royalties.

- Eleventh. The Railroad Company hereby agrees that in case of default by it in the payment when due of any sums herein agreed to be paid, the Express Company may withhold so much of any and all amounts due or to become due to the Railroad Company from the Express Company under the aforesaid agreement existing between said companies covering the conduct of express business over the lines of the Railroad Company as shall be necessary to pay said
30 sums so in default and may apply the amount so withheld to the payment of said sums so in default until they are fully paid and satisfied.

Twelfth. Express Company may resort to any proceedings to enforce this agreement.

Thirteenth. The Express Company agrees to sell and transfer the cars to the Railroad Company upon payment of the sums agreed to be paid as rental.

- 40 (Then follows testimonium clause and acknowledgments.)

Exhibit Erie 15—(9).

EXHIBIT "ERIE-15."

(9)

Agreement dated November 28, 1915, by and between Baldwin Locomotive Works, Lessor, and Erie Railroad Company, Lessee; Witnesseth:

First. The Lessor loans to the Lessee ten locomotives of certain numbers with the privilege of using the same at the Lessee's risk upon its railroad for the term of 37 months. 10

Second. It is agreed that the value of each of said locomotives is twenty-four thousand, three hundred twenty-seven dollars and eighty-six cents (\$24,327.86) and that if all or any of said locomotives are not purchased by the lessee as provided in this agreement, and are in any way lost or destroyed prior to actual redelivery to the lessor, or value with interest from the date of this agreement shall become immediately due and payable by the lessee to the lessor; and in case said locomotives or any of them shall be returned to, or be reclaimed by the lessor, under the provisions of this agreement, in a damaged condition, the amount of any such damage (except depreciation from reasonable use) shall be paid by the lessee to the lessor; and in case said locomotives or any of them shall be returned to, or be reclaimed by the lessor under the provisions of this agreement, without any injury or damage, except depreciation from reasonable use, the amount of such depreciation shall be determined as hereinafter provided, and the amount so determined shall be paid by the lessee to the lessor. 20 30

Third. Lessee not to use the locomotives other than as provided in the agreement, without the written consent of the lessor.

Fourth. The lessee will pay to the lessor as rent for said locomotives the value of each thereof, as 40

Exhibit Erie 15—(9).

mentioned in the first section of this agreement, together with interest on unpaid balances during the term of this agreement, making in all the sum of two hundred sixty-four thousand, six hundred twenty-four dollars and six cents (\$264,624.06), in the following payments:

10 On December 28th, 1913, Twenty-four thousand, three hundred twenty-seven dollars and sixty-six cents—\$24,327.66.

On March 28th, 1914, and quarterly thereafter up to and including December 28th, 1916, the sum of Twenty thousand, twenty-four dollars and seventy cents (\$20,024.70) as the amount of each quarterly payment.

20 Fifth. If the lessee shall have faithfully performed all the terms and conditions of this agreement, in the manner and form as herein provided, without default, then it is agreed, that the lessee may, at its option, at any time during the term of this agreement, or within one month after the expiration thereof, purchase said ten (10) locomotives at the price of one dollar (\$1.00) and upon the payment of said sum to the lessor, the lessor will convey said ten locomotives to the lessee by good and sufficient bill of sale.

30 Sixth. Title of the lessor to remain until the rent and purchase money have been paid and until a bill of sale has been delivered by the lessor.

Seventh. Provision for arbitration in case of disagreement as to the amount to which the lessor is entitled.

(Then follows testimonium clause and acknowledgments.)

Exhibit Erie 15—(10).

EXHIBIT "ERIE-15."

(10)

LEASE.

Standard Steel Car Company to Erie Railroad Company; dated July 1st, 1907.

AGREEMENT.

10

Between Standard Steel Car Company and Bankers Trust Company and Erie Railroad Company, for issue of \$2,140,000 Gold Equipment Trust Certificates. Dated July 1st, 1907. Series "L."

LEASE.

Agreement dated July 1, 1907, between Standard Steel Car Company and Erie Railroad Company, Witnesseth:

That for and in consideration of the sum of one dollar, paid by the said Railroad Company to the Lessor, as well as of the rents and covenants hereinafter mentioned, the Lessor has let and leased, and by these presents doth let and lease to the Railroad Company for the term ending July 1, 1917, unless sooner terminated, as hereinafter provided, the cars, more particularly described, as follows:

20

Two thousand (2,000) Steel Hopper Cars, 100,000 pounds capacity each, marked "Erie" and numbered from 27,000 to 28,999, inclusive.

30

Which said cars shall be delivered to the Railroad Company on tracks at the Car Works of the Lessor, between July 1st, 1907, and December 1st, 1907, at and for the rent hereinafter set out, and upon the terms, conditions and covenants following, to wit:

First. That the said Railroad Company shall and will pay to the Lessor, or its assigns, at the office of the Railroad Company in the City of New York, as rent or hire for the said railroad cars:

40

Exhibit Eric 15—(10).

I. Upon demand a cash payment of Fifty-five Thousand One Hundred Dollars (\$55,100.00), and the springs (truck and draft), brake beams, journal boxes and lids, journal bearings and wedges and couplers for equipping such cars, receipt of which appliances is hereby acknowledged.

10 II. Half-yearly, on the first days of January and July in each year, the first payment to be made on the first day of January, 1908, the following sums:

(a) A sum equal to $2\frac{1}{2}$ per cent. on Two Million One Hundred and Forty Thousand Dollars, which sum thus paid shall be reduced from time to time by an amount equal to $2\frac{1}{2}$ per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of Two Million One Hundred and Forty Thousand Dollars as specified in Paragraph III of this Article:

20 (b) A sum equal to the taxes upon the property leased hereunder which the Lessor or its assigns may be liable to pay.

III. Half-yearly for Ten years, on the first day of January and the first day of July in each year, beginning with the first day of January, 1908, the sum of One Hundred and Seven Thousand Dollars, making twenty semi-annual payments of One Hundred and Seven Thousand Dollars each.

30 IV. The payments of rental provided for in paragraphs II (a) and III shall be evidenced by Car Trust notes or certificates to be executed by the Railroad Company, and payment of such certificates and the coupons thereof shall be for all purposes equivalent to payment of the said portions of rental to the said Lessor, and such certificates and coupons shall be in form substantially as follows:

(Then follows the form of car trust certificate, trustees certificate and coupon; then follows provisions for
40 the numbering of the certificates, from 1 to 2140, each

Exhibit Erie 15—(10).

for the sum of \$1000, Nos. 1 to 107 payable January 1st, 1908 and then each series of 107 notes payable on each of the following July 1st and January 1st down to and including July 1st, 1917.

Second. The Railroad Company covenants and agrees with the Lessor, in addition to its agreement to pay the said rent on the days and in the manner above provided for, to keep and maintain at its own expense the said railroad cars in good order and repair, and to cause the said railroad cars to be kept numbered as hereinbefore mentioned, and all of said railroad cars to be plainly marked upon both sides thereof with the words "Bankers Trust Company, Trustee, Assignee, Owner and Lessor," and that it, the said Railroad Company, will replace at its own cost any of the said cars which may be destroyed from any cause whatever during the continuance of this lease, by other railroad cars of equal value as those destroyed and of substantially as good material, character and construction, and that it, the said Railroad Company, will not allow the name of any person, association or corporation to be placed on any of the said railroad cars as a designation which might be interpreted as a claim of ownership. Provided, however, that the Railroad Company may cause the said cars and each of them, to be lettered "Erie," for convenience of identification of its lessee interest therein. Provided, however, that the Railroad Company may, at its option, instead of replacing any of said cars, which may be worn out, lost or destroyed, pay to the Lessor the sum of Ten Hundred and Seventy Dollars for each car so worn out, lost or destroyed, all such money to be held by the Lessor, until the termination of this lease, and, in the event that the Railroad Company exercises the option of purchase herein provided, after default or otherwise, to be turned over to said Railroad Company at the time of such purchase, and the Lessor agrees to pay to the Railroad Company interest thereon at a reasonable interest rate, not less

Exhibit Erie 15—(10).

than the highest rate paid general depositors of the Bankers Trust Company, of New York, said interest to be retained by the Lessor, its successors or assigns, until all payments have been made in accordance with Article First, Paragraphs I, II and III.

10 It is provided further, that the Railroad Company shall exercise such option of substituting money for cars within thirty days after notice to the Accounting Department of the Railroad Company of the wearing out, loss or destruction of any such cars, or shall, within such period, notify the Lessor, its successors or assigns, of its election to replace such cars, and shall so replace the same as speedily as possible thereafter.

Third. The Railroad agrees to furnish an inventory.

20 Fourth. The Railroad agrees that there shall be no assignment and transfer of its rights without the consent of the Lessor.

Fifth. In case the Railroad Company (a) shall make default in the payment of any part of said rental for more than thirty days after the same shall have become payable, or in case (b) the Railroad Company shall fail to keep the said cars in good and serviceable condition, or to perform any other obligations and covenants herein contained to be performed on its part, and such last mentioned default or defaults shall have continued for a period of thirty days after written notice thereof from the Lessor, then, and in each and every case of default aforesaid, the Lessor may declare this lease terminated, and all outstanding bonds due and payable, and thereupon all installments of rent reserved herein and all said bonds, whether said installments of bonds shall have fallen due or not, shall at once become due and payable, and the Lessor may, by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon and wherein said cars may be, and may retake said cars

30

40

Exhibit Erie 15—(10).

and withdraw the same from said railroad or premises.

But in any such case of default the Railroad Company shall have the right, within thirty (30) days, after the Lessor shall have declared the lease terminated, to pay all outstanding bonds and interest thereon to the date of such payment. Thereupon, upon receipt of evidence of such payment and of the cancellation of all such bonds and interest coupons thereon, the Lessor, its successors or assigns, will make and deliver to the Railroad Company a bill of sale of all its rights, title and interest in and to the cars covered by this lease, and return to the Railroad Company all sums deposited by the Railroad Company with the Lessor, its successors or assigns, on account of cars worn out or destroyed, with accrued and unpaid interest. 10

Sixth. In case of such retaking the Railroad agrees to draw the cars to such points as designated by the Lessor and to deliver the same. 20

Seventh. The said Lessor hereby covenants and agrees with the said Railroad Company that, when it, the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay, and all other payments which it may have agreed to make, it, the said Lessor, shall and will upon the payment by the Railroad Company to the Lessor, or its assigns, of the additional sum of One Dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned and transferred to the Railroad Company, its successors and assigns, as its absolute property, all the railroad cars held under this lease, and evidence such sale and transfer by an appropriate bill of sale, so that, thereupon and thereafter, the absolute ownership in said railroad cars shall be and become vested in the Railroad Company, its successors and assigns, and also to repay to the Rail- 30 40

Exhibit Erie 15—(10).

road Company all amounts theretofore paid to it by the Railroad Company, in accordance with Section Second hereof on account of cars worn out, lost or destroyed, together with the interest thereon accrued and unpaid.

10 PROVIDED, however, and it is hereby understood, that it is the intention of the Lessor to forthwith upon the execution of this instrument, assign, transfer and
20 set over unto the Bankers Trust Company, as Trustee, all its right, title and interest in and to said cars hereby leased unto the said Railroad Company, and as well all its claims, demands and remedies under this lease accruing or to accrue; and that any bills of sale of said equipment or any part thereof at any time hereafter executed by said Bankers Trust Company, as Trustee, or any duly appointed successor Trustee, conveying such title as it has received,
20 delivered unto the Railroad Company, its successors or assigns, as in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor; the Lessor, shall, however, join in any such bill of sale and warrant the title of the said cars against any and all claiming title to, or a lien upon, said cars through the Lessor.

30 (Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated July 1, 1907, between Standard Steel Car Company, Bankers Trust Company and Erie Railroad Company.

40 Recites the above lease; also that the Car Company has secured subscriptions for \$2,140,000 to Erie Railroad Equipment Trust, Series "L"; further, that the Car Company proposes to secure to the subscribers the repayment thereof in 20 semi-annual pay-

Exhibit Erie 15—(10).

ments of \$107,000 each beginning January 1, 1908 and ending July 1, 1917, with interest at the rate of five per cent. This agreement witnesseth:

First. The Car Company assigns to the Trust Company, as Trustee, all its right, title and interest in the said railroad cars; also all its right and title to the repayment of money deposited in lieu of the replacement of cars lost or destroyed; and to the delivery of a bill of sale on the termination of the lease. 10

Second. Trustee agrees to certify and deliver to the Car Company 2,140 certificates. (Then follows form of certificate and coupon.)

Third. As all of the bonds to be executed by the Railroad Company and secured by said Indenture of Lease will bear date the first day of July, 1907, and the interest thereon, represented by the coupons attached thereto, will date from the first day of July, 1907, the Car Company agrees to pay to the Railroad Company, in cash, such sum as may represent the interest which may accumulate on the said bonds from July 1, 1907, to the average date the cars referred to in the Indenture of Lease are delivered; said payment of interest by the Car Company to the Railroad Company to become due and payable immediately following the delivery of the last of the said cars. 20

Fourth. The Trustee, as assignee of the said Standard Steel Car Company, Lessor, further covenants to perform, and, so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of the said lease, and to apply and distribute the rentals thereunder when and as the same shall be received, for the following purposes, to wit: 30

(a) To the payment of any taxes upon the railroad cars leased which it may be required to pay.

(b) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable. 40

Exhibit Erie 15—(10).

10 (c) To the payment and redemption of the principal of the said certificates when and as the same shall become payable. The said coupons and certificates to be cancelled upon payment thereof. Provided, however, that the Railroad covenants and agrees to pay bonds or certificates and coupons issued under said lease at its office in accordance with the terms and provisions of said bonds and coupons and of this instrument and of said lease, and such payments shall to the extent thereof be satisfaction of the rental reserved in said lease and a discharge to the Trustee from all obligations to require the payment of rentals to that extent and to apply and distribute the same.

20 It being distinctly understood that neither the said Trustee nor any successor in the trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

Fifth. The Railroad Company assents to the assignment of said lease by the Car Company to the Trust Company.

30 Sixth. It is further herein agreed and provided that in case the Railroad Company (a) shall at any time make default in the payment of any part in the rental in said lease reserved for more than thirty days after the same shall have become payable, or in case (b) the Railroad Company shall fail to keep the said cars in good and serviceable condition or to perform all other obligations and covenants in said lease contained to be performed, on its part, and such last mentioned default or defaults shall have continued for a period of thirty days after written notice thereof from the Trustee, then and in each and every case of default as aforesaid, the Trustee shall have the right, as assignee of said Car Company, to enforce all the terms and stipulations of said lease subject to the right of the Railroad Company to exercise its option of purchase as therein set out, and in case the said Trustee shall re-

40

take possession of the said cars, it may either hold or lease, or dispose of said cars or so many thereof as it may deem necessary in such manner at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial, and the proceeds of said lease or sale, together with all moneys in the hands of the Trustee in lieu of lost, worn out or destroyed cars, and any unpaid interest thereon, shall be applied by the Trustee to the payment, after deducting all taxes which the Trustee may by law be required to pay in respect to the railroad cars covered by the said lease. 10

(1) Of the dividend warrants then due.

(2) Of the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and if not, then *pro rata*.

And such retaking possession of the said railroad cars by the said Trustee shall not be a bar to the recovery by the Trustee from the Railroad Company for future accruing rent until such sum is sufficient for the payment in full of all taxes aforesaid, together with all accrued interest warrants and the principal of all of the said certificates. 20

The Trustee assumes no liability, however, saving for its own wilful or gross neglect; for the neglect of its agents it assumes no such liability. It shall undertake no active duty, however, in the way of taking care of, or taking possession of, equipment, until fully secured from all liability. No duty of insurance or of recording or of taking care of any of the Trust property is incumbent upon it. 30

Seventh. Temporary receipts may be issued.

Eighth. Trustee shall receive reasonable compensation.

Ninth. The Car Company indemnifies the Trustee against loss by use of any patents.

(Then follows testimonium clause and acknowledgments.) 40

Exhibit Erie 15—(11).

EXHIBIT "ERIE 15."

(11)

LEASE.

Edward T. Stotesbury to Erie Railroad Company.
Dated July 1, 1907.

10

AGREEMENT.

Between Edward T. Stotesbury and Girard Trust Company and Erie Railroad Company; for issue of \$580,000. Gold Equipment Trust Certificates. Dated July 2d, 1907. Series "M."

LEASE.

Agreement dated July 1, 1907, between Edward T. Stotesbury and Erie Railroad Company; Witnesseth:

20 That for and in consideration as well of the sum of one dollar, paid by the said Railroad Company to the Lessor, as of the rents and covenants hereinafter mentioned, the Lessor has let and leased, and by these presents doth let and lease to the Railroad Company for the term ending July 1st, 1917, unless sooner terminated as hereinafter provided, the locomotives more particularly described as follows: (Then follows description of 3 Mallet Type Locomotives and 35 Consolidation Freight Locomotives.)

30 First. That the said Railroad Company shall and will pay to the Lessor, or his assigns at the office of the Girard Trust Company, in the city of Philadelphia, State of Pennsylvania, as rent or hire for the said locomotives:

1. Upon demand, after August 1st, 1907, a cash payment of one hundred and forty-four thousand eight hundred and seventy-five dollars (\$144,875);

2. Half-yearly, on the first days of January and July in each year, the first payment to be made on the first day of January, 1908, the following sums:

40

Exhibit Erie 15—(11).

(a) A sum equal to two and one-half per cent. on five hundred and eighty thousand dollars (\$580,000), which sums thus paid shall be reduced from time to time by an amount equal to two and one-half per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of five hundred and eighty thousand dollars, as specified in paragraph 3 of this article; 10

(b) A sum equal to all reasonable expenses incurred by the said Lessor or his assigns in enforcing the covenants and terms of this lease;

(c) A sum equal to the taxes upon the income or property of the trust which the Lessor his assigns may be liable to pay, and any taxes which may by law be charged against the Lessor on account of the payments or rental hereunder.

3. Half-yearly, for ten years, on the first day of January and the first day of July in each year, beginning with the first day of January, 1908, the following sums, respectively: 20

On January 1st, 1908.....\$29,000

On July 1st, 1908..... 29,000

(Then follows provision for further payments of \$29,000 each on January 1st and July 1st of each year down to and including July 1st, 1917.)

3. The Railroad Company agrees to furnish an inventory. 30

4. The Railroad Company agrees that there shall be no assignment or transfer without the consent of the Lessor.

Fifth. That in case the Railroad Company shall make default in the payment of any part of the said rental for more than thirty days after the same shall have become payable, or shall fail to keep the said locomotives in good serviceable condition, or to perform any of the other covenants herein contained to 40

Exhibit Erie 15—(11).

be performed on its part, the Lessor or his assigns may declare this lease terminated, and thereupon all installments of rent reserved herein whether said installments shall then have fallen due or not, shall at once become due and payable, and the Lessor or his assigns may, by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said locomotives may be, and may retake the said locomotives and withdraw the same from the said railroad or premises.

Sixth. In case of such retaking the Railroad Company agrees to draw the engines to such points as designated by the Lessor, and to deliver the same.

(Then follows the testimonium clause and acknowledgments.)

AGREEMENT.

Agreement, dated July 2, 1907, between Edward T. Stotesbury, Girard Trust Company and Erie Railroad Company.

Recites the above lease; also that certain bankers have secured subscriptions to the amount of \$580,000 to Erie Railroad Equipment Trust, Series "M"; recites that Stotesbury proposes to secure to the parties subscribing to the fund the repayment thereof in 20 semi-annual instalments of \$29,000 each, beginning January, 1908, and ending July 1, 1917, with interest at the rate of five per cent. This agreement witnesseth:

First. That the said Edward T. Stotesbury hereby assigns and sets over unto the Girard Trust Company, as Trustee for the holders of the certificates hereinafter set forth, all the right, title and interest of the said Edward T. Stotesbury in and to said locomotives leased, as aforesaid, unto the Railroad Company, and to said indenture of lease and as well as all the claims, demands and remedies of the said Edward T.

Exhibit Eric 15—(11).

Stotesbury accruing or to accrue under the lease aforesaid, to be deferred rentals aggregating five hundred and eighty thousand dollars, but reserving the cash payment of \$144,875 due on demand after Aug. 1, 1907, which is to be paid to him the said Edward T. Stotesbury when and as collected by the Trustee and used in part payment for said locomotives.

Second. Trustee agrees to deliver 580 certificates in the following form: (Then follows form of equipment Trust Certificate and Dividend Warrants.) 10

Third. Trustee agrees to keep a register.

Fourth. The Trustee, as assignee of the said Edward T. Stotesbury, lessor, further covenants to perform and, so far as possible, to enforce the performance of all and singular the terms, conditions, and covenants of the said lease, and to apply and distribute the rentals thereunder when and as the same shall be received for the following purposes, to wit: 20

(a) To the payment of the necessary and reasonable expenses of the trust connected with the said locomotives and usual in cases of trust estates.

(b) To the payment of any taxes upon the income or property of the trust which it may be required to pay, and any taxes which may by law be deductible from the principal of said certificates or the dividends thereon.

(c) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable. 30

(d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable. The said coupons and certificates to be cancelled upon payment thereof.

It being distinctly understood that neither the said Trustee nor any successor in the trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its 40

Exhibit Eric 15—(11).

own or their own wilful and intentional breach thereof.

Fifth. Erie Railroad expresses its assent to the assignment of the lease by Stotesbury to the Trust Company.

Sixth. It is further herein agreed and provided that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease reserved for more than thirty (30) days after the same shall become payable, or shall fail to keep and perform all the terms and covenants of said lease, that the Trustee shall have the right as assignee of the said Edward T. Stotesbury to declare the principal of all of said car trust certificates hereby intended to be secured to be due so far as the rights of the holders thereof are concerned, and to thereupon enforce all the terms and stipulations of said lease, and that in case the said Trustee shall retake possession of the said locomotives it may either hold or lease or dispose of said locomotives or so many thereof as it may deem necessary, in such manner, at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial, and the proceeds of said lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may by law be required to pay in respect to the trust property, or the certificates aforesaid, or the interest thereon:

(1) Of the individual warrants then due.

(2) Of the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and, if not, then *pro rata*.

And such retaking possession of the said locomotives by the said Trustee shall not be a bar to the recovery by the Trustee from the Railroad Company for future accruing rent until such sum is realized

Exhibit Erie 15—(12).

as, with the proceeds of the sale of said locomotives, is sufficient for the payment in full of all taxes and expenses aforesaid, together with all accrued interest warrants and the principal of all of the said certificates.

The Trustee assumes no liability however saving for its own wilful or gross neglect; for the neglect of its agents it assumes no such liability. It shall undertake no active duty however, in the way of taking care of, or taking possession of, equipment, until fully secured from all liability. No duty of insurance or of recording or of taking care of any of the Trust property is incumbent upon it.

(Then follows testimonium clause and Acknowledgments.)

EXHIBIT "ERIE 15."

(12)

LEASE.

Standard Steel Car Company to Erie Railroad Company. Dated July 1, 1913.

AGREEMENT OF ASSIGNMENT OF LEASE.

Between Standard Steel Car Company and Bankers Trust Company, Trustee, and Erie Railroad Company. Dated July 2, 1913. For Issue of \$2,350,000. Equipment Trust Certificates. Dated July 2, 1913. Series "U."

LEASE.

Agreement dated July 1, 1913, between Standard Steel Car Company and Erie Railroad Company. Witnesseth:

That for and in consideration of the sum of one dollar, paid by the railroad company to the Lessor, as well as of the rents and covenants hereinafter mentioned, the Lessor has let and leased, and by these

10

20

30

40

presents doth let and lease to the Railroad Company, at and for the rent hereinafter set out, and upon the terms, conditions and covenants hereinafter expressed, for the term of ten years from the date hereof, unless sooner terminated as hereinafter provided, the cars, more particularly described as follows: (Then follows description of 1500 steel frame box cars, 500 steel hopper cars and 500 composite gondola cars.)

Said cars to be delivered beginning October 1, 1913 at the rate of not less than 20 cars per day thereafter.

Article First. The Railroad Company shall and will pay to the Lessor, or its assigns, at the office of the Bankers Trust Company in the City of New York, as rent or hire for the said railroad cars:

1. Upon demand after the execution of this agreement a payment of Four Hundred and Seventy-nine Thousand Three Hundred and Seventy-six dollars and Sixty-six cents (\$479,376.66), of which amount Three Hundred and Twenty-one Dollars and Sixty-six cents (\$321.66) shall be paid in cash at the office of the Bankers Trust Company in the City of New York and the balance by causing to be furnished, delivered at the works where the cars are to be constructed certain materials for equipping said cars of an aggregate value of Four Hundred Seventy-nine Thousand Fifty-five dollars (\$479,055.00) consisting of the following:

For the one thousand five hundred (1,500) box cars: journal bearings, draft gears, truck bolsters, truck side frames, and break beams.

For the five hundred (500) hopper cars: journal bearings, draft gears, truck bolsters and truck side frames.

For the five hundred (500) composite gondola cars: draft gears, truck bolsters, truck side frames, and brake beams.

Said materials are to be furnished from time to time as needed for the construction of said cars.

Exhibit Eric 15—(12).

Article Second. The Railroad Company agrees to keep the said cars in good order and to mark the same in a certain manner; and to pay a certain sum if the car is lost or destroyed.

Article Third. The Railroad Company agrees to furnish an inventory.

Article Fourth. The Railroad Company agrees that there shall be no assignment or transfer without the consent of the Lessor. 10

Article Fifth. In case the Railroad Company (a) shall make default in the payment of any part of said rental for more than thirty days after the same shall have become payable, or in case (b) the Railroad Company shall fail to keep the said cars in good and servicable condition, or to perform any other obligations and covenants herein contained to be performed on its part, and such last mentioned default or defaults shall have continued for a period of thirty days after written notice thereof from the Lessor, then, and in each and every case of default aforesaid, the Lessor may declare this lease terminated, and thereupon all installments of rent reserved herein, whether said installments shall have fallen due or not, shall at once become due and payable, and the Lessor may, by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein said cars may be, and may retake said cars and withdraw the same from said railroad or premises. 20 30

Article Sixth. In case of such retaking the Railroad Company agrees to draw and deliver the cars to such point as designated by the Lessor.

Article Seventh. The said Lessor hereby covenants and agrees with the said Railroad Company that when it, the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay, and all other payments which it may have agreed to make, it, the said Lessor, shall and will upon payment by the 40

Railroad Company to the Lessor, or its assigns, of the additional sum of One Dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned and transferred to the Railroad Company, its successors and assigns, as its absolute property, all the railroad cars held under this lease, and evidence such sale and transfer by an appropriate bill of sale, so that, thereupon and thereafter the absolute ownership in said railroad cars shall be and become vested in the Railroad Company, its successors and assigns, and also shall and will repay to the Railroad Company all amounts theretofore paid to it by the Railroad Company in accordance with Article Second hereof on account of cars worn out, lost or destroyed, together with the interest thereon accrued and unpaid.

Provided, however, and it is hereby understood, that it is the intention of the Lessor forthwith upon the execution of this instrument, to assign, transfer, and set over unto the Bankers Trust Company, as Trustee, all its right, title and interest in and to said cars hereby leased unto the said Railroad Company, and as well all its claims, demands and remedies under this lease accruing or to accrue; and that any bill of sale of said equipment or any part thereof at any time hereafter executed by said Bankers Trust Company as Trustee, or any duly appointed successor Trustee, conveying such title as it has received, delivered unto the Railroad Company, its successors or assigns, as in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor; the Lessor shall, however, join in any such bill of sale and warrant the title of the said cars against any and all claiming title to, or a lien upon, said cars through the Lessor.

(Then follows the testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated July 2, 1913, between Standard Steel Car Company, Bankers Trust Company and Erie Railroad Company:

Recites the above lease; that the Car Company has secured subscriptions to the amount of \$2,350,000 to Erie Railroad Equipment Trust, Series "U," to be repaid in 20 instalments, to wit, 10 annual payments of \$117,000 each, payable January 1st of each year, beginning January 1, 1914, and ten annual payments of \$118,000 each, payable July 1st of each year, beginning July 1st, 1914. This agreement witnesseth:

First. That the Car Company assigns and sets over to the Bankers Trust Company, as Trustee, for the holder of the certificates hereinafter set forth, all the right, title and interest of the said Car Company in and to said railroad cars leased, as aforesaid, unto the Railroad Company, and as well all the claims, demands and remedies of the said Car Company accruing or to accrue under the lease aforesaid.

The Car Company also hereby assigns and sets over to the Bankers Trust Company, as Trustee, for the holders of the certificates hereinafter set forth, all the right, title and interest of said Car Company in and to the above described lease and to rentals therein reserved, excepting only the payments aggregating four hundred and seventy-nine thousand three hundred seventy-six dollars and sixty-six cents (\$497,376.66), which the railroad company upon demand of the Car Company after the execution of said lease, is to cause to be made as provided in Article First of said lease. But nothing herein contained shall be deemed or construed in any manner to impair the right, title and interest of said Bankers Trust Company, as Trustee, to said cars, including all the materials caused to be furnished from time to time to the car company, as provided in Paragraph L of Article First of said lease. It being understood and agreed, however, that the

Exhibit Eric 15—(12).

Trustee neither incurs nor assumes any responsibility for the delivery of said cars by the Car Company, as in said lease provided.

Second. Trustee to execute and deliver Equipment Trust Certificates. (Then follows form of certificate, etc.)

10 Third. As all of the certificates to be executed by the Trustee and secured by said Indenture of Lease will bear date the second day of July, 1913, and the interest thereon represented by the dividend warrants attached thereto, will run from the first day of July, 1913, the Car Company agrees to pay to the Railroad Company, in cash, such sum as may represent the interest which may accumulate on the said certificates from July 1st, 1913, to the average date the cars referred to in the Indenture of Lease are delivered; said
20 payment of interest by the Car Company to the Railroad Company to become due and payable immediately following the delivery of the last of the said cars.

The Railroad Company covenants and agrees that when and as said equipment trust certificates and dividend warrants shall mature as therein and herein provided, the said equipment trust certificates and dividend warrants shall be paid in accordance with the terms thereof and hereof.

30 The dividend warrants to be attached to the equipment trust certificates shall be authenticated by the fac-simile signature of the present or any future Treasurer of the Trustee, and the Trustee may adopt and use for that purpose the fac-simile signature of any person who shall have been such Treasurer, notwithstanding the fact that he may have ceased to be such officer at the time when such certificates shall be actually executed and delivered.

40 Fourth. The Trustee, as assignee of the said Car Company, Lessor, further covenants to apply and distribute the rentals payable on and after January 1,

Exhibit Eric 15—(12).

1914, under said lease, when and as the same shall be received by it, for the following purposes and in the following order of priority, to wit:

(a) To the payment of any taxes upon the railroad cars leased which it may be required to pay and to the payment of expenses and charges as set forth in subdivisions "c," "d," and "e" of Article First, Paragraph II, of said lease hereinbefore referred to.

10

(b) To the payment of the dividend warrants attached to the said equipment trust certificates when and as the same shall become payable.

(c) To the payment and redemption of the principal of the said equipment trust certificates when and as the same shall become payable. The said dividend warrants and equipment trust certificates shall be cancelled upon payment thereof.

The Trustee further covenants to execute a bill of sale of its interest in the equipment subject hereto and to said lease, when and as and in the manner provided for in Article Seventh of said lease. Until payment by the Railroad Company to the Trustee and to the holders of the equipment trust certificates, of all the installments and amounts as specified herein and in said lease, and until all the obligations of the Railroad Company hereunder and under said lease shall have been fully complied with and performed, the title to said cars shall not pass to or vest in the Railroad Company but shall remain in the Trustee, its successors and assigns, for the benefit of the holders of said certificates, notwithstanding the delivery to and possession and use of said cars by the Railroad Company. The Trustee also assumes the obligation of the Car Company to pay to the Railroad Company interest on any moneys deposited with it for cars worn out, lost or destroyed, as provided in Article Second of said lease. It is distinctly understood that neither the Trustee nor any successor in the trust shall be liable

20

30

40

or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

Fifth. The Railroad Company assents to the assignment.

Sixth. It is further herein agreed and provided that in case the Railroad Company (a) shall at any time
 10 make default in the payment of any part of the rental in said lease reserved for more than thirty days after the same shall have become payable, or in case (b) the Railroad Company shall fail to keep the said cars in good and serviceable condition or to perform all other obligations and covenants in said Lease contained to be performed, on its part, and such last mentioned default or defaults shall have continued for a period of thirty days after written notice thereof from the Trustee, then and in each and every case of default as afore-
 20 said, the Trustee shall have the right, as assignee of the Car Company, to enforce all the terms and stipulations of said lease subject to the right of the Railroad Company to exercise its option of purchase as therein set out, and in case the said Trustee shall retake possession of the said cars, it may either hold or lease, or dispose of said cars or so many thereof as it may deem necessary in such manner at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial, and the proceeds of said lease or sale,
 30 together with all moneys in the hands of the Trustee in lieu of lost, worn out or destroyed cars, and any unpaid interest thereon, shall be applied by the Trustee to the payment, after deducting all taxes which the Trustee may by law be required to pay in respect to the railroad cars covered by the said lease:

First, of the dividend warrants then due, and,

Second, of the principal of all of the said outstanding certificates whether the same shall then have matured by their terms or not, in full, if such proceeds
 40 shall be sufficient, and if not, then *pro rata*.

Exhibit Erie 13—(13).

And such retaking possession of the said railroad cars by the said Trustee shall not be a bar to the recovery by the Trustee from the Railroad Company of all instalments of rent due, or which may thereafter become due, until such sum is realized as, with the proceeds of the sale of said cars, may be sufficient for the payment in full of all taxes, expenses and charges aforesaid, together with all accrued dividend warrants and the principal of all of the said certificates. (Then follows agreement by the railroad to waive any benefit of valuation, or appraisement, or redemption law; the Trustee assumes no liability except for gross neglect.) 10

Seventh. The Trustee may execute temporary receipts.

Eighth. The Trustee to receive reasonable compensation.

Ninth. The Car Company agrees to indemnify the Trustee from all claims for patents, etc. 20

Tenth. The Trustee may resign on serving notice thereof; successor may be appointed.

(Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE 13."

(13).

AGREEMENT, dated February 1, 1907, between American Car and Foundry Company and Erie Railroad Company, witnesseth: 30

The Car Company agrees to sell certain railroad equipment, to wit, 1,000 produce cars, to be delivered at Berwick, Pennsylvania, on or before February 28, 1907.

One. The Railroad Company to keep an inspector at the works.

Two. The purchase price of said cars to be paid by said Vendee as follows, to wit: 40

Exhibit Eric 15—(13).

Upon delivery of all cars, a cash payment of seventy-seven thousand five hundred dollars (\$77,500) ; and in addition to said cash payment, said Vendee agrees to execute and deliver its negotiable promissory notes to said Vendor, payable to the order of bearer in gold coin of the United States of America, of or equivalent to the present standard of weight and fineness, bearing date of the average delivery of said cars and payable as follows: (Then follows provision for payment by a series of notes, 20 notes for \$1,000 each being in the first series, payable six months after date, the second series in 12 months, etc., and the last series payable in 120 months from date; each note bearing interest at the rate of four and one-half per cent.)

Three. Title to the property to remain in the Car Company.

Four-Five. Provides for sale of equipment in case of default in payment of the notes.

Sixth. In the event of a sale made as herein provided, the proceeds thereof shall be applied as follows:

(a) First. To the payment of the costs and expenses of the recovery, transportation, custody and disposition of said cars, with all charges incident thereto;

(b) Second. To the payment of any balance that may be then due and owing upon said notes, or any of them, or other indebtedness from the Vendee to the Vendor arising hereunder; it being expressly agreed that in the event default is made in the payment of any one of said notes, or of any indebtedness from the Vendee to the Vendor arising hereunder, then and in such event, each and every of said notes shall thereupon become due and payable, whether due and payable on its face or not.

(c) Third. If the proceeds of such sale or sales shall be more than sufficient to fully pay each and every of said notes and interest thereon, and all other indebtedness due hereunder from said Vendee to said

Exhibit Eric 15—(13).

Vendor, and all said costs and expenses, then the surplus shall be paid to said Vendee; but if there should be a deficit, then said Vendee shall pay such deficit upon the demand of the Vendor.

Seventh. Provides for insurance and for replacement of cars destroyed by fire or otherwise.

Eighth. The Railroad to keep the cars in repair.

10

Ninth. The Railroad to pay taxes, licenses, etc.

Tenth. Ownership plates to be fastened to each car.

Eleventh. Agreement to be recorded.

Twelfth. No modification of the agreement whereby the total sum due as purchase price is to be diminished. No modification to be made which changes or affects the title or ownership of the equipment.

Thirteenth. In the event of the assignment by the Car Company of this agreement, or of any notes, and default in the notes, the Car Company may elect to pay the notes.

20

Fourteenth. The Railroad Company agrees to pay the notes promptly.

Fifteenth. On performance of the conditions of the agreement the Car Company to have the equipment conveyed to the Railroad Company by bill of sale.

Sixteenth. The Car Company to have the power to sell, transfer, pledge or assign said notes.

30

Seventeenth. This agreement to inure to the benefit of the purchaser, assignee or pledgee.

(Then follows testimonium clause and acknowledgments.)

Exhibit Erie 15—(14).

LEASE.

EDWARD T. STOTESBURY to ERIE RAILROAD COMPANY, dated August 1, 1911.

10 AGREEMENT OF ASSIGNMENT OF LEASE.

Between EDWARD T. STOTESBURY and FIDELITY TRUST COMPANY, TRUSTEE, and ERIE RAILROAD COMPANY, for issue of \$4,600,000. Equipment Trust Certificates Series "Q," dated August 2, 1911.

LEASE.

Agreement dated August 1, 1911, between Edward T. Stotesbury, called the Lessor, and Erie Railroad Company, Witnesseth:

20 The Lessor leases to the Railroad Company for the term of ten years from August 1, 1911, to August 1, 1921, unless sooner terminated certain railroad equipment as follows:

1,000 Steel Under and Upperframe box cars.

1,000 Triple-hopper Gondola cars.

1,000 Composite Gondola cars.

500 Fifty Ton Steel Underframe flat cars.

300 Automobile Cars.

100 Steel Underframe Refrigerator cars.

30 100 Steel Underframe Refrigerator cars.

25 Suburban Passenger Coaches.

10 Through line Passenger Coaches.

5 Combination Passenger and Baggage cars.

20 Mikado type freight locomotives.

15 Mikado type freight locomotives.

5 Switching locomotives.

5 Switching locomotives.

10 Type 0-6-0 Switching locomotives.

40 which said railroad equipment shall be delivered to the Railroad Company as it shall from time to time

Exhibit Eric 15—(14).

be received by the Lessor from the Builders; at and for the rent hereinafter set out, and upon the terms, conditions and covenants following, to wit:

First: The Railroad Company shall and will pay to the Lessor or his assigns, at the office of Fidelity Trust Company in the City of Philadelphia, State of Pennsylvania, as rent or hire for the said railroad equipment:

10

I. Upon demand after August 1st, 1911, cash payments aggregating Eight hundred twenty five thousand one hundred thirty four dollars (\$825,134).

II. Half-yearly on the first days of February and August in each year, the first payment to be made on the first day of February, 1912, the following sums:

(a) A sum equal to two and one-fourth per cent on four million six hundred thousand dollars (\$4,600,000) which sum thus paid shall be reduced from time to time by an amount equal to two and one-fourth per cent on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of four million six hundred thousand dollars, as specified in paragraph III of this article;

20

(b) A sum equal to all reasonable expenses incurred by the said Lessor or his assigns in enforcing the covenants and terms of this lease.

(c) A sum equal to the taxes on the property hereby leased which the Lessor may be liable to pay, and any tax which may by law be charged against the Lessor on account of the payment of rentals hereunder.

30

III. Half yearly for ten years on the first day of February and the first day of August in each year, beginning with the first day of February, 1912, the following sums, respectively:

On February 1st, 1912.....\$230,000

On August 1st, 1912.....230,000

40

Exhibit Eric 15—(14).

(Then follows provision for further payments of \$230,000 each on February 1st and August 1st of each year down to and including August 1st, 1921.)

- 10 Second. The Railroad Company covenants and agrees with the Lessor in addition to its agreement to pay the said rent on the days and in the manner above provided to keep and maintain at its own expense the said railroad equipment in good order and repair, and to cause the said railroad equipment to be kept numbered as hereinbefore mentioned, and all of said railroad equipment to be plainly marked upon both sides of each car or locomotive with the words "E. T. Stotesbury, Lessor, Fidelity Trust Company, Trustee, Owner," and that it, the said Railroad Company, will not allow the name of any person, association or corporation to be placed on any of said railroad equipment as a designation which might be interpreted as a claim of ownership. Provided, however, that the Railroad Company may cause the said railroad equipment and each of them to be lettered "Eric" for convenience of identification of its lessee interest therein.
- 20

- 30 The Railroad Company covenants and agrees that it, the said Railroad Company, will replace at its own cost any of the said equipment which may be destroyed from any cause whatever during the continuance of this lease, by other railroad equipment of equal value as those destroyed and of substantially as good material, character and construction, and marked in like manner.

Third. The Railroad Company agrees to furnish an inventory.

Fourth. No assignment to be made without consent of the Lessor.

- 40 Fifth. In case the Railroad Company shall make default in the payment of any part of the said rentals for more than thirty (30) days after the same shall

Exhibit Eric 15—(14).

have become payable, or shall fail to keep the said railroad equipment in good serviceable condition, or to perform any of the other covenants herein contained to be performed on its part, the Lessor or his assigns may declare this lease terminated, and thereupon all instalments of rent, reserved herein whether said instalments shall then have fallen due or not, shall at once become due and payable, and the Lessor, or his assigns, may, by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said railroad equipment may be and may retake the said railroad equipment and withdraw the same from the said railroad or premises.

Sixth. In case of such retaking the Railroad Company agrees to draw the equipment to such point as may be designated by the Lessor and to deliver same.

Seventh. The said Lessor hereby covenants and agrees with the said Railroad Company that when it, the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay, he, the said Lessor, shall and will, upon the payment by the Railroad Company to the Lessor or his assigns, of the additional sum of one dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned and transferred to the Railroad Company, its successors and assigns, as its absolute property, all the railroad equipment held under this lease, and evidence such sale and transfer by an appropriate bill of sale, so that, thereupon and thereafter, the absolute ownership in said railroad equipment shall be and become vested in the Railroad Company, its successors and assigns.

Eighth. It is hereby understood, that it is the intention of the Lessor forthwith upon the execution of this instrument, to assign, transfer and set over unto the Fidelity Trust Company, as Trustee, all his

Exhibit Erie 15—(14).

right, title and interest in and to said railroad equipment hereby leased unto the railroad company as well as all his claims, demands and remedies under this lease accruing or to accrue; and that any bill of sale of said equipment or any part thereof at any time hereafter executed by said Fidelity Trust Company, as Trustee, or any duly appointed successor Trustee, and delivered unto the Railroad Company, its successors and assigns, in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor; and that the said Trustee, or any successor to it in the trust, shall be entitled to all rights and remedies provided by the terms of this instrument for the benefit of the Lessor.

Ninth. The Lessor assigns to the Railroad Company all rights and claims against the builder of the equipment under the contracts under which the equipment is built.

(Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated August 2nd, 1911, between Edward T. Stotesbury, Fidelity Trust Company and Erie Railroad Company.

Recites the above lease; also that certain bankers have secured subscriptions to the amount of \$4,600,000 to the Erie Railroad Equipment Trust, Series "Q"; further that the subscriptions are to be repaid in semi-annual instalments of \$230,000 each, beginning February 1st, 1912, and ending August 1st, 1921, with interest at the rate of four and one-half per cent. This agreement Witnesseth:

First: That the said Edward T. Stotesbury hereby assigns and sets over unto the Fidelity Trust Com-

Exhibit Eric 13—(14).

pany, as Trustee for the holders of the certificates hereinafter set forth, all the right, title and interest of the said Edward T. Stotesbury in and to said railroad equipment leased as aforesaid unto the Railroad Company, and to said Lease and all claims, demands and remedies of the said Edward T. Stotesbury accruing or to accrue thereunder, and to all rentals therein reserved excepting only the cash payments aggregating Eight hundred twenty five thousand one hundred and thirty four dollars (\$825,134) due on demand after August 1, 1911, which said cash payments are to be paid to him, the said Edward T. Stotesbury when and as collected by the Trustee and to be used by him in part payment for said railroad equipment. 10

Second: Trustee agrees to deliver five thousand certificates, &c. 20

(Then follows form of certificate, dividend warrant and guarantee.) 20

Third: Trustee agrees to keep a register.

Fourth: The Trustee, as assignee of the said Edward T. Stotesbury, Lessor under said Lease, further covenants to perform and so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of the said Lease, and to acquire and distribute the rentals payable on and after February 1st, 1912, thereunder when and as the same shall be received for the following purposes, to wit: 30

(a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad equipment and usual in cases of trust estates.

(b) To the payment of any taxes upon the income or property of the trust which it may by law be required to pay, and any taxes which may by law be 40

Exhibit Eric 15—(14).

deductible from the principal of said certificates or the dividends thereon.

(c) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable.

(d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable.

The said warrants and certificates to be canceled upon payment thereof.

It is distinctly understood and agreed that neither the Trustee or any successor in the Trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

Fifth: Railroad Company assents to the assignment by Stotesbury to the Trust Company.

Sixth: It is further covenanted and agreed that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said Lease reserved for more than thirty (30) days after the same shall become payable or shall fail to keep and perform all the terms and covenants of said Lease, that the Trustee shall have the right as assignee of the said Edward T. Stotesbury to declare the lease terminated and to enforce all the terms and stipulations of said Lease, and in case the Trustee shall retake possession of the said railroad equipment it may either hold or lease or dispose of said railroad equipment or so much thereof as it may deem necessary, in such manner, at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial; and the proceeds of said lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may by law be required to pay in

Exhibit Erie 15—(15).

respect to the trust property, or the certificates aforesaid, or the dividends thereon:

- (1) To the dividend warrants then due;
- (2) To the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and, if not, then *pro rata*.

And such retaking possession of the said railroad equipment by the Trustee shall not be a bar to the recovery by the Trustee from Erie Railroad Company for the future accruing rent until such sum is realized, as with the proceeds of the sale of said railroad equipment is sufficient for the payment in full of all taxes and expenses as aforesaid, together with all accrued dividend warrants and the principal of all of the said certificates. 10

Seventh: No duty on the Trustee to insure or repair or take care of the trust property, &c. 20

(Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE 15."

(15)

LEASE.

EDWARD T. STOTESBURY to ERIE RAILROAD COMPANY,
dated August 1, 1912. 30

AGREEMENT OF ASSIGNMENT OF LEASE.

BETWEEN EDWARD T. STOTESBURY and COMMERCIAL TRUST COMPANY, TRUSTEE, and ERIE RAILROAD COMPANY, for issue of \$2,160,000 Gold Equipment Trust Certificates, dated August 1st, 1912, Series "R."

LEASE.

Agreement dated August 1st, 1912, between Edward T. Stotesbury, called the Lessor, and Erie Railroad Company, Witnesseth: 40

Exhibit Eric 15—(15).

The Lessor leases to the Railroad Company for the term of ten years from August 1st, 1912, and ending August 1st, 1922, unless sooner terminated, certain equipment, as follows:

- 25 Suburban Passenger Coaches.
- 11 Combination passenger and baggage cars.
- 300 Automobile cars.
- 500 Coke cars.
- 5 Mikado type freight locomotives.
- 15 Mikado type freight locomotives.
- 30 Mikado type freight locomotives.

Which said railroad equipment shall be delivered to the Railroad Company as it shall from time to time be received by the Lessor from the Builder and for the rent hereinafter set out, and upon the terms, conditions and covenants following, to wit:

- First. The Railroad Company shall and will pay to the Lessor, or his assigns at the office of the Commercial Trust Company, in the City of Philadelphia, State of Pennsylvania, as rent or hire for the said railroad equipment:

I. Upon demand after August 1st, 1912, cash payments aggregating four hundred and seventy-two thousand eight hundred and seventy (\$472,870) dollars.

- II. Half-yearly, on the first days of February and August in each year, the first payment to be made on the first day of February, 1913, the following sums:

(a) A sum equal to two and one-fourth per cent. on two million one hundred and sixty thousand (\$2,160,000) dollars, which sums thus paid shall be reduced from time to time by an amount equal to two and one-fourth per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of two million one hundred and sixty thousand (\$2,160,000) dollars, as specified in paragraph III of this article.

Exhibit Erie 15--(15).

(b) A sum equal to all reasonable expenses incurred by the said Lessor or his assigns in enforcing the covenants and terms of this lease.

(c) A sum equal to the taxes upon the property hereby leased which the Lessor may be liable to pay, and any tax which may by law be charged against the Lessor on account of the payment of rentals hereunder.

III. Half-yearly, for ten years on the first day of February and the first day of August in each year, beginning with the first day of February, 1913, the following sums respectively:

On February 1st, 1913.....	\$108,000
On August 1st, 1913.....	108,000

(Then follows provision for further payments of \$108,000 each on February 1st and August 1st of each year, down to and including August 1st, 1922.)

Second. The Railroad Company covenants and agrees with the Lessor, in addition to its agreement to pay the said rent on the days and in the manner above provided, to keep and maintain at its own expense the said railroad equipment in good order and repair, and to cause the said railroad equipment to be kept numbered as hereinbefore mentioned, and all of said railroad equipment to be plainly marked upon both sides of each car or locomotive with the words: "E. T. Stotesbury, Lessor, Commercial Trust Company, Trustee, Owner."

And that it the said Railroad Company will not allow the name of any person, association or corporation to be placed on any of said railroad equipment as a designation which might be interpreted as a claim of ownership. Provided, however, that the Railroad Company may cause the said railroad equipment and each of them to be lettered "Erie" for convenience of identification of its lessee interest therein.

The Railroad Company covenants and agrees that it, the said Railroad Company, will replace at its own

19

20

30

40

Exhibit Erie 15—(15).

cost any of the said equipment which may be destroyed from any cause whatever during the continuance of this lease, by other railroad equipment of equal value as those destroyed and of substantially as good material, character and construction, and marked in like manner.

10 Third. The Railroad Company agrees to furnish an inventory.

Fourth. No assignment to be made without consent of the Lessor.

20 Fifth. In case the Railroad Company shall make default in the payment of any part of the said rentals for more than thirty (30) days after the same shall have become payable, or shall fail to keep the said railroad equipment in good serviceable condition, or to perform any of the other covenants herein contained to be performed on its part, the Lessor or his assigns may declare this lease terminated and thereupon all installments of rent reserved herein, whether said installments shall then have fallen due or not, shall at once become due and payable, and the Lessor, or his assigns, may by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said railroad equipment may be, and may retake the said railroad equipment and withdraw the same from the said railroad or premises.

30 Sixth. In case of such retaking the Company agrees to draw the equipment to such point as designated by the Lessor and to deliver same.

Seventh. The said Lessor hereby covenants and agrees with the said Railroad Company that, when it, the said Railroad Company, shall have fully paid all the rent, which it has herein covenanted to pay, he, the said Lessor or his assigns, shall and will, upon the payment by the Railroad Company to the Lessor, or his assigns, of the additional sum of one dollar (\$1.00)
40 sell, assign and transfer, or cause to be sold, assigned

and transferred to the Railroad Company, its successors and assigns, as its absolute property, all the railroad equipment held under this lease, and evidence each sale and transfer by an appropriate bill of sale, so that thereupon and thereafter the absolute ownership in said railroad equipment shall be and become vested in the Railroad Company, its successors and assigns.

Eighth. It is hereby understood that it is the intention of the Lessor to forthwith upon the execution of this instrument, assign, transfer and set over unto the Commercial Trust Company, as Trustee, all his right, title and interest in and to said railroad equipment hereby leased unto the Railroad Company as well as all his claims, demands and remedies under this lease accruing or to accrue; and that any bill of sale of said equipment or any part thereof at any time hereafter executed by said Commercial Trust Company, as Trustee, or any duly appointed successor Trustee, and delivered unto the Railroad Company, its successors and assigns, in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor; and that said Trustee, or any successor to it in the trust, shall be entitled to all rights and remedies provided by the terms of this instrument for the benefit of the Lessor.

Ninth. The Lessor assigns to the Railroad Company all rights and claims under contracts with the builders.

(Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated August 2nd, 1912, between Edward T. Stotesbury, Commercial Trust Company and Erie Railroad Company.

Exhibit Erie 15—(15).

10 Recites the above lease; also that certain bankers have secured subscriptions to the amount of two million one hundred and sixty thousand dollars (\$2,160,000) to a fund to be known as "Erie Railroad Equipment Trust, Series R"; further that the subscriptions are to be repaid in twenty semi-annual instalments, each for the sum of \$108,000, beginning February 1st, 1913, and ending August 1st, 1922, with interest at the rate of four and one-half per cent. This Agreement witnesseth:

20 First. That the said Edward T. Stotesbury hereby assigns and sets over unto the Commercial Trust Company as Trustee, for the holders of the certificates hereinafter set forth, all the right, title and interest of the said Edward T. Stotesbury in and to said railroad equipment leased as aforesaid, unto the Railroad Company and to said lease and as well all the claims, demands and remedies of the said Edward T. Stotesbury accruing or to accrue thereunder, and to all rentals therein reserved, excepting only the cash payments aggregating four hundred and seventy-two thousand eight hundred and seventy (\$472,870) dollars due on demand after August 1st, 1912, which said cash payments are to be paid to him the said Edward T. Stotesbury when and as collected by the Trustee and used by him in part payment for said railroad equipment.

30 Second. Trustee agrees to deliver certificates.
(Then follows form of certificate and guarantee.)

Third. Trustee agrees to keep a register.

40 Fourth. The Trustee as assignee of the said Edward T. Stotesbury, Lessor under said lease, further covenants to perform and so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of said lease, and to apply and distribute the rentals payable on and after February 1st, 1913, thereunder, when and as the same shall be received for the following purposes, to wit:

Exhibit Eric 15—(15).

(a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad equipment and usual in cases of trust estates.

(b) To the payment of any taxes upon the income or property of the trust which it may by law be required to pay, and any taxes which may by law be deductible from the principal of said certificates or the dividends thereon.

10

(c) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable.

(d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable.

The said warrants and certificates to be canceled upon payment thereof.

It is distinctly understood and agreed that neither the Trustee nor any successor in the Trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

20

Fifth. Erie Railroad Company assents to the assignment of the lease.

Sixth. It is further covenanted and agreed that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease reserved for more than thirty (30) days after the same shall become payable or shall fail to keep and perform all the terms and covenants of said lease, the Trustee shall have the right as assignee of the said Edward T. Stotesbury to declare the principal of all of said car trust certificates hereby intended to be secured to be due, so far as the rights of the holders thereof are concerned, and to thereupon enforce all the terms and stipulations of said lease, and in case the Trustee shall retake possession of the said railroad

30

40

Exhibit Erie 15—(15).

equipment, it may either hold or lease or dispose of said railroad equipment or so much thereof as it may deem necessary, in such manner, at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial; and the proceeds of said lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may, by law, be required to pay in respect to the trust property, or the certificates aforesaid, or the dividends thereon,

(1) To the dividend warrants then due,

(2) To the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and, if not, then *pro rata*.

And such retaking possession of the said railroad equipment by the Trustee shall not be a bar to the recovery by the Trustee from Erie Railroad Company of the future accruing rent until such sum is realized, as, with the proceeds of the sale of said railroad equipment, is sufficient for the payment in full of all taxes and expenses as aforesaid, together with all accrued dividend warrants and the principal of all of the said certificates.

Seventh. No duty upon the Trustee to insure or repair or take care of the property.

(Then follows testimonium clause and acknowledgments.)

Exhibit Erie 15—(16).

LEASE.

EDWARD T. STOTESBURY to ERIE RAILROAD COMPANY,
dated July 31, 1914.

AGREEMENT OF ASSIGNMENT OF LEASE. 10

BETWEEN EDWARD T. STOTESBURY and COMMERCIAL TRUST COMPANY, TRUSTEE, and ERIE RAILROAD COMPANY, for issue of \$900,000 Gold Equipment Trust Certificates, dated August 1, 1914, Series "BR."

LEASE.

Agreement dated July 31, 1914, between Edward T. Stotesbury, called the Lessor, and the Erie Railroad Company, Witnesseth:

The Lessor leases to the Railroad Company for the term of ten years from August 1st, 1914, and ending August 1st, 1924, unless sooner terminated, certain equipment as follows: 20

- 1 Triple Articulated locomotive.
- 1 2-10-2 Type Locomotive.
- 4 K-4 Pacific type, freight locomotives.
- 7 All-steel suburban passenger coaches.
- 4 Steel underframe club cars.
- 200 46-foot composite, drop-end, gondola cars.
- 200 50-ton, side-dump, hopper cars. 30
- 200 50-ton, side-dump, hopper cars.
- 200 50-ton, side-dump, hopper cars.

Which railroad equipment shall be delivered to the Railroad Company as it shall from time to time be received by the Lessor from the Builders, and for the rent hereinafter set out, and upon the terms, conditions and covenants following, to wit:

First: The Railroad Company shall and will pay to the Lessor, or his assigns at the office of the Commercial Trust Company, in the City of Philadelphia. 40

Exhibit Eric 15—(16).

State of Pennsylvania, as rent or hire for the said railroad equipment:

I. Upon demand after August 1, 1914, cash payments aggregating two hundred and three thousand three hundred and twelve and 15/100 (\$203,312.15) dollars.

10 II. Half-yearly, on the first days of February and August in each year, the first payment to be made on the first day of February, 1915, the following sums:

20 (a) A sum equal to two and one-fourth per cent. on nine hundred thousand (\$900,000) dollars, which sums thus paid shall be reduced from time to time by an amount equal to two and one-fourth per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of nine hundred thousand (\$900,000) dollars as specified in paragraph III of this article.

(b) A sum equal to all reasonable expenses incurred by the Lessor or his assigns in enforcing the covenants and terms of this lease.

(c) A sum equal to the taxes upon the property hereby leased which the Lessor may be liable to pay, and any tax (except any Federal Income Tax) which may by law be charged against the Lessor on account of the payment of rentals hereunder.

30 III. Half-yearly, for ten years on the first day of February and the first day of August in each year, beginning with the first day of February, 1915, the following sums respectively:

On February 1st, 1915.....\$45,000

On August 1st, 1915..... 45,000

(Then follows provision for further payments of \$45,000 each on February 1st and August 1st of each year down to and including August 1st, 1924.)

40 Second: The Railroad Company covenants and agrees, with the Lessor, in addition to its agreement

Exhibit Erie 15—(16).

to pay the said rent on the days and in the manner above provided, to keep and maintain at its own expense the said railroad equipment in good order and repair, and to cause the said railroad equipment to be kept numbered as hereinbefore mentioned, and all of said railroad equipment to be plainly marked upon both sides of each locomotive or car with the words: "E. T. Stotesbury, Lessor, Commercial Trust Company, Trustee, Owner." 10

And that it, the said Railroad Company, will not allow the name of any person, association or corporation to be placed on any of said railroad equipment as a designation which might be interpreted as a claim of ownership. Provided, however, that the Railroad Company may cause the said railroad equipment and each of them to be lettered "Erie" for convenience of identification of its lessee interest therein. 20

The Railroad Company covenants and agrees that it, the said Railroad Company, will replace at its own cost any of the said equipment which may be destroyed from any cause whatever during the continuance of this lease, by other railroad equipment of equal value as those destroyed and of substantially as good material, character and construction, and marked in like manner.

Third: The Railroad Company agrees to furnish an inventory. 30

Fourth: No assignment to be made without consent of Lessor.

Fifth: In case the Railroad Company shall make default in the payment of any part of the said rentals for more than thirty (30) days after the same shall have become payable, or shall fail to keep the said railroad equipment in good serviceable condition, or to perform any of the other covenants herein contained to be performed on its part, the Lessor or his assigns may declare this lease terminated, and there- 40

Exhibit Eric 15—(16).

upon all installments of rent reserved herein, whether said installments shall then have fallen due or not, shall at once become due and payable, and the Lessor, or his assigns, may by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said railroad equipment may be, and may retake the said railroad
10 equipment and withdraw the same from the said railroad or premises.

Sixth: In case of such retaking the Railroad Company agrees to draw the equipment to such point as shall be designated by the Lessor and to deliver same.

Seventh: The said Lessor hereby covenants and agrees with the said Railroad Company that, when it, the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay,
20 he, the said Lessor or his assigns, shall and will, upon the payment by the Railroad Company to the Lessor, or his assigns, of the additional sum of one dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned and transferred to the Railroad Company, its successors and assigns, as its absolute property, all the railroad equipment held under this lease, and evidence such sale and transfer by an appropriate bill of sale, so that thereupon and thereafter the absolute ownership of said railroad equipment shall be and
30 become vested in the Railroad Company, its successors and assigns.

Eighth: It is hereby understood, that it is the intention of the Lessor to forthwith upon the execution of this instrument, assign, transfer and set over unto the Commercial Trust Company, as Trustee, all his right, title and interest in and to said railroad equipment hereby leased unto the Railroad Company as well as all his claims, demands and remedies under this lease accruing or to accrue; and that any bill
40 of sale of said equipment of any part thereof at any

Exhibit Erie 15—(16).

time hereafter executed by said Commercial Trust Company, as Trustee, or any duly appointed successor Trustee, and delivered unto the Railroad Company, its successors and assigns, in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor; and that said Trustee, or any successor of it in the trust, shall be entitled to all rights and remedies provided by the terms of this instrument for the benefit of the Lessor. 10

Ninth: Lessor assigns all rights and claims against the Builders.

(Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated August 1st, 1914, between Edward T. Stotesbury, Commercial Trust Company and Erie Railroad Company, Witnesseth: 20

Recites the above lease; also that certain bankers have secured subscriptions to the amount of \$900,000 to the Erie Railroad Equipment Trust, Series "BB"; further that the said sum is to be repaid in twenty semi-annual instalments beginning February 1st, 1915, and ending August 1st, 1924. This agreement Witnesseth: 30

First: That the said Edward T. Stotesbury hereby assigns and sets over unto the Commercial Trust Company, as trustee, for the holders of the certificates hereinafter set forth, all the right, title and interest of the said Edward T. Stotesbury in and to said railroad equipment leased as aforesaid, unto the Railroad Company and to said lease and as well all the claims, demands and remedies of the said Edward T. Stotesbury accruing or to accrue thereunder, and to all rentals therein reserved, excepting only the cash 40

Exhibit Eric 15—(16).

payments aggregating two hundred and three thousand three hundred and twelve and 15/100 (\$203,312.15) dollars due on demand after August 1st, 1914, which said cash payments are to be paid to him the said Edward T. Stotesbury when and as collected by the Trustee and used by him in part payment for said railroad equipment.

- 10 Second: Trustee agrees to deliver certificates.
(Then follows form of certificates, warrant and Guarantee.)

Third: Trustee agrees to keep a register.

- Fourth: The Trustee, as assignee of the said Edward T. Stotesbury, lessor under said lease, further covenants to perform and so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of the said lease, and to
20 apply and distribute the rentals payable on and after February 1st, 1915, thereunder, when and as the same shall be received for the following purposes, to wit:

- (a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad equipment and usual in cases of trust estates.
- (b) To the payment of any taxes upon the income or property of the trust which it may by law be required to pay, and any taxes (except any Federal
30 Income taxes) which may by law be deductible from the principal of said certificates or the dividends thereon.
- (c) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable.
- (d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable.

- The said warrants and certificates to be canceled
40 upon payment thereof.

Exhibit Erie 15—(16).

It is distinctly understood and agreed that neither the Trustee nor any successor in the trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

Fifth: Erie Railroad assents to the assignment of lease.

10

Sixth: It is further covenanted and agreed that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease reserved, for more than thirty (30) days after the same shall become payable or shall fail to keep and perform all the terms and covenants of said lease, the Trustee shall have the right as assignee of the said Edward T. Stotesbury to declare the principal of all of said equipment certificates hereby intended to be secured to be due, so far as the rights of the holders thereof are concerned, and to thereupon enforce all the terms and stipulations of said lease, and in case the Trustee shall retake possession of the said railroad equipment, it may either hold or lease or dispose of said railroad equipment or so much thereof as it may deem necessary, in such manner, at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial; and the proceeds of said lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may, by law, be required to pay in respect to the trust property, or the certificates aforesaid, or the dividends thereon.

20

30

(1) To the dividend warrants then due.

(2) To the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and if not, then *pro rata*.

40

Exhibit Erie 15—(17).

And such retaking possession of the said railroad equipment by the Trustee shall not be a bar to the recovery by the Trustee from Erie Railroad Company of the future accruing rent until such sum is realized as, with the proceeds of the sale of said railroad equipment, is sufficient for the payment in full of all taxes and expenses as aforesaid, together with all accrued dividend warrants and the principal of all of the said certificates.

Seventh: No duty on Trustee to insure or repair or take care of the property.

(Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE-15."

20

LEASE.

EDWARD T. STOTESBURY to ERIE RAILROAD COMPANY, dated September 1, 1913.

AGREEMENT OF ASSIGNMENT OF LEASE.

Between EDWARD T. STOTESBURY and COMMERCIAL TRUST COMPANY, TRUSTEE, and ERIE RAILROAD COMPANY, for issue of \$1,120,000 Gold Equipment Trust Certificates, dated September 2, 1913, Series "AA."

30

LEASE.

Agreement dated September 1st, 1913, between Edward T. Stotesbury, called the Lessor, and the Erie Railroad Company, Witnesseth:

The Lessor leases to the Railroad Company for the term of ten years from September 1st, 1913, and ending September 1st, 1923, unless sooner terminated, certain railroad equipment as follows:

- 40 Mikado type freight locomotives.
- 40 10 K-4 Pacific type freight locomotives.

Exhibit Eric 15—(17).

Which said railroad equipment shall be delivered to the Railroad Company as it shall from time to time be received by the Lessor from the Builders, and for the rent hereinafter set out, and upon the terms, conditions and covenants following, to wit:

First. The Railroad Company shall and will pay to the Lessor, or his assigns at the office of the Commercial Trust Company, in the City of Philadelphia, State of Pennsylvania, as rent or hire for the said railroad equipment: 10

I. Upon demand after September 1, 1913, cash payments aggregating two hundred and ten thousand eight hundred and ninety and 52-100 dollars. (\$210,890.52.)

II. Half-yearly, on the first days of March and September in each year, the first payment to be made on the first day of March, 1914, the following sums: 20

(a) A sum equal to two and one-half per cent. on one million one hundred twenty thousand (\$1,120,000) dollars, which sums thus paid shall be reduced from time to time by an amount equal to two and one-half per cent. on such sums as the Railroad Company shall have paid to the Lessor to be applied in reduction of said sum of one million one hundred twenty thousand (\$1,120,000) dollars as specified in paragraph III of this article.

(b) A sum equal to all reasonable expenses incurred by the said lessor or his assigns in enforcing the covenants and terms of this lease. 30

(c) A sum equal to the taxes upon the property hereby leased which the Lessor may be liable to pay, and any tax which may by law be charged against the Lessor on account of the payment of rentals hereunder.

III. Half-yearly for ten years on the first day of March and the first day of September in each year,

Exhibit Eric 15—(17).

beginning with the first day of March, 1914, the following sums respectively:

On March 1st, 1913.....\$56,000

On September 1st, 1914..... 56,000

(Then follows provision for further payments of \$56,000 each on March 1st, and September 1st of each year down to and including September 1st, 1923.)

10

Second. The Railroad Company covenants and agrees with the Lessor, in addition to its agreement to pay the said rent on the days and in the manner above provided, to keep and maintain at its own expense the said railroad equipment in good order and repair, and to cause the said railroad equipment to be kept numbered as hereinbefore mentioned, and all of said railroad equipment to be plainly marked upon both sides of each locomotive with the words: "E. T. Statesbury, Lessor, Commercial Trust Company, Trustee, Owner."

20

And that it, the said Railroad Company, will not allow the name of any person, association or corporation to be placed on any of said railroad equipment as a designation which might be interpreted as a claim by ownership. PROVIDED, however, that the Railroad Company may cause the said railroad equipment and each of them to be lettered "Eric," for convenience of identification of its lessee interest therein.

30

The Railroad Company covenants and agrees that it, the said Railroad Company, will replace at its own cost any of the said equipment which may be destroyed from any cause whatever during the continuance of this lease, by other railroad equipment of equal value as those destroyed and of substantially as good material, character and construction, and marked in like manner.

Third. The Railroad Company agrees to furnish an inventory.

40

Exhibit Erie 15—(17).

Fourth. No assignment to be made without consent of Lessor.

Fifth. In case the Railroad Company shall make default in the payment of any part of the said rentals for more than thirty (30) days after the same shall have become payable, or shall fail to keep the said railroad equipment in good serviceable condition, or to perform any of the other covenants herein contained to be performed on its part, the Lessor or his assigns may declare this lease terminated, and thereupon all installments of rent reserved herein, whether said installments shall then have fallen due or not, shall at once become due and payable, and the Lessor, or his assigns, may by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said railroad equipment may be, and may retake the said railroad equipment and withdraw the same from the said railroad or premises.

Sixth. In case of such retaking the Railroad Company agrees to draw the equipment to such point as shall be designated by the Lessor and to deliver same.

Seventh. The said Lessor hereby covenants and agrees with the said Railroad Company that, when it, the said Railroad Company, shall have fully paid all the rent which it has herein covenanted to pay, he, the said Lessor or his assigns, shall and will, upon the payment by the Railroad Company to the Lessor, or his assigns, of the additional sum of one dollar (\$1.00), sell, assign and transfer, or cause to be sold, assigned and transferred to the Railroad Company, its successors and assigns, as its absolute property, all the railroad equipment held under this lease, and evidence such sale and transfer by an appropriate bill of sale, so that thereupon and thereafter the absolute ownership of said railroad equipment shall be and become vested in the Railroad Company, its successors and assigns.

Eighth. It is hereby understood that it is the intention of the Lessor to forthwith upon the execution of this instrument, assign, transfer and set over unto the Commercial Trust Company, as Trustee, all his right, title and interest in and to said railroad equipment hereby leased unto the Railroad Company as well all his claims, demands and remedies under this lease accruing or to accrue; and that any bill of sale of said equipment or any part thereof at any time hereafter executed by said Commercial Trust Company, as Trustee, or any duly appointed successor Trustee, and delivered unto the Railroad Company, its successors and assigns, in pursuance of the terms of this instrument, shall operate in all respects to vest as good title in and to the equipment intended to be covered thereby as if the same had been so executed and delivered by the Lessor; and that said Trustee, or any successor to it in the trust, shall be entitled to all rights and remedies provided by the terms of this instrument for the benefit of the Lessor.

Ninth. Lessor assigns all rights and claims against the Builders.

(Then follows testimonium clause and acknowledgments.)

AGREEMENT.

Agreement dated September 2nd, 1913, between Edward T. Stotesbury, Commercial Trust Company, Trustee, and Erie Railroad Company, Witnesseth:

Recites the above lease; also that certain bankers have secured subscriptions to the amount of \$1,120,000 to the Erie Railroad Equipment Trust, Series "AA"; further that the said sum is to be repaid in twenty semi-annual instalments beginning March 1st, 1914, and ending September 1st, 1923. This agreement witnesseth:

That the said Edward T. Stotesbury hereby assigns and sets over unto the Commercial Trust Company, as

Exhibit Eric 15—(17).

trustee, for the holders of the certificates hereinafter set forth, all the right, title and interest of the said Edward T. Stotesbury in and to said railroad equipment leased as aforesaid, unto the Erie Railroad Company and to said lease and as well all the claims, demands and remedies of the said Edward T. Stotesbury accruing or to accrue thereunder, and to all rentals therein reserved, excepting only the cash payments aggregating two hundred and ten thousand eight hundred and ninety and $52/100$ (\$210,890.52) dollars due on demand after September 1st, 1913, which said cash payments are to be paid to him the said Edward T. Stotesbury when and as collected by the Trustee and used by him in part payment for said railroad equipment.

10

Second. Trustee agrees to deliver certificates.

(Then follows form of certificates, warrants and guarantee.)

20

Third. Trustee agrees to keep a register.

Fourth. The Trustee, as assignee of the said Edward T. Stotesbury, lessor under said lease, further covenants to perform and so far as possible, to enforce the performance of all and singular the terms, conditions and covenants of the said lease, and to apply and distribute the rentals payable on and after March 1st, 1914, thereunder, when and as the same shall be received for the following purposes, to wit:

30

(a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad equipment and usual in cases of trust estates.

(b) To the payment of any taxes upon the income or property of the trust which it may by law be required to pay, and any taxes which may by law be deductible from the principal of said certificates or the dividends thereon.

(c) To the payment of the dividend warrants attached to the said certificates when and as the same shall become payable.

40

Exhibit Erie 15—(17).

(d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable.

The said warrants and certificates to be cancelled upon payment thereof.

10 It is distinctly understood and agreed that neither the Trustee nor any successor in the trust shall be liable or responsible for any matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

Fifth. Erie Railroad assents to the assignment of lease.

20 Sixth. It is further covenanted and agreed that in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease, reserved for more than thirty (30) days after the same shall become payable or shall fail to keep and perform all the terms and covenants of said lease, the Trustee shall have the right as assignee of the said Edward T. Stotesbury to declare the principal of all of said equipment trust certificates hereby intended to be secured to be due, so far as the rights of the holders thereof are concerned, and to thereupon enforce all the terms and stipulations of said lease, and in case the Trustee shall retake possession of the
30 said railroad equipment, it may either hold or lease or dispose of said railroad equipment or so much thereof as it may deem necessary, in such manner, at public or private sale, for cash or upon credit, as the Trustee may deem most beneficial; and the proceeds of said lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust and all taxes which the Trustee may, by law, be required to pay in respect to the trust property, or the certificates aforesaid, or the dividends thereon,

40 (1) To the dividend warrants then due.

Exhibit Erie 15—(18).

(2) To the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and, if not, then *pro rata*.

And such retaking possession of the said railroad equipment by the Trustee shall not be a bar to the recovery by the Trustee from Erie Railroad Company of the future accruing rent until such sum is realized, as, with the proceeds of the sale of said railroad equipment, is sufficient for the payment in full of all taxes and expenses and the principal of all of the said certificates. 10

Seventh. No duty on Trustee to insure or repair or take care of the property.

(Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE-15."

20

(18)

ERIE RAILROAD COMPANY and BANKERS TRUST COMPANY, TRUSTEE. COLLATERAL INDENTURE, dated April 1, 1912, securing \$10,000,000, three-year 5 per cent. Collateral Gold Notes. Interest payable April 1, and October 1.

Indenture dated April 1st, 1912, between Erie Railroad Company and Bankers Trust Company, called the Trustee. 30

Recites that the Railroad Company has resolved to issue and to dispose of its Three Year 5% Collateral Gold Notes, dated April 1, 1912, hereinafter described, for the aggregate principal sum of \$10,000,000, and to secure the payment of such notes by pledging with the Trustee under this indenture the corporate bonds hereinafter specified; and further recites by what officers of the Railroad Company said notes are to be executed; and further that said notes are to be paid 40

Exhibit Erie 15—(18).

on April 1, 1915, and are to bear interest at the rate of 5% per annum, payable in gold coin, semi-annually, on the first day of April and first day of October, until the principal shall have been paid; each of said notes to be for the principal sum of \$1,000. or of \$5,000, or of any multiple of \$1,000 that shall be authorized by the Railroad Company, such notes to be in the form following:

(Then follows form of note and coupons.)

That on each of said notes is to be endorsed a certificate of the Trustee that it is one of the notes described in this indenture.

(Then follows form of Trustee's certificate.)

That each of said coupons attached to the notes is to be authenticated by the engraved signature of the Treasurer of the Railroad Company.

This Indenture Witnesseth:

That in order to secure the payment of the principal and interest of said notes, and the performance of the covenants herein, and in consideration of the purchase and acceptance of such notes by the holders thereof; and of the sum of one dollar to be paid by the Trustee;

The Railroad Company hereby does sell, assign, transfer and set over, and does pledge to, and hypothecate with, Bankers Trust Company, as Trustee, the following described property—hereinafter sometimes termed, collectively, "pledged securities"—viz.:

I. All and singular the following described bonds of the several corporations, and of the aggregate principal sums, specified respectively, which bonds, with all unmatured coupons thereto appertaining, herewith are delivered to the Trustee, to wit:

Principal Sum.

Erie Railroad Company General Mortgage

4% Convertible 50-Year Gold Bonds,

Series C. \$10,000,000

Exhibit Eric 15—(18).

Erie Railroad Company First Consolidated Mortgage General Lien 4% Gold Bonds	\$1,000,000
Erie and Jersey Railroad Company First Mortgage 4% 50-Year Gold Bonds.....	3,000,000
Genesee River Railroad Company First Mortgage 4% 50-Year Gold Bonds....	2,000,000

11. Also all property of ever name and nature, 10
from time to time hereafter, by delivery or by writing of any kind, for the purposes hereof, pledged, assigned or transferred by the Railroad Company, or with its written consent by any one in its behalf, to the Trustee, which hereby is authorized to receive any property at any and all times, as and for additional security, and also, when and as hereinafter provided, as substituted security, for the payment of the bonds issued or to be issued hereunder, and to hold and apply any and all such property according to the terms 20
hereof.

That the lien and security of this indenture shall take effect from the date hereof, without regard to the date of the issue, sale and negotiation of said notes, that said notes are to be issued, sold and held, and the bonds pledged hereunder, as aforesaid, subject to the conditions of such pledge, are to be held by the Trustee upon and subject to the trusts, uses, conditions, covenants and agreements hereinafter set forth; and it is covenanted between the parties hereto and 30
for the benefit of the holders from time to time of the notes intended to be secured hereby, as follows, viz.:

ARTICLE ONE.

Section 1. The amount of notes hereby secured, which may be executed by the Railroad Company, and which may be certified by the Trustee, is limited, so that never at any time shall there be outstanding notes hereby secured, for an aggregate principal sum ex- 40
ceeding \$10,000,000.

Exhibit Eric 15—(18).

From time to time, the notes to be secured hereby shall be executed by the Railroad Company, and by it shall be delivered to the Trustee, and thereupon, as provided in this article, and not otherwise, the Trustee shall certify, and shall deliver the same.

10 The said notes and the coupons thereto attached respectively shall be substantially of the tenor and purport above recited. The said notes each shall be for the principal sum of \$1,000, or of \$5,000, or of any other multiple of \$1,000 that shall have been authorized by the Railroad Company by resolution of its Board of Directors or of its Executive Committee.

Each note hereby secured of the denomination of \$1,000 shall bear a distinctive serial number, the numbers to be from one upwards consecutively.

20 Likewise each note of a denomination greater than \$1,000 shall be consecutively numbered from one upwards, and shall have prefixed to the number the Roman numeral or numerals designating the number of times the principal sum of the note is divisible by the sum of \$1,000.

Each note hereby secured of a denomination greater than \$1,000 shall bear thereon an endorsement in substantially the following form, viz.:

30 "The within note was issued in lieu of or in exchange for notes for \$1,000 each, bearing serial numbers and is exchangeable upon the conditions prescribed in the within mentioned indenture, for notes of the said denomination bearing such serial. The notes bearing the said serial numbers are not now outstanding."

40 Whenever any note shall be originally issued for a principal sum greater than \$1,000, there shall be reserved by the Railroad Company unissued notes each for the principal sum of \$1,000 of an aggregate principal sum equal to the principal sum of the note of greater denomination than \$1,000 so issued, and the serial numbers of the \$1,000 notes so reserved unis-

Exhibit Eric 15—(18).

sued shall by the Railroad Company be endorsed on the note of greater denomination issued in lieu thereof.

Only such notes as shall bear thereon a certificate, substantially in the form hereinbefore recited, duly executed by the Trustee, shall be secured by this indenture, or shall be entitled to any lien or benefit hereunder. Every such certificate of the Trustee upon any note executed by the Railroad Company, shall be conclusive evidence, and the only evidence that the note so certified was duly issued hereunder and is entitled to the benefit of the trust hereby created for the benefit of the holder of such note. 10

The Trustee shall not certify or deliver any note hereby secured, until all coupons thereof then matured shall have been detached and shall have been cancelled.

Section 2. In case any of the officers of the Railroad Company who shall have signed any of the notes shall die or cease to be officers before notes shall have been actually certified by the Trustee, or delivered or sold, upon the request of the Railroad Company such notes shall be certified and delivered as provided as though the persons who signed said notes had not died or ceased to be officers. The coupons attached to the notes to be authenticated by the engraved signature of the Treasurer. 20

Section 3. Notes authorized to be issued for sum of \$10,000,000 to be executed by the Railroad Company and delivered to the Trustee as soon as possible after execution hereof. 30

Section 4. Railroad Company may issue temporary notes pending the preparation of the definite notes, which shall thereafter be exchanged.

Section 5. In case notes shall become mutilated or destroyed, Trustee shall certify and deliver a new note in place thereof. 40

Section 6. Two or more notes may be surrendered to the Trustee in exchange for a single note of higher denomination, and any note of \$2,000 or over may be surrendered in exchange for notes of a lower denomination.

10 Section 7. Nothing herein is intended to give any person or corporation, other than the parties hereto and the holders of said notes, any rights in respect to this indenture.

ARTICLE TWO.

The Railroad Company covenants as follows:

20 Section 1. Duly and punctually the Railroad Company will pay the interest and the principal of the notes issued hereunder at the time and in the manner specified in said notes without deduction from either such principal or interest for any tax or taxes which the Railroad Company or the Trustee may be required to pay thereon or to retain therefrom under any present or future law of the United States of America, or of any state, county or municipality therein, and the Railroad Company hereby covenants and agree to pay all such tax or taxes.

30 Section 2. From time to time the Railroad Company promptly shall and will pay and discharge or cause to be paid and discharged, all taxes, rates, lawful levies or assessments and charges, special or general, ordinary or extraordinary, levied or imposed upon or in respect of the pledged property, the lien whereof might or could be held to be prior or equal to the lien of these presents, so that the same shall not fall into arrears, and so that the priority of this indenture of pledge shall be duly preserved; provided, however, that the Railroad Company, in good faith and by appropriate legal proceedings, shall have the right to contest any such tax, assessment or charge, and pending such contest may delay or defer the payment thereof.

40

Exhibit Erie 15—(18).

Section 3. Railroad Company at its own expense to keep in full repair all its properties.

Section 4. Railroad Company to keep a register.

ARTICLE THREE.

Section 1. From time to time upon the written request of the President or of any Vice-President of the Railroad Company, authorized by resolution of the Board of Directors, the Trustee shall release from the lien and operation of this indenture, and shall deliver to the Railroad Company, any of the pledged securities then subject thereto; provided, however, that none of such pledged securities shall be so released, unless contemporaneously there shall be deposited with the Trustee a sum of money equal to the withdrawal value of such pledged securities so released, such withdrawal value being hereby fixed at the percentage of the face value of the pledged bonds of each issue (exclusive of interest) respectively indicated, to wit:

Erie Railroad Company General Mortgage 4% convertible 50-Year Gold Bonds, Series C...	70%	10
Erie Railroad Company First Consolidated Mortgage General Lien 4% Gold Bonds....	80%	20
Erie and Jersey Railroad Company First Mortgage 4% 50-Year Gold Bonds.....	75%	
Genesee River Railroad Company First Mortgage 4% 50-Year Gold Bonds.....	70%	30

Section 2. Any and all moneys received by the Trustee upon the release of pledged securities pursuant to the provisions of the foregoing Sections 1 of this Article, shall be held and applied by the Trustee upon and to the following trusts and purposes—to wit:

After the receipt of such moneys, the Trustee from time to time shall use and apply the same in the purchase of any of the notes hereby secured at such price

not in excess of their par value and accrued interest, and in such manner, as the Railroad Company shall deem best.

Any and all moneys which shall not be used and applied in the purchase of notes issued hereunder as aforesaid shall be held by the Trustee upon the trusts of this indenture as part of the trust estate.

10 Until so expended in the purchase of such notes, and no default hereunder existing, a reasonable allowance for interest on moneys held by the Trustee for such purpose shall be made to the Railroad Company by the Trustee.

All notes purchased as heretofore provided forthwith shall be cancelled by the Trustee and be delivered to the Railroad Company.

Section 3. The Trustee shall give consent to any merger or consolidation with any other company.

20 Section 4. Trustee shall detach from the bonds of the Railroad Company the interest coupons which shall have matured prior to the date of maturity of the interest paid on the notes issued hereunder and shall cancel and deliver same to Railroad Company. Unless there shall be default in the payment of interest on notes secured hereby or in the payment of the principal of any note when same shall become payable, or in the performance of any of the covenants or conditions herein required to be kept by
30 the Railroad Company, and such default shall have continued for a period of sixty days after notice by the Trustee, the Railroad Company shall be entitled to receive all interest paid on any of the pledged securities, and the Trustee shall deliver to it any coupons for interest in order that the Railroad Company may receive payment thereof or cause same to be cancelled. (Then follows other provisions in reference to the payment of interest, &c.)

Section 5. In case Railroad Company shall make default in any covenants in the mortgages securing any bonds, the Trustee shall not surrender or cancel any coupons or interest obligations, and shall collect the amount payable thereon; and for all purposes the Trustee shall be considered the legal holder of the pledged bonds and coupons.

Section 6. Trustee authorized to register in its name, as Trustee, all coupon bonds pledged with it, or cause same to be exchanged for registered bonds without coupons of any denomination. 10

ARTICLE FOUR.

Section 1. In case (1) default shall be made in the payment of any interest on any of said notes, and any such default shall continue for a period of sixty days, or in case (2) default shall be made in the payment of the interest, or any part thereof, upon any bonds outstanding under the mortgage securing any of the aforesaid pledged Erie bonds at the time subject to this indenture, and such default shall continue for the period of sixty days; or in case (3) upon a default by the Railroad Company in any of the covenants of the mortgage securing any of such pledged Erie bonds, the Trustee under such mortgage shall have declared due the principal sum of the bonds secured thereby, then and in each and every such case the Trustee may, and, upon the written request of the holders of twenty-five per cent. in amount of the notes hereby secured at such time outstanding, the Trustee shall, declare the principal of all notes then outstanding hereunder to be due and payable immediately, and upon any such declaration the same shall become and shall be immediately due and payable, anything in this indenture or in said notes contained to the contrary notwithstanding. 20 30

Then provision, however, is subject to the condition that if, at any time after the principal of said notes shall have been so declared due and payable, and before any sale of the pledged property or any thereof shall have been made pursuant to the provisions of Section 2 of this Article, all arrears of interest upon all such notes shall be paid by the Railroad Company, and the Railroad Company also shall have remedied any and every default by it theretofore made under this indenture or in respect to any of such pledged Erie bonds, then and in every such case the holders of a majority in amount of the notes hereby secured then outstanding, by written notice to the Railroad Company and to the Trustee, may rescind and annul such declaration and its consequences; provided however, that in case the principal of any of such pledged Erie bonds shall have been declared due as aforesaid, no such rescission or annulment shall be made unless or until the declaration of the maturity of the principal of the pledged Erie bonds shall have been rescinded or annulled by the Trustee under the mortgage securing the same as provided therein; and provided, further, no such rescission and annulment shall extend to or shall affect any subsequent default, or shall impair any right consequent thereon.

In case the Trustee shall have proceeded to enforce any right under this indenture, and such proceedings shall have been discontinued or abandoned because of such waiver, or for any other reason, or shall have been determined adversely to the Trustee, then and in every such case the Railroad Company and the Trustee shall be restored respectively to their several positions and rights hereunder in respect of the pledged securities, and all rights, remedies and powers of the Trustee shall continue as though no such proceeding had been taken.

Section 2. In case (1) default shall be made in the payment of any interest on any of said notes, and any

such default shall continue for a period of sixty days; or in case (2) default shall be made in the due and punctual payment of the principal of any of said notes; or in case (3) default shall be made in the due observation and performance of any other covenant or condition herein required to be kept or performed by the Railroad Company, and any such last-mentioned default shall have continued for a period of sixty days after written notice thereof from the Trustee to the Railroad Company, then, and in each and every such case of default (a) the Trustee, personally or by attorney, may sell either all, or from time to time any part, of the securities pledged hereunder as security for said notes, or which in any manner shall be subject to this indenture, and all right, title and interest, claim and demand therein, and right of redemption thereof, which sale or sales, if deemed best by the Trustee, or so directed by the holders of a majority in amount of said notes, may be made privately, but otherwise shall be made in the City of New York, either at the New York Stock Exchange, according to the rules and customs thereof, or publicly at such other place or places, and at such time or times, and upon such terms, as the Trustee may fix and briefly specify in the notice or notices of sale to be given by publication thereof in at least two newspapers published in the City of New York, for five days in the week next preceeding such sale; or (b) the Trustee may proceed to protect and to enforce its rights and the rights of noteholders under this indenture, by a suit or suits in equity or at law, whether for the specific performance of any covenant or agreement contained herein or in aid of the execution of any power herein granted, or for the enforcement of any other appropriate legal or equitable remedy, as the Trustee, being advised by counsel learned in the law, shall deem most effectual to protect and enforce any of its rights or duties hereunder.

Exhibit Eric 15—(18).

The Trustee may adjourn from time to time any sale by it to be made under the provisions of this indenture by announcement at the time and place appointed for such sale or for such adjourned sale or sales; and without further notice or publication, it may make such sale at the time and place to which the same shall be so adjourned.

10 Section 3. Upon written request of holders of 25% of the notes hereby secured, in case of default as aforesaid, the Trustee upon being indemnified, shall take steps for the protection of its rights and the rights of holders of the notes; but holders of a majority in amount of notes shall have the right to direct whether the Trustee shall proceed to sell any of the pledged securities, or shall proceed in equity or at law, and to direct and control the method and place of any sale, etc.

20 Section 4. Upon sale under this indenture the Trustee shall endorse or assign and deliver to the purchasers.

Section 5. The receipt of the Trustee for the purchase money shall be sufficient; but purchasers shall not be bound to see to the application of purchase money.

30 Section 6. In case of such sale the whole of the principal sum of the notes hereby secured shall at once become due and payable.

Section 7. States how proceeds of any such sale shall be applied.

Section 8. Upon sale by Trustee or otherwise, the Trustee or any noteholder or any other person may bid for and purchase the property offered for sale, and without accountability in respect thereof, except for payment of purchase price. (Then states how payments may be made.)

Section 9. The Railroad Company covenants that (1) in case default shall be made in the payment of any interest on any note at any time outstanding and secured by this indenture, and such default shall continue for a period of sixty days, or (2) in case default shall be made in the payment of the principal of any such note when the same shall become payable, whether at the maturity of said notes or by declaration as authorized by this indenture, or upon a sale as mentioned in Section 6 of this Article—then, upon demand of the Trustee the Railroad Company will pay to the Trustee, for the benefit of the holders of the notes hereby secured, then outstanding, the whole amount which then shall have become due and payable on all such notes then outstanding for interest or principal or both, as the case may be; and, in case the Railroad Company shall fail to pay the same forthwith upon such demand, the Trustee in its own name and as Trustee of an express trust, shall be entitled to recover judgment for the whole amount so due and unpaid.

The Trustee shall be entitled to recover judgment as aforesaid, either before or after or during the pendency of any proceedings for the enforcement of the lien of this indenture upon the pledged securities, and the right of the Trustee to recover such judgment shall not be affected by any sale hereunder, or by the exercise of any other right, power or remedy for the enforcement of the provisions of this indenture; and in case of a sale as provided in this Article of the pledged securities, and of the application of the proceeds of sale to the payment of the notes secured hereby, the Trustee, in its own name and as trustee of an express trust, shall, for the benefit of the holders thereof, be entitled to enforce payment of and to receive all amounts then remaining due and unpaid upon any and all of the said notes then outstanding, and shall be entitled to recover judgment for any

10

20

30

40

10 portion of the debt remaining unpaid, with interest. No recovery of any such judgment by the Trustee, and no levy of execution upon any such judgment upon the pledged securities, or upon any other property, shall in any manner or to any extent affect the lien of this indenture upon the pledged securities or any part thereof, or any rights, powers or remedies of the Trustee hereunder, but such lien, rights, powers and remedies of the Trustee and of the noteholders shall continue unimpaired as before.

20 Any moneys thus collected by the Trustee under this section (less expenses, Trustee's compensation and indemnification and other proper deductions), shall be applied by the Trustee toward payment of such amounts then due and payable upon such notes ratably and without any preference or priority of any kind, upon presentation of the respective notes and stamping such payments thereon, if partly paid, or upon cancellation thereof, if paid in full.

30 Section 10. Holder of any note shall not have right to institute suit for enforcement of this indenture, unless the holder shall give the Trustee written notice of default; nor unless the holders of twenty five percent of the notes secured hereby and outstanding shall have made written request upon Trustee and afforded it a reasonable opportunity to proceed, nor unless also they shall have offered Trustee security against costs, &c. All rights under this indenture may be enforced by the Trustee without possession of any of the notes or production thereof upon trial.

Section 11. No delay or omission of the Trustee or any note holder to exercise any right accruing upon default shall impair any such right or power.

ARTICLE FIVE.

No recourse under any agreement of this indenture or any note hereby secured, or the creation of any indebtedness hereby secured, shall be had against any incorporator, stockholder, officer or director of the Railroad Company; it being understood that this indenture and the obligations thereby secured are solely corporate obligations, and all personal liability against any stockholder, officer or director is expressly waived. 10

ARTICLE SIX.

Section 1. Any request or other indenture required by this instrument to be signed and executed by noteholders maybe in any number of concurrent instruments of similar tenor.

Section 2. Railroad Company and Trustee may treat the bearer of any note not registered or of any coupon, as the absolute owner of such note or coupon, and shall also treat the registered holder of any such note as the absolute owner thereof for the purpose of receiving payment. 20

ARTICLE SEVEN.

Section 1. If, when all the notes hereby secured shall have become due and payable, the Railroad Company well and truly shall pay, or shall cause to be paid, the whole amount of the principal moneys and interest due upon all of such notes, or shall provide for such payment by depositing with the Trustee, for the payment of such notes and coupons, the entire amount then due thereon for principal and interest, and also shall pay, or shall cause to be paid all other sums payable hereunder by the Railroad Company, and well and truly shall keep and perform all the things herein required to be kept and performed by it according to the true intent and meaning of this 30 40

Exhibit Erie 15—(18).

indenture, then, and in that case, all the pledged securities subject to this indenture shall revert to the Railroad Company, and the estate, rights, title and interest of the Trustee shall thereupon cease, determine and become void, and in such case the Trustee, on demand of the Railroad Company, and at its cost and expense, shall execute proper instruments, acknowledging satisfaction of and discharging this indenture and shall redeliver to the Railroad Company the pledged securities accompanied by proper instruments of assignments and transfer; otherwise this indenture shall be, continue and remain in full force and virtue.

Section 2. All covenants, &c., on behalf of the Railroad Company shall bind its successors or assigns.

Section 3. For the use of this indenture the words "Railroad Company" include the party of the first part and also any successor corporation.

ARTICLE EIGHTH.

Section 1. Trustee shall not be answerable for default or misconduct of any agent or attorney, if such agent or attorney shall have been selected with reasonable care; or for anything in connection with trust, except wilful neglect or misconduct. The Trustee shall not be under any obligation to take any action unless furnished with indemnity satisfactory to the Trustee, nor shall the Trustee take notice of any default unless notified in writing. Any action taken by the Trustee upon the request of any owner of any note shall be conclusive and binding upon all future owners of the same note.

The Trustee shall incur no liability in acting upon any notice or paper believed by it to be genuine. The recitals and statements herein and in said notes and coupons shall be considered as statements by the party of the first part. The Trustee may become the owner of

Exhibit Erie 15—(19).

notes secured hereby. Trustee in its discretion may advise with legal counsel selected by it and at the expense of the Railroad Company. The Trustee shall be entitled to reasonable compensation, and for the payment thereof the Trustee shall have a lien on all the property. The trustee shall be under no obligation to see to the application of any note. The Trustee shall be protected in the giving of proxies to the Railroad Company. 10

Section 2. The Trustee may resign or be discharged of the trust by giving notice.

Section 3. In case Trustee shall resign or be removed, a successor may be appointed by the holders of a majority in amount of the notes. Such new trustee so appointed shall deliver to the Trustee last in office and to the Railroad Company an instrument accepting such appointment, and the Trustee ceasing to act shall make transfer to the new Trustee of all its right, powers and trusts. 20

(Then follows testimonium clause and acknowledgment.)

EXHIBIT "ERIE-15."

(19)

AMERICAN CAR AND FOUNDRY COMPANY, COLUMBIA TRUST COMPANY and ERIE RAILROAD COMPANY.

CONDITIONAL SALE AGREEMENT, dated October 1, 1907. 30

Agreement dated October 1st, 1907, between American Car and Foundry Company, called the Car Company, Columbia Trust Company as Trustee, called the Trustee, and the Erie Railroad Company, called the Railroad; Witnesseth:

Recites that the Railroad has requested the Trustee to secure for its use the cars hereinafter specified, which cars are herein called the "Trust Equipment," and the Trustee has agreed so to do and has applied 40

Exhibit Erie 15—(19).

to the Car Company to construct and deliver such equipment, which the Car Company has agreed to do as hereinafter set forth;

10 First. The Car Company agrees to manufacture for and to deliver to the Trustee during the months of October, November and December, 1907 (all deliveries to be completed not later than January 31, 1908) and in the lots hereinafter specified, three thousand forty-ton, steel underframe box cars lettered "Erie" and numbered 109500 to 112499 inclusive (comprising the "trust equipment" in this instrument mentioned), which said cars are to be built in accordance with the Car Company's specifications No. 809 and subject to inspection and approval by the representatives of the Railroad. Two thousand of said cars shall be delivered on tracks at the Car Company's works at Berwick, Pa., and one thousand on
20 tracks at its works at Detroit, Mich.

The Car Company agrees to accept as full payment for said cars the principal sum of Three million, four hundred and eighty thousand seven hundred dollars (\$3,480,700), of which sum Four hundred and forty thousand, seven hundred Dollars (\$440,700) shall be in cash or in materials for use in the construction of said trust equipment, and the remaining Three million and forty thousand Dollars (\$3,040,000) of said principal sum shall be in the "equipment notes" (hereinafter described) of the Railroad to be issued and delivered as hereinafter provided for.
30

Second. The Trustee agrees to, and does hereby lease unto the Railroad, and the Railroad does hereby hire and lease from the Trustee, all and singular the said trust equipment constructed as aforesaid, from the dates of the respective deliveries thereof and until October 1, 1917 (or the earlier termination of this lease as hereinafter provided for), at the rental and upon and subject to the terms and conditions
40

Exhibit Eric 15—(19).

hereinafter stated, which said cars shall be delivered to the Railroad as they shall from time to time be received by the Trustee from the Car Company.

Third. The Railroad agrees to receive and accept upon and subject to all the terms and conditions of this agreement, said trust equipment, built as herein provided, as and when the same shall be ready for delivery at the places and within the times herein specified; and to pay as rental therefor the amount in the manner and at the times as hereinafter set forth. 10

And it is distinctly and specially stipulated, covenanted and agreed that the delivery to and the acceptance of the trust equipment, or any part thereof, by the Railroad shall not vest any right or interest therein or title thereto in the Railroad other than as defined in this indenture; and that until payment by the Railroad of all the equipment notes by this agreement provided for and of the coupons belonging thereto, and until all the obligations of the Railroad hereunder shall have been fully complied with and performed, the title to the trust equipment or to any part thereof shall not pass to or vest in the Railroad, but shall remain in the Trustee on the Trust to perform and enforce this agreement for the equal benefit of the holders, of the equipment notes herein mentioned, notwithstanding the delivery of the trust equipment to and its possession and use by the Railroad. 20

And it is further covenanted and agreed by and between the parties: 30

I. The Railroad agrees, as a consideration for the leasing to it of the trust equipment, to faithfully observe and comply with all and every the terms, provisions and conditions of this agreement by it to be observed and complied with; and agrees to pay to the Trustee, to and for the account of the Car Company, as part payment for the trust equipment to be manufactured by the Car Company, the sum of Four hundred and forty thousand, seven hundred dollars (\$440,- 40

Exhibit Erie 15—(19).

700), in cash or in materials for use in the construction of said trust equipment. The Railroad agrees also to pay as rental for said trust equipment:

10 (a) The entire principal of the equipment notes issued in accordance with the provisions hereof, according to their tenor, as the same severally mature, together with interest at the rate of five per cent. per annum upon the principal of said notes, according to the tenor of the coupons thereto attached—all such payments both of principal and interest to be in gold coin of the United States of the present standard of weight and fineness, or its equivalent; and

20 (b) Any and all taxes which may be assessed or levied upon the trust equipment, or any part thereof, and any and all taxes which may be assessed or levied upon the equipment notes issued hereunder and the interest coupons thereon, and which the Railroad may be required to pay thereon or deduct therefrom.

30 II. The Railroad agrees to forthwith execute and deliver to the Trustee its notes (herein designated "equipment notes") aggregating in principal amount three million and forty thousand dollars (\$3,040,000). Such notes shall be designated as "Erie Railroad Equipment Notes, Series N," shall be for the principal sum of One thousand dollars each; shall be dated and bear interest (to be evidenced by interest coupons attached) from October 1, 1907, at the rate of five per cent. per annum, payable semi-annually on the first days of April and October in each year; shall be numbered consecutively from one to three thousand and forty, both inclusive; shall have endorsed thereon a certificate of the Trustee as hereinafter specified; and shall mature at the rate of \$152,000 face amount thereof on the first day of April and the first day of October in each year, beginning April 1, 1908, and ending October 1, 1917.

40 (Then follows form of note and coupon and Trustee's certificate.)

Exhibit Eric 45—(19).

All equipment notes to be signed by such officers of the Railroad as from time to time shall be authorized; and if the officers who have so signed shall cease to be officers before the certification and delivery of the notes by the Trustee, such notes may be issued, certified and delivered by the Trustee as provided.

Coupons to be authenticated by the engraved signature of the Treasurer of the Railroad. 10

All interest on said notes shall cease after the principal shall become due, unless the Railroad shall fail to pay the principal and interest in full.

Equipment notes shall not be issued in excess of the sum of \$3,040,000.

Only such notes as shall bear a certificate in the form hereinbefore recited and duly executed shall be entitled to any benefit.

Temporary notes, without coupons, to be executed and delivered in lieu of the permanent notes until same can be engraved. 20

If any of the temporary or permanent notes or receipts shall be mutilated or destroyed or lost, the Railroad may issue new notes or receipts or like tenor and date.

III. The Car Company agrees to make deliveries in lots of 100 cars each, beginning October, 1907, and continuing until all equipment shall have been delivered, which shall not be later than January 31, 1908. 30

The Car Company agrees to pay to the Railroad the interest on the equipment notes which represent the unpaid part of the purchase price of the equipment not theretofore delivered.

IV. The Railroad to keep an inspector at the works of the Car Company.

V. The Railroad agrees that upon delivery of each one hundred cars it will execute and deliver to the 40

Car Company a certificate showing the number of cars delivered and the road numbers.

Such certificate to be taken and acted on by the Trustee as evidence of its right to certify and issue the equipment notes.

Any balance of the equipment notes not theretofore paid or delivered shall be adjusted upon the delivery to the Trustee of the certificate of the Railroad respecting the last lot of cars delivered.

VI. The Railroad shall have and be entitled to the possession and use of the trust equipment. A metal plate bearing the words "Columbia Trust Company, Trustee, owner" in plain letters shall be placed on the side of each car comprising the trust equipment, and the Railroad shall do all things as shall be reasonably necessary for the protection of the Trustee as the owner of the trust equipment.

The Railroad shall not allow during the life of this agreement the name of any person, association or corporation to be placed upon any of the trust equipment; provided, however, that the Railroad may cause the cars comprising the trust equipment to be lettered "Erie."

VII. The Railroad agrees that it will keep all of said trust equipment in proper order and complete repair, to the satisfaction of the Trustee, and the Railroad will renew and replace from time to time such of the trust equipment as may be worn out, lost or destroyed—provided, however, that the Railroad may at its option pay to the Trustee the sum of \$1,013.33 for each car so worn out, lost or destroyed. All new equipment to be subject to all the terms and conditions of this indenture. The Railroad if required by the Trustee to furnish once in each year a full and complete statement of the trust equipment.

If the Railroad shall receive money on account of the trust equipment damaged, lost or destroyed, it

shall be applied by the Railroad to the replacement or repair of the trust equipment.

VIII. The Railroad agrees not to assign or transfer this indenture, or transfer or sublet the trust equipment, without the consent of the Trustee. If Receiver should be appointed for the Railroad, such Receiver shall have the right to retain possession of the trust equipment so long as he shall comply with the terms and provision of this agreement. 10

The Railroad shall pay when due all taxes and charges of every kind against the trust equipment, except that the Railroad may contest any such tax assessments and charges. In case the Railroad shall neglect to pay such taxes and charges the Trustee may pay the same, and the Railroad will repay any such amounts so paid with interest.

The Railroad shall not sell, assign transfer, sublet or encumber, unless subject hereto, the trust equipment, but may dispose of its equity therein. 20

IX. The Railroad agrees with regard to the trust equipment to comply with all acts of Congress and with the laws of the United States and all States and Territories in which the trust equipment may be operated.

X. The Car Company agrees to protect the Trustee against all claims and demands incurred by or accruing upon the use of any patented invention employed in the Trust equipment. And the Railroad agrees to protect the Trustee against all claims in any way arising out of the use of any patented inventions. 30

XI. The Railroad agrees that the equipment notes and coupons shall be paid at maturity, and shall be cancelled, and that no notes or interest coupons in substitution thereof shall be issued; nor shall the Railroad consent to the extension of the time of payment of the principal of any equipment notes or coupons, and if such extension be made, the equipment 40

note or interest coupon so extended shall be subject to prior payment in full of the principal of the other notes and coupons the payment of which shall not have been extended.

XII. The Railroad to make, execute and deliver all further or supplemental agreements or other instruments as may be deemed advisable or necessary.

10

XIII. That upon the payment by the Railroad of all of the equipment notes in full, together with the interest thereon, in the manner and form herein and therein provided, and upon performance by the Railroad of all the covenants, obligations and agreements herein contained and by it to be performed, the title to the trust equipment shall pass to and vest in the Railroad; and the Trustee shall thereupon execute, at the expense of the Railroad, any bill of sale or other instrument which may be reasonably required by the Railroad, as evidence of its title to said equipment and of its compliance with the terms of this agreement and as evidence that the absolute ownership of said trust equipment is vested in the Railroad, its successors and assigns. Until payment in full, however, of all of said equipment notes and interest thereon, and the performance of all the obligations and covenants on the part of the Railroad hereunder, all and singular the trust equipment shall remain the absolute property of, and the title thereto shall continue to be vested in, the Trustee, as owner thereof, to all intents and purposes whatsoever, but subject to the Railroad's lessee interest therein under this agreement.

20

30

40

XIV. The Railroad shall be entitled to the possession of the trust equipment at all times during the life of this agreement, so long as it shall observe the conditions and obligations hereof; but (1) in case default shall be made by the Railroad in the payment of the principal of any of the equipment notes issued

hereunder, or of any interest coupons, as and when the same may be due and payable, and upon such default continuing for a period of thirty days; or (2) in case default shall be made in the due observance or performance of any other of the terms, provisions, covenants, conditions or obligations of this agreement, and upon such default continuing for thirty days after notice in writing by the Trustee requiring the Railroad to comply therewith (which notice the Trustee shall serve at the request of the holders of at least one-fourth in amount of the equipment notes outstanding), the Trustee shall be entitled to and may, at its option, retake the trust equipment and every part thereof, retaining all payments which up to that time may have been made on account of such equipment (principal and interest); and for the purpose of taking such possession, the Trustee shall be entitled to enter upon and take and remove all of said equipment (including all substitutions therein and additions thereto) from the premises of the Railroad or wherever the same may be found; and the Railroad will afford the Trustee every possible facility and means of assistance to such end. And the Railroad agrees that in the event of any default continuing as aforesaid, it will, upon written demand by the Trustee and as promptly as possible, deliver to the Trustee, without cost or charge, each and every piece of said trust equipment, at such place or places upon the lines of the Railroad as the Trustee shall require. The Trustee shall, upon application to any court of equity having jurisdiction in the premises, be entitled to a decree against the Railroad requiring specific performance hereof.

The Railroad shall have the right upon payment by it of all outstanding notes and of the accrued interest thereon to date of such payment, and all other sums that it is obligated to pay, to have redelivered to it such of the trust equipment as may have been retaken by the Trustee.

Upon the election by the Trustee to take the trust equipment, and the failing such payment by the Railroad and the vesting in it full title to the trust equipment, the whole of the principal of the equipment notes may be declared by the Trustee due and payable, with all accrued interest.

Upon such election the Trustee may sell the trust
10 equipment at public or private sale.

The Trustee may in its discretion resort to any proceedings in its judgment necessary or proper for the enforcement of this indenture.

The holders of seventy-five per cent in amount of the equipment notes at the time outstanding shall have the right to waive any default upon the part of the Railroad upon any of the equipment notes.

In the event of a sale under the decree of any court, or by the Trustee, the Trustee may become the pur-
20 chaser.

In case of a sale hereunder the principal of the equipment notes, if not previously due, shall become immediately due and payable.

XV. States that the Trustee shall not be liable for any delay in the delivery of said equipment or for any failure or default on the part of the Railroad or for any defect in any of said equipment, &c.

The Trustee shall be under no obligation with refer-
30 ence to the recording or filing of this indenture, etc.

The Railroad shall pay to the Trustee all reasonable and proper expenses incurred by the Trustee in the performance of its duties hereunder. The Trustee shall be indemnified in all its acts hereunder.

XVI. Any notice or demand by the Trustee hereunder may be mailed by registered letter to the Railroad.

XVII. The Trustee may resign by giving the Railroad and the Car Company written notice, and to
40 the stockholders notice by publication, etc.

Exhibit Erie 15—(20).

Every trustee appointed hereunder in place of its predecessor trustee shall execute and deliver to the Railroad an instrument accepting such appointment.

XVIII. The bearer of any note or coupon hereunder shall be treated as the absolute owner of such note or coupon.

XIX. Except when expressly indicated herein the words "Car Company" shall be held to mean and include the American Car and Foundry Company; and the words "Trustee" shall be held to mean and include the Columbia Trust Company, and the word "Railroad" shall be held to mean and include "Erie Railroad Company, their successors and assigns." 10

XX. Wherever mention is made of the life hereof it shall mean and include the whole time until all the notes hereunder and the coupons have been fully paid.

XXI. That this agreement may be simultaneously executed in several counterparts. 20

(Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE 15.))

(20)

LEASE.

CENTRAL TRUST COMPANY OF NEW YORK, TRUSTEE, to ERIE RAILROAD COMPANY, dated August 31st, 1907.

AGREEMENT 30

Between CENTRAL TRUST COMPANY OF NEW YORK, TRUSTEE and ERIE RAILROAD COMPANY, for an issuance of \$1,000,000 Gold Equipment Trust Certificates, dated August 31st, 1907, Series "O."

LEASE.

Agreement dated August 31st, 1907, between Central Trust Company, Trustee, called the Lessor, and Erie Railroad Company, called the Railroad Company, Witnesseth: 40

Exhibit Erie 15--(20).

The Lessor leases to the Railroad Company for the term of ten years from October 1st, 1907, unless sooner terminated, certain railroad equipment, to wit:

1,000 Steel Hopper Cars;

Which said cars shall be delivered to the Railroad Company as they shall from time to time be received from the builders at McKees Rocks or Allegheny, Penna; being the same cars purchased by the Lessor from the Pressed Steel Car Company by contract dated August 31st, 1907, said cars being manufactured by said Car Company in accordance with specifications furnished by the Erie Railroad Company for the rent hereinafter set forth, and upon the terms, conditions and covenants following, to wit:

First. The Railroad Company shall and will pay to the Lessor or its assigns, at its office in the City of New York, as rent and hire for said railroad equipment:

I. Half-yearly, on the first day of April and the first day of October, the first payment to be made on the first day of April, 1908:

(a) A sum equal to two and one-half per cent. ($2\frac{1}{2}\%$) of one million dollars (\$1,000,000), which sum shall be reduced from time to time by an amount equal to two and one-half per cent. ($2\frac{1}{2}\%$) on such portions as the Railroad Company shall pay to the Lessor on said one million dollars (\$1,000,000) as specified in paragraph III of this Article.

(b) A sum equal to the reasonable expenses incurred by the Lessor in enforcing the covenants and terms of this lease.

(c) A sum equal to the tax upon the income or property of the trust which the Lessor or its assigns may be liable to pay, and any tax which it, the Lessor, or its assigns, may by law be required to deduct from the principal of the certificates hereinafter referred to or the dividends thereon.

Exhibit Erie 15—(20).

II. On demand after October 1st, 1907, the sum of two hundred and twenty-eight thousand eight hundred and seventy-six dollars (\$228,876).

III. Semi-annually, on the first day of April and October in each year, beginning with the first day of April, 1908, the following sums respectively:

On the 1st day of April, 1908.....\$50,000

On the 1st day of October, 1908..... 50,000

10

(Then follows provision for further payments of \$50,000 each on April 1st and October 1st of each year down to and including October 1st, 1917.)

The payments of rentals above recited to be evidenced by car trust notes executed by the Trust Company.

Second: The Railroad Company covenants and agrees with the Lessor, in addition to its agreement to pay the said rent on the days and in the manner above provided, to keep and maintain at its own expense the said railroad equipment in good order and repair and to cause said railroad equipment to be marked on both sides of each car by permanently and securing, placing and fastening upon each side of each car composing the said equipment a metal plate bearing the words in plain letters "Central Trust Company of New York, Trustee, Owner and Lessor"; said metal plate to be placed so as to be plainly visible and to indicate plainly the ownership of said equipment. In case any of such plates shall be at any time removed, defaced or destroyed, the Railroad Company shall and will immediately restore the same, so that every piece of the original equipment and every piece of equipment replacing any of the same shall always bear the plate above described on each side of each car, with the name of the Lessor, its successor or assigns, as the owner of said equipment. The Railroad Company may cause the said cars and each of them to be lettered "Erie" for convenience of identification of its lessee interest therein.

20

30

40

Exhibit Eric 15—(20).

10 The Railroad Company covenants and agrees that it, the said Railroad Company, will replace at its own cost any of said railroad equipment which may be destroyed from any cause whatever during the continuance of this lease, by other railroad equipment of equal value as that destroyed, and of substantially as good material, character and construction.

20 Provided, however, that the Railroad Company may at its option instead of replacing any of said cars which may be worn out, lost or destroyed, pay to the lessor the sum of \$1000, for each car so worn out, lost or destroyed, all such money to be held by the lessor until the termination of this lease, and in the event that the Railroad Company exercise the option of purchase herein provided, after default or otherwise, to be turned over to the Railroad Company at the time of such purchase, and the lessor agrees to pay the Railroad Company interest thereon at a reasonable rate, not less than the highest rate paid general depositors of the Central Trust Company of New York, said interest to be retained by the Lessor, its successors or assigns, until all payments have been made, in accordance with Article First, Paragraphs I, II, and III.

30 Third: The Railroad Company agrees to furnish an inventory.

40 Fourth: The Railroad Company covenants and agrees that in case the Railroad Company shall make default in the payment of any part of said rental for more than thirty (30) days after the same shall have become payable, or shall fail to keep the said railroad equipment in good serviceable condition, or to perform any of the other covenants herein contained to be performed on its part, the Lessor or its assigns may declare this lease terminated, and thereupon all installments of rent reserved hereunder, whether said installments shall have then fallen due or not, shall

Exhibit Eric 15—(20).

at once become forthwith due and payable, and the Lessor or its assigns may, by an agent or agents to be appointed for the purpose, enter upon the railroad or premises whereupon or wherein the said railroad equipment may be, and may retake the said railroad equipment and withdraw the same from the said railroad or premises.

But in any such case of default the Railroad Company shall have the right within thirty days after the lessor shall have declared the lease terminated to pay all outstanding certificates and interest thereon to the date of such payment. Thereupon, upon receipt of evidence of such payment and of the cancellation of all such certificates and interest coupons thereon, the lessor, its successors or assigns, will make and deliver to the Railroad Company a bill of sale of all of its right, title and interest in and to the cars covered by this lease and return to the Railroad Company all sums desposited by the Railroad Company with the lessor, its successors or assigns, on account of cars worn out or destroyed, with accrued and unpaid interest.

Fifth: In case of such retaking the Railroad Company agrees to draw the equipment to such point as shall be designated by the Lessor and to deliver same.

Sixth. The said Lessor hereby covenants and agrees with the said Railroad Company that upon the due and proper payment of the last installment of fifty thousand dollars (\$50,000) hereinbefore referred to, and upon the due and proper payment of the rentals, interest, prior installments and moneys which the Railroad Company has herein covenanted to pay, it, the said Lessor, shall and will upon the payment to it of ten dollars, sell, assign and transfer, or cause to be sold, assigned or transferred to the Railroad Company, its successors and assigns, as its absolute property, all of the railroad equipment held under this lease, and evidence such sale and transfer by a proper bill of

10

20

30

40

Exhibit Eric 15—(26).

sale, so that thereupon and thereafter the absolute ownership in said railroad equipment shall be and become vested in the Railroad Company, its successors and assigns.

10 Until payment by the Railroad Company to the said Trustees, its successors or assigns, and to the holders of the certificates referred to in that certain agree-
ment of even date herewith between the Trustee and
the Railroad Company, to which reference is hereby
made, of the entire purchase price of said equipment,
and all of the installments and amounts as herein
specified, and until all the obligations of the Railroad
Company hereunder shall have been fully complied
with and performed, the title to the equipment afore-
said shall not pass to or vest in the Railroad Com-
pany, but shall remain in said Trustee, its successors
and assigns, for the benefit of the holders of said cer-
20 tificates, notwithstanding the delivery to and posses-
sion and use of said equipment by the said Railroad
Company.

Trustee, holders of certificates or subscribers men-
tioned in agreement shall not be liable for delay in
the delivery to the Railroad Company of any of the
cars composing the equipment; and nothing herein
contained shall be construed as a warranty in respect
to the value of the equipment.

30 The Trustee agrees to assign to the Lessee all rights,
claims and demands against the manufacturer of the
cars by reason of delay, default or defect in the de-
livery and construction of the cars.

The Railroad Company agrees to protect the Lessor
from all claims and demands which may accrue from
the use of any patented invention used or employed on
the said equipment.

Seventh. This instrument to be simultaneously
executed in several counterparts.

(Then follows testimonium clause and acknowledg-
40 ments.)

AGREEMENT.

Agreement dated August 31st, 1907, between CENTRAL TRUST COMPANY OF NEW YORK, called the Trustee, and the Erie Railroad Company, called the Railroad Company, Witnesseth:

Recites the above lease; also that subscriptions have been secured for a fund to be known as the Erie Railroad Equipment Trust, Series O. This Agreement Witnesseth: 10

First. The Trustee covenants and agrees as soon as it shall have contracted for the manufacture and delivery of said equipment and the amount of moneys necessary to pay for said equipment according to the terms of the contracts therefor shall have been deposited with it, to pay to certain of the subscribers two hundred and twenty-eight thousand eight hundred and seventy-six dollars (\$228,876) in cash and to deliver to others of the subscribers one thousand (1,000) 20
Certificates in the following form to wit:

(Then follows form of certificate and dividend warrant.)

(Statement as to how the certificates shall be numbered and when payable and in reference to the dividends.)

Second. The Trustee agrees to keep a register.

Third. The Trustee further covenants to perform and as far as possible to enforce the performance of 30
all and singular the terms, conditions and covenants of the said lease, and to apply and distribute the rentals payable on and after April 1, 1908, thereunder when and as the same shall be received for the following purposes, to wit:

(a) To the payment of the necessary and reasonable expenses of the trust connected with the said railroad equipment which are usual in cases of trust estates.

Exhibit Eric 13—(20).

(b) To the payment of any taxes upon the income or property of the trust which it, the lessor or its assigns, may be liable to pay and any tax which it, the Lessor, or its assigns, may by law be required to deduct from the principal of said certificates or the dividends thereon.

10 (c) To the payment of the dividend warrants attached to the said trust certificates when and as the same shall become payable.

(d) To the payment and redemption of the principal of the said certificates when and as the same shall become payable. The said warrants and certificates shall be cancelled upon payment thereof.

20 It is distinctly understood and agreed that neither the trustee nor any successor in the trust shall be liable or responsible for any failure to record said Indenture of Lease, or for any other matter or thing connected with the trust intended to be hereby created except for its own or their own wilful and intentional breach thereof.

Fourth. Railroad Company agrees to pay all reasonable expenses of the Trustee and all taxes for which the Trustee may be liable.

30 Fifth. It is further covenanted and agreed that, in case the Railroad Company shall at any time make default in the payment of any part of the rental in said lease reserved for more than thirty (30) days after the same shall have become payable, or shall fail to keep and perform all the terms and covenants of the said lease, the Trustee shall have the right to declare the principal of all of the said car trust certificates hereby intended to be secured to be due so far as the rights of the holders thereof are concerned, and thereupon to enforce all the terms and stipulations of said lease, and in case the Trustee shall retake possession of said railroad equipment it may either hold or lease or dispose of said railroad equipment, or so much

40

thereof as it may deem necessary, in such manner, at such public or private sale, for cash or upon credit, as the Trustee may deem most beneficial; and the proceeds of such lease or sale shall be applied by the Trustee to the payment, after deducting the expenses of the trust, and all taxes which the Trustee may by law be required to pay in respect to the trust property or the certificates aforesaid, or the dividends thereon:

10

(1) To the dividend warrants then due, and

(2) To the principal of all of the said outstanding certificates, whether the same shall then have matured by their terms or not, in full, if such proceeds shall be sufficient, and if not, then *pro rata*.

And such retaking possession of the said railroad equipment by the Trustee shall not be a bar to the recovery by the Trustee from Erie Railroad Company for the future accruing rent until such sum is realized as with the proceeds of the sale of said railroad equipment is sufficient for the payment in full of all taxes and expenses as aforesaid, together with all accrued dividend warrants and the principal of all the said certificates.

20

Sixth. This instrument to be simultaneously executed in several counterparts.

(Then follows testimonium clause and acknowledgment.)

EQUIPMENT AGREEMENT.

SERIES "V."

Between PRESSED STEEL CAR COMPANY, ERIE RAIL-
ROAD COMPANY and THE NEW YORK TRUST COMPANY,
10 Trustee, dated June 16, 1913.

Agreement dated June 16, 1913, between Pressed
Steel Car Company, called the Car Company, Erie
Railroad Company, called the Railroad, and The New
York Trust Company, called Trustee. Witnesseth:

Recites that the Railroad is desirous of securing the
use upon and in connection with its railway of the
equipment hereinafter mentioned, and the Car Com-
pany is willing to construct and deliver said equipment
20 to the Railroad upon the terms and conditions here-
inafter set forth:

First. The Car Company agrees to construct and
deliver to the Railroad the equipment herein described
as follows:

1000 fifty-ton steel self-clearing hopper cars, num-
bered 31,500 to 32,499, inclusive, as follows,—125
during the month of October, 1913; 420 during the
month of November, 1913, and 455 during the month
of December, 1913, unless delayed by strikes, &c.

30 Second. Railroad will purchase and accept said
equipment upon the terms and conditions of this
agreement.

Third. Until payment by the Railroad as herein-
after specified the title to said equipment to remain
in the Trustee.

Fourth. The Railroad as a consideration for the
sale will pay the amounts of principal and interest
as follows:

Exhibit Eric 15—(22).

The principal sum of \$1,186,436.67, of which amount \$186,436.67 to be paid in cash to the Trustee for account of Car Company, and the balance to be paid to the holders of the notes hereinafter mentioned, according to the terms thereof, in ten annual instalments of \$100,000 each, payable June 15th of each year, commencing on June 15, 1914, and ending on June 15, 1923; each of said instalments shall be evidenced by 100 notes of the Railroad of \$1,000 each. 10

(Then follows statement as to how said notes are to be numbered and how the coupons thereon shall be paid; also copy of note and coupon.)

Fifth. Notes to be executed and delivered by the Railroad to the Trustee simultaneously with the execution of this agreement, or as soon thereafter as possible; and said Trustee shall certify and deliver same to or on order of the Car Company. Temporary notes to be executed in lieu of the engraved notes, until said notes can be engraved. 20

The Railroad to keep a register of said notes.

No recourse to be had on said notes against any incorporator, stockholder, office or director of said Railroad.

Sixth. The Car Company assigns to the Trustee all its right, title and interest in the equipment.

Seventh. The Railroad to keep an inspector at the works of the Car Company for the purpose of inspecting the construction of said equipment. 30

Eighth. (a) The Railroad agrees that upon delivery of each twenty-five (25) cars of the trust equipment, and from time to time as the same are delivered, it will execute and deliver in duplicates, to the Car Company and to the Trustee a certificate or certificates executed by its President or by one of its Vice-Presidents, and by either its Secretary, or one of its Assistant Secretaries, showing the number (in every case twenty-five (25) or a multiple thereof) of the 40

cars so delivered and the road numbers thereof— which certificate shall be taken and acted on by the Trustee as conclusive evidence of its right to pay to the Car Company the cash or the equipment notes, as hereinafter specified, for the cars so delivered.

10 (b) The Railroad agrees to pay the Trustee the sum of \$186,436.67 specified in Article Fourth of this agreement and to pay said sum to the Trustee at such times and in such amounts as will enable the Trustee forthwith to make to the Car Company the payments hereinafter specified for the cars as delivered.

20 (c) Upon or at any time after the Trustee shall have received from the Railroad the equipment notes (whether permanent or temporary) above mentioned, it shall upon the written request of the President or Treasurer of the Car Company, authenticate and deliver all of said notes; provided, however, that such authentication and delivery shall not be made unless the Trustee shall receive for the notes so authenticated and delivered an amount in cash equal to the face value of the notes so authenticated and delivered with the accrued interest thereon to the date of such authentication and delivery. In the event of such authentication and delivery of the equipment notes, the cash so received by the Trustee shall be held by it in trust for the benefit of the holders of the Equipment Notes but subject to the obligation to pay the same to the Car Company upon the delivery of the cars as hereinafter provided for, viz: Whenever there shall be delivered to the Trustee a certificate executed as specified in the foregoing subdivision (a) hereof, together with a duly executed certificate of inspection as specified in Article Seventh of this agreement, the Trustee shall pay over in cash to the car company from the moneys paid to it pursuant to the provisions of this Subdivision (c), an amount equal to \$25,000.00 for each 25 cars covered by said certificates, and shall also pay over in cash to the Car Company

30

40

Exhibit Eric 15—(22).

from the moneys paid to it by the Railroad for the account of the Car Company, pursuant to the provisions of Article Fourth of this agreement, an amount equal to \$4,650.00 for each twenty five (25) cars covered by said certificates, retaining the balance of the moneys so received by it in trust for the benefit of the holders of the equipment notes, but subject to its prior obligation to pay the same to the Car Company for cars forming part of the trust equipment that shall thereafter be delivered by the Car Company in conformity with the provisions hereof.

10

In no event shall the Trustee be liable to the holders of the outstanding equipment notes, nor to the Car Company for an amount in excess of the cash which it shall receive under the provisions of this Article and of Article Fourth of this agreement.

(d) If there shall be no authentication and delivery of the equipment notes as provided for in the preceding subdivision (c) hereof, then the Trustee, upon the presentation to it of certificate or certificates executed as specified in preceding subdivision (a) hereof, together with a duly executed certificate of inspection as specified in Article Seventh of this agreement; and upon payment to it of the moneys specified in Article Fourth of this agreement, in accordance with the provisions of subdivision (b) of this Article Eighth, shall pay to the Car Company, with respect to each lot of twenty-five (25) cars, the sum of \$4,650.00 out of the moneys to be paid to it by the Railroad for the account of the Car Company, as specified in Article Fourth of this agreement; and shall also certify and deliver to the Car Company, or in its order, with respect to each lot of twenty-five (25) cars, the equipment notes of the Railroad of the face value of \$25,000.00—in each case of the earliest maturities then remaining undelivered by the Trustee.

20

30

Any balance of the cash or of the equipment notes not theretofore paid or delivered by the Trustee to the

40

Car Company shall be adjusted upon the delivery to the Trustee of the certificate of the Railroad respecting the last lot of cars to be delivered hereunder. And as soon as may be after the delivery of the last lot of cars, the Railroad and the Car Company shall account together respecting such allowance of interest as may be due from the Car Company to the Railroad.

10 As the cars comprising the trust equipment are paid for, as hereinbefore specified, title thereto shall vest in the Trustee, and the Trustee shall be entitled to have from the Car Company a bill or bills of sale, or other instrument or instruments evidencing that fact.

20 Anything herein contained to the contrary notwithstanding, in the event that any of the cars deliverable by the Car Company hereinunder shall remain undelivered on April 1, 1914, all moneys theretofore deposited with the Trustee by the Car Company or the Railroad as hereinbefore provided and then remaining on deposit unapplied to cars delivered, shall be applied by the Trustee under the direction of the Railroad to the purchase of steel hopper cars of the same general design as the cars hereinbefore described and bearing the same lettering as to interest or ownership, and the cars so purchased shall be and become subject to this agreement as fully and in all respects as though said cars had been cars manufactured and delivered by the Car Company to the Railroad hereunder; and the title to all equipment so purchased shall be vested in the Trustee for the protection of the holders of the notes issued hereunder in like manner as the title to the other equipment herein described.

30 Ninth. Railroad entitled to the possession and use of said equipment, subject to the terms and conditions hereof.

The words "The New York Trust Company, Trustee, Owner," shall upon the delivery of said equipment to the Railroad, be permanently and distinctly marked
40 upon each side of the cars composing said equipment

Exhibit Erie 15—(22).

in such manner as to render such marks readily visible and so as to indicate plainly the ownership of said equipment. In case any such marks shall at any time be removed, defaced or destroyed, the Railroad shall and will immediately restore and replace the same. The Railroad will not allow the name of any person, association or corporation to be placed on any of said equipment, as a designation which might be interpreted as a claim of ownership by the Railroad thereof; provide, however, that the Railroad may cause the said cars composing said equipment, and each of them, to be lettered "Erie Railroad Company," "E. R. R. Co.," "Erie," or in some other substantially similar manner, for convenience of identification of its interest therein. The Railroad shall not change the numbers upon any of the cars composing said equipment during the life hereof, without the written consent thereto of the Trustee, its successors or assigns, and in that event only as hereinafter provided in Paragraph Fourteenth.

10

20

Tenth. Railroad to keep all of said equipment in proper order and repair, and to renew such part of the equipment as may be worn out, lost or destroyed, such new equipment to be subject to the terms of this agreement. The Railroad to furnish from time to time a full statement of the equipment covered hereby. The Trustee to make inspection of same.

Eleventh. The Railroad to pay all taxes, assessments, &c., levied against said equipment.

30

Twelfth. Right, title and interest of Trustee not to be prejudiced or impaired by failure of the Railroad to comply with any laws.

Thirteenth. The Railroad to protect the Trustee from all claims resulting from the use of any patented invention.

Fourteenth. Railroad to execute and deliver to Trustee all further or supplemental agreements, &c., as may be deemed necessary by the Trustee.

40

Fifteenth. Railroad agrees that when said notes and interest coupons mature, said notes and interest coupons shall be paid and cancelled, and no notes or interest coupons in substitution thereof shall be issued, and nothing shall operate to keep the said notes or coupons alive.

10 Sixteenth. Upon the payment by the Railroad of all the aforesaid notes in full, together with the interest thereon, in the manner and form herein and in said notes provided, and upon the performance by the Railroad of all the covenants, obligations and agree-
ments herein contained, the title to the said cars shall pass to and vest in said Railroad; and the Trustee will thereupon execute at the expense of the Railroad any
20 bill of sale or other instrument which may be reasonably required by the Railroad as evidence of its title to said equipment and of its compliance with the terms of this Agreement. The Railroad shall not have any
power during the life of this Agreement to assign, sell or otherwise dispose of any interest in said equipment or to lease, pledge, mortgage or otherwise encumber
the same, save and subject to this Agreement.

Seventeenth. Railroad to be entitled to the possession of the equipment during the life of this agreement, so long as it observes the conditions and obligations hereof; but in case shall be made by the Railroad in the payment of the principal of any of the
30 notes issued hereunder, or of any of the interest coupons, as and when the same may be due and payable, whether or not demand be made for the payment thereof, and upon such default continuing for a period of sixty (60) days, or in case default shall be made in the due observance or performance of any
other of the terms, provisions, covenants, conditions or obligations of this agreement, and upon such last
40 mentioned default continuing for a period of sixty (60) days after notice in writing from the Trustee

requiring the Railroad to make good such default, the Trustee shall be entitled to, and at its option may, repossess itself of the cars composing said equipment and of every one thereof, retaining all payments which up to that time may have been made on account of such equipment notes and interest, and shall be entitled to collect, receive and retain any unpaid mileage and per diem and all other charges earned by said equipment, and for the purpose of taking such possession the Trustee shall be entitled to enter upon and take and remove said equipment from the premises of the Railroad, or wherever it shall find said equipment, and the Railroad will afford the Trustee every possible facility and means of assistance to such end; and the Railroad agrees that in event of any default continuing as aforesaid it will as promptly as possible upon demand in writing by the Trustee, deliver to the Trustee each and every piece of the equipment at such place or places upon the tracks of the Railroad as the Trustee shall require, and will relinquish all claims or rights in or to the same. The Trustee shall be entitled to a decree requiring specific performance hereof.

As soon as the right to repossess itself of the equipment shall accrue to the Trustee it may declare the principal of all of said outstanding notes due and payable, and may sell the said equipment and apply the proceeds to the payment *pro rata* of the outstanding notes.

In case of a sale as above provided, any equipment not sold and any surplus of the proceeds of sale remaining after the payments above provided for shall be transferred and paid to the Railroad. In case the proceeds of sale shall not be sufficient, the Railroad shall be liable for such deficiency.

The Trustee, if it so elects, may become a purchaser at such sale.

Exhibit Erie 15—(22).

Eighteenth: The Trustee shall have the right to resign, upon written notice, and a successor Trustee shall be appointed by an instrument in writing executed by the majority of the then outstanding notes.

Every Trustee appointed hereunder shall execute an instrument accepting the appointment.

10 Nineteenth: The Trustee shall not be liable for delay in the delivery of the cars nor for any default on the part of the manufacturers.

The Trustee may perform its duties through such attorneys, agents, &c., as it may appoint. Trustee shall not be liable for anything in connection with the trust, unless same shall happen through the bad faith of the Trustee.

Trustee to have the right to act upon any certificate, order or paper purporting to be executed by the proper person or boards.

20 Trustee to receive payment of all its expenses hereunder and a reasonable compensation for services. The Trustee not to be liable for any tax, assessment or other charge upon the property.

Twentieth: Persons in whose names notes are registered shall be considered the owners.

20 Twenty-First: The words "Car Company" used herein shall be held to mean and include Pressed Steel Car Company its successors, &c., the word "Trustee" to mean and include The New York Trust Company, and the word "Railroad" to mean and include "Erie Railroad Company."

Twenty-Second: This agreement to be executed in several counterparts.

The Railroad agrees to pay the expense of engraving, execution and certification of its notes, &c.

Twenty-Third: The parties hereto appoint attorneys to execute this instrument.

40 (Then follows testimonium clause and acknowledgments.)

Exhibit Erie 15—(23).

EXHIBIT "ERIE 15."

(23)

ERIE RAILROAD COMPANY and BANKERS TRUST COMPANY, Trustee.

COLLATERAL INDENTURE, dated April 1, 1914, securing \$5,000,000 Notes due October 1, 1914.

Indenture dated April 1st, 1914, between Erie Railroad Company, termed the "Railroad Company" and Bankers Trust Company, termed the "Trustee." 10

Recites that under date of March 2, 1914, the Railroad Company executed sixteen promissory notes for the principal sum of \$5,000,000, two of such notes being for the sum of \$1,000,000, four being for the sum of \$500,000, and ten being for the sum of \$100,000, each; and all of said notes being in the following form, viz:

(Then follows form of note.) 20

And for the purpose of obtaining moneys to discharge liabilities due and payable by the Railroad Company the Railroad Company endorsed such notes in blank and thereupon sold and delivered the same, and the Railroad Company agreed to secure said notes by the execution of a collateral indenture, wherein the Railroad Company would assign, transfer and set over to a trustee all its right, title and interest in certain stocks, bonds and other securities, subject to the several and respective liens thereon herein specified. 30

Now this Indenture Witnesseth:

That in order to secure the payment of the principal and interest of all of said notes according to the tenor, purport and effect thereof, and to secure the performance and observance of all the covenants and conditions herein contained, and in consideration of the premises and of the purchase and acceptance of such notes by the holders thereof, and of the sum of 40

Exhibit Erie 15—(23).

one dollar to it duly paid by the Trustee at the execution of these presents, the receipt whereof is hereby acknowledged:

The Railroad Company has sold, assigned, transferred and set over and by these presents does sell, assign, transfer and set over unto the Trustee, all the right, title and interest of the Railroad Company in and to the following, viz:

10

I. All and singular the following bonds and notes of the several corporations and of the aggregate principal sums specified respectively, and all and singular the following shares of stock of the several corporations and of the aggregate par value specified respectively—which bonds and notes and the certificates of which shares of stock, have been or are to be delivered to and pledged with Bankers Trust Company as Trustee under a Collateral Indenture dated April 1, 1914, between the Railroad Company and said Trust Company—to wit:

Subject, however, to the lien created by said Collateral Indenture dated April 1, 1912, as security for the payment of notes issued and to be issued thereunder for the aggregate principal sum of \$10,000,000 and to all the terms and provisions of said Collateral Indenture, including the right, without any action by the Trustee hereunder, to withdraw any of said bonds either by the payment of money or the substitution of other securities as provided in said Collateral Indenture dated April 1, 1912, and to dispose of the same free from the lien of this indenture; and also subject to the prior lien and all the provisions of any other indenture or indentures which may hereafter be made for the purpose of extending, renewing or refunding said \$10,000,000 of notes or any part thereof.

30 It being understood that the Railroad Company has and reserves the right from time to time to extend, renew or refund said \$10,000,000 of notes, or any part thereof, for such period and at such rate of interest as it may deem advisable, and in connection therewith to execute a new collateral indenture or indentures which shall be a first lien upon the property and securities held as collateral for said \$10,000,000 of notes, or for any notes issued for the renewal or refunding thereof, and to exercise the right of withdrawal and substitution as provided in said Collateral Indenture of

40

Exhibit Erie 15—(23).

April 1, 1912, or in any similar indenture securing notes issued for the refunding of said \$10,000,000 of indebtedness or any part thereof, and to dispose of the securities so withdrawn, as if this indenture has not been made.

III. All and singular the following described bonds of the several corporations, and of the aggregate principal sums specified respectively, which bonds now are held by Bankers Trust Company as Trustee under a Collateral Indenture dated October 2, 1911, between the Railroad Company and said Trust Company, to wit:

Principal Sum.

Erie and Jersey Railroad Company First

Mortgage 4% 50-Year Gold Bonds. . . . \$4,000,000

Genesee River Railroad Company First

Mortgage 4% 50-Year Gold Bonds. . . . \$3,000,000

Subject, however, to the lien created by said Collateral Indenture dated October 2, 1911 as security for the payment of notes issued and to be issued thereunder for the aggregate principal sum of \$4,550,000. and to all the terms and provisions of said Collateral Indenture, including the right, without any action by the Trustee hereunder, to withdraw any of said bonds either by the payment of money or the substitution of other securities as provided in said Collateral Indenture dated October 2, 1911, and to dispose of the same free from the lien of this indenture; and also subject to the prior lien and all the provisions of any other indenture or indentures which may hereafter be made for the purpose of extending, renewing or refunding said \$4,550,000 of notes or any part thereof.

It being understood that the Railroad Company has and reserves the right from time to time to extend, renew or refund said \$4,550,000 of notes, or any part thereof, for such period and at such rate of interest as it may deem advisable, and in connection therewith to

Exhibit Erie 15—(23).

execute a new collateral indenture or indentures which shall be a first lien upon the property and securities held as collateral for said \$4,550,000 of notes or for any notes issued for the renewing or refunding thereof, and to exercise the right of withdrawal and substitution as provided in said Collateral Indenture of October 2, 1911, or in any similar indenture securing
 10 notes issued for the refunding of said \$4,550,000 of indebtedness, or any part thereof, and to dispose of the securities so withdrawn as if this indenture had not been made.

IV. All and singular the following described bonds of the several corporations, and of the aggregate principal sums specified respectively, which bonds have been or are to be pledged with and delivered as collateral security for the payment of a certain note for the principal sum of \$1,000,000 dated April 8, 1914, and
 20 payable October 1, 1914, made by the Railroad Company to Bankers Trust Company, to wit:

	Principal Sum.
Erie and Jersey Railroad Company First	
Mortgage 4% 50-Year Gold Bonds.....	\$400,000
Genesee River Railroad Company First	
Mortgage 4% 50-Year Gold Bonds.....	1,000,000
Elmira, Corning & Waverly Railway Company First Mortgage 5% Bonds.....	200,000

30 Subject, however, to the lien created by said pledge of such bonds as security for the payment of said notes for the principal sum of \$1,000,000 and subject also to any pledge of said bonds hereafter made as security for any note or notes of the Railroad Company for an aggregate principal sum not exceeding \$1,000,000 and from time to time made in renewal or successive renewals of said \$1,000,000 note or any part thereof, or from time to time made for the purpose of
 40 refunding or taking up said note or any renewal thereof.

Exhibit Eric 15—(23).

It being understood that the Railroad Company has the right to extend, renew or refund said \$1,000,000 note, or any part thereof, and to pledge said bonds as collateral security for such renewal or refunding note or notes as if this indenture had not been made.

V. Also all the right, title and interest of the Railroad Company in and to any and all stocks, bonds, securities or money from time to time hereafter pledged or held as security for any of the obligations specified in the foregoing clauses I, II, III or IV as additional security or as substituted security as provided in the instruments securing such obligations or any obligations issued for renewing or refunding the same, respectively; subject, however, to the lien of the instrument pursuant to which such property or securities are so pledged and held and to all the terms and provisions thereof. 10

VI. Also all property of every name and nature, from time to time hereafter, by delivery or by writing of any kind, for the purpose hereof, pledged, assigned, or transferred by the Railroad Company, or with its written consent by any one in its behalf, to the Trustee, which hereby is authorized to receive any property at any and all times, as and for additional security, and to hold and apply any and all such property according to the terms hereof. 20

To Have and To Hold the same, etc. 30

In Trust, Nevertheless, for the equal use and benefit of all present and future holders of the notes, etc.

That the date of payment of notes may be extended from time to time or new notes may be issued by the Railroad Company from time to time as it may determine, which shall be secured by this indenture.

That the property assigned and transferred to the Trustee hereunder is to be held by the Trustee upon and subject to the further trusts, conditions, covenants and agreements hereinafter set forth; and it is 40

Exhibit Erie 15—(23).

covenanted between the parties hereto and for the benefit of the respective holders from time to time of the notes intended to be secured hereby, as follows, viz.:

ARTICLE ONE.

Section 1. So long as property subject to the lien of this indenture shall be subject to the prior lien of
10 any other indenture or of any pledge whether now existing, or hereafter created, such prior lien and all provisions of such other indenture shall be respected and observed, and such property shall remain subject to such prior lien.

Sec. 2. All stocks, bonds, coupons, and other property subject to such prior lien, may be used and disposed of in accordance with the provisions of the instrument creating such lien.

20 Sec. 3. When such prior liens shall have been satisfied the Trustee shall be entitled to receive all bonds, shares of stock and other property in the possession of the holder of such prior lien, and the Railroad Company to execute assignments, &c.

ARTICLE TWO.

Section 1. In case default shall be made in the payment of the notes hereby secured, the Trustee may
30 sell the property subject to this indenture, etc. (stating method of sale).

Section 2. Upon written request of the holders of twenty-five per cent. of notes hereby secured, in case of default it shall be the duty of the Trustee to take all steps needful for the protection of its rights and the rights of the holders of the notes, etc.

Sec. 3. Upon sale the Trustee shall assign to the purchasers.

40 Sec. 4. The receipt of the Trustee for the purchase money shall be sufficient discharge to any purchaser of the property.

Exhibit Eric 15--(23).

Sec. 5. The purchase money of said sale to be applied as follows:

First. To the payment of costs and expenses of sale, including compensation to Trustee, &c.

Second. To the payment of the amount owing upon the notes.

Third. To the payment of the surplus, if any, to the Railroad Company. 10

Sec. 6. Upon sale as aforesaid the Trustee or any noteholder may bid for and purchase the property offered.

Sec. 7. No holder of any note shall have the right to institute any suit without giving the Trustee written notice of default nor unless the holders of twenty five per cent of the notes outstanding shall have made written request upon the Trustee and given it an opportunity to proceed. 20

All rights and actions may be enforced without the possession by the Trustee of the notes.

Section 8. No delay by the Trustee or any noteholder shall impair any right or power or shall be a waiver of any default.

ARTICLE THREE.

Section 1. (Refers to any request or other instrument required by this indenture to be signed and executed by noteholders.) 30

Sec. 2. Railroad Company and Trustee may deem and treat the bearer of any note endorsed in blank as the owner of such note.

ARTICLE FOUR.

Section 1. When notes shall become due and payable the Railroad Company will pay or cause to be paid the whole amount due upon such notes. 40

Exhibit Erie 15—(23).

ARTICLE FIVE.

Section 1. Trustee not to be answerable for default or misconduct of any agent, &c., and shall incur no liability in acting upon any notice; and the statements herein shall not be considered as imposing any obligation or liability upon the Trustee.

The Trustee may advise with counsel.

10 The Trustee shall be entitled to reasonable compensation and the Railroad Company agrees to pay same.

The Trustee shall be protected in the giving of any proxy.

The Trustee may become the owner of notes hereby secured.

Sec. 2. The Trustee may resign by giving notice.

Sec. 3. In case Trustee shall resign or shall be removed successor may be appointed by the noteholders.

20

The new Trustee shall execute and deliver an instrument accepting such appointment.

ARTICLE SIX.

Section 1. All covenants, stipulations, &c., on behalf of the Railroad Company shall binds its successors and assigns.

30 Sec. 2. For the purposes of this indenture the terms "Railroad Company" and "Erie Railroad Company" mean not only the party of the first part, but also any successor, &c.

Sec. 3. The words "the Trustee" or "said Trustee" shall be held to mean Trustee or Trustees.

Bankers' Trust Company, party of the second part, accepts trusts in this indenture.

(Then follows testimonium clause and acknowledgments.)

40 ERIE RAILROAD COMPANY and BANKERS TRUST COMPANY, TRUSTEE. SUPPLEMENT of October 1, 1914, to

Exhibit Eric 15—(23).

COLLATERAL INDENTURE, dated April 1, 1914, securing \$5,000,000 Notes due March 1, 1915.

Supplemental Indenture dated October 1, 1914, between Erie Railroad Company, termed the "Railroad Company," and Bankers Trust Company, as Trustee under the Collateral Indenture dated April 1, 1914, termed the "Trustee."

Recites Collateral Indenture dated April 1, 1914; and further that the Railroad Company purposes to issue note notes, hereinafter termed "notez" or "renewel" "notes," payable March 1, 1915, for the principal sum of \$5,000,000, and for that purpose the Railroad Company purposes to assign and transfer to the Trustee the property hereinafter described, in addition to the property assigned in the Collateral Indenture dated April 1, 1914; and further such renewal notes of the Railroad Company are to be negotiable notes of the principal sum of \$5,000,000 and in the form following,—

10

20

(Then follows form of note.)

That on each of said renewal notes is to be endorsed a certificate of the Trustee.

(Then follows form of certificate.)

That the purpose of this indenture is to supplement Collateral Indenture dated April 1, 1914, and to provide further security for the payment of said renewal notes; and that all things necessary to make such renewal notes valid and binding have been done.

30

This Indenture Witnesseth:

That in order to secure the payment of the principal and interest of all of said renewal notes at any time issued and outstanding under this indenture, according to the tenor, purpose and effect thereof, and to secure the performance and observance of all the covenants and conditions herein and in said Collateral Indenture dated April 1, 1914, contained, and in consideration of the premises and of the purchase and

40

Exhibit Eric 15—(23).

acceptance of such notes by the holders thereof, and of the sum of one dollar to it duly paid by the Trustee at the execution of these presents, the receipt whereof is hereby acknowledged: The Railroad Company hereby does sell, assign, transfer and set over and does pledge to, and hypothecate with, Bankers Trust Company, as Trustee, as aforesaid, the following described property, hereinafter sometimes termed, collectively, "pledged securities," viz:

I. All and singular the following shares of stock and the certificates therefor, to wit:

55,000 shares of the common capital stock of the New York, Susquehanna & Western Railroad Company, of the aggregate par value of \$5,500,000.

II. Also any and all obligations, for an aggregate principal amount not exceeding \$7,000,000, which the Railroad Company hereafter shall be authorized to issue to reimburse it for capital expenditures heretofore and hereafter made by the Railroad Company, in respect of which capital obligations have not heretofore been issued, and which the Railroad Company is or shall be authorized to pledge hereunder.

III. Also all property of every name and nature, from time to time hereafter, by delivery or by writing of any kind, for the purposes hereof pledged, assigned or transferred by the Railroad Company, or with its written consent by any one in its behalf, to the Trustee, which hereby is authorized to receive any property at any and all times, as and for additional security, and also when and as hereinafter provided, as substituted security, for the payment of the said renewal notes, and to hold and apply any and all of such property according to the terms hereof.

The Railroad Company does hereby confirm the sale made by said Collateral Indenture dated April 1, 1914.

To Have and To Hold the same, etc.

In trust for the equal use and benefit of all present and future holders of the said renewal notes, etc.

Exhibit Eric 15—(23).

That the payment of said renewal notes may be extended from time to time.

The Railroad Company expressly covenants and declares that said renewal notes are to be held by the Trustee subject to the trusts expressed in said Collateral Indenture dated April 1, 1914, and the further trusts hereinafter set forth; and it is further covenanted and agreed as follows:

10

ARTICLE ONE.

Section 1. The amount of said renewal notes is limited to the aggregate principal sum of \$5,000,000.

All such notes to be executed by the Railroad Company and delivered to the Trustee for certification.

On such notes as shall bear a certificate of the Trustee shall be secured by this indenture.

Sec. 2. (States how said notes are to be drawn as to amount and serial number, &c.)

20

Each note of \$1,000 or more shall bear an endorsement in form following.

(Then follows form of endorsement.)

Sec. 3. Two or more notes may be surrendered to the Trustee in exchange for a single note.

Sec. 4. (Refers to the officers signing notes dying or ceasing to be such officers.)

Sec. 5. Temporary notes to be delivered in lieu of the definite notes.

30

Sec. 6. (Refers to notes becoming lost or destroyed.)

ARTICLE TWO.

Section 1. The Railroad Company to have the right to vote upon or give any consent in respect to all shares of stock pledged under this indenture.

The Trustee shall be protected in the giving of any proxy.

40

Exhibit Eric 15—(23).

Sec. 2. Unless default be made in the payment of the principal and interest of said renewal notes, the Trustee shall not collect the principal or interest of any of the obligations pledged under this indenture, etc.

Sec. 3. The Trustee to be considered and held to be the legal owner and holder of the pledged securities.

10 Sec. 4. The Trustee may transfer into its name as Trustee all or any shares of stock pledged with it hereunder.

Sec. 5. Trustee authorized to register in its name coupon bonds.

ARTICLE THREE.

Section 1. Notes subject to redemption by the Railroad Company.

20 Sec. 2. In case the Trustee shall receive from the Railroad Company a sum in cash sufficient to redeem the notes, the Railroad Company may publish notice that said notes will be redeemed.

Sec. 3. In case the Trustee shall hold or receive from the Railroad Company a sum less than the amount required to redeem and pay all of the notes, the Railroad Company shall draw by lot notes issued hereunder.

30 Sec. 4. Notice of redemption to be mailed by the Railroad Company to the holders of the notes, etc.

ARTICLE FOUR.

Section 1. Each of the provisions of the Collateral Indenture dated April 1, 1914, shall be applicable in respect of the renewal notes, &c.

40 Sec. 2. Nothing in this indenture is intended to give any person, firm or corporation, other than the parties hereto, any right, remedy or claim.

Exhibit Erie 15—(24).

ARTICLE FIVE.

Section 1. If the Railroad Company shall keep and perform all the things herein required to be kept, then all stocks, bonds, securities and other property subject to this indenture to revert to the Railroad Company.

Bankers Trust Company accepts the trusts in this indenture contained.

(Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE 15."

(24)

\$1,000,000.00

New York, October 1, 1914.

On March 1st, 1915, for value received, the undersigned promise to pay to the Bankers Trust Company, or order, at its office in the City of New York, in funds at the New York Clearing House, with interest from the date hereof, at the rate of six per cent. per annum, payable on the first days of January, April, July and October, One Million and 00/100 Dollars, and the following is hereby deposited with said Trust Company, as collateral security, for the payment of this and any other liability or liabilities of the undersigned, or of the grantors hereof, or which may hereafter be contracted or existing, due or to become due to, or held or to be paid by said Trust Company, viz:

\$1,000,000 Genesee River R. R. Co. 1st Mtge. 4s, 1957.

400,000 Erie & Jersey R. R. Co. 4s, 1955.

200,000 Elmira, Corning & Waverly Ry. 1st Mtge. 5s, 1957.

of an estimated market value of Dollars, and said Trust Company is also given a lien for the amount of all of said liabilities upon all property or securities now or hereafter given unto, or left in the possession or custody of said Trust Company by or for account of the undersigned, or in which the under-

10

20

40

Exhibit Eric 15—(24).

signed may have an interest (all remittances and property to be deemed left with said Trust Company, as soon as put in transit to it, by mail or carrier) and also upon the balance of the deposit account of the undersigned with said Trust Company existing from time to time.

- 10 The undersigned shall deliver to said Trust Company additional collateral satisfactory to it whenever called for by it, so that there will, at all times be with said Trust Company a margin of security satisfactory to it; and in case of failure so to do forthwith, this note (and at the option of said Trust Company, all other said liabilities) shall become at once due and payable without demand of payment hereof, and upon non-payment or non-fulfillment of any term, of this note or of any of said liabilities, then this note or any of said liabilities or any designated part thereof shall
- 20 become immediately due and payable at the option of said Trust Company on presentation hereof or thereof, or of said part, for payment, and should this note or any of said liabilities become immediately due and payable as herein provided, said Trust Company may immediately sell and apply said property or securities in the manner and with the effect hereinafter provided.

- 30 Said Trust Company is hereby authorized and empowered at its option at any time to appropriate and apply to the payment and extinguishment hereof and/or of any other of said obligation or liabilities, whether now existing or hereafter contracted, any and all moneys, or other property or proceeds thereof, now or hereafter in the hands of said Trust Company on deposit or otherwise for account of, to the credit of, or belonging to, the undersigned, whether this note, said obligations or liabilities are then due or not due. In the event of the insolvency of, or the appointment of a receiver of the property of, or an assignment for
- 40 the benefit of creditors of the undersigned, this note

Exhibit Erie 15—(24).

and all said obligations and liabilities shall become and be immediately due and payable without demand of payment.

Said Trust Company is hereby authorized, upon the non-payment of any of said liabilities when due, to sell, assign and deliver the whole of said securities or from time to time any part thereof, or any substitutes therefor, or any additions thereto, or any other securities or property at any time given unto or left in the possession or custody of said Trust Company by or for the undersigned, or in which the undersigned may have any interest, at any Brokers' Board, or at public or private sale, for cash, upon credit, or for future delivery, all at the option of said Trust Company, or of any of its officers, without either advertisement or notice, which are hereby expressly waived.

10

Upon any sale or sales at public auction or Brokers' Board of Exchange above provided for, said Trust Company, or the holder hereof, may bid for and/or purchase the whole or any part of such securities or property, free from any right of redemption, which is hereby waived and released.

20

In case of any sale by said Trust Company, of any of said securities or property on credit or for future delivery, the securities and property sold may be retained by said Trust Company until the selling price is paid by the purchaser, but said Trust Company shall incur no liability in case of failure of the purchaser to take up and pay for the securities or property so sold. In case of any such failure the securities and/or property may be again sold.

30

In case of sale for any cause, after deducting all costs or expenses of every kind for collection, sale or delivery, said Trust Company may apply the residue of the proceeds of the sale or sales to pay either one or more or all of said liabilities to said Trust Company, including this note, whether then due or not, as it shall deem proper; making proper rebate

40

Exhibit Erie 15—(24).

for interest on liabilities not then due and returning the overplus, if any, to the undersigned, who agree to pay and to be and remain liable to said Trust Company for any deficiency, with legal interest, arising upon such sale or sales.

10 Upon any transfer of this note, said Trust Company may deliver the property held as security, or any part thereof, to the transferee, who shall thereupon become vested with all the powers and rights given to said Trust Company in respect thereof, and said Trust Company herein shall thereafter be forever relieved and fully discharged from any liability or responsibility in the matter.

20 Calls for collateral or any notices to the undersigned may be made or given by said Trust Company by leaving same at the address given below or the last known address of the undersigned or by mailing same to such address, with same effect as if delivered to the undersigned in person.

ERIE RAILROAD COMPANY,

By D. W. BIGONEY,

Treasurer.

DAVID BOSMAN,

Vice-President.

ERIE RAILROAD COMPANY and **BANKERS TRUST COMPANY**, Trustee. **COLLATERAL INDENTURE**, dated October 1, 1914, Securing \$4,550,000. One-Year 5% Collateral Gold Notes. Interest payable April 1 and October 1.

Indenture dated October 1, 1914, between Erie Railroad Company, termed the "Railroad Company" and Bankers Trust Company, termed the "Trustee."

Recites that on October 2, 1911, the Railroad Company and Bankers Trust Company entered into a collateral Indenture whereunder the Railroad Company 40

did pledge with said Trust Company, as Trustee, Erie and Jersey Railroad Company First Mortgage 4% Fifty Year Gold Bonds for the aggregate principal amount of \$4,000,000, and Genesee River Railroad Company First Mortgage 4% Fifty-Year Gold Bonds for the aggregate principal amount of \$3,000,000, as security for the payment of the Three-Year Five Per Cent, Collateral Gold Notes of the Railroad Company dated October 2, 1911, and payable October 1, 1914, for the aggregate principal amount of \$4,550,000; and for the purpose of refunding said notes payable October 1, 1914, the Railroad Company has resolved to issue and to dispose of its One-Year 5% Collateral Gold Notes, dated October 1, 1914, hereinafter described, for the aggregate principal sum of \$4,550,000, and to secure the payment of such notes by pledging with the Trustee under this indenture, as hereinafter specified, the said bonds pledged under said indenture dated October 2, 1911; that such notes shall be executed by its Treasurer and countersigned by its President or a Vice President, and authenticated by certificate of the Trustee; that such notes are to be negotiable notes for the aggregate principal sum of \$4,550,000, payable to bearer, or if registered in Gold Coin of the United States, or its equivalent, and are to bear interest at the rate of five per cent per annum, on the first day of April and the first day of October, 1915, and such notes to be for the principal sum of \$1,000 or of \$5,000, or of any multiple of \$1,000, and shall be in the form following:

(Then follows form of note, coupon and Trustee's certificate.)

That each of the coupons attached to the notes is to be authenticated by the engraved signature of the Treasurer of the Railroad Company; and that all things necessary to make such notes when certified by the Trustee valid and binding obligations of the Railroad Company have been done and performed.

Exhibit Eric 15—(26).

Now, therefore, This Indenture Witnesseth:

That in order to secure the payment of the principal and interest of all of said notes at any time issued and outstanding under this indenture, according to the tenor, purport and effect thereof, and to secure the performance and observance of all the covenants and conditions herein contained, and to declare the terms and conditions on which said notes are issued, received and held, and in consideration of the premises and of the purchase and acceptance of such notes by the holders thereof, and of the sum of one dollar to it duly paid by the Trustee at the execution of these presents, the receipt whereof is hereby acknowledged:

10

The Railroad Company hereby does sell, assign, transfer and set over and does pledge to, and hypothecate with, Bankers Trust Company, as Trustee, the following described property, hereinafter sometimes termed, collectively, "pledged securities"—viz.:

20

I. All and singular the following bonds of the corporations, and for the aggregate principal sums, specified respectively, with all unmatured coupons there-to appertaining, to wit:

Principal Sum.

Eric and Jersey Railroad Company First

Mortgage 4% Fifty-Year Gold Bonds. . \$4,000,000

Genesee River Railroad Company First

Mortgage 4% Fifty-Year Gold Bonds. . 3,000,000

II. Also all property of every name and nature, from time to time hereafter, by delivery or by writing of any kind, for the purposes hereof, pledged, assigned or transferred by the Railroad Company, or with its written consent by any one in its behalf, to the Trustee, which hereby is authorized to receive any property at any and all times, as and for additional security, and also when and as hereinafter provided, as substituted security, for the payment of the notes issued or to be issued hereunder, and to hold and apply any and all such property according to the terms hereof.

30

40

Exhibit Eric 15—(26).

To Have and to Hold the same, &c.

In trust for the equal use and benefit of all present and future holders of the notes to be issued and secured under this indenture, without preference or priority as to lien or otherwise of one note over any other note, and that the corporate bonds pledged hereunder are to be held by the Trustee upon and subject to the further trusts, uses, conditions, covenants, and agreements hereinafter set forth; and it is covenanted between the parties hereto as follows, viz.:

ARTICLE ONE.

Section 1. The amount of notes limited so that never at any time shall there be outstanding notes hereby secured for an aggregate principal sum exceeding \$4,550,000.

From time to time notes secured hereby shall be executed by the Railroad Company and the Trustee shall certify and deliver the same.

The said notes and coupons shall be substantially of the tenor and purport above recited and shall be for the principal sum of \$1,000 or of \$5,000, or any multiple of \$1,000 that shall be authorized by the Railroad Company; each note secured hereby of the denomination of \$1,000 shall bear a distinctive serial number, the number to be from 1 upwards, and each note of a denomination greater than \$1,000 shall be numbered from 1 upwards and shall have prefixed to the number a letter or Roman numeral to distinguish such denomination; each note secured of a denomination greater than \$1,000 shall bear thereon the following endorsement:

(Then follows form of endorsement.)

Whenever any note shall be originally issued for a principal sum greater than \$1,000, there shall be reserved by the Railroad Company, unissued, notes each of the principal sum of \$1,000 equal to the sum of the note issued.

Exhibit Eric 15—(26).

Only such notes as shall bear thereon a certificate in the form hereinbefore recited shall be secured by this indenture.

Sec. 2. In case any officers of the Railroad Company who shall have signed any of the notes shall die or cease to be such officers, before the notes shall have been certified or delivered by the Trustee, such notes shall be certified and delivered as herein provided, &c. 10

Sec. 3. All notes hereunder shall be certified and delivered by the Trustee upon the written order of the Railroad Company, signed, &c.

Sec. 4. Pending the preparation of definite notes temporary notes may be issued.

Sec. 5. In case notes shall become mutilated or destroyed the Railroad Company may execute and the Trustee certify and deliver new notes of like tenor and date. 20

Sec. 6. Any two or more notes secured hereby may be surrendered to the Trustee in exchange for a single note of a higher denomination.

Sec. 7. Nothing in this indenture shall give to any person, firm or corporation, other than the parties hereto and the holders of the notes any right or claim under this indenture.

ARTICLE TWO.

30

The Railroad Company Covenants as follows:

Section 1. The Railroad Company will pay the principal and interest of the notes issued hereunder, at the times and in the manner specified in said notes, etc.

Section 2. The Railroad Company will pay and discharge all taxes, &c., levied or imposed or in respect to the pledged securities.

40

Exhibit Eric 13—(26).

Sec. 3. The Railroad Company at its own expense will do all things necessary to preserve and keep in full repair all its premises and property, &c.

Sec. 4. The Railroad Company will keep a register for the registration of notes secured hereby.

ARTICLE THREE.

10

Section 1. The Trustee may give consent to any merger or consolidation with any other company, etc.

Sec. 2. Unless there be default, the Trustee shall not collect or be entitled to collect the principal or interest of the pledged bonds, and shall deliver to the Railroad Company any coupons for interest in the possession of the Trustee, except as in this indenture otherwise expressly provided.

20

Sec. 3. The Trustee to be the legal holder and owner of the pledged securities.

Sec. 4. The Trustee authorized to have registered in its name as Trustee all coupon bonds pledged hereunder or to cause same to be exchanged for registered bonds, and the Trustee shall cause to be transferred into its name as Trustee hereunder all registered bonds which shall have been assigned to it hereunder.

ARTICLE FOUR.

30

Section 1. In case default shall be made in the payment of interest on any of the notes, Trustee may declare the principal of all notes then outstanding hereunder to be due.

Sec. 2. (Contains provisions in reference to defaults in payment of interest and principal.)

40

Sec. 3. Upon written request of (twenty-five per cent. in amount of the notes, in case of default, it shall be the duty of the Trustee to take all steps needful for the protection of its rights and the rights of the holders of the notes.

Exhibit Erie 15—(26).

Sec. 4. Upon any sale under this indenture the Trustee shall assign, transfer and deliver to the purchaser such of the pledged securities as shall be sold.

Sec. 5. Receipt of Trustee for purchase money to be sufficient.

Sec. 6. In case of any sale the whole of the principal sums of the notes to become due and payable.

Sec. 7. The purchase money, proceeds of any sale, together with any other money held by the Trustee under this indenture shall be applied as follows: 10

First. To the costs and expenses of sale, including compensation to the Trustee, and payment of taxes, &c.

Second. To the payment of the amount then owing on the notes.

Third. Surplus, if any, to be paid to the Railroad Company. 20

Sec. 8. In case default shall be made in the payment of any interest, or in case default shall be made in the payment of the principal of any such note when the same shall become payable, then the Railroad Company will pay to the Trustee the whole amount which then shall have become due and payable on all notes then outstanding, and in case the Railroad Company shall fail to pay the same forthwith upon demand, the Trustee shall be entitled to recover judgment for the whole amount so due and unpaid. 30

(Then follows further clause in reference to the recovery of judgment.)

Any moneys thus collected by Trustee, less Trustee's expenses, &c., shall be applied by the Trustee towards the amounts then due and payable on the notes.

Sec. 10. Holders of notes shall not have right to institute suit for the enforcement of this indenture, unless holder shall first give Trustee written notice.

All rights under this indenture may be enforced by the Trustee without the possession of the notes. 40

Exhibit Eric 13—(26).

Sec. 11. No delay by the Trustee or note holders to exercise any right accruing upon any default shall be a waiver of any such default.

ARTICLE FIVE.

No recourse under any obligation or agreement of this indenture shall be had against any incorporators,
10 stockholder or officer of the Railroad Company.

ARTICLE SIX.

Section 1. Any other instrument required by this indenture to be signed and executed by noteholders may be in any number of concurrent instruments of similar tenor. (Then follows further statements in reference to execution, &c., of requests or other instruments.)

20 Sec. 2. The Railroad Company and the Trustee to treat the bearer of any note not registered or of any coupon as the absolute owner of such note or coupon.

ARTICLE SEVEN.

Section 1. When the Railroad Company shall pay the entire amount due for principal and interest on the notes and shall perform all the things herein required to be performed, all the bonds and other property sub-
30 ject to this indenture shall revert to the Railroad Company.

ARTICLE EIGHTH.

Section 1. Trustee not to be answerable for default or misconduct of any agent or attorney, and shall not be under obligation to do anything which will be likely to involve it in expense or liability, unless indemnified by holders of notes.

(Then follows further clauses in reference to ac-
40 tions by the Trustee and liability of the Trustee.)

The Trustee may become the holder and owners of notes hereunder, or of any stocks, bonds or other securities sold hereunder.

The Trustee may employ counsel at the expense of the Railroad Company.

The Trustee shall be entitled to reasonable compensation for all services rendered by it.

The Trustee shall be under no duty to see to the application of the proceeds of any note hereunder. 10

The Trustee shall be under no duty to record or file this indenture.

Any moneys received by the Trustee hereunder shall be treated by it as a deposit.

Sec. 2. Trustee may resign by giving notice. (Then follows further statement in reference to resignation or removal of Trustee.)

Sec. 3. A successor may be appointed to the Trustee by the holders of a majority in amount of the notes outstanding. 20

(Then follows further clause in reference to the appointment of a new trustee.)

ARTICLE NINE.

Section 1. All covenants, &c., by the Railroad Company to bind its successors and assigns.

Sec. 2. In case Railroad Company shall be consolidated or merged with any other corporation, such successor shall be substituted for the Railroad Company, etc. 30

Sec. 3. For the purposes of this indenture "Railroad Company" and "Eric Railroad Company," mean not only the party of the first part, but any successor corporation.

Sec. 4. (Contains further reference to successor.)

Sec. 5. Before exercise of any of the powers conferred by this Article, the Railroad Company by in- 40

Exhibit Erie 13—(27).

strument in writing and delivered to the Trustee, may surrender any of the powers reserved to it or any successor.

Sec. 6. The words "the Trustee" or "said Trustee" to mean the Trustee or Trustees for the time being.

Bankers Trust Company accepts the trusts in this indenture.

10 (Then follows testimonium clause and acknowledgments.)

EXHIBIT "ERIE 13."

(27)

ERIE RAILROAD COMPANY and BANKERS TRUST COMPANY, TRUSTEE. COLLATERAL INDENTURE, Dated April 1, 1914, Securing \$13,500,000 Three-Year 5½% Collateral Gold Notes, Interest payable April 1 and
20 October 1.

Indenture dated April 1, 1914, between Erie Railroad Company, termed the "Railroad Company," and Bankers Trust Company, termed the "Trustee."

Recites that the Railroad Company has resolved to issue and dispose of its Three-Year 5½% Collateral Gold Notes, dated April 1, 1914, hereinafter described, for the aggregate principal sum of \$13,500,000, and to secure the payment of such notes by pledging with the Trustee the bonds, notes and stocks hereinafter
30 specified; and further what officers of the Railroad Company shall execute such notes; that such notes are to be negotiable notes of the principal sum of \$13,500,000, payable to bearer or registered holder in gold coin of the United States at the office of the Railroad Company on or before April 1, 1917, and to bear interest at 5½% per annum, payable semi-annually on April 1st and October 1st; such notes to be each of the principal sum of \$1,000 or of \$5,000 or any multiple of \$1,000 that shall be authorized by
40 the Railroad Company, and to be substantially in the form following:

Exhibit Eric 15—(27).

(Then follows form of note and coupon.)

That on each of said notes is to be endorsed a certificate of the Trustee.

(Then follows form of certificate.)

That each of the coupons is to be authenticated by the fac-simile signature of the Treasurer of the Railroad Company; and that all things necessary to be done and performed by the Railroad Company have been done and performed and the issue of said notes have been duly authorized:

10

Now, Therefore, This Indenture Witnesseth:

That in order to secure the payment of the principal and interest of all of said notes at any time issued and outstanding under this indenture, according to the tenor, purport and effect thereof, and to secure the performance and observance of all the covenants and conditions herein contained, and to declare the terms and conditions on which said notes are issued, received and held, and in consideration of the premises and of the purchase and acceptance of such notes by the holders thereof, and of the sum of one dollar to it duly paid by the Trustee at the execution of these presents, the receipt whereof is hereby acknowledged:

20

The Railroad Company hereby does sell, assign, transfer and set over, and does pledge to, and hypothecate with, Bankers Trust Company, as Trustee, the following described property, hereinafter sometimes termed, collectively, "pledged securities"—viz:

30

1. All and singular the following bonds and notes of the several corporations, and of the aggregate principal sums, specified respectively, with all unmatured coupons thereto appertaining, to wit:

Principal Sum.

Eric Railroad Company First Consolidated Mortgage General Lien 4%

Gold Bonds \$14,839,000

40

Exhibit Eric 15—(27).

		Principal Sum.
	Erie Railroad Company General Mortgage 4% Convertible 50-Year Gold Bonds, Series B.	\$985,000
	Elmira, Corning and Waverly Railway Company, First Mortgage 5% Bonds	600,000
10	Mutual Terminal Company of Buffalo 4% notes payable July 1, 1924.	95,000
	II. Also all and singular the following shares of stock of the several corporations, and of the aggregate par values, specified respectively, and the certificates therefor, to wit:	
	Shares.	Par Value.
	63,060 New York, Susquehanna and Western Railroad Company, preferred stock	\$6,306,000
20	1,631 Lehigh and Hudson River Railway Company	163,100
	1,457 Temple Iron Company	145,700
	7,500 New Jersey and New York Railroad Company preferred stock..	750,000
	10,000 New Jersey and New York Railroad Company common stock...	1,000,000

III. Also all property of every name and nature, from time to time, hereafter, by delivery or by writing of any kind, for the purposes hereof, pledged, assigned or transferred by the Railroad Company, or with its written consent by any one in its behalf, to the Trustee, which hereby is authorized to receive any property at any and all times, as and for additional security, and also, when and as hereinafter provided, as substituted security, for the payment of the notes issued or to be issued hereunder, and to hold and apply any and all such property according to the terms hereof.

To Have and to Hold the same, etc.

40 In Trust, Nevertheless, for the equal use and benefit of all present and future holders of the notes, etc.

with preference, priority or distinction as to lien or otherwise of one note over any other note; it being intended that the lien and security of this indenture shall take effect from the day of the date hereof; and it being expressly covenanted and declared by the Railroad Company that all such notes to be issued, and the said corporate stocks and corporate bonds and notes pledged hereunder, and any and all other stocks, bonds or obligations and other securities hereafter pledged hereunder, as aforesaid, subject to the conditions of such pledge, are to be held by the Trustee upon and subject to the further trusts, uses, conditions, covenants and agreements hereinafter set forth; and it is covenanted between the parties hereto and for the benefit of the respective holders from time to time of the notes intended to be secured hereby, as follows, viz:

ARTICLE ONE.

Section 1. The amount of the notes hereby secured is limited so that never at any time shall there be outstanding notes for an aggregate principal sum exceeding \$13,500,000.

From time to time the notes secured hereby shall be executed by the Railroad Company and the Trustee shall certify and deliver the same.

The notes and coupons thereto attached shall be of the tenor and purport above recited. The said notes each shall be for the principal sum of \$1,000 or of \$5,000, or of any other multiple of \$1,000 that shall have been authorized by the Railroad Company.

Each note of the denomination of \$1,000 shall bear a distinctive serial number, the numbers to be from one upwards. Likewise each note of a denomination greater than \$1,000 shall be numbered from one upwards and shall have prefixed to the number the Roman numeral designating the number of times the principal sum of each note is dividable by the sum of \$1,000.

Exhibit Erie 15—(27).

Each note of a denomination of \$1,000 shall bear thereon an endorsement in the following form:

(Then follows form of endorsement.)

10 Whenever any note shall be issued for a principal sum greater than \$1,000, there shall be reserved by the Railroad Company unissued, notes each for the principal sum of \$1,000 of an aggregate principal sum equal to the principal sum of the note of greater denomination than \$1,000.

Only such notes as shall bear a certificate in the form hereinbefore recited by the Trustee shall be secured by this indenture.

The Trustee shall not certify or deliver any note hereby secured, until all coupons then matured shall have been detached and canceled.

20 **Sec. 2.** If any officer of the Railroad Company who shall have signed any of the notes issued under this indenture shall die, or cease to be such officer, before the notes shall have been delivered by the Trustee, may be sold and disposed of by the Railroad Company as though the persons who signed such notes had not died.

Sec. 3. All notes authorized to be issued hereunder shall be executed by the Railroad Company and certified and delivered by the Railroad Company.

30 The Trustee shall certify and deliver all the notes prior to the delivery to it of the pledged securities, provided, however, that there shall be deposited with the Trustee an amount in cash equal to the value of the notes. Such money shall be held by the Trustee upon the trusts of this indenture.

Sec. 4. Pending the preparation of definite notes temporary notes may be issued, which shall be duly authenticated and delivered by the Trustee, and such temporary notes shall be exchanged for definite notes.

40 The Railroad Company will furnish without delay engraved definite notes.

Exhibit Erie 15—(27).

Sec. 5. In case any of the notes secured hereby or the coupons shall become mutilated or destroyed, the Railroad Company may execute and the Trustee certify and deliver new notes of like tenor and date.

Sec. 6. Any two or more notes secured hereby may be surrendered to the Trustee in exchange for a single note of a higher denomination.

Sec. 7. Nothing in this indenture or in the notes shall give to any person, firm or corporation other than the parties hereto and the holders of the notes, any legal right or remedy or claim in respect to this indenture. 10

ARTICLE TWO.

The Railroad Company covenants as Follows:

Section 1. The Railroad Company will pay the interest and the principal of the notes at the times and in the manner specified, without deduction. 20

Sec. 2. The Railroad Company will pay and discharge all taxes, &c. levied or imposed upon the pledged securities.

Sec. 3. The Railroad Company will do all things necessary to preserve and keep in full repair and efficiency all its premises, properties, &c.

Sec. 4. The Railroad Company will keep a register for the registration of notes.

Upon presentation at its office of any note so registered, such note shall be transferred. 30

(Then follows further clauses as to registration and transfer of notes.)

ARTICLE THREE.

Section 1. Upon request by the Railroad Company the Trustee shall release from the lien of this indenture and deliver to the Railroad Company any of the pledged securities then subject thereto; provided that 40

Exhibit Eric 15—(27).

none of said pledged securities shall be released unless there shall be deposited with the Trustee a sum equal to the withdrawal value of such securities, such withdrawal value being hereby fixed at the percentage of the par or face value thereof (exclusive of accrued interest or dividends) respectively indicated, to wit:

		Percentage of Par Value.
10	Erie Railroad Company First Consol. Mortgage General Lien 4% Gold Bonds.....	80%
	Erie Railroad Company General Mortgage 4% Convertible 50-Year Gold Bonds, Series B..	75%
	Elmira Corning & Waverly Railway Company First Mortgage 5% Bonds	80%
	Mutual Terminal Company of Buffalo 4% Notes	100%
20	New York, Susquehanna & Western Railroad Company preferred stock	50%
	Lehigh & Hudson River Railway Company stock	76%
	Temple Iron Company stock	150%
	New Jersey & New York Railroad Company preferred stock	50%
	New Jersey & New York Railroad Company common stock	25%
30	Any moneys received by the Trustee shall be held by the Trustee as part of the trust estate.	

Sec. 2. Upon the written request of the Railroad Company, the Trustee shall release from the lien of this indenture and deliver to the Railroad Company any of the pledged securities below specified, provided that there shall be deposited with the Trustee and substituted therefor other stocks, bonds, &c. of equal or greater value.

The pledged securities subject to release by the Trustee shall be any or all of the following:

- 40 Mutual Terminal Company of Buffalo 4% Notes.

Exhibit Eric 15—(27).

New York, Susquehanna & Western Railroad Company preferred stock.

Lehigh & Hudson River Railway Company stock.

Temple Iron Company stock.

New Jersey & New York Railroad Company preferred stock.

New Jersey & New York Railroad Company common stock.

10

Sec. 3. In case the Railroad Company shall not be in default in the payment of principal and interest of any of the notes, the Trustee shall give consent to any merger with any other company.

Sec. 4. Unless there shall be some default, the Railroad Company to have the right to vote upon or give any consent in respect of all shares of stock subject to this indenture, for all purposes not inconsistent with the provisions hereof.

The Trustee shall be protected in the giving of any proxies, &c.

20

Sec. 5. Unless there be default in the performance of any of the covenants or conditions herein, the Trustee shall not collect the principal and interest of any of the obligations pledged hereunder, and shall not enforce any of the provisions of the mortgages or other instruments under which such obligations were issued or secured.

(Then follows further provisions in reference to the bonds and obligations pledged hereunder.)

30

Sec. 6. The Trustee shall be considered and held to be the legal owner of the pledged securities.

Sec. 7. The Trustee may transfer into its name as Trustee all or any shares of stock pledged with it hereunder.

40

ARTICLE FOUR.

Section 1. As soon as may be after the receipt of moneys by the Trustee under this indenture, the Trustee shall apply such moneys to the payment of notes.

10 Sec. 2. To the extent that said moneys applicable to the purchase or redemption of notes shall not be used in the purchase of notes as aforesaid, such moneys together with other moneys paid to the Trustee by the Railroad Company for such purpose, to the redemption of notes hereby secured in the manner hereinafter provided:

All notes hereby secured shall be subject to redemption at the option of the Railroad Company on April 1st, 1915, or thereafter on any semi-annual interest day prior to maturity, upon advertisement, etc.

20 Unless default shall be made in the payment of any notes mentioned in any notice of redemption, all interest after the date of redemption designated in the said notice shall cease to accrue upon said notes and the coupons shall become void.

Sec. 3. (Refers to publication of notice of redemption.)

Sec. 4. (Refers to redemption of notes and drawing by lot.)

30 Sec. 5. (Refers to the presentation for redemption of any note with which there shall be all unpaid coupons maturing on and prior to the date designated for such redemption.)

Sec. 6. Copy of notice of redemption or payment shall be mailed by the Railroad Company to the registered holder of each note; and the Railroad Company shall furnish the Trustee with evidence of such mailing of notice. All notes purchased, redeemed or paid shall be cancelled by the Trustee and delivered to the Railroad Company.

ARTICLE FIVE.

Section 1. In case default shall be made in the payment of interest on the notes or bonds or default by the Railroad Company in any of the covenants of the mortgage securing bonds, the Trustee shall declare due the principal sum of the bonds.

(Then follows further clause in reference to the power of Trustee in case of defaults.) 10

Sec. 2. In case of default the Trustee may sell either all or any part of the pledged securities.

Sec. 3. Upon written request of twenty-five per cent of the notes hereby secured in case of default as aforesaid, the Trustee, upon being indemnified, shall take all steps needful for the protection of its rights and the rights of the holders of the notes.

Sec. 4. Upon any sale under this indenture the Trustee shall assign and transfer and deliver to the purchasers such of the pledged securities as shall have been sold. 20

Sec. 5. The receipt of the Trustee for the purchase money shall be sufficient discharge to any purchaser.

Sec. 6. In case of sale the whole of the principal sums of the notes hereby secured shall at once become due and payable.

Sec. 7. The purchase money or proceeds of any sale shall be applied as follows: 30

First. To the payment of the costs and expenses of sale, including a reasonable compensation to the Trustee, its agents, &c.

Second. To the payment of the whole amount then owing upon the notes, with interest.

Third. The surplus, if any, to be paid to the Railroad Company.

Sec. 8. Upon sale of the Trustee or under judicial proceedings, the Trustee or any noteholder may bid. 40

Exhibit Eric 15—(27).

Sec. 9. In the case of default of the payment of principal or interest the Trustee shall be entitled to recover judgment for the amount due and unpaid, and any moneys thus collected shall be applied by the Trustee towards the payment of the amounts then due.

10 Sec. 10. Holders of notes shall not have right to institute suit for the enforcement of this indenture, unless notice is previously given to the Trustee.

All rights under this indenture shall or may be enforced by the Trustee without the possession of any of such notes.

Sec. 11. No delay or omission of the Trustee or of any note holder shall impair any right or power.

ARTICLE SIX.

20 No recourse under this obligation shall be had against any incorporator, stockholder, officer or director of the Railroad Company.

ARTICLE SEVEN.

Section 1. Any request or other instrument required by this indenture to be signed or executed by note-holders, may be in any number of concurrent instruments of similar tenor, etc.

30 Sec. 2. The Railroad Company and Trustee may deem and treat the bearer of any note not registered or any coupon hereby secured, as the absolute owner of such note or coupon, and shall also treat the registered holder of any such note as the absolute owner.

ARTICLE EIGHT.

40 Section 1. If, when all the notes hereby secured shall have become due and payable, the Railroad Company well and truly shall pay the whole amount of the principal and the interest due upon all of such notes, or shall provide for such payment, and shall cause to

Exhibit Eric 15—(27).

be paid all other sums hereunder, then and in that case all stocks, bonds and other securities subject to this indenture shall revert to the Railroad Company, and the right of the Trustee shall thereupon cease.

ARTICLE NINE.

Section 1. Trustee shall not be answerable for the default or misconduct of any agent or attorney appointed by it, and shall incur no liability hereunder; and the Trustee shall be entitled to receive reasonable compensation for all services rendered. 10

The Trustee shall be under no duty or obligation to see to the application of the proceeds of any note under this indenture.

The Trustee shall be under no duty to record or file this indenture.

Any moneys received by the Trustee hereunder may be treated by it as a deposit. 20

Sec. 2. The Trustee may resign and be discharged of the trusts created by this indenture by giving notice to the Railroad Company, and to the noteholders, by publication. Such resignation to take effect on the day specified in such notice.

Sec. 3. In case the Trustee or any trustee hereafter appointed shall resign or become incapable of acting, a successor may be appointed by the holders of a majority in amount of the notes hereby secured. 30

Any new Trustee appointed hereunder shall execute and deliver to the Trustee last in office and to the Railroad Company, an instrument accepting such appointment.

ARTICLE TEN.

Section 1. All covenants, stipulations, promises and agreements in this indenture by or in behalf of the Railroad Company shall bind its successors and assigns. 40

Exhibit Erie 15—(28).

Sec. 2. In case Railroad Company shall be consolidated or merged with any other corporation, such successor corporation shall execute an instrument assuming the payment of the notes hereby secured and the performance of all the covenants and conditions of this instrument.

10 Sec. 3. For the purposes of this indenture the terms "Railroad Company" and "Erie Railroad Company" include and mean not only the party of the first part, but also any successor corporation.

Sec. 4. Any act to be done or performed by any board or officer of the Railroad Company shall be done and performed by the board, committee or officer of any successor of the Railroad Company.

Sec. 5. The Railroad Company may surrender any of the powers reserved to the Railroad Company.

20 Sec. 6. The words "the Trustee" or "said Trustee" shall be held to mean the Trustee or Trustees; and the words "Trustee," "note," "noteholder" shall signify the plural as well as the singular number, and the term "majority" shall signify "majority in amount."

Bankers Trust Company hereby accepts the trusts in this indenture.

(Then follows testimonium clause and acknowledgments.)

(28)

INDENTURE, dated April 24th, 1852, between THE TIOGA RAILROAD COMPANY and THEODORE DEBON, ALFRED S. FRASER and WATTS SHERMAN, WITNESSETH:

Recites that the Tioga Railroad Company have authorized their President and Secretary to execute in the corporate name of said Company Two Hundred
 40 Two Hundred Bonds of Five Hundred Dollars each,

Exhibit Eric 13—(28).

bearing date the first day of May, 1852, payable on the first day of May, 1872, with interest at the rate of seven per cent. per annum, payable semi-annually on the first day of May and the first day of November in each year, which bonds are convertible into the stock of the said company at par at any period prior to the first day of May, 1869, of the effect following, that is to say :

(Then follows copy of bond.)

That the said President and Secretary to secure the payment of the said bonds with interest as aforesaid were also duly authorized to execute a mortgage to the party of the second part of the whole of the Railroad property from the coal beds at and near Blossburg to the northern boundary line of the State of Pennsylvania near Lawrenceville and all the corporate rights, tolls, franchises and privileges thereto belonging, together with lands, depots and depot grounds, locomotives, engines, cars and all other real and personal property which said Company has acquired or may hereafter acquire and the income thereof, and in pursuance of the powers, rights and privileges aforesaid and authority of said Company the President and Secretary in the corporate name of said Company have executed two hundred and fifty bonds of one thousand dollars each, numbered consecutively from 1 to 250, two hundred bonds of five hundred dollars each numbered from 1 to 2,500, payable to the party of the second part or bearer on the first day of May, 1872, with interest at the rate of seven per cent. per annum, payable semi-annually on the first day of May and the first day of November in each year :

Now, this indenture witnesseth that the said Tioga Railroad Company to secure the payment of the said bonds and interest and in consideration of the sum of one dollar paid by the party of the second part, have granted, bargained, sold, etc., unto the party of the second part and their successors the whole of the said Railroad (describing same as above) and the income

10

20

30

Exhibit Erie 15—(28).

thereof in trust for the holders of the bonds hereby secured, provided, however, if the said party of the first part shall and do well and truly pay and discharge or cause to be paid and discharged at maturity all the aforesaid bonds and the interest thereon as aforesaid, without any fraud, default or delay, and without any deduction or defalcation, then and from thenceforth as well the said bonds as this Mortgage and the estate, property and rights hereby granted shall cease, determine and become void, and provided further that in case the said party of the first part shall fail to pay the principal or any part thereof or the interest on said bonds as the same may become due and payable when demanded, according to the tenor thereof, then after sixty days from such default upon the request of the holders of any such bonds it shall and may be lawful at the discretion of the party of the second part their successor or successors in the trust to enter into and upon and take possession of all or any part of said premises hereby granted and as the attorney in fact or agent of the said party of the first part by himself or agents or substitute or substitutes duly constituted have use and employ the same making from time to time all such repairs as they may deem necessary and receiving the tolls, rents, issues and profits of said Railroad and appurtenances and after defraying out of the same the counsel fees and other legal charges and expenses of the Railroad and machinery thereof and such repairs as aforesaid, apply the proceeds thereof to the payment of the principal and interest of all such bonds due and unpaid or the interest which may be due and unpaid.

The said party of the second part, at the request of the holders of any of the bonds due and unpaid, shall cause the said premises, or so much thereof as they may deem necessary, to be sold, at auction (giving method of publication and notice), and the proceeds of such sale, after deducting the costs and expenses

Exhibit Erie 15—(29).

thereof and the expenses of this trust, to be applied to the payment of the principal and interest due and unpaid on said bonds, and any balance or residue not required for that purpose shall be restored to the party of the first part; and the said party of the first part agrees to execute any further reasonable conveyance of the property hereby conveyed to the party of the second part.

10

The party of the second part shall only be liable and accountable for reasonable diligence in the management thereof; and the party of the second part shall be entitled to receive reasonable compensation.

In case of death, incapacity or resignation of the said party of the second part, the bondholders may apply to court to appoint a new trustee or trustees.

(Then follows testimonium clause.)

(29)

MORTGAGE to secure \$2,280,000 FIRST MORTGAGE RENEWAL BONDS of the BUFFALO, NEW YORK AND ERIE RAILROAD COMPANY, dated June 1st, 1876.

Indenture dated June 1st, 1876, between Buffalo, New York and Erie Railroad Company, party of the first part, and John A. C. Gray, party of the second part.

WITNESSETH: Recites that the party of the first part is a corporation of the State of New York, and did on or about October 29th, 1857 make to George C. Satterlee, as Trustee, a certain indenture of mortgage, wherein it mortgaged its entire line of railroad, &c. to secure the payment on the first day of December, 1877, of the bonds therein mentioned, amounting in the aggregate to \$2,000,000; and that the party of the first part on October 29th, 1857 made and executed to John Gamson, as Trustee, a certain other indenture of mortgage, wherein it further mortgaged all

30

40

Exhibit Erie 15—(29).

- said line of railroad, etc. to secure the payment on the first day of November, 1872, of bonds therein mentioned amounting to the aggregate sum of \$380,000; and the party of the first part desiring to secure an extension of its bonded debt under date of May 1st, 1874, did execute and deliver to William Butler Duncan and Charles F. Hunter, as Trustees, a new mortgage on all said line of railroad, etc., known as its consolidated mortgage to secure the bonds therein mentioned, known as its consolidated mortgage bonds, said bonds being of the denomination of \$1,000 each, and bearing even date with said mortgage, and did issue seventy-eight of said consolidated mortgage bonds in exchange for said party's first mortgage bonds of the nominal value of \$78,000, and did issue one hundred and twenty four of said consolidated mortgage bonds in exchange for said party's second mortgage bonds of the nominal value of \$124,000, and did thereupon determine to retire its said consolidated mortgage and the bonds issued as aforesaid, and did cancel all of said consolidated mortgage bonds, except the one hundred and two bonds issued as aforesaid; that the amount of indebtedness secured by said mortgages and actually outstanding is in the aggregate \$2,380,000, with interest payable semi-annually, at the rate of seven per centum per annum, on said first and second mortgage bonds, and at the rate of seven per centum per annum on said consolidated mortgage bonds.

That on the 27th of February, 1863, the party of the first part did make and execute and deliver a certain indenture of lease wherein it did lease and rent unto the Erie Railway Company, a corporation of the State of New York, and to its successors and assigns, for the term of four hundred and ninety nine years from the first day of May, 1863, the said entire line of railroad and the said lands, &c. theretofore acquired, with the appurtenances, and all tolls, profits

Exhibit Erie 15—(29).

and income from sub-letting or otherwise, which might be received for or from said demised premises and also so much of its franchises and privileges as might be necessary or are actually exercised in or about the operation of the said railroad, &c., at an annual rental of \$233,100.

And Whereas in and by said indenture of lease, it was also and further provided that the rights taken, and acquired thereunder by said Erie Railway Company should be subject to the mortgages existing at the date of said lease and securing the said indebtedness of \$2,380,000 and that the said party of the first part hereto might procure an extension of its bonded debt or any part thereof, secured by its trust mortgages, and might execute a new and further mortgage or mortgages for the securing of its bonds and coupons, to be used solely in taking up said original bonds and such mortgage or mortgages; and that the bonds secured by said new mortgage or mortgages should be entitled to and have preference, and that the rights of the said Erie Railway Company under said lease should be subject to the said new bonds and mortgages in respect to the same property and to the same extent that the aforesaid then existing mortgages had priority.

That for the purpose of taking up and retiring its outstanding first and second mortgage bonds and its outstanding consolidated mortgage bonds, and of satisfying the aforesaid mortgages, and of extending the payment of said mortgage debt, and for the purpose of borrowing money for that purpose, the said party of the first part resolved to issue its First Mortgage Renewal Bonds, bearing even date herewith, to the aggregate amount of \$2,380,000, and each for the sum of \$1,000, payable forty years after date, and bearing interest at seven per centum per annum, payable semi-annually on the first days of June and December, and in the form following:

Exhibit Erie 15—(29).

(Then follows form of bond, certificate of Secretary and certificate of registration.)

10 Now therefore this indenture witnesseth that the better to secure the payment of said bonds and the interest to accrue thereon after issue thereof, according to the true intent and meaning thereof, and in consideration of the premises and of the loan of said money and of the sum of one dollar to said party of
the first part in hand paid by said party of the second
part, at and before the receipt, ensealing and delivery
of these presents, the receipt whereof is herby confessed and acknowledged, hath granted, bargained, sold
conveyed, &c., unto the party of the second part, his
successors and assigns, in trust, &c. All the real and
personal property and franchises of every kind and
description now belonging to the said party of the
first part, or that may thereafter be acquired by the
same, and including among other all and singular—
20 (then follows description of property).

Together with all and singular the tenements, hereditaments and appurtenances, &c.

To have and to hold to the said party of the second part, his successors and assigns; in trust for the payment of the said sum of \$2,380,000 of bonds, and the interest thereon, and for the uses and purposes herein expressed, and not otherwise, and upon the following conditions, to wit:

30 Article First: The said party of the first part agrees that the 2,380 bonds secured by this indenture or the proceeds thereof shall be used solely to take up and satisfy and retire the hereinabove mentioned prior bonds heretofore issued.

Article Second. Until default shall be made in the payment of the principal or interest of the bonds, or any of them, or until default shall be made in respect to something herein contained and required to be done or kept by the party of the first part, the said party
40 of the first part shall possess, manage, operate and en-

Exhibit Erie 15—(29).

joy the said railroads with their equipments and appurtenances and all other of the premises and property, etc. herein described.

Article Third. In case default shall be made in the payment of any interest, or any coupons, or default shall be made in the performance of any other thing by these presents required to be done, and such default shall continue for a period of six months after written demand, then the principal sum of all the bonds hereby secured and all interest thereon accrued shall become due and payable. 10

Article Fourth. In case default shall continue as aforesaid, then it shall be lawful for the said Trustee, his agents or attorneys, to enter upon the railroads, premises and property hereby conveyed and to have, hold and use the same and conduct the business thereof, and as soon as possible sell and dispose of said railroads and all other premises and property, &c. (Then follows statement as to how said sale shall be advertised, &c. and how the proceeds shall be applied.) 20

Article Fifth. The party of the first part shall keep at the office of the Erie Railway Company a register to be designated "Registry of First Mortgage Renewal Bondholders."

Article Sixth. The party of the first part, its successors or assigns, will well and truly pay or cause to be paid to the holders of the bonds and coupons the sums of money therein mentioned. 30

Article Seventh. The word "trustee used in these presents shall be construed to mean the trustee for the time being, and to refer to said party of the second part. In case of default and continuance thereof it shall be the duty of the Trustee to exercise the power of entry hereby granted. The Trustee shall be entitled to just compensation.

Article Eighth. The party of the first part covenants that it is lawfully seized in fee simple of the 40

Exhibits Erie 16 and 17.

premises and property hereby conveyed, and that they are free and clear of all encumbrances, except the aforesaid mortgages.

Article Ninth. These presents and the conveyance hereby are made upon the express condition that the party of the first part shall pay, without default, to the holders of the bonds and coupons the principal sums and interest therein mentioned.

(Then follows testimonium clause and acknowledgments.)

Opinion of Supreme Court.

Filed June 23, 1916.

New Jersey Supreme Court.

November Term, 1915.

10

ERIE RAILROAD COMPANY,	}
<i>Prosecutor,</i>	
<i>vs.</i>	
BOARD OF PUBLIC UTILITY COM-	
MISSIONERS AND CITY OF PATER-	}
SON,	
<i>Defendants.</i>	

Argued December 23 and 24, 1915.
Decided June 23, 1916.

20

SYLLABUS.

1. The act of 1913, P. L. 1913, p. 91, known as the Fielder Grade Crossing Act, is not confined in its operation, to a single crossing, but in a proper case may include one or more crossings in the same petition.

2. The Supreme Court, upon *certiorari* under section 38 of the act of 1911, page 374, can review the action of the Board of Public Utility Commissioners, in ordering an alteration of the grade of a highway with a steam railroad, for the purpose of ascertaining whether or not such order is purely arbitrary; whether or not it has a reasonable basis to rest upon; whether or not it is supported to any extent by the facts submitted to the Board for its consideration.

30

3. The evidence in the record is sufficient to support the findings of the Board, that such crossings

40

Opinion of Supreme Court, Erie R. R. Co., Syllabus

are dangerous to public safety or the public travel is impeded, being the jurisdictional facts.

4. Where, upon the review of such an order, can additional testimony be taken under the provisions of the *certiorari* act?

10 5. The word "impede" in this statute means to place obstructions in the way of; obstruct; hinder; as, to impede progress. It is synonymous with check, hinder, delay.

6. The Erie Railroad Company, as the lessees of the Paterson and Hudson River Railroad Co. and the Paterson and Ramapo R. R. Co. is "the company operating such railroad" within the meaning of the statute. The order of the Board of Public Utility Commissioners was properly directed against the prosecutor, the Erie Railroad Company.
20 The dangerous conditions, to the elimination of which the act is directed, are the result of the operation of the railroad by the Erie R. R. Co.

7. The statute provides, the Board of Public Utility Commissioners "may" order the company operating, etc., to alter the crossing. As to the prosecutor, the statute is mandatory. The prosecutor is not concerned with what might happen to some one else. When in a statute the word "may" means must or shall.

30 8. Where the work is in itself a reasonable, proper and fair exaction, when considered with reference to the object to be obtained, the expense is not a reason against its legality, when the order for such work is based upon, and made in an exercise of the police power, which is a part of the reserved power of the state.

9. The Fielder Act (Chap. 57, P. L. 1913, p. 91) authorizes the Public Utility Board, in a proper case, to order a railroad company to alter grade crossings according to plans to be approved by the
40

Opinion of Supreme Court, Erie R. R. Co., Syllabus

board, by substituting therefor crossings not at grade, either by carrying the highway under or over the railroad, or by constructing the railroad under or over the highway, or by vacating, relocating or changing the lines, width, direction or location of the highway and the opening of a new highway in the place of the one vacated, and this includes the power to order such changes in the property and facilities of the railroad company as are fairly incidental to, or rendered necessary by, the alteration of the crossings. 10

10. An order of the Public Utility Board made pursuant to the Fielder Act (Chap. 57, P. L. 1913, p. 91) which is confined in its direction to the railroad company to the alteration of the crossings by changing the highways and by reconstructing the railroad, and by performing such work as is required thereby, does not require the company to make changes in private sidings, and the like, nor its property, and not within the limits of the right of way. 20

11. Where an order of the Public Utility Board for the elimination of grade crossings under the Fielder Act (Chap. 57, P. L. 1913, p. 91) is confined in its direction to the railroad company to the alteration of the crossings by changing the highways and by reconstructing the railroad and by performing such work as is required thereby, a change in the location of a station building not fairly incidental to, nor rendered necessary by, the changing of the highways or the reconstruction of the railroad, is not required by such order. 30

12. An order of the Public Utility Board for the elimination of grade crossings under the Fielder Act (Chap. 57, P. L. 1913, p. 91) which is confined in its direction to the railroad company to the alteration of the crossings by changing the highways and by 40

Opinion of Supreme Court, Erie R. R. Co., Syllabus

reconstructing the railroad and by performing such work as is required thereby, does not require the construction by the railroad company of structures upon its lands for the use of private parties in substitution for structures now occupied by them as lessees, and which will be rendered useless by the elimination work.

10 13. Where the order of the Public Utility Board under the Fielder Act (Chap. 57, P. L. 1913, p. 91) for the elimination of grade crossings directs the street railway company to pay ten per centum of the expense of the changes required by the order directly chargeable to the crossings used by it, that being the maximum amount allowed by the statute, the steam railroad company cannot complain that the street railway company was not ordered to pay more.

20 14. An order made by the Public Utility Board under the Fielder Act (Chap. 57, P. L. 1913, p. 91) requiring the railroad company to make changes in the existing and remaining streets in respect to grade, width and structure, and to make other changes by the abolition of existing crossings and the substitution of other crossings therefor on new highways, is not invalid by reason of such requirements, it appearing that such changes are all fairly incidental to, and were rendered necessary by, the separation of grades, having reference to the interests of the railroad company as well as those of all the people who have occasion to cross the railroad.

30 15. Section 13 of the General Railroad Act as amended by P. L. 1914, p. 490, confers upon a railroad company power to take by condemnation any land or property required for the purpose of complying with an order made by the Public Utility Board under the Fielder Act (Chap. 57, P. L. 1913, p. 91) and the owners of property to be taken have

Opinion of Supreme Court, Erie R. R. Co., Syllabus

no right to be made parties to, or to demand a hearing in, the proceedings under the Fielder Act.

16. The provisions of the Fielder Act (Chap. 57, P. L. 1913, p. 91) are applicable alike to highways existing at the time of the construction of the railroad and to highways subsequently laid out.

17. An order made by the Public Utility Board under the Fielder Act (Chapter 57, P. L. 1913, p. 91) requiring the railroad company to make changes in the highways outside of its right of way at its own expense, is valid in respect to such requirement, it appearing that such changes are fairly incidental to the changes ordered in the crossings at the railroad. 10

18. The Supreme Court, upon review by *certiorari* of an order of the Public Utility Board under the Fielder Act (Chap. 57, P. L. 1913, p. 91) will not disturb the action of the board in adopting plans of its own, rather than those suggested by the railroad company unless such action was unreasonable, or based upon some illegal principle, or lacks evidential support. 20

19. The fact that an order made by the Public Utility Board under the Fielder Act (Chap. 57, P. L. 1913, p. 91) makes no provision for such modification of the details of the plans as may become necessary during the progress of the work, is no reason for setting aside the order. There is a reasonable presumption in favor of the plans adopted and the board may at any time, for good reason, properly modify its order. 30

20. Statutory requirements enacted by the legislature for public safety under the police power of the state are not a taking of private property for public use without just compensation, although conformity to such requirements involves expense.

21. Railroad corporations may in the exercise of the police power by the legislature be required at 40

Opinion of Supreme Court, Erie R. R. Co., Syllabus

their own expense not only to abolish grade crossings that existed when the railroad was constructed, but also to carry their tracks over highways laid out since the construction of the railroad or to carry such highways over their tracks; and the expense of such permanent improvement of the railroad property may be imposed by the legislature upon the railroad corporation operating such railroad without violating any constitutional provision.

22. A statutory requirement for the abolition of grade crossings is neither unconstitutional or unreasonable because it does not affirmatively authorize the railroad company to lessen or eliminate the danger at such crossing by decreasing the number of its train movements.

23. The object of a law must, by force of the constitution, be single and be expressed in its title; but the methods of attaining such object and the matters relating thereto, which may be as various as such object requires, need be expressed in the terms of the enactment only.

24. Any contract that a railroad corporation is empowered by the state to enter into is made subject to the future exercise by the state of its police power, and hence, the obligations of such contracts are not in a constitutional sense impaired by such future legislation.

25. A state statute requiring the elimination of dangerous grade crossings is an exercise of the police power that is within the scope of the local law, and is not an interference with interstate commerce in the present state of federal legislation upon that subject.

26. The supplement to "An Act concerning public utilities," approved March 12, 1913 (Fielder Act) is not an invasion of the exclusive jurisdiction

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

of the Court of Chancery to regulate conflicting public easements.

27. The Fielder Act does not impair the mandamus power of the Supreme Court.

ON CERTIORARI, &c.

10

There are two writs of *certiorari* in this case. The first was allowed on June 16, 1915, for the purpose of reviewing an order of the Board of Public Utility Commissioners, dated April 20, 1915. The second writ was allowed on July 22, 1915, for the purpose of reviewing an order of the said Board dated July 9, 1915, denying the petition for a rehearing of the previous order. The order under review was made, by virtue of the alleged power and authority vested in the said Board by the statute P. L. 1913, p. 91, known as the Fielder Grade Crossing Act, which is a supplement to the act creating a Board of Public Utility Commissioners and prescribing its duties and powers. The record of both writs, with the writs allowed seven other prosecutors, for convenience, have been included in the record of the proceedings under the first writ allowed. The prosecutor, the Erie Railroad Company, is ordered to alter fifteen grade crossings in the City of Paterson, by changing the grade of the streets and reconstructing the steam railroad according to the plan and profile annexed thereto; by substituting therefor, crossings not at the grade of the public highways known as Madison avenue, Straight street, Clay street, Market street, Ellison street, Van Houten street, Broadway, Fair street, Hamilton avenue, Lafayette street, Franklin street, Keen street, Warren street, Putnam street and River street. The order further directs any telegraph, telephone company, etc., whose property or construction it may be

20

30

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

- necessary to change or remove in order to carry said plan and order into effect, to change or remove the same according to said plan. The Erie Railroad Company, the City of Paterson and all other parties are ordered to proceed with due diligence, to the execution of the order and comply with all the requirements thereof. It was ordered that the work shall be begun on or before August 1st, 1916, and be completed within eight years from April 20th, 1915; that it be prosecuted in accordance with a single plan, but in four separate divisions, marked A, B, C, and D. Section A provides for the elimination of the crossings at Market street, Ellison street, Van Houten street, Broadway, Fair street, Hamilton avenue, Lafayette street and Franklin street. Section B provides for the elimination of the crossings at Keen street, Warren street and River street. Section C provides for the elimination of the crossings at Straight street and Clay street. Section D provides for the elimination of the crossings at Madison avenue, according to a plan submitted by the Erie Railroad Company, known as Exhibit R. 105, at an estimated cost of \$192,133.92 less than the plan prepared by the city and which carries Madison avenue over the tracks of the railroad. River street and Madison avenue are at the two extreme points. Measured along the railroad, the distance is about 10,800 feet or substantially two miles. Market street, in Section A, is practically in the center of the City of Paterson, and is the most traveled of all the streets mentioned in the order. From Market street to Madison avenue, at the southerly end of the work, is about six thousand feet, and to River street, at the other or northern end, it is about four thousand eight hundred feet. From Market to Clay and Straight streets in Section C, it is about three thousand feet. From
- 10
20
30
40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

Market street to Ellison street in the same section, it is six hundred feet, to Van Houten street, three hundred and fifty feet further on, to Broadway, three hundred feet more, Fair street, two hundred and fifty feet and Hamilton avenue, two hundred and fifty feet, all in the same section, and from Market street to Keen street in Section B about four thousand feet and to River street about four thousand eight hundred feet, the most northerly end of the work, thus considering all the crossings mentioned in the petition in one comprehensive plan or scheme.

10

The order states the time in which each section is to be completed, commencing with Section A, in which Market street is included. The Public Service Railway Company, operating trolley lines over three of the crossings, viz: Park avenue and Market street, one crossing, Broadway, and River street, is charged with ten per centum of the cost of the alterations, including damages to adjacent property, directly chargeable to the alteration of those crossings used by the trolley company.

20

The statute provides, the Board may order the company operating the railroad to alter the crossing, and the entire expenses of such alterations, including damages to adjacent property, shall be paid by such railroad, unless a street railway uses such crossing, in which event, an amount of such cost, not exceeding ten per centum of such expenses directly chargeable to the crossing used by the street railway company, is to be paid by such company. The estimated cost of the alteration of the crossings is \$2,948,218, for what is called Plan No. 2, the one adopted by the Board. This does not include damage to adjacent property. The amount of such damage due to changing grades of streets, estimated at \$168,500; the

30

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

amount due to revision of buildings and sidings off the railroad right of way, estimated at \$131,922.

The jurisdiction of the Board is derived from the provisions of the statute, which provides that "whenever a public highway and a railroad cross
10 each other at the same level and it shall appear to the Board that such crossing is dangerous to public safety or that public travel on such highway is impeded thereby, the Board of Public Utility Commissioners may order the company operating such railroad" to alter such crossing according to plans to be approved by said Board. The order was based upon proceedings initiated by the Board of Finance of the City of Paterson, being the board directed in the statute, to file a petition in writing for that purpose, in
20 which the facts are stated, upon which the relief under the act is sought. In the petition, it is recited, that the Erie Railroad Company operates said railroad by virtue of a lease from two separate railroad companies, viz: The Paterson and Hudson River Railroad Company and The Paterson and Ramapo Railroad Company. Certain facts relating to each of the fifteen crossings are alleged, and prays, that the said railroad should be elevated to pass over said highways. A time and place were fixed for hearings,
30 notice of which was given to the corporations therein named. Answers were filed. Testimony was taken before the Board commencing on the seventeenth day of October, 1912, and lasting until February 5th, 1915, eighteen hearings in all.

From the testimony it appeared, that some of the streets mentioned in the petition were laid out after the railroad was built. The charters of the lessor companies, P. L. 1831, p. 24, sec. 9; P. L. 1841, p. 97, sec. 11, provide and impose a duty upon the said rail-
40 roads to construct and keep in repair good and suffi-

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

cient bridges or passages over and under said railroads or roads, where every public or other road shall cross the same, so that the passage of carriages, horses and cattle on said road shall not be "prevented" thereby.

The findings of the Board were made in a report dated January 11, 1915, which recites the facts on which the order was made, dated April 20, 1915. The Board found and determined the crossing of each of the streets involved in the proceeding to be dangerous to public safety and that public travel on such highways is impeded thereby. The Board also found that the consideration of the entire subject is simplified by the acquiescence of all parties to the proceeding, and that all the crossings mentioned in the petition must be considered in any plan of elimination. It was not questioned but that a general plan for the separation of grades at the crossings was practicable. There was a difference of opinion between the engineers, as to details but the chief objection raised was to the expense. 10 20

Then on February 5, 1915, a petition for a further hearing was filed by the Erie Railroad Company, and on April 20, 1915, the same date as the order, a report by the Board was made denying a further hearing, in which it is stated, as to the reduction of train movements, that the company was afforded every opportunity to furnish such proof, if it had any, and did not avail itself of such opportunity; in addition, the offer on this score was so indefinite, that it did not appear reasonable to delay the proceedings for that purpose. Then writs of *certiorari* were obtained by the Erie Railroad Company, Public Service Railway Company, Passaic Water Company, Western Union Telegraph Company, D. Fullerton & 30 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

Co., Meyer & De Vogel, Fuller's Express Company, and Morris & Company.

- On June 15, 1915, a petition for a rehearing was filed by the Erie Railroad Company, and testimony thereunder was taken June 28, 1915, by the Board.
- 10 On July 9, 1915, a report was made by the Board, denying the application for a rehearing. On July 22, 1915, a *certiorari* was obtained by the Erie Railroad Company to review this report, determination, or order, and on the 27th of September, 1915, an order was obtained from a Justice of the Supreme Court, granting leave to take affidavits on two days' notice. Such affidavits or depositions were taken on the part of the Erie Railroad Company, before a Supreme Court Examiner on September 30, 1915. Many reasons have been filed by each of the prosecutors, why
- 20 the order of April 20, 1915, should not be set aside. The reasons of all the prosecutors are substantially included within the seventy-eight reasons filed by the Erie Railroad Company and their amendments, except when the facts specially apply to a particular prosecutor. Under the *certiorari* obtained by the Erie Railroad Company to review the order denying a rehearing, the Erie Railroad Company has filed six separate reasons, why that order should be set aside.
- 30 Under Section 38 of the Public Utility Act of 1911, page 374, the Supreme Court is given jurisdiction by petition to review the order of the Board and to set aside such order when it clearly appears that there was no evidence before the Board to support reasonably such order, or that the same was without the jurisdiction of the Board, or the order of the Board may be reviewed by *certiorari* in appropriate cases.

All the points made by the counsel for the prosecutor are covered in the opinion of the Court. To facilitate reference thereto, the numbering employed

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

by the counsel for the prosecutor, the Erie Railroad Company, will be adopted in the opinion and adhered to throughout.

The writs of *certiorari* other than those prosecuted by the Erie Railroad Company will be disposed of in separate memoranda or opinions.

10

Before Justices Garrison, Trenchard and Black.

Gilbert Collins, Esq., George S. Hobart, Esq., Duane E. Minard, Esq., and Herbert A. Taylor, Esq. (of the New York Bar), for the Prosecutor.

Frank H. Sommer, Esq., for Board of Public Utility Commissioners.

Edward F. Merrey, Esq., for City of Paterson and Board of Finance of said city.

The opinion of the Court was delivered as follows:

I. The first ground of attack made by the prosecutor, the Erie Railroad Company, is on the construction of the statute. It is contended, that the words, "such crossing," "a crossing," "the crossing," in the statute, indicate, that it was the intention of the legislature to have only one crossing considered in any one proceeding. The petition of the City of Paterson prays for, and the order of the Board of Public Utility Commissioners provides for, the separation or alteration of fifteen separate crossings. The Board in its report determined, that, at each of the crossings involved, a condition exists, such as was designed to be remedied by the statute. The question then arises, as to whether it is practicable and feasible to alter such crossings.

20

30

The Board further found, that the entire subject is simplified by the acquiescence of all parties, to the proceedings, that all of the crossings mentioned in the petition must be considered in any plan of elimination. There was no intimation from anyone, that a change of a particular crossing only, should be con-

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

sidered. It was not questioned, but that, a general plan for the alteration of grades at the crossings was practicable. The question then is: what was the legislative intent? The Board having found the jurisdictional facts, which will be considered hereafter, does the statute limit the Board, to the alteration of a single crossing in a separate proceeding, or can two or more crossings, or a group of crossings, that are dangerous to public safety, or that impede public travel on such highways, and which are connected or related to one another, so that an alteration in the one necessarily makes an alteration in the other, be considered by the Board under the statute, in a single proceeding, and a single plan be made for their alteration? It may be observed, in the first place, the statute does not expressly or inferentially prohibit such a proceeding, and second, if a restricted construction be placed upon the statute, the effect will be, as shown by this record, to leave those crossings in the cities of the state where the greatest use is made of the highways, at the railroad crossings, and presumptively, where the greatest danger is, intact and not subject to alteration. No substantial reason is stated for limiting the construction of the statute, to a single crossing, in a separate proceeding, excluding a group of crossings, where the record shows, that much of the testimony applicable to one, is applicable to all. The plan of alteration applicable to one as a practical and engineering problem, is so intimately connected with all, that it involves all the crossings, except, perhaps, Madison avenue in Section D, which will be considered hereafter. The record discloses no valid reason for so construing and limiting the operation of the statute. True, we are not concerned with the reasonableness or unreasonableness of the statute. Our duty is to find the inten-

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

tion expressed by the legislature and to give it effect. If a separate plan of alteration on each crossing and a separate proceeding is requisite, it would make it wholly impossible to alter any of the crossings, from a practical point of view, since, the alteration of the several crossings must, as is conceded, proceed under a general plan. Such a purpose should not be attributable to the legislature, when the statute will reasonably admit of a different construction. In determining the meaning of a statute, the courts will keep in mind the circumstances surrounding its enactment and the objects, sought to be obtained by the statute. *Alton &c. R. R. Co. vs. Vandalia & C. R. R. Co.*, 268 Ill., 75; *Warner vs. King*, 267 *ib.*, 85. This being a remedial statute, it should receive a liberal, rather than a narrow construction. As was said, by Mr. Justice Dixon, speaking for the Court of Errors and Appeals, in reference to the first grade crossing statute, passed by the legislature, P. L. 1874, p. 45; "The avowed object of these statutes is highly beneficent, and therefore, its provisions tending towards the accomplishment of that object should be liberally construed." *Read vs. City of Camden*, 54 N. J. L., 373. Subsequently this language was cited with approval, by that Court, in the case of *Morris Dredging Co. vs. Jersey City*, 64 N. J. L., 590.

The prosecutor does not point out, or even attempt to show, how or in what way, fifteen separate petitions, with fifteen separate hearings, would be more advantageous to it, but on the contrary, rather acquiesces in the idea, that all the crossings mentioned in the petition must be considered in one plan of alteration, if alteration is to be made at all, and that, a general plan of the alteration of the grade at the several crossings is practical, as an engineering proposition.

10

20

30

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

Mr. Brameld, the engineer of the prosecutor, the Erie Railroad Company, at page 509 of the record, testified, "there are various changes which I think will have to be made." At page 526, "Of course, I haven't worked up the detailed solution of every one of them, but from my general knowledge of the situation, I think they could be taken care of"; *i. e.*, the details. The testimony further shows, that Section D provides for the elimination of the crossing at Madison avenue, according to a plan submitted by the prosecutor, the Erie Railroad Company, known as Exhibit R-105, which is an estimated cost of \$192,133.92 less than the plan prepared by the etiy, and which carries Madison avenue over the tracks of the railroad, instead of under the tracks. We think the construction of the statute cannot be limited to a single crossing in a separate proceeding, but in a proper case, where the jurisdictional facts appear, several crossings may be considered in one proceeding, when so related to one another, that the consideration of the one, necessarily involves the consideration of the other, as a practical engineering problem.

The next ground of attack is that the evidence taken before the Board of Public Utility Commissioners does not justify, nor reasonably support the Board's conclusions or findings. To that end, the insistence is, that this Court has power and should review the Board's findings of fact. We understand such to be the power of this Court. The rule on this point is stated thus, by Chief Justice Gummere, speaking for the Court of Errors and Appeals, in the case of *West Jersey &c. R. R. Co. vs. Board of Public Utility Commissioners*, 88 N. J. L., 94 Atl., 60, "That Court (*i. e.*, the Supreme Court) can, upon *certiorari*, or under the statutory procedure provided by section 38 of the act 1911, p. 374, review such ac-

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

tion for the purpose of ascertaining whether or not it is purely arbitrary, whether or not it has a reasonable basis to rest upon, whether or not, it is supported to any extent by the facts submitted to the Board for its consideration; and, if it shall be made to appear to the Court that such action is purely arbitrary, or that it has no reasonable basis upon which to rest; or is unsupported by the facts laid before the Board, the Court may declare it null and void, and order it to be set aside. So, too, if the Board refuses to consider the matter at all, the Court by mandamus can compel it to do so." *Public Service Gas Co. vs. Board of Public Utility Commissioners*, 84 N. J. L., 463, N. J. L., 96 Atl., 127; *Erie R. R. Co vs. Board of Public Utility*, 83 N. J. L., 95 Atl., 177. 10

Our reading of the record shows that a mass of testimony was presented to the Board, particularly with reference to the various elements of danger and the impediments to travel, at all of the level crossings of the highways, such as a list of accidents, at some of the crossings; obstructions to the view of persons traveling along the highways in both directions; a series of photographs, made and produced by the railroad company, showing the obstructions to the view at each crossing; delays to travel in general; the fact that at the crossings where there are trolley tracks, every street car is stopped, near the railroad crossing, until the conductor goes over it on foot, and releases a derail switch; schedules made at different times, as to the number of persons, vehicles drawn by horses, automobiles, bicycles and trolley cars passing over such crossings, in a given period; testimony, that the crossings were protected by gates and automatic bells; the number of trains and drill locomotives passing over the crossings within a given time; operation of gates, etc., from which the Board 20 30 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

found the facts in its report, that each of the crossings was dangerous to public safety, and we think after reading the evidence, the conclusion of the Board is supported by the facts that were before it. The question is one of fact, to be determined according to the circumstances of each case. *Mayor, &c. of Newark vs. Erie Railroad Co.*, 75 N. J. Eq., 29. This applies to both conditions called for in the statute, viz: that such crossings are dangerous to public safety, or the public travel on such highways is impeded. This, at the same time disposes of the prosecutor's contention that the evidence, as to one crossing cannot be extended to include other crossings, or that non-dangerous crossings cannot be ordered to be eliminated at the expense of the prosecutor, the Erie Railroad Company. This also was considered under Point I.

In this connection, may be considered point 22 of the brief of the prosecutor, the Erie Railroad Company. It is there urged, that the prosecutor had the right to take additional testimony under the provisions of the *certiorari* act. Such testimony was taken before a Supreme Court examiner and returned with the record, but as the prosecutor says, to use the words of the brief, the point is perhaps of comparatively small importance in the present case, for the reason, that the affidavits and exhibits served but to explain the evidence and exhibits that were already in evidence. This renders it unnecessary to further consider this point. See *Dubelheiss vs. Town of West Hoboken*, 82 N. J. L., 683.

But it is further urged that the word "impede" has a well recognized meaning, having been used in many of the earlier charters of the railroad companies. The argument is that the obvious purpose of those statutes was to make the surface of the railroad ties and

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

rails conform to the surface of the highway, at a railroad crossing; that the rails and ties, as they passed the highway would impede travel, and if the railroad happened to be constructed in a cut or on an embankment, the impediment to travel would thereby be increased; that the word "impede" refers to permanent physical obstructions, due to the grade and construction of the railroad tracks, citing North Mannheim Twp., 14 Atl., 137, Sp. Court, Pa.; and that the highway crossings are to be so constructed and maintained, as not to unreasonably obstruct the use of the crossings by highway travelers. This is too narrow. The dictionary definition of the word "impede" is to place obstructions in the way of; obstruct, hinder, as to impede progress. It is synonymous with check, hinder, delay.

10

The evidence in the record shows, the public travel is impeded, in this sense, at each of these crossings, and the Board so found. The word "prevent" is used in the early charters of the lessors of the prosecutor in place of the word "impede."

20

It is quite evident, the rule, as to negligence and contributory negligence at grade crossings, as laid down by the courts, cannot be used as a guide in construing this statute, because in these cases, the statute requires the railroad company, only to ring a bell or blow a whistle, under normal conditions, on the approach of a train to a grade crossing, at a distance of nine hundred feet. Then, too, there is a well recognized distinction, between actions, where the interest of the general public at crossings is involved and those which assert the rights of individuals who are injured. *Palmgra vs. Pennsylvania Railroad Co.*, 62 N. J. Eq., 614.

30

II. The next ground of attack is that the order, under the statute, should have been directed to the

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

two original chartered railroad companies, construing the words of the statute, "the company operating such railroad" to mean, the company which is charged with the legal duty of operating, or at least, that the order should have been directed to the
 10 prosecutor and the said two companies jointly, so that, the expenses of altering the grades might be apportioned, among all the companies, in accordance with their several interests. The original companies are the Paterson and Hudson River R. R. Co., organized under P. L. 1831, p. 24, and the Paterson and Ramapo R. R. Co., organized under P. L. 1841, p. 97. They were leased, by two separate leases, each dated September 9th, 1852, to a company known as the
 20 "Union Railroad Company." These leases were declared legal and valid by the legislature, March 14, 1853; P. L. 1853, p. 480. This validating act speaks of the corporation or individuals *using* the aforesaid roads. By various assignments, fore-closure, proceedings and sales, the Erie Railroad Company, the present prosecutor, on November 14th, 1895, acquired title to all the property and rights of the two lessor companies. As stated above, the statute provides (section 1 of the act, P. L. 1913, p. 91), that,
 30 "the company operating such railroad" and the expense (section 2), "shall be paid by such railroad," "the balance to be paid by the company operating such railroad."

On behalf of the two original companies, it is insisted that they do not directly or indirectly institute, direct or control any of the operations upon these respective roads, nor is the duty of operating such roads charged upon them by law. The lease of the Paterson and Hudson River Railroad Company provides, "and that at the termination of the leases or
 40 either of them, any erections or improvements on the

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

said above mentioned and demised property that may have been made by the parties of the second part, or their assigns, at their own expense, shall be paid for by the parties of the first part, at their appraised and just value." The lease of the Paterson and Ramapo Railroad Company has a like provision, but in different language. Both leases provide, that the erections and improvements shall be valued by arbitrators, and the party of the first part shall pay and discharge the amount so valued to the parties of the second part or their assigns. Both leases, however, provide that "the parties of the second part do hereby covenant and agree with the parties of the first part, that the said parties of the second part, and their assigns, will keep and maintain and run said railroad and other premises hereby demised, in such manner, order and condition, as the said parties of the first part are bound to keep, and maintain and run the same by the charter of the said parties of the first part, and the statutes supplementary thereto, and that they will indemnify and save harmless the said parties of the first part from all damages to which they may be subject by reason of said road and premises not being so kept, maintained and run." The prosecutor in paragraph three of its answer admits, that it operates a railroad running through the City of Paterson.

The legislature's intention on this point is not obscure. Apt and precise words are used to express that intention, and taken in connection with the provisions of the leases and the validating act of the legislature above referred to, the intention of the legislature cannot be misunderstood.

There is no reason, why the courts should not give to the words used by the legislature, their plain, natural meaning, viz., that power or instrument,

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

which puts in action and supervises the workings of the plant, the Erie Railroad Company, as being "the company operating such railroad." The dangerous conditions, to the elimination of which the act is directed, are result of the operation of the railroad,
 10 by the Erie Railroad Company, against whom the order is directed in accordance with the plain terms of the statute.

III. The next ground of attack is based upon that clause of the statute, which provides that the Board *may* order the company operating such railroad to alter the crossing. The insistence is, if the statute is construed to confer on the Board, arbitrary power to order or refuse to order the alteration of the grade crossings, in its discretion, the statute is invalid. It
 20 is conceded that the Board could constitutionally be delegated power, to determine whether or not certain facts exist, but when such facts have been found, it is urged the statute then leaves it to the Board, to decide arbitrarily, whether it will or will not make an order for the alteration of the crossings.

The obvious answer to this point of the prosecutor is the fact, that the prosecutor was required by the order to make the alterations and changes in the grades, so as to it, the statute is mandatory, and if
 30 the facts before the Board justify the order, it is not arbitrary. The prosecutor is not concerned with what might be ordered to be done by some one else, by the Board of Public Utility Commissioners.

There is a line of authorities, however, which hold that "*may*" in a statute means must or shall. Thus, in England, in the case of *King vs. Harlow*, 2 Salk., 609, it was said that the word "*may*" in a statute shall be taken to be mandatory, where the thing to be done, is for the sake of justice, or the public good.
 40 So, Chancellor Kent, in the case of *Newburgh Turn-*

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

pike Company vs. Miller, 5 Johns Ch., 113, said, in respect to statutes, the rule of construction seems to be, that the word "may" means must or shall, only in cases where the public interests and rights are concerned, and where the public or third persons have a claim, *de jure*, that the power shall be exercised. These cases were cited with approval by our courts, in the cases of *Davidson vs. Davidson*, 17 N. J. L., 171; *Seiple vs. Borough of Elizabeth*, 27 *ib.*, 410; *Atlantic City Water Works Co. vs. Road*, 50 *ib.*, 672. So, there is a line of authorities which hold, that the agencies of government do not act automatically. It is necessary, to vest in its officers certain general powers, with a discretion in the governmental agents, as to their exercises. It would be as impractical as it is undesirable, to attempt to formulate in advance, a set of hard and fast rules, by which every conceivable public act should be governed. In order to accomplish the ends of local government, it has been found expedient to create various boards and commissions, which are charged with the duty of supervising, directing, and controlling particular subjects. It has been held, that the granting of such power by the legislature was not a grant of either legislative or judicial power. *People vs. Roth*, 249 Ill., 532. For other illustrative cases see, *in re Connecticut Co.*, 94 Atl., 992 (Conn.). *In Matter of New York Elevated R. R. Co.*, 70 N. Y., 327; *Trustees of Saratoga Springs vs. Saratoga Gas &c. Co.*, 191 *ib.*, 123; *Alton & C. R. R. Co. vs. Vandalia &c. R. R. Co.*, 268 Ill., 68

It is further urged that if the Court should hold the statute valid, still the order in the present case should be set aside for the reason that it is insisted the evidence shows without dispute, that the prosecutor has not, and in all reasonable probability will not have sufficient funds for the purpose of meeting the

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

cost of complying with the order. The determination of this question is one of fact, in the first instance, devolving upon the Board of Public Utility Commissioners. The Board had before it the financial history of the Erie Railroad Company, its indebtedness, its
 10 income and many other details bearing upon the finances of the company, and from this evidence, the Board found adversely to the prosecutor, the Erie Railroad Company. After a careful reading of the voluminous testimony on this point, we are unable to say that the Board's determination is without sufficient facts to support its conclusion. The prosecutor has eight years in which to comply with the order of the Board and do the work. Where the work is in
 20 itself a reasonable, proper and fair exaction when considered with reference to the object to be attained, the expense is not a reason against its legality. *Health Department of the City of New York vs. Rector, etc. of Trinity Church*, 145 N. Y., 32; 27 L. R. A., 710. *Woodruff vs. New York &c. R. R. Co.*, 59 Conn., 63, the order being based upon and made in an exercise of the police power, which is a part of the reserve power of the state.

Point VIII is that the order of the Board is invalid in so far as it requires the prosecutor to make
 30 changes in switches, side-tracks, leads, bridges, yards, structures and other facilities and property of the prosecutor and of other companies, co-partnerships or individuals.

We think in this respect the order properly interpreted is justified by the statute properly construed.

The statute authorizes the Board, in a proper case, to order the railroad to alter grade crossings according to plans to be approved by the Board, by substituting therefor crossings not at grade, either by carrying the highway under or over the railroad, or by
 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

reconstructing the railroad under or over the highway or by vacating, relocating or changing the lines, width, direction or location of the highway and the opening of a new highway in the place of the one vacated, and this includes the power to order such changes in the property and facilities of the railroad company as are fairly incidental to, or rendered necessary by, the alteration of the crossings. 10

Now the order of the Board directs the railroad company "to alter such crossings, and each of them, according to the plan therefor annexed to and made part hereof * * * and profile of same, also annexed to and made part hereof * * * and profile of same, also annexed to and made part hereof * * * which said plan and profile are hereby approved; by substituting therefor crossings not at the grade of the public highways known as Madison avenue, Straight street, Clay street, Market street and Park avenue, Ellison street, Van Houten street, Broadway, Fair street, Hamilton avenue, Lafayette street, Keen street, Warren street, Putnam and River streets; by changing the lines, width and direction thereof and carrying so much thereof as so changed under the said railroad, except in the case of Madison avenue which is carried over the railroad, according to and as shown on said plan and profile for said purpose, and by vacating the remaining parts of said highways within the lines of the right of way of said railroad company, and further by vacating that part of Madison avenue lying west of the railroad which is included between the right of way line of the railroad and the line of the relocated Madison avenue; by substituting for, the existing crossings at Cedar street a crossing under the railroad at Taylor street and for the existing crossing at Franklin street a crossing under the railroad at Montgomery street and also by 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

widening and altering the existing highways known as Essex street, Governor street and Fulton street, adjusting the structures spanning them to the proposed grade or grades (which said new highways shall be located, and of the width, length and direction and carried over or under the said railroad where so indicated); by reconstructing said railroad and highways and by performing all other work required according to and as shown on the said plan and profile."

It therefore appears, we think, that the order is confined in its direction to the company to the alteration of the crossings in question by changing the highways and by reconstructing the railroad and by performing such work as is required thereby. It does not require the railroad company to make changes in private sidings, and the like, not its property, and not within the limits of its right of way. The closing words of the order "and by performing all other work required according to and as shown on said plan and profile" do not affect this conclusion as to the scope of the order. These general words follow specific provisions of the order and under an elementary rule of construction are limited thereby. Further they refer back to the introductory general mandate of the order requiring the company to "alter said crossings and each of them" and are limited thereby.

Neither does the order require the owners of such private sidings to reconstruct them. The plan which accompanies the order simply suggests to such owners a method by which their property may be conformed to the new conditions so as to admit of a continuance of the siding facilities theretofore enjoyed. The order only requires others than the railroad company to make such changes in, and removals of,

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

their property and constructions as are necessary to carry the order and plan into effect. In this it accords with Section 4 of the statute. Since the mandate of the order to the railroad company is limited to requiring the changing of highways and the reconstruction of the railroad, the changes in, or removal of, such private sidings cannot be said to be necessary to carry the order to the railroad into effect. Of course the plan does indicate a way in which, in part, existing siding facilities may be continued after the ordered changes in the highways, and the ordered reconstruction of the railroad are made. It is appropriate that it should do so, for in the adoption of a plan, the effect thereof on existing industrial facilities should be taken into account, and this factor should also be taken into consideration in determining whether the plan adopted is reasonable or unreasonable. 10 20

As we have pointed out, in so far as the order directs the prosecutor to make changes in its own side-tracks, and the like, it was within the power conferred by the statute if such changes were fairly incidental to the changes of grade of the main line tracks. We think that such ordered changes were of that character.

Point IX is that the order is invalid in so far as it requires changes in the construction and location of the station building at Market street, and the station building at River street. 30

We think this point is not well founded in fact.

The order (leaving out of account the plan and profile) does not require any change in the construction or location of these station buildings. It does not deal with them. The plan and profile do display reconstructed stations at new nearby locations. If these changes are fairly incidental to the changing of 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

the highways or the reconstruction of the railroad, they are deemed to be a part of the order and must be made. That some reconstruction of both stations is rendered necessary by the reconstruction of the railroad, and will have to be made some time, either
10 according to the judgment of the railroad managers or as may be lawfully directed by the Public Utility Board, is not questioned. But it is contended that the change in the location of the stations was not fairly incidental to the changing of the highways or the reconstruction of the railroad. If so, the reconstruction of the stations at new locations is not required by the present order. Upon full consideration we think that is so. We do not find that the change in the location of the stations was incidental to, or
20 rendered necessary by, the elimination of the grade crossings. Accordingly we hold that the order under review does not require the railroad company to reconstruct these station buildings at the new locations as indicated and suggested upon the plan. No doubt Section 17 (b) of the Public Utility Act (P. L. 1911, p. 379) conferring upon the Board power "after hearing upon notice" to require a public utility "to furnish safe, adequate and proper service and to keep
30 and maintain its property and equipments in such condition as to enable it to do so," is ample to authorize the Board, in a proper case, to order the relocation of a railroad station. But this was not a proceeding under that section. Aside from the fact that such relocation was not ordered, it will be noticed that such changes were not asked for in the petition. There was no hearing and no evidence upon the question whether the existing stations at these points were safe, adequate and proper, nor was any notice given to the prosecutor that such question was to
40 be passed upon by the Board in this proceeding,

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

other than such as might be inferred from the "suggestion" of the city engineer that such changes might be desirable if the tracks were elevated.

Point X is that the order is invalid in so far as it requires the prosecutor to construct structures upon its lands for the use of Fuller's Express Company and Morris & Co., in substitution for the structures now occupied by them as lessees and which will be rendered useless by the elimination work. 10

It is true that the plan adopted by the Board has indicated upon it suggested possible locations upon the lands of the railroad company of substituted structures for these private companies, but it does not require the railroad company to provide such locations or to erect such structures since neither the existing structures nor the suggested structures constitute any part of the railroad. This matter is sufficiently discussed under Point VIII. 20

Point XI is that the statute and order, in so far as they permit or require the prosecutor to make certain changes in the properties of the Public Service Railway Company, and in so far as they limit the proportion of the expense of the alterations in certain of the grade crossings to be paid by the street railway using the same, are unconstitutional and invalid. 30

The alleged unconstitutionality of the imposition by Section 2 of the statute of not exceeding ten per centum of the cost directly chargeable to the elimination of the grade crossings used by the street railway upon that company, is dealt with elsewhere in this opinion.

The contention that the order is invalid in that it requires the prosecutor to do the physical work of removing and changing the property of the Public Service Railway Company is not well founded in 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

fact. The order does not require the prosecutor to do that. It requires the Public Service Railway Company to change and remove such of its property and construction as is necessary to carry into effect the order, and further directs that both the prosecutor and the Public Service Railway Company keep specific and complete records of the expenses directly chargeable to the crossings and each of them, so used by such street railway company.

The order directs the Public Service Railway Company to pay ten per centum of the expenses of the changes required by the order directly chargeable to the crossings used by it. This was the maximum amount allowed by the statute and, of course, the prosecutor cannot complain that it was so limited.

Point XII is that the statute and order are unconstitutional and invalid in so far as they permit or require the prosecutor to make changes in the existing streets with respect to grade, width and structure, and to make other changes by the abolition of existing crossings and the substitution of other crossings therefor on new highways.

We have elsewhere herein indicated that the statute in this respect violates no constitutional provision. We also think that the order in this respect is within the powers conferred by the statute. The changes required in respect to the grade and width and structures in existing highways which remain, and those requiring the abolition of existing crossings and the substitution of other crossings therefor on new highways, are all fairly incidental to, and were rendered necessary by the separation of grades, having reference to the interests of the railroad company as well as those of all the people who have occasion to cross the railroads. Being so regarded it is valid. *In re Selectmen of Norwood*, 161 Mass., 259;

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

37 N. E., 199; *Davis vs. County Commissioners of Hampshire Co.*, 153 Mass., 218; 26 N. E., 848.

In so far as the execution of such order may require the exercise of the power of eminent domain, it will be seen that Section 13 of the general railroad act as now amended (P. L. 1914, p. 490) confers upon the railroad company power to take by condemnation any land and property required for the purpose of complying with any order made by the Board of Public Utility Commissioners. It will also be noticed that the owners of property to be taken have no right to be made parties to, or to demand a hearing in this proceeding. *In re Directors of Old Colony Railroad Co.*, 163 Mass., 356; 40 N. E., 198. It is also to be noticed in this connection that, under the charter of the City of Paterson, the city has ample power to lay out, open, change, alter or vacate the streets involved, and to take such lands and real estate as may be necessary therefor. P. L. 1871, p. 846, Sec. 92; P. L. 1907, p. 114; P. L. 1910, p. 524; P. L. 1911, p. 179. Under this latter act the Board of Public Works of Paterson has power to vacate streets. *Sherwood vs. City of Paterson*, 94 Atl., 311. The order directs the railroad company, the City of Paterson and all other parties to proceed with due diligence to the execution of the order and to comply with all the requirements thereof. Of course, in carrying out its part of the order, the City of Paterson must act in conformity with its charter and the laws amending the same. *Clark vs. City of Elizabeth*, 61 N. J., 565.

Point XIII is that the order in so far as it requires the prosecutor to reconstruct the railroad is invalid because not made in accordance with the statute; and that the statute is unconstitutional because it does not permit the Public Utility Board to order the

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

elimination of the grade crossings by depressing the highway in part or by elevating the railroad in part.

We think there is no merit in this contention for reasons elsewhere stated in this opinion.

- 10 Point XIV is that the order is invalid and the statute is unconstitutional in so far as they require the elimination of grade crossings of highways laid out after the railroad tracks were constructed.

- There is no merit in this point. We have elsewhere sufficiently indicated that we think that such a requirement in a statute would not render it unconstitutional. Undoubtedly the statute in question applies alike to highways existing at the time of the construction of the railroad and to highways subsequently laid out. The order in the respect mentioned
20 is therefore within the powers conferred by the statute.

Worcester, N. & R. R. Co. vs. City of Nashua,
63 N. H. 593; 4 Atl., 298.

New York & N. E. R. Co. vs. City of Waterbury, 60 Conn., 1; 22 Atl., 439.

Northern Pacific Railway Co. vs. State of Minnesota, Ex. Rel. Duluth, 208 U. S., 583.

- Point XV is that the statute and order are unconstitutional and illegal in so far as they require the
30 prosecutor to reconstruct highways outside of the right of way of the prosecutor at the crossings.

With respect to the suggestion that the statute is unconstitutional for such reason we have nothing to add to what we have elsewhere said.

- With respect to the contention that the order is illegal in that it requires the railroad company to make changes in the highways outside of its right of way at its own expense, we say that it appears that
40 such changes are fairly incidental to the changes in

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

the crossings of the railroad and are therefore proper.

In re Selec'men of Norwood, 161 Mass., 259;
37 N. E. 199.

Davis vs. County Commissioners of Hampshire Co., 153 Mass., 218; 26 N. E., 848.

10

Point XVII is that the order is unreasonable in that it requires the prosecutor to alter the crossings according to a plan which is more expensive to the prosecutor than is necessary for the purpose of removing the danger to public safety or the impediment to public travel.

The real complaint under this point is that the Board refused to adopt certain modifications suggested by the prosecutor respecting the plans for the elimination of crossings at Keen, Warren and River streets, and for the consolidation of the crossings at Straight and Clay streets.

20

But we think that the propriety of the plan adopted by the Board is amply supported by evidence. This Court will not disturb such a finding unless it be unreasonable, or based upon some illegal principle, or lacks evidential support. *Public Service Ry. Co. vs. Public Utility Board*, 87 N. J. L., 250.

Point XVIII is that the order is unreasonable in that (a) it arbitrarily limits the dates of the beginning and completion of the work, (b) it arbitrarily requires the work to be done in designated divisions and in the sequence of such divisions, and (c) it makes no provision for such changes or modification of details of the plan as may become necessary during the progress of the work.

30

With respect to the first two propositions we are clearly of the opinion that the times fixed, and the division of the work, are entirely reasonable and proper.

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

Passing now to the other complaint. The fact that the order makes no provision for such modifications of the details of the plans as may become necessary during the progress of the work is no reason for setting it aside. There is a reasonable presumption in
 10 favor of the plan adopted by the Board. *In re Selections of Westborough*, 162 Mass., 495; 48 N. E., 763. If in the course of executing the order unforeseen contingencies arise, or details are found to require change or things required become unnecessary by reason of changed conditions or for any other cause, the order made and plan adopted by the Board may be modified on application. Section 31 of the Public Utility Act provides that the Board may at any time modify an order made by it. P. L. 1911, p. 386.

20 The constitutional objections argued by counsel for the prosecutor will be considered in the order in which the points are presented in his brief.

Point IV. That the statute is unconstitutional because it takes the property of the prosecutor as the lessee and operator of the railroads owned by the Paterson & Hudson Railroad Company and the Paterson & Ramapo Railroad Company for the private use and benefit of the said two companies, the res-
 30 pective owners of said railroads.

The argument is that in as much as the order for grade crossing elimination calls for the permanent improvement at the expense of the operating lessee of the property owned by the lessors, the money of the lessee so expended is taken for the private use of the owners of the property so improved. Is this so in point of fact? The lease of the Paterson and Hudson River Railroad Company to the Union Railroad Company made on September 9, 1852, and assigned to the New York and Erie Railroad Company
 40 contains the following provision: "And it is in like

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

manner further agreed by and between the parties to these presents that if any erections or improvements shall, during the said term hereby demised, or any future term or terms hereafter demised, be made on said demised premises or appurtenant thereto, the same shall, at the termination of said term or terms, and the cessation of the interest of the parties of the second part of, in and to the same, by the expiration thereof, or other termination thereof, be valued by arbitrators to be appointed in like manner as last above provided, and the award of a majority of such arbitrators shall be conclusive as to the value of the said erection and improvements; and the parties of the first part shall pay and discharge the amount so valued to the parties of the second part or their assigns."

The lease from the Paterson and Ramapo Railroad Company to the Union Railroad Company and assigned to the New York and Erie Railroad Company contains a precisely similar covenant.

Such permanent erections or improvements and the monies thereon expended are not therefore taken for the private use of the lessors in the sense contemplated by the constitution; upon the contrary, such improvements are to be used and enjoyed by the lessee during its term, and if taken at all by the lessor are to be paid for at their value, which may be greatly in excess of their cost. Such a prearranged purchase is not the taking of property *in incitum* that is reprobated by the constitutional provision on which the argument is based.

These same considerations apply also to the second contention made under this point in the brief, viz: that compliance with the order constitutes a confiscation of the property of the prosecutor, because of the cost of such compliance.

10

20

30

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

The broader ground, however, by which both of these contentions are met is that the provisions in question of the Fielder Act constitute a regulation adopted by the legislature for public safety under the police power of the state and hence are not a taking
 10 of private property without just compensation, although conformity to such regulation involves expense. This is the language of our court of last resort delivered by Mr. Justice Depue in the case of *Morris and Essex Railroad Company vs. The City of Orange* (63 N. J. L., p. 252). This definitive statement and concrete application of the police power is sufficient authority for this Court in the present case, unless it be necessary that whenever the police power is mentioned an essay on the subject shall be delivered, on the contrary, it would seem that the
 20 proper way for a lower court to deal with an established rule of law was to treat it as established.

In as much, however, as a federal question is involved it may be well to quote from one of the most recent decisions of the Supreme Federal Court. In the case of *Chicago, Milwaukee & St. Paul R. Co. vs. Minneapolis* (232 U. S., p. 430) Mr. Justice Hughes delivering the opinion of the court, said:

“It is well settled that railroad corporations may
 30 be required, at their own expense, not only to abolish existing grade crossings, but also to build and maintain suitable bridges or viaducts to carry highways newly laid out over their tracks, or to carry their tracks, over such highways,” citing a large number of cases in the State and Federal Courts.

Other specific illustrations of the application of this established rule to the elimination of grade crossings are *Davis vs. County Commissioners*, 153 Mass., p. 218; *N. Y. & N. E. R. R. Co. vs. Bristol*, 151
 40 U. S., p. 556, *In re Selectmen of Norwood*, 161 Mass.,

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

p. 259. *Illinois Central R. R. Co. vs. Copiah County*, 81 Miss., p. 685; *City of Harriman vs. Southern Ry. Co.*, 111 Tenn., p. 538; *St. Louis & S. F. R. Co. vs. Fayetteville*, 75 Ark., p. 534; *C. B. & A. Rv. Co. vs. Drainage Commrs.*, 200 U. S., p. 561; *Cincinnati, I. & W. R. R. Co. vs. Connersville*, 218 U. S., p. 336; *Chicago, M. & St. Paul R. R. Co. vs. Minneapolis*, 232 U. S., p. 430; *Mo. & Pac. Ry. Co. vs. Omaha*, 235 U. S., p. 121. 10

Upon the point that these Federal decisions, especially the two last cited, extend the rule of some of our earlier State decisions, it is to be remarked, first, that there is no conflict as to the fundamental doctrine of the police power but only as to its application, and, secondly, that as to due process of law and other matters involving ultimately a federal question the decisions of the State courts yielded those pronounced upon such questions by the Supreme Federal tribunal. 20

Point V. Which is that the statute under review is unconstitutional because it deprives the prosecutor of its property without due process of law or just compensation, in that it requires the entire expense of abolishing the grade crossings to be paid by the prosecutor is fully answered by what has just been said under the previous point. We have nothing to add excepting that the case of *New York & New England R. R. Co. vs. Bristol* (151 U. S., p. 556), on which counsel relies for his main argument has been stripped of the force accorded to it by counsel by the more recent case of *Chicago, Milwaukee & St. Paul vs. Minneapolis* in 232 U. S. 30

The contention that the legislature could not lawfully limit the proportion of expense to be borne by the street railway company to ten per cent. of the total expense of the alteration of a crossing is, of 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

course, unsound if the entire expense might at the legislative will have been placed upon the prosecutor. The opposite contention, viz., that the imposition of any part of the expense upon the trolley company was unlawful is, of course, not now under consideration.

The same remark applies to the limitation of the expense imposed upon the municipality affected.

Under this point there is also a running attack made upon the principle of Utility Boards in general, involving their powers as well as their procedure, but as far as discoverable no constitutional limitation is pointed out or discussed. Under this subhead similar boards in other jurisdictions are described and the differences noted, but no constitutional question raised that is not covered, as far as we are able to do so, by the principles decided in the cases already cited.

Point VI is that, "Said statute is unconstitutional and said order is unreasonable, for the reason that the prosecutor is not given the alternative of decreasing or eliminating the alleged danger to public safety and the alleged impediment to public travel by decreasing the number of train movements or by abandoning the railroad." In so far as this reason challenges the discretion exercised by the Board in making its order we are not concerned with it in this part of our opinion, in so far as it constitutes an attack upon the statute the contention must be that the legislative act was unconstitutional because it did not affirmatively authorize the railroad company to decrease the number of its trains or to abandon its railroad.

The abandonment of the railroad was not germane to the object of the statute, and the power to deal

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

with that question could not be delegated to the agency created by the act.

The decrease in the number of train movements was a matter primarily under the control of the prosecutor, and hence required no statutory permission; if by such decrease the danger and congestion at the crossings were in fact eliminated or reduced to a negligible point that fact would doubtlessly be recognized by the Board and dealt with accordingly. It was for the prosecutor to make that fact appear and its failure to do so involved no constitutional infirmity in the statute. 10

Point VII is an attack upon the title of the original Public Utility Act of 1911, and upon the duality of the objects alleged to be embraced in that act as supplemental by the Fielder Act of 1912. 20

The title of the original act expressed broadly and inclusively the object of the statute; it does not express the means and methods of attaining that object; but this is not required.

Bumstead vs. Govern, 47 N. J. L., p. 368.

Affirmed, 48 N. J. L., p. 612.

Hickman vs. State, 62 N. J. L., p. 499.

Affirmed, 63 N. J. L., p. 666.

As was said by this Court in *Moore vs. Burdett* (62 N. J. L., p. 164), "The object of a law must not be confused with its product. * * * The object of every law, by force of the constitution must be single and be expressed in the title of the law; the product may be as diverse as the object requires and finds its expression in the terms of the enactment only. In fine, the title of an act is a label not an index." The statute has, in a constitutional sense, a single object. To attain this object it enacts various methods and matters so related to such object and to each other as 30 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

to effectuate a single purpose. The inclusion of such inter-related matters is not the intermixing of things that have no proper relation to each other, hence the statute as a whole has a single object.

Payne vs. Mahon, 44 N. J. L., p. 213.

10

Newark vs. Mt. Pleasant Cemetery Company,
58 N. J. L., p. 168.

Point XVI is that, "The statute and order violate the Constitution of the United States in that they impair the obligation of the prosecutor's contracts as follows:

(a) Contracts with the holders of the prosecutor's stocks, bonds, notes and other obligations.

20

(b) Contracts between the State of New Jersey and the prosecutor or its predecessors in interest.

(c) Contracts between the prosecutor or its predecessors, and the Public Service Railway Company or its predecessors.

(d) Contracts between the prosecutor and the various switch owners.

30

(e) Contracts between the Paterson and Hudson River Railroad Company and Ramapo Railroad Company; and the prosecutor or its predecessors."

These objections may be considered together, since, despite their apparent diversity, they rest upon a common principle and present but a single legal question, to wit, whether these contracts whenever made or upon whatever consideration based were subject to the future exercise by the state of its police power. The specific application of the general doctrine treated under Point IV to the obligation of contracts is well stated by Mr. Justice Depue in *M. & E. R. R.*

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

Co. vs. Orange, where, after pointing out that certain New York and Connecticut decisions were placed upon the ground that the charters of the respective companies were subject to alteration or repeal, but that the opinion of the Connecticut Court and of the Supreme Court of the United States in *New York and New England Railroad vs. Bristol*, 62 Conn., 252; 26 Atl., 122; 151 U. S., 556, lays stress upon the fact that the regulations were a proper exercise of the police power of the state, he said: "In *Boston and Maine Railroad Co. vs. County Commissioners*, 79 Me., 3861, S. C., 10, Atl. Rep., 113, an act requiring the expense of building and maintaining so much of the townway or highway as was within the limits of the highway where such way crossed the track at grade, should be borne by the railroad company, was held to be constitutional. This decision was made against a company whose charter provided that it should not be altered, amended or repealed. The power of the legislature to impose such burdens for general safety under the police power was declared to be fundamental and that the act did not impair any contract in the company's charter. Whether the corporation has an irrepealable contract in its charter or not is immaterial. Police powers are inherent in the government, and the legitimate exercise of legislative power in securing public safety does not impair the obligation of contracts nor deprive anyone of property without due process of law."

A later expression of the same thought by the Supreme Court of the United States speaking through Mr. Justice Day is as follows: "The exercise of the police power cannot be limited by contract for reasons of public policy, and it is immaterial upon what consideration the contract rests, as it is beyond the

10

20

30

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

authority of the state or the municipality to abrogate this power so necessary to public safety."

Chicago, Burl. & Q. R. R. Co. vs. Nebraska, 170 U. S., p. 57.

10 *Northern Pacific R. Co. vs. Minnesota*, 208 U. S., p. 583.

Many of the cases cited under Point IV are to the same effect and sustain the same doctrine, the acceptance of which renders it unnecessary and indeed futile to follow the brief in its recapitulation of the hardships that result from the observance of such legal rule.

20 That the contracts of the railroad with others for switch connections and service were subject to the police power was held by the Court of Errors and Appeals in *Swift vs. Delaware, Lackawanna & Western R. R. Co.* (66 N. J. Eq., p. 34).

Cases in other jurisdictions are:

Branson vs. Philadelphia, 47 Pa. St., p. 329.

Kinealy vs. St. Louis, K. & North R. R. Co., 69 Mo., p. 658.

Otis Elevator Co. vs. Chicago, 263 Ill., p. 419.

As to the Public Utilities, the doctrine of their subservience to the police power is the same.

30 *Jersey City vs. City of Hudson*, 13 N. J. Eq., p. 420.

Stillwater Water Co. vs. Stillwater, 50 Mo., p. 498.

Detroit vs. Fort Wayne & E. Ry. Co., 90 Mich., p. 646.

Columbus Gas & Coke Co. vs. Columbus, 50 Ohio St., p. 65.

Natick Gas Co. vs. Natick, 175 Mass., p. 246.

40 *New England Tel. & Tel. Co. vs. Boston T. Co.*, 182 Mass., p. 397.

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

*New Orleans Gas L. Co. vs. Drainage
Comm'rs*, 191 U. S., p. 453.

Point XIX is that, "Said order imposes a burden upon the interstate traffic of the prosecutor and interferes with and impairs its operation to perform its duty as an interstate carrier of freight and passengers because: 10

(a) It requires changes in the location or grade of switches, side tracks, leads, bridges, yards, structures and other facilities and properties of the prosecutor which are used by the prosecutor in the furtherance of its interstate business.

(b) It compels the prosecutor to raise and expend moneys for the purpose of complying with said order, which said moneys would otherwise be available for and would be used by the prosecutor in the making of changes and improvements which are essential for the purpose of enabling the prosecutor to carry on its interstate business." 20

Whether or not the police regulations of a state constitute an unlawful interference with interstate commerce is distinctly a question for the ultimate decision of the highest Federal Court. The attitude of that Court upon this question is well expressed by Mr. Justice Gray delivering the opinion of the Court in the case of *Chicago M. & C. E. R. R. Co. vs. Solan*, 169 U. S., p. 133: 30

"The rules prescribed for the construction of railroads and for their management and operation, designed to protect persons and property, otherwise endangered by their use, are strictly within the scope of the local law. They are not, in themselves, regulations of interstate com- 40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

merce, although they control, in some degree, the conduct and liability of those engaged in such commerce. So long as Congress has not legislated upon the particular subject, they are rather to be regarded as legislation in aid of such commerce, and as a rightful exercise of the police power of the state to regulate the relative rights and duties of all persons and corporations within its limits."

So long as this attitude is maintained by the Federal Court the doctrine enunciated by it would gain nothing by our concurrence and suffer nothing by our dissent. We, however, not only recognize the authority but also concur in the soundness of the rule laid down.

Point XX is that, "Said order is in violation of the Constitution of the State of New Jersey and of the United States, in so far as it deprives the prosecutor of the rights, benefits, advantages, privileges and contracts now possessed by it with reference to the several leads, switches and side tracks which under said order are required to be destroyed or relocated and reconstructed, for the following reasons." Upon this point we can add nothing to what has already been said in discussing the scope and dominance of the police power.

Point XXI is that, "Said order and the statute upon which same is based are in violation of the Constitution of the State of New Jersey because:

(a) They impair the jurisdiction of the courts of equity of the State of New Jersey by depriving them of their jurisdiction over the regulation of the use of easements.

(b) They impair the jurisdiction of the courts of law of the State of New Jersey by de-

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

priving them of their jurisdiction to compel the performance of the duties imposed by law upon the prosecutor or its predecessors in interest."

As to the alleged invasion of the exclusive jurisdiction of the Court of Chancery to regulate conflicting public easements our decision might well rest upon the reasoning of the opinion of Mr. Justice Kalisch in this court in the case of *Erie R. R. Co. vs. Board of Public Utility Commissioners* (87 N. J. L., p. 438). In view, however, of the argument of counsel and the attempt to distinguish that case from the present one, it will be well to point out that there is an essential difference between the jurisdiction exercised by Chancery over conflicting public easements and the exertion by the legislature of its police power to avert danger at railway crossings. Under the inherent power of the Court of Equity all questions as to the existence, character, duration and priority of such conflicting easements, together with their respective paramountcy or subservience as well as questions of acquiescence, estoppel, contribution and expense are considered by the Court of Chancery and are either adjudicated by it or are relegated to a court of law for decision, as the case may be; whereas, in the legislative exercise of its police power all of these matters are determined by the statute, leaving nothing of a judicial nature to be adjudicated by the statutory tribunal excepting the applicability of such legislative scheme to a given state of facts, if it be found to exist, and the determination thereupon of the practical methods of accomplishing the legislative object. This exercise by the legislature of its police power which in its simplest expression is illustrated in statutes requiring the erection of safety gates, the posting of flagmen and the giving of audi-

10

40

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

ble signals long antedated the adoption of the Constitution of 1844, so that the jurisdiction of the Court of Chancery that was confirmed by that instrument was not exclusive in respect to the exercise of such powers by the legislature, even if the jurisdiction of equity at any time was or could be exclusive as to such exercises of this sovereign power, which is not for a moment admitted even for the purposes of argument.

In the case of *Palmyra vs. Pennsylvania R. R. Co.* (62 N. J. Eq., p. 601), the contention of the railroad was that powers of this nature were so essentially legislative that they could not constitutionally be exercised by the Court of Chancery under legislative authority, which is the precise opposite of the contention of the prosecutor in the present case. The truth is that neither extreme view is the proper one; the correct view being that the mixed administrative and quasi-judicial functions to be performed by the Board of Public Utilities Commissioners under the statute, which do not in a constitutional sense properly belong to either of the three great departments of government may, because of that circumstance, be lawfully exercised under express legislative authority by a statutory tribunal without infringing upon the constitution itself or upon the prerogatives of the Court of Chancery. This principle, although not this precise application of it, is illustrated in:

Paul vs. Gloucester Co., 50 N. J. L., p. 584.

Moreau vs. Freeholders of Monmouth, 68 N. J. L., p. 480.

Ross vs. Freeholders of Essex, 68 N. J. L., p. 291.

Iowa Life Ins. Co. vs. Eastern Mutual Life Ins. Co., 64 N. J. L., p. 340.

*Opinion of Supreme Court, Erie R. R. Co.,
on Certiorari, &c.*

In the matter of Drainage of Lands, 35 N. J. L., p. 497.

Palmyra vs. Penn. R. R. Co., 62 N. J. Eq., p. 601.

Eckert vs. Perth Amboy & W. R. R. Co., 66 N. J. Eq., p. 437.

10

As to the alleged impairment of the mandamus power of this Court, what has just been said as to the Court of Chancery measurably covers this matter also, at least in principle.

There is, however, another doctrine peculiar to the prerogative writs of this Court, viz.: that stated by Mr. Justice Trenchard in *Newark vs. Kasinski* (86 N. J. L., p. 59), to the effect that where this Court may by its writ of *certiorari* supervise the action of a statutory tribunal the fact that such tribunal is exercising under legislative authority powers similar to or identical with those exercised by this Court under its prerogative writs is a negligible circumstance. The question is, however, almost if not entirely academic, since the functions exercised by the Statutory Board in this case do not bear the slightest resemblance to the mandamus function of this Court.

20

We have now reviewed *seriatim* the points of constitutional law as presented in the elaborate brief of counsel for the prosecutor without finding that any of them requires us to declare invalid the Statute of 1913 as a whole or as to any of its essential features. If any other constitutional question has been argued by counsel, incidentally and outside of his stated points, it may upon that account have escaped our attention, but it will, nevertheless, we confidently believe, be found to be covered by the principles we have discussed and by the cases cited to illustrate them.

30

40

Opinion of Supreme Court, Public Service Ry. Co.

The conclusion that we have reached from the foregoing consideration of all of the reasons filed and argued by the prosecutor is that each of the orders of the Board of Public Utility Commissioners brought up by the two writs of *certiorari* in this case should be affirmed, with costs.

10

Opinion of Supreme Court.

Filed June 23, 1916.

NEW JERSEY SUPREME COURT.

November Term, 1915.

20 PUBLIC SERVICE RAILWAY COM-
PANY,

vs.

BOARD OF PUBLIC UTILITY COM-
MISSIONERS AND CITY OF PATER-
SON.

Argued December 22, 1915.

30 Decided June 23, 1916.

1. The provision of Section 2 of the Supplement to an Act concerning Public Utilities, approved March 12, 1913 (Fielder Act) (P. L. 1913, p. 91), by which ten per centum of the expense of eliminating a grade crossing of a steam railroad used by a street railway may be ordered to be paid by the company operating such street railway is within the legitimate sphere of legislation under the police power of the State.

40

Opinion of Supreme Court, Public Service Ry. Co.

ON CERTIORARI.

The order of the Board of Public Utility Commissioners drawn under review as to one of its terms by this *certiorari* is fully set out in the statement of facts prefaced to the opinion delivered at this term in the case of *Erie Railroad Company vs. Board of Public Utility Commissioners*.

10

Before Justice Garrison, Trenchard and Black.

For the prosecutor, Frank Bergen, Esq.

For the defendants, Edward F. Merrey, Esq.,
Frank H. Sommer, Esq.

The opinion of the Court was delivered by:

GARRISON, J.

The prosecutor of this writ, the Public Service Railway Company, objects to the order of the Board of Public Utility Commissioners imposing upon the prosecutor ten per centum of the cost incurred in abolishing grade crossings on three highways over which the prosecutor operates its cars. The reasons relied on by counsel "briefly stated are, that the burden which the order attempts to impose on the prosecutor is neither a tax nor an assessment nor a legitimate exercise of the police power." In as much as the order merely follows the statute the attack is really upon the latter. The language of the statute is that "the Board may order not exceeding ten per centum of such expense directly chargeable to the crossing used by the street railway company to be paid by the company operating such street railway."

20

30

We agree that this imposition of a part of the expense of abolishing dangerous grade crossings is neither a tax nor an assessment for a public improvement, but, we think, that it is a legitimate exercise of the police power. The contention of counsel for the prosecutor is placed squarely upon the proposition

40

Opinion of Supreme Court, Public Service Ry. Co.

that the police power is not legitimately exercised in the present case "unless the property (of the prosecutor) has become a public nuisance and so lost its right to protection"; and he then proceeds to demonstrate that a street railway is not a public nuisance. We of course, agree to this, but we entirely dissent

10 from the narrow definition of the police power which would restrain its exercise to the case of property that had become in a legal sense a nuisance.

If such a narrow definition has any place in the doctrine of the police power, it is confined to the appropriatory aspect of that power, *i. e.*, to such appropriation as is incidental to the destruction of property as a nuisance and has no place in the vastly wider scope of such power that is regulative of energies that are curbed, not that they may be impaired

20 or destroyed, but, on the contrary, that they may be of greater service and beneficence to the public.

Instances of such regulative exercises of the police power are met at every turn and constitute in fact the chief characteristics of modern social life. There are, to use a rough analogy, two aspects of the exercise of the police power, one so to speak *in rem* and the other *in personam*; and it is to the former alone that the proposition of counsel has any possible pertinence, and even in that connection it is of doubtful value as a definition, and of no apparent service

30 as a criterion.

The distinction between these two aspects of the police power is perfectly patent. The destruction of a pest house would be an illustration of appropriation of property because it was *per se* a nuisance, *i. e.*, a menace to the public health, while the compulsory vaccination of school children would be in order to prevent them from becoming such. The securing of public safety from anticipated dangers rather

40 than the abatement of consummated nuisance is the

Opinion of Supreme Court, Public Service Ry. Co.

essence of the police power in its broader scope. That there are such dangers to be anticipated from the operation at a grade crossing of a steam railroad and a trolley line is not more obvious than that each of these public agencies contributes its element to such danger. The steam road may indeed furnish in greater degree the active element of danger to human life, but the surface road in its operation brings to such place of danger its human freight in extraordinary numbers and under special conditions, which, or so the legislature might determine, greatly increase and accentuate the normal danger and hence justify its elimination by the joint act or at the joint expense of both of the public agencies that contribute in its production. It is matter of common knowledge that during what are termed the rush hours of the day a single surface car of modern construction carries a hundred or more passengers and that the cars thus crowded follow each other in an almost unbroken procession. The stalling of one of these cars upon a grade crossing by the sudden giving out of the electric current, or its propulsion on to the railroad track by the failure of a brake to work properly, or as in the Newark case (*State vs. Young*, 56 Atl. Rep., p. 471) by the failure to sand the track would imperil the lives of scores, who were brought into such position of peculiar peril by reason of being passengers on a street railway. It is not at all a question of the creating of a common nuisance, but solely of the participation in and contribution to a common source of danger arising from the transportation problem in its relation to grade crossings of common carriers of passengers.

The State grants this use of its highways for the convenience of its citizens, and the incorporators of such companies eagerly seek the privileges thus granted because of the profits to be derived there-

Opinion of Supreme Court, Public Service Ry. Co.

from; hence, if dangers arise from the very success of such enterprises it is eminently within the exercise of the police power of the State in the elimination of such dangers to place a portion of the expense of so doing upon those who profit by the very success which has contributed to such dangers.

- 10 The fact that by such a collision as we have suggested the lives of the passengers on the steam railroad are also imperilled, so far from demonstrating that the entire expense of eliminating the dangerous condition should be borne by such railroad, merely emphasizes the participation of each carrier in the production of a common source of danger, and hence points to their joint contribution to the expenses of its elimination.

- 20 In support of this obvious conclusion counsel for the defendant cites a number of pertinent authorities, but the question would seem to be at bottom one of fact, from which, when the fact is once established, the legal result follows as a necessary consequence. The establishment of such fact is, moreover, a part of the legislative function and as such is not subject to review by the Judicial Department.

- 30 In *Hopper vs. Stack* (69 N. J. L., p.562) we said, "Every exercise of the police power involves, of necessity, the determination by the lawmaker of some fact quite apart from the exercise of any legislative discretion concerning it," and illustrations of such determinations of fact were given and the matter discussed at some length.

- 40 The proposition thus advanced has been not only adopted by the Court of Errors and Appeals, but has been elevated into a presumption. "Police regulations of this character," said Chancellor Pitney in *Meehan vs. Excise Commissioners* (75 N. J. L., p. 557) "must, in the absence of clear evidence to the contrary, be deemed to be based upon facts within

Opinion of Supreme Court, Public Service Ry. Co.

the possession of the legislature rendering such legislation proper, if not necessary, see *Hopper vs. Stack* (40 Vroom, 562).” And in *State vs. Sutton* (87 N. J. L., p. 192) also a Court of Errors decision, a condition that would justify the exercise of the police power, was spoken of as “one of those determinations of fact that the legislature has the right to make for itself when prescribing a police regulation,” citing *Hopper vs. Stack* and *Lyons vs. Morris Co.* (86 N. J. L., p. 206). It is this prerogative of the Legislative Department of the Government thus to predicate its exercise of the police power of the State upon facts within its own possession and keeping that renders such power so unamenable to precise judicial definition rather than any inherent difficulty in defining the limits of such power when applied to a given state of facts. 10

The foregoing remarks, coupled with our discussion of the topic and citation of authorities in the case of *Erie R. R. Co. vs. Board of Public Utility Commissioners* decided at this term, lead to the conclusion that the provision of the Fielder Act drawn under review was within the proper sphere of legislation and that the order of the Utility Board brought up by this *certiorari* merely carried out the clearly expressed intent of the legislature. That the State through its chosen agencies is not required in such a situation to ascertain the exact quota of contribution to a common danger and by that standard assign the expense of its elimination is borne out by the cases cited by counsel for the defendant. Under such circumstances the province of the judicial office is thus stated by Chief Justice Beasley in *Douglass vs. Essex Co.* (38 N. J. L., p. 214): “Where that which is directed to be done is within the sphere of legislation and the terms used clearly express the intent, all reasoning derived from the supposed in- 20 30 40

Opinion of Supreme Court, Public Service Ry. Co.

convenience or even absurdity of the result is out of place. It is no province of the courts to supervise legislation and keep it within the bounds of propriety and common sense, so that even if in this case it could be demonstrated that the regulation in question was incommodious or even hurtful, an appeal for relief to the judicial power would be utterly in vain." This is stronger language than is called for by the circumstances of the present case, but the rule of law to which it leads up cannot be too strongly stated, or too rigidly observed if the relative spheres of the Legislative and Judicial Departments of the Government are to be kept separate in obedience to the constitutional mandate.

The order of the Utility Board brought up by this writ is affirmed with costs.

NEW JERSEY SUPREME COURT.

November Term, 1915.

10

PASSAIC WATER COMPANY,
Prosecutor,

vs.

BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
AND BOARD OF FINANCE OF THE
CITY OF PATERSON,
Defendants.

Argued December 24, 1915. Decided June 23, 1916.

20

On *certiorari* to review an order of the Board of Public Utility Commissioners, under the act of 1913, page 91.

Before Justices Garrison, Trenchard and Black.

John B. Humphreys, Esq., for Passaic Water Company.

Frank H. Sommer, Esq., for Board of Public Utility Commissioners.

Edward M. Merrey, Esq., for City of Paterson.

30

Per curiam:

In this case, there are twelve reasons presented to the Court, for setting aside the order made by the Board of Public Utility Commissioners. They are, however, argued under four points, in prosecutor's brief. The first and fourth points argued are, the statute upon which the order under review is based is invalid and unconstitutional; because, it takes the private property of the prosecutor for public use

40

Opinion of Supreme Court, Passaic Water Co.

without any compensation, denies the prosecutor the equal protection of the law; impairs the obligation of contracts, etc. All these points are disposed of in the opinion of the Court, in the case of the *Erie Railroad Company vs. Board of Public Utility Commissioners*.

13 The second point argued is, the statute is unconstitutional, in so far as it deprives the Court of Chancery of its exclusive jurisdiction over the regulation of the use of easements. This point is disposed of in the opinion of the Court, in the case of the *Erie Railroad Company vs. Board of Public Utility Commissioners*.

20 The third point argued is, the order is invalid and beyond the jurisdiction of the Board, in so far as it requires the prosecutor to change the location of its water pipes, water mains, etc., arguing, that the title of the statute does not truly express the object of the legislation which it embodies, this and the other points under this head are disposed of also in the opinion of the Court, in the case of the *Erie Railroad Company vs. Board of Public Utility Commissioners*.

The order under review will be affirmed with costs.

Opinion of Supreme Court.

Filed June 23, 1916.

NEW JERSEY SUPREME COURT.

10

WESTERN UNION TELEGRAPH Co.,
Prosecutor,

vs.

BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
AND BOARD OF FINANCE OF THE
CITY OF PATERSON,
Defendants.

Argued December 24, 1915.

20

Decided June 23, 1916.

On *certiorari* to review an order of the Board of Public Utility Commissioners, under the Act of P. L. 1913, page 91.

Before Justices Garrison, Trenchard and Black.

Messrs. Collins & Corbin, Gilbert Collins, Esq., George S. Hobart, Esq., Albert T. Benedict, and the brief of the New York Bar, for prosecutor.

Frank H. Sommer, Esq., for Board of Public Utility Commissioners.

30

Edward H. Merrey, Esq., for City of Paterson.

Per curiam:

In this case, there are eleven reasons presented to the Court, for setting aside the order made by the Board of Public Utility Commissioners. They are in the main, identical with the reasons presented by the prosecutor, the Passaic Water Company, except an additional reason, viz: the order is invalid, because it imposes a burden upon the interstate traffic of the

40

Opinion of Supreme Court, Western Union Tel. Co.

prosecutor, interferes with and impairs, its ability to perform its duty, as a common carrier of such traffic.

They are, however, argued under five points, in prosecutor's brief. The first four points are constitutional questions, all of which are disposed of in the opinion of the Court, in the case of the *Eric Railroad*

10 *Company vs. Board of Public Utility Commissioners.*

The fifth point is, the order is invalid stating six reasons, these, also, have been disposed of in the opinion of the Court, in the case of the *Eric Railroad Company vs. Board of Public Utility Commissioners.* They need no further discussion.

The order under review will be affirmed with costs.

10

D. FULLERTON & Co.,

Prosecutor,

vs.

BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
AND BOARD OF FINANCE OF THE
CITY OF PATERSON,*Defendants.*

Argued December 24, 1915. Decided June 23, 1916. 20

On *certiorari* to review an order of the Board of Public Utility Commissioners, under the Act of P. L. 1913, page 91.

Before Justices Garrison, Trenchard and Black.

Messrs. Hudson & Joelson, for D. Fullerton & Co.

Frank H. Sommer, Esq., for Board of Public Utility Commissioners.

Edward H. Merrey, Esq., for City of Paterson.

Per curiam:

30

In this case, there are eight reasons presented to the Court for setting aside the order made by the Board of Public Utility Commissioners. They are, however, argued under four points in prosecutor's brief.

The first point argued is that the order, if construed to require prosecutor to make changes in its building necessary to have the same conform to the side track of the Erie Railroad, when reconstructed

40

Opinion of Supreme Court, D. Fullerton & Co.

is invalid, because the prosecutor is not a public utility and the Board has no power to order it to make such changes.

10 The second point argued is that the order, if construed to require the prosecutor at its own expense to reconstruct the existing side track, it is without the jurisdiction of the Board. The work commanded to be done by the order in altering the crossing is specifically (a) the changing of the highways and (b) the reconstruction of the railroad.

The third point argued is, the order under review, takes the private property of the prosecutor for public use, without just or any compensation, and takes the property of the prosecutor for private use of other companies.

20 The fourth point argued is, the order under review, takes the property of the prosecutor without due process of law and deprives the prosecutor of the equal protection of the law. All these points are disposed of in the opinion of the Court, in the case of *Erie Railroad Co. vs. Board of Public Utility Commissioners*.

The order under review will be affirmed with costs.

20

*To the Honorable Edwin Robert Walker, Chan-
cellor and Presiding Judge of the Court of Er-
rors and Appeals of the State of New Jersey:*

ERIE RAILROAD COMPANY, a corporation, the ap-
pellant in the above-entitled cause, feeling ag-
grieved by the judgment of this court, entered on
the fifth day of March, 1918, affirming the final
judgment of the Supreme Court of the State of
New Jersey herein, dated June 28, 1916, which
judgment affirmed an order of the Board of Public
Utility Commissioners, dated April 20, 1915, in a
certain proceeding entitled "In the Matter of the
Application of the City of Paterson for alteration
of grade crossings on the line of the Erie Rail-
road," whereby the said Erie Railroad Company

30

40

Erie Railroad Company, Case No. 1.

was ordered to alter certain grade crossings, according to the plan therefor annexed to said order and made part thereof, comes now, by Collins & Corbin, its attorneys, and respectfully represents as follows:

- 10 1. The said cause was upon a writ of certiorari issued by the Supreme Court of the State of New Jersey to the Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, to review the legality of the said order of said Board dated April 20, 1915, requiring your petitioner to alter certain grade crossings in the City of Paterson, and each of them, according to the plan therefor annexed and made a part of said order, and the profile of same, also annexed to and made part of said order; and further requiring
- 20 your petitioner to proceed with due diligence to the execution of said order and to comply with all the requirements thereof and the duties imposed upon it thereby and by the statute under which said order was made and the laws of the State of New Jersey, and that to that end it exercise in good faith all of the powers conferred upon it by the laws of said State; and further requiring your petitioner to begin the actual work of construction in the performance and execution of said order on or before
- 30 certain dates, and to do certain other matters and things, as more particularly set forth therein.

2. Upon the hearing of said writ of certiorari the Supreme Court of the State of New Jersey affirmed the said order of said Board and thereupon your petitioner appealed from said judgment to the Court of Errors and Appeals of the State of New Jersey, and the matter having been heard by said court the judgment of the said Supreme Court was in all things affirmed.
- 40

Petition for Writ of Error.

3. Your petitioner shows that the said order of said Board of Public Utility Commissioners and the statute of the State of New Jersey (being Chapter 57 of the Laws of 1913), upon which such order purported to be based, insofar as the same or either of them affect the rights and property of your petitioner, are invalid, and in violation of the Constitution of the United States in that: 10

(a) Said order and statute take the private property of your petitioner for public use without just or any compensation;

(b) Said order and statute deny to your petitioner the equal protection of the law and deprive it of its property without due process of law, and abridge its privileges and immunities as a citizen of the United States;

(c) Said order and statute are contrary to Article I, Section 10, paragraph 1, of said Constitution, in that they impair the obligation of contracts; 20

(d) Said order and statute require the property of your petitioner to be taken for the private use of other persons or corporations;

(e) Said order and statute create a burden upon and operate as a regulation of and an interference with the interstate traffic of your petitioner, contrary to Article I, Section 8, paragraph 3, of the Constitution of the United States, and impair the ability of your petitioner to perform its duty as a common carrier of such interstate traffic. 30

4. Your petitioner urged in said Supreme Court and said Court of Errors and Appeals of the State of New Jersey that all of the said matters and things were secured to your petitioner by virtue of the provisions of the Constitution of the United States and the amendments thereto, and that the judgments of the said Supreme Court and of the 40

Erie Railroad Company, Case No. 1.

Court of Errors and Appeals were and are in violation of the Constitution of the United States and the amendments thereto.

10 5. The said Court of Errors and Appeals of the State of New Jersey is the highest court of said State in which judgment could be rendered in said proceedings; and said court having affirmed the judgment of the Supreme Court of the State of New Jersey, whereby it was decided that said order of said Board of Public Utility Commissioners was valid, and having decided that your petitioner was and is not entitled to the rights claimed by virtue of the provisions of the Constitution of the United States and the amendments thereto, as above set forth, your petitioner alleges that it is aggrieved in that, by the proceedings and judgments aforesaid, it has been denied the rights to which it is entitled by virtue of the said provisions of the Constitution of the United States and the amendments thereto.

20 6. Your petitioner, therefore, prays that an order may be made allowing your petitioner to prosecute a writ of error to the United States Supreme Court under and according to the laws of the United States in that behalf made and provided, directed to the said New Jersey Court of Errors and Appeals, removing the judgments and proceedings aforesaid, and that your petitioner may have such other relief as may be proper.

And your petitioner will ever pray, etc.

COLLINS & CORBIN,

Attorneys of Petitioner.

Erie Railroad Company, Case No. 1.

BOND.

KNOW ALL MEN BY THESE PRESENTS, That we,
ERIE RAILROAD COMPANY, a corporation of the State
of New York, as principal, and NATIONAL SURETY
COMPANY, a corporation of the State of New York,
10 as surety, are held and firmly bound unto BOARD
OF PUBLIC UTILITY COMMISSIONERS, CITY OF PATER-
SON and BOARD OF FINANCE OF SAID CITY, in the just
and full sum of One thousand dollars (\$1,000), to
be paid to them and each of them, their and each
of their successors or assigns, to which payment
well and truly to be made, we bind ourselves, our
successors and assigns, jointly and severally, firmly
by these presents.

20 Sealed with our respective corporate seals and
dated the 13th day of December, in the year of our
Lord, one thousand nine hundred and seventeen.

WHEREAS, lately at the session of the Court of
Errors and Appeals of the State of New Jersey, in
an action pending in said court between Erie Rail-
road Company, appellant, and Board of Public
Utility Commissioners, City of Paterson and Board
of Finance of said City, respondents, a final judg-
ment was rendered affirming the judgment of the
Supreme Court of the State of New Jersey in
30 favor of the said respondents, and the said appel-
lant having obtained from said court a writ of
error to reverse the judgment in the aforesaid
action and a citation directed to said respondents
is about to be issued, citing and admonishing them
to be and appear at a Supreme Court of the United
States at Washington;

Now, the condition of the above obligation is
such that if the Erie Railroad Company shall
prosecute its writ of error to effect and shall
40 answer all damages and costs that may be awarded

Bond.

against it, if it fails to make its plea good, then the above obligation to be void; otherwise to remain in full force and virtue.

Writ of Error.

Filed March 5, 1918.

30 UNITED STATES OF AMERICA, vs.:

THE PRESIDENT OF THE UNITED
 STATES TO THE HONORABLE JUDGES
 (SEAL) OF THE COURT OF ERRORS AND AP-
 PEALS OF THE STATE OF NEW JERSEY,
 GREETING:

Because in the record and proceedings, as also
 in the rendition of the judgment of a plea which is
 in the said Court of Errors and Appeals of the
 State of New Jersey before you, or some of you,
 40 being the highest court of law or equity of the said

Writ of Error.

State in which a decision could be had, in an action between the Erie Railroad Company, appellant, and Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, respondents—manifest error hath happened to the great damage of Erie Railroad Company, appellant, as by its complaint appears; we, being willing that error, if any hath been, should be duly corrected and full and complete justice done to the parties aforesaid in this behalf, do command you, if judgment be therein given, that then under your seal, distinctly and openly you send the records and proceedings aforesaid, with all things concerning the same, to the Supreme Court of the United States, together with this writ, so that you may have the same at Washington on the fourth day of April, next, in the said Supreme Court, to be then and there held that the record and proceedings aforesaid being inspected, the said Supreme Court may cause further to be done therein to correct that error what of right and according to the laws and Constitution of the United States should be done.

WITNESS, the Honorable Edward Douglas White, Chief Justice of the United States, the fifth day of March, Nineteen hundred and eighteen.

*Assignments of Error.***Assignments of Error.**

Filed March 5, 1918.

**NEW JERSEY COURT OF ERRORS AND
APPEALS.**

ERIE RAILROAD COMPANY,

*Appellant,**vs.*BOARD OF PUBLIC UTILITY COMMISSIONERS, CITY OF PATERSON and
BOARD OF FINANCE OF SAID CITY,
*Respondents.**Assignments
of Error.**(Case No. 1.)*

10

ERIE RAILROAD COMPANY, by Collins & Corbin, its attorneys, comes and files the following assignments of error upon which it will rely:

1. The said Court of Errors and Appeals of the State of New Jersey erred in affirming the judgment of the Supreme Court of the State of New Jersey, which had affirmed a certain order made by the Board of Public Utility Commissioners of the State of New Jersey dated April 20, 1915, and brought up to the said Supreme Court by the writ of certiorari issued out of that court.

20

2. The said Court of Errors and Appeals of the State of New Jersey erred in not reversing the said judgment of the said Supreme Court of the State of New Jersey, for the several grounds of appeal, or for one or more thereof, filed by the appellant, and in not sustaining the said grounds of appeal, or some one or more of them.

30

3. The said Court of Errors and Appeals erred in holding that the said order made by said Board of Public Utility Commissioners dated April 20, 1915, and the statute of the State of New Jersey

40

Erie Railroad Company, Case No. 1.

whereon the same was based, did not violate the rights of the appellant secured to it by the Constitution of the United States and the several amendments thereto, and in not holding that said order and statute did violate said rights, or some one or more of them.

- 10 4. The said Court of Errors and Appeals erred in holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deprive the appellant of its liberty and property without due process of law, contrary to the Fifth and Fourteenth Amendments of the Constitution of the United States, reading as follows:

“ARTICLE V.

- 20 “No person shall be * * * deprived of life, liberty or property, without due process of law.”

“ARTICLE XIV.

“Nor shall any State deprive any person of life, liberty or property without due process of law.”

- 30 Said court also erred in not holding that the said order and the said statute, or one or both of them, did deprive the appellant of its liberty and property without due process of law, contrary to said amendments, or one of them.

5. The said Court of Errors and Appeals erred in holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deny to appellant the equal protection of the laws, contrary to the Fourteenth Amendment of the Constitution, reading as follows:

- 40 “Nor shall any State deny to any person within its jurisdiction the equal protection of the laws.”

Assignments of Error.

Said court also erred in not holding that the said order and the said statute, or one or both of them, did deny to the appellant the equal protection of the laws, contrary to the said amendment.

6. The said Court of Errors and Appeals erred in holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not abridge the privileges or immunities of the appellant, contrary to the Fourteenth Amendment of the Constitution, reading as follows: 10

“No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States.”

Said court also erred in not holding that the said order and the said statute, or one or both of them, did abridge the privileges or immunities of the appellant, contrary to the said amendment. 20

7. The said Court of Errors and Appeals erred in holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not take the private property of the appellant for public use without just compensation, contrary to the Fifth Amendment of the said Constitution, reading as follows:

“Nor shall private property be taken for public use without just compensation.” 30

Said court also erred in not holding that the said order and the said statute, or one or both of them, did take the private property of the appellant for public use without just compensation, contrary to the said amendment.

8. The said Court of Errors and Appeals erred in holding that the said order of said Board of Public Utility Commissioners and the statute 40

Erie Railroad Company, Case No. 1.

whereon the same was based did not create a burden upon and operate as a regulation of, and an interference with interstate commerce, contrary to Article I, Section VIII, paragraph 3, reading as follows:

- 10 "The Congress shall have power * * *
 3. To regulate commerce with foreign nations, and among the several states, and with the Indian Tribes."

Said court also erred in not holding that the said order and the said statute, or one or both of them, did create a burden upon and operate as a regulation of and an interference with interstate commerce, contrary to said article.

- 20 9. The said Court of Errors and Appeals erred in holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not impair the obligation of contracts between the State of New Jersey and the appellant, contrary to Article I, Section X, paragraph 1, reading as follows:

 "No State shall pass any * * * law impairing the obligation of contracts."

- 30 Said court also erred in not holding that the said order and the said statute, or one or both of them, did impair the obligation of contracts between the State of New Jersey and the appellant, contrary to said article.

- 40 10. The said Court of Errors and Appeals erred in not holding that the statute upon which the order under review is based (being Chapter 57, Laws of 1913), is unreasonable, unconstitutional and invalid for the reason that it establishes no reasonable, or any, standard whereby the Board of Public Utility Commissioners may determine when or under what circumstances a highway grade crossing is dangerous to public

Assignments of Error.

safety, or that the public travel on said highway is impeded thereby, within the meaning of said statute, and delegates legislative power to said Board with respect to such crossings and the orders that may be made concerning the same.

11. The said Court of Errors and Appeals erred in not holding that the statute upon which the order under review is based (being Chapter 57, Laws of 1913), is unreasonable, unconstitutional and invalid for the reason that, when and if the Board finds that a highway grade crossing is dangerous to public safety, or that public travel on the highway is impeded by such crossing, the said statute confers upon said Board arbitrary power to order or to refuse to order that such crossing be altered. 10

12. The said Court of Errors and Appeals erred in not holding that said order is unreasonable and unconstitutional for the reason that it appears that the cost to Erie Railroad Company of complying with said order will greatly exceed the value of the leasehold interest of said company in the property of the President and Board of Directors of the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company, or both of them combined, without any compensating advantage to said Erie Railroad Company, and therefore is, in effect, a confiscation of the property of said Erie Railroad Company, and takes the property of said Erie Railroad Company for the benefit of said the President and Board of Directors of Paterson and Hudson River Railroad Company and Paterson and Ramapo Railroad Company, contrary to the provisions of the Constitutions of the State of New Jersey and of the United States as hereinbefore set forth. 20 30 40

Erie Railroad Company, Case No. 1.

13. The said Court of Errors and Appeals erred in not holding that the said order is unreasonable and unconstitutional for the reason that the cost of complying therewith will exceed the total combined value of all the property, real and personal, of the corporations known as the
10 President and Board of Directors of the Paterson and Hudson River Railroad Company and the Paterson and Ramapo Railroad Company and the value of the appellant's interest therein, and will make the interest and investment of the appellant in said properties, or either of them, incapable of earning, when used for railroad purposes, a fair and reasonable return upon the amount invested therein, and will confiscate appellant's property and interest therein.

20 14. The said Court of Errors and Appeals erred in not holding that said order, with the plan thereto annexed, in so far as they require changes in the location or grades or other property of the corporations known respectively as "The President and Board of Directors of Paterson and Hudson River Railroad Company" and "Paterson and Ramapo Railroad Company" and the construction, relocation or rebuilding thereof
30 in whole or in part, as indicated on said plan, is invalid and beyond the jurisdiction of said Board, for the reason that the said changes, relocations, constructions, reconstructions and rebuildings confiscate the property of the appellant for the benefit of the said the President and Board of Directors of the Paterson and Hudson River Railroad Company and Paterson and Ramapo Railroad Company, and take the property of the appellant for public use without just compensation, contrary to the provisions of the Constitu-

Assignments of Error.

tions of the State of New Jersey and of the United States, as hereinbefore set forth.

15. The said Court of Errors and Appeals erred in not holding that the statute upon which said order is based (being Chapter 57, Laws of 1913), if construed to permit or require the Board of Public Utility Commissioners to order the company operating the railroad at the highway crossings known respectively as (A) Madison avenue, (B) Clay and Straight streets (two crossings), (C) Cedar street, (D) Market street and Park avenue (one crossing), (E) Ellison street, (F) Van Houten street, (G) Broadway, (H) Fair street, (I) Hamilton avenue, (J) Lafayette street, (K) Franklin street, (L) Keen street, (M) Warren street, (N) River and Putnam streets (one crossing), to alter said crossings, or any or either of them, at the expense of said company so operating such railroad (less such amount as may be ordered to be paid by the street railway company using such crossing or crossings), is unconstitutional and void because it takes the property of the appellant for private use, and also takes its property for public use without just compensation and otherwise violates the provisions of the Constitution of the United States, as hereinbefore set forth.

16. The said Court of Errors and Appeals erred in not holding that said order is unreasonable and invalid and impossible of performance, for the reason that the cost to the appellant of complying therewith will be approximately the sum of three million dollars (exclusive of property damage), whereas the testimony taken before said Board shows that appellant did not have, and in all probability will not have, sufficient funds available for such purpose; and has not

Erie Railroad Company, Case No. 1.

and in all reasonable probability will not have, any means of securing funds whereby it might be enabled to comply with said order within the time limited therein.

10 17. The said Court of Errors and Appeals erred in not holding that said order is unreasonable, and the statute upon which the same is based is unconstitutional and invalid, for the reason that each of them fails to give to the railroad the alternative of decreasing or eliminating the danger to public safety and the impediment to public travel by decreasing the number of train movements over said crossings, or some of them, or by abandoning the railroad at said crossings, or some of them.

20 18. The said Court of Errors and Appeals erred in not holding that said order with the plan thereto annexed, so far as they require changes in the location or grade of various switches, sidetracks, leads, bridges, yards, structures and other facilities and property of the appellant, and other companies, corporations, co-partnerships, or individuals, and the construction, relocation or rebuilding thereof, in whole or in part, as indicated on said plan, in invalid and beyond the jurisdiction of said Board for the following reasons:

30 (a) The petition of the Board of Finance of the City of Paterson, upon which said order is based, was limited to a prayer for the elimination of certain highway crossings, and did not include therein any prayer for the relocation or reconstruction or rebuilding of said property of appellant, and said other companies, corporations, copartnerships or individuals.

40 (b) Said Board has no power to order said changes, relocations, constructions, re-

Assignments of Error.

constructions and rebuildings, or any or either of them, upon the petition filed by said Board of Finance of the City of Paterson.

(c) Said changes, relocations, constructions, reconstructions and rebuildings are not, nor is any of either of them, included within the powers conferred by law upon said Board. 10

(d) Said order was not made after hearing, upon notice, as required by law.

(e) Said changes, relocations, constructions, reconstructions and rebuildings are not, nor is any or either of them, any part of the duties or obligations imposed by law upon the appellant, or upon said other companies, corporations, copartnerships or individuals.

(f) Said changes, relocations, constructions, reconstructions and rebuildings are not, nor is any or either of them, reasonably necessary, or required, or appropriate for the elimination of said crossings named in Assignment No. 15, or any or either of them. 20

(g) Said changes, relocations, constructions, reconstructions and rebuildings impose a burden upon the interstate traffic of the appellant and interfere with and impair its ability to perform its duty as an interstate carrier of freight and passengers.

19. The said Court of Errors and Appeals erred in not holding that said order is invalid in so far as it requires the construction or reconstruction and the relocation of the station buildings and facilities at or near Market street and the station buildings and facilities at or near River street, or either of them, in the City of Paterson, other than the station buildings and 30

Erie Railroad Company, Case No. 1.

facilities respectively now occupied and maintained by the appellant, for the following reasons:

10 (a) The petition of the Board of Finance of the City of Paterson, upon which said order was based, was limited to a prayer for the elimination of certain highway crossings, and did not include therein any prayer for the construction or reconstruction or relocation of said station buildings and facilities, or either of them.

(b) There is no evidence to show that said existing station buildings and facilities, or either of them, are not safe, adequate or proper.

(c) It was not made, after hearing, upon notice, as required by law.

20 (d) It does not appear that said constructions, or reconstructions, or relocations, or any or either of them, are reasonably necessary, required or appropriate for the elimination of the highway crossings named in Assignment No. 15, or any or either of them.

30 (e) It deprives the appellant of its property without due process of law, as no hearing has been given to the appellant on the question as to whether said present station buildings and facilities, or either of them, are safe, adequate and proper, or on the question whether, in order to have the same safe, adequate and proper, it is necessary or reasonable to construct or reconstruct or relocate said station buildings and facilities, or either of them, in the manner required by said order.

40 20. The said Court of Errors and Appeals erred in not holding that said order is invalid in so far as it requires the appellant to remove from its present location the buildings and facilities, and each of them, now used respectively by Fullers Express Company and Morris & Com-

Assignments of Error.

pany, and to relocate, rebuild, reconstruct and maintain the same upon the respective sites indicated on the plan and profile attached to said order, for the following reasons:

(a) Said Board is without authority or jurisdiction to make an order requiring the appellant to take any action whatever involving or affecting said buildings and facilities, or either of them.

10

(b) Said Board is without authority or jurisdiction to require the appellant to remove, rebuild, relocate and maintain said buildings and facilities or either of them at the respective sites indicated on the said plan and profile.

(c) Said Board is without authority or jurisdiction to require the appellant to devote said sites, or either of them, to private purposes for the benefit of said Fullers Express Company and Morris & Company, or either of them.

20

(d) Said Board is without authority or jurisdiction to require the appellant to devote said sites, or either of them, to public or any purposes other than the public purposes to which the same, or either of them, are now devoted.

(e) The evidence does not show that the removal of said buildings and facilities, or the relocation, rebuilding, reconstruction and maintenance of the same or either of them, are reasonably necessary, or required, or appropriate for the elimination of the highway crossings named in Assignment No. 15, or any or either of them.

30

21. The said Court of Errors and Appeals erred in not holding that said order is invalid in so far as it requires the appellant to relay, relocate, rebuild, reconstruct and maintain the tracks, poles and wires of Public Service Railway Company on the several sites indicated on the

40

Erie Railroad Company, Case No. 1.

plan and profile attached to said order, for the following reasons:

10 (a) Said Board is without authority or jurisdiction to make an order requiring the appellant to take any action whatever involving or affecting said tracks, poles, wires, or any or either of them.

(b) Said Board is without authority or jurisdiction to require the appellant to relay, relocate, rebuild, reconstruct, or maintain said tracks, poles and wires at the respective sites indicated on said plan and profile.

20 (c) Said Board is without authority or jurisdiction to require the appellant to devote said sites, or any or either of them, so far as the same or some of them are on the right of way or other property of the appellant, to private purposes for the benefit of said Public Service Railway Company.

(d) Said Board is without authority or jurisdiction to require the appellant to devote said sites, or any or either of them, so far as the same or some of them are on the right of way or other property of the appellant, to public or any purposes other than the public purposes to which the same or some of them are now devoted.

30 (e) The evidence does not show that the relaying, relocation, rebuilding, reconstruction, or maintenance of said tracks, poles and wires, or any or either of them, are reasonably necessary or appropriate for the elimination of the highway crossings named in Assignment No. 15, or any or either of them.

(f) The appellant has no legal duty or right to relay, relocate, rebuild, reconstruct, or maintain said tracks, poles and wires, or any or either of them.

40 (g) The legal duty and right to relay, relocate, rebuild, reconstruct and maintain said tracks, poles and wires rests on persons or corporations other than the appellant.

Assignments of Error.

(h) The existing contracts between the appellant or its predecessors, and other persons or corporations, or their predecessors, respectively, with respect to the relaying, relocating, rebuilding, reconstruction and maintenance of said tracks, poles and wires, and each of them, are impaired and destroyed.

10

(i) There is no right in the appellant to relay, relocate, rebuild, reconstruct, or maintain said tracks, poles and wires in, along or through public streets, except under the limitations imposed by law.

22. The said Court of Errors and Appeals erred in not holding that said order is invalid in so far as it requires the appellant to change the lines, width and direction of the highways named in Assignment No. 15, or any or either of them, and to carry so much thereof as so changed under said railroad (except in the case of Madison avenue), and to carry Madison avenue over said railroad, according to and as shown on said plan and profile for said purpose, and to vacate the remaining parts of said highways within the lines of the right of way of the appellant, and to vacate that part of Madison avenue lying west of the railroad which is included between the right of way line of the railroad and the line of the re-located Madison avenue, for the following reasons:

20

30

(a) The appellant is under no legal duty or obligation to change the lines, width or direction of the said highways, or any or either of them, nor to carry any part thereof as so changed under the said railroad, nor to vacate the remaining parts of said highways, or any or either of them, within the lines of said right of way, nor to vacate said part of said Madison Avenue.

(b) The appellant has no power, or authority to change the lines, width or direc-

40

Erie Railroad Company, Case No. 1.

tion of the said highways, or any or either of them, nor to carry any part thereof as as so changed under the said railroad nor to vacate the remaining parts of said highways, or any or either of them, within the lines of said right of way, nor to vacate said part of said Madison Avenue.

10

(c) Said order imposes upon the appellant the entire expense of such changes, relocations and vacations, including damages to adjacent property (except such expenses as by statute are expressly imposed upon municipalities, or other persons or corporations), without affording to the appellant any hearing as to the propriety or necessity of such changes, relocations and vacations, and without affording to the appellant any hearing as to the cause of such changes, relocations or vacations and the method or the amount of the assessment, or assessments, therefor.

20

(d) The power or authority to order the appellant to change the lines, width or direction of said highways, or any or either of them, and to carry any part thereof as so changed under the said railroad and to vacate the remaining parts of said highways, or any or either of them, within the lines of the said right of way, and to vacate said part of said Madison Avenue, has not been conferred by law upon said Board of Public Utility Commissioners, and can only be exercised by the proper municipal, or other authorities, in the manner provided by law.

30

(e) No appropriate proceedings have been taken and the necessary consents have not been given by or in behalf of the appellant, or other interested property owners, for the said changes, relocations and vacations of said highways, or any or either of them, as required by the Charter of the City of Paterson and by the laws of the State of New Jersey.

40

Assignments of Error.

23. The said Court of Errors and Appeals erred in not holding that the statute upon which said order is based is unreasonable, invalid and unconstitutional, in so far as it permits or requires said Board of Public Utility Commissioners to order the appellant to vacate, relocate or change the lines, width, direction or location of the highways named in Assignment No. 15, or any or either of them; and in so far as it permits or requires the opening of new highways in the place of those ordered vacated, for the following reasons:

(a) The appellant is under no legal duty or obligation to vacate, relocate or change the lines, width, direction or location of said highways, or any or either of them, or to open new highways in the place of those ordered vacated.

(b) The appellant has no power or authority to vacate, relocate or change the lines, width, direction or location of said highways, or any or either of them, or to open new highways in the place of those ordered vacated.

(c) Said statute attempts to impose upon the appellant the entire expense of such changes, relocations, or openings, including damages to adjacent property (except such expenses as by statute are expressly imposed upon municipalities or other persons or corporations), without affording to the appellant any hearing as to the propriety or necessity of such changes, relocations, or openings; and without affording to the appellant any hearing as to the costs of such changes, relocations or openings and the method or the amount of the assessment or assessments therefor.

(d) The power or authority to vacate, relocate or change the lines, width, direction or location of such highways and to open

Erie Railroad Company, Case No. 1.

new highways in the place of those ordered vacated, has not been conferred by law upon said Board of Public Utility Commissioners and can only be exercised by the proper municipal or other authorities in the manner provided by law.

- 10 (e) No appropriate proceedings have been taken, and the necessary consents have not been given, by or in behalf of the appellant or other interested property owners for the vacation, relocation or change of the lines, width, direction or location of such highways, or any or either of them, or for the opening of new highways in the place of those ordered vacated, as required by the Charter of the City of Paterson and by the laws of the State of New Jersey.

- 20 24. The said Court of Errors and Appeals erred in not holding that said order is invalid in so far as it requires the appellant to reconstruct the railroad over the public highways named in Assignment No. 15 (except Madison avenue), by elevating the railroad at such public highways, and each of them, and by depressing the grade of said highways, and each of them, in order to pass under the railroad when thus elevated.

- 30 25. The said Court of Errors and Appeals erred in not holding that the statute upon which the order under review is based is unreasonable and invalid and deprives the appellant of its property without due process of law, because it requires grade crossings to be altered and eliminated by substituting therefor a crossing not at the grade of the public highway, either by carrying the public highway over or under such railroad, or by reconstructing such railroad over or under such public highway, without permitting the Board of Public Utility Commissioners in its discretion
40 to alter and eliminate such crossings by depressing

Assignments of Error.

or elevating the public highway in part and depressing or elevating the railroad in part.

26. The said Court of Errors and Appeals erred in not holding that said order and the statute upon which the same is based are illegal, unconstitutional and void in so far as they permit or require the appellant to construct or maintain bridges or passages over or under the railroad at the said crossing, or some one or more of them, named in Assignment No. 15, for the reason that the highways at said crossings, or some one or more of them, were opened and laid out subsequent to the construction of the railroad at said crossings. 10

27. The said Court of Errors and Appeals erred in not holding that the statute upon which the order under review is based (being Chapter 57, Laws of 1913) is unreasonable, unconstitutional and invalid because it deprives the appellant of its property without due process of law, and impairs the obligation of appellant's contracts by permitting the Board of Public Utility Commissioners to alter and amend the charters of the several predecessors in interest of the appellant, to whose rights the appellant has succeeded. 20

28. The said Court of Errors and Appeals erred in not holding that the statute upon which the order under review is based (being Chapter 57, Laws of 1913) is unreasonable, unconstitutional and invalid because it purports, or attempts to delegate, to the Board of Public Utility Commissioners, the power in its discretion to alter and amend the charters of the predecessors in interest of the appellant, to whose rights the appellant has succeeded. 30

Erie Railroad Company, Case No. 1.

29. The said Court of Errors and Appeals erred in not holding that the said order and the statute upon which the same is based are illegal, unconstitutional and void in so far as they permit or require the appellant to relocate and reconstruct the highways mentioned in Assignment No. 10 15, and to change the grade thereof, or parts thereof, outside of the right of way of the appellant at said crossings.

30. The said Court of Errors and Appeals erred in not holding that the statute upon which said order is based is unreasonable and in violation of the Constitution of the United States, because it takes the property of the appellant without just compensation and without due process of law, and denies to it the equal protection of the laws and impairs the obligation of the appellant's contracts as, follows:

(a) The contracts made by the appellant with the holders of its stocks, bonds, notes and other obligations.

(b) The contracts made between the State of New Jersey and the appellant or its predecessors in interest, to whose rights appellant has succeeded.

30 (c) The contracts made between the appellant or its predecessors in interest, to whose rights the appellant has succeeded, and the Public Service Railway Company, or its predecessors in interest.

(d) The contracts made between the appellant, or its predecessors in interest, to whose rights appellant has succeeded, and the various corporations, copartnerships and individuals in possession or enjoyment of various sidings, switches and other facilities, as described in the evidence and in the plan attached to said order.

40 (e) The contracts made between the corporations known respectively as "The Pres-

Assignments of Error.

ident and Board of Directors of Paterson and Hudson River Railroad Company" and "Paterson and Ramapo Railroad Company" and the appellant, or its predecessors in interest, to whose rights the appellant has succeeded.

in that the said statute imposes upon the appellant the entire expense of the alterations, changes, relocations or openings, including damages to adjacent property, caused by the alteration of crossings in the manner described in said statute—except such part of such expense not exceeding ten per cent., which may be imposed upon the street railway using such crossings, and except such part of such expense as the statute requires to be borne by the municipality, and except such part of such expense as the statute requires to be borne by any telegraph, telephone, gas, electric, lighting, power, water, oil, pipe lines or other companies, or corporations, co-partnerships or individuals.

31. The said Court of Errors and Appeals erred in not holding that said order and statute upon which the same are based are unconstitutional, unreasonable and invalid in so far as they limit the proportion of expense of the alterations, changes, relocations or openings (as specified in said statute) to be paid by the street railway using such crossing or crossings, for the following reasons:

(a) Said proportion is not commensurate with, or in proportion to, the danger to public safety or the impediment to public travel created by and chargeable to said street railway at such crossings, and each of them; nor is it commensurate with, or in proportion to, the protection made necessary by such danger or impediment.

10

20

30

40

Erie Railroad Company, Case No. 1.

(b) Said proportion is not a fair or reasonable amount of the expense of such alterations, changes, relocations or openings.

10 (c) Said proportion is less than that imposed upon, and assumed by, the street railway under the terms and conditions of existing agreements between said street railway company, or its predecessors, and the appellant or its predecessors, respecting the use, maintenance and protection of said crossings, and each of them.

32. The said Court of Errors and Appeals erred in not holding that said order is unreasonable and invalid, and the statute upon which same is based is unconstitutional and invalid, for the reason that the testimony shows that it is impossible for the appellant to obey said order; but
20 on failure to obey, the appellant becomes subject to a penalty of one hundred dollars per day for every day during which default continues; and the appellant and its officers, agents and employees, on such neglect or default, become liable to indictment for misdemeanor.

33. The said Court of Errors and Appeals erred in not holding that said order is unreasonable and invalid and in violation of the Constitution of the United States in that the cost to the
30 appellant of compliance therewith is so great that it imposes a burden upon the interstate traffic of the appellant and interferes with and impairs its ability to perform its duty as an interstate carrier of freight and passengers, for the reason that said order compels the appellant to raise and expend moneys which (if available for any purpose), would otherwise be available for, and in the ordinary course of events, would be used by the appellant in the making of changes and
40 improvements which are essential for the purpose

Assignments of Error.

of enabling the appellant to carry on its interstate traffic.

34. The said Court of Errors and Appeals erred in not holding that said order is in violation of the Constitution of the United States, in that it deprives the appellant of its liberty and property without due process of law, denies to the appellant the equal protection of the laws, abridges the privileges and immunities of the appellant, takes the private property of the appellant for public use without just compensation, creates a burden upon and operates as a regulation of and an interference with interstate commerce, and impairs the obligations of contracts, for the reason that the effect of said order will be to deprive the appellant of the rights, benefits, advantages, privileges and contracts now possessed by it with reference to certain sidings in the following respects (numbers correspond to numbers of sidings on maps marked "Exhibit 23" and "Exhibit 23-A"):

(a)	Passaic Steel Co.	No. 3
	R. H. McDonald	No. 4
	Paterson Vehicle Co.	No. 19
	Paterson Beef Co.	No. 20
	David C. Rodgers Co.	No. 24

Said order requires the destruction of each of said sidings.

(b)	G. A. Zabriskie	No. 5
	Commercial Lumber and Mill Work Co.	No. 6
	Christopher Kelly	No. 7
	M. Gobel	No. 8
	National Wood Co.	No. 9
	Standard Oil Co.	No. 10

Said order requires the destruction of the existing siding and the construction of three other sid-

Erie Railroad Company, Case No. 1.

ings in lieu thereof at different locations; and said new sidings, if constructed as required by said plan, will be unavailable for use.

10 Said order further requires the construction of a bridge across Taylor street for the purpose of carrying two of said new sidings to G. A. Zabriskie, Commercial Lumber and Mill Work Co., Christopher Kelly, M. Gobel and National Wood Co.; and requires the construction of another bridge across Taylor street for the purpose of carrying said third new siding to Standard Oil Company.

(c) John Agnew Co. No. 11

20 Said order requires the destruction of the two sidings located between Hamilton avenue and Governor street; and the construction of two new sidings, each at an elevation of about sixteen feet above the present grade upon the land of John Agnew Co., and also requires the construction of a bridge over Hamilton avenue for the purpose of carrying one of said new sidings.

30 (d) McNabb & Harlin No. 15
Graham Brewing Co. No. 16
National Biscuit Co. No. 17
Hygeia Ice Co. No. 47
Paterson Consolidated Ice Co. No. 50
Bon Arbor Chemical Co. No. 55

Said order requires the destruction of the lead by which each of said sidings is reached, and requires the construction of a new and longer lead through a public street in order to reach said sidings and each of them, which said new lead is partially on and partially off the right of way and property of the appellant.

Assignments of Error.

Said order further requires the maintenance of each of said sidings along, in and through a public street.

UNITED STATES OF AMERICA, ss:

10 (SEAL) THE PRESIDENT OF THE UNITED
STATES TO BOARD OF PUBLIC UTILITY
COMMISSIONERS, CITY OF PATERSON
and BOARD OF FINANCE OF SAID CITY,
GREETING:

20 You are hereby cited and admonished to be and
appear at a Supreme Court of the United States,
at Washington, on the day of ,
A. D., Nineteen hundred and , pursuant
to a writ of error filed in the Clerk's office of the
Court of Errors and Appeals of the State of New
Jersey, wherein Erie Railroad Company, a cor-
poration, is plaintiff in error, and you are de-
fendants in error, to show cause, if any there be,
why the judgment in said writ of error mentioned
should not be corrected and speedy justice should
not be done to the parties in that behalf.

WITNESS, THE HONORABLE EDWARD DOUGLAS
WHITE, Chief Justice of the United States of Amer-
ica, this fifth day of March, A. D., Nineteen hun-
dred and eighteen.

30 E. R. WALKER,
Chancellor, Presiding Judge of the New
Jersey Court of Errors and Appeals.

THOMAS F. MARTIN,
Clerk.

Service of this citation and receipt of a copy
thereof for defendants in error acknowledged this
Seventh day of March, 1918.

This cause having been duly argued at the November Term, 1916, of this court by Gilbert Collins and George S. Hobart, of counsel for the appellant, and L. Edward Herrmann and Francis Scott, of counsel for the respondents, and the court having considered the same, and finding no error in the record or proceedings in the Supreme Court;

It is thereupon, on this 11th day of October, in the year of our Lord one thousand nine hundred seventeen, ordered and adjudged that the judgment of the Supreme Court, removed by the appeal in this cause, be affirmed with costs; and that the record be remitted to the Supreme Court to be proceeded with in accordance with this judgment and the practice of said court.

Writ of Error.
(Case No. 2.)**To The Honorable Edwin Robert Walker, Chan-
cellor and Presiding Judge of the Court of Er-
rors and Appeals of the State of New Jersey:*

30 ERIE RAILROAD COMPANY, a corporation, the ap-
pellant in the above entitled cause, feeling ag-
grieved by the judgment of this court, entered on
the fifth day of March, 1918, affirming the final
judgment of the Supreme Court of the State of
New Jersey herein, dated June 28, 1916, which
judgment affirmed the report, determination or
order of the Board of Public Utility Commission-
ers dated July 9, 1915, denying an application of
said Erie Railroad Company for a re-hearing of
a certain proceeding entitled "In the Matter of
40 the Application of the City of Paterson for altera-

Petition for Writ of Error.

tion of grade crossings on the line of the Erie Railroad," which resulted in an order of said Board, dated April 20, 1915, whereby the said Erie Railroad Company was ordered to alter certain grade crossings, according to the plan therefor annexed to said order and made part thereof, comes now by Collins & Corbin, its attorneys, and respectfully represents as follows: 10

1. The said cause was upon a writ of certiorari issued by the Supreme Court of the State of New Jersey to the Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, to review the legality of the said report, determination or order of said Board dated July 9, 1915, denying the application of your petitioner for a re-hearing of a certain proceeding entitled "In the Matter of the Application of the City of Paterson for alteration of grade crossings on the line of the Erie Railroad," which resulted in an order of said Board dated April 20, 1915, whereby your petitioner was ordered to alter certain grade crossings in the City of Paterson, and each of them, according to the plan therefor annexed to and made a part of said order, and the profile of same, also annexed to and made part of said order. 20

2. Upon the hearing of said writ of certiorari the Supreme Court of the State of New Jersey affirmed the said order of said Board and thereupon your petitioner appealed from said judgment to the Court of Errors and Appeals of the State of New Jersey, and the matter having been heard by said court, the judgment of the said Supreme Court was in all things affirmed. 30

3. Your petitioner shows that the said report, determination or order of said Board dated July 9, 1915, denying the application of your petitioner 40

Erie Railroad Company, Case No. 2.

for a rehearing of the proceedings entitled "In the Matter of the Application of the City of Paterson for alteration of grade crossings on the line of the Erie Railroad," which resulted in said order, dated April 20, 1915, and the statute of the State of New Jersey (being Chapter 57 of the Laws of 1913), upon which said last mentioned order pur-
10 ported to be based, insofar as the same or either of them affect the rights and property of your petitioner, are invalid and in violation of the Constitution of the United States, in that:

(a) Said report, determination or order dated July 9, 1915, and said statute take the private property of your petitioner for public use without just or any compensation;

(b) Said report, determination or order dated
20 July 9, 1915, and said statute deny to your petitioner the equal protection of law and deprive it of its property without due process of law, and abridge its privileges and immunities as a citizen of the United States;

(c) Said report, determination or order dated July 9, 1915, and said statute are contrary to Article I, Section 10, paragraph 1 of said Constitution, in that they impair the obligation of con-
30 tracts;

(d) Said report, determination or order dated July 9, 1915, and said statute require the property of your petitioner to be taken for the private use of other persons or corporations;

(e) Said report, determination or order dated July 9, 1915, and said statute create a burden upon and operate as a regulation of and an interference with the interstate traffic of your petitioner, contrary to Article I, Section 8, paragraph 3 of the Constitution of the United States, and impair
40

Petition for Writ of Error.

the ability of your petitioner to perform its duty as a common carrier of such interstate traffic.

4. Your petitioner urged in said Supreme Court and said Court of Errors and Appeals of the State of New Jersey that all of the said matters and things were secured to your petitioner by virtue of the provisions of the Constitution of the United States and the amendments thereto, and that the judgments of the said Supreme Court and of the Court of Errors and Appeals were and are in violation of the Constitution of the United States and the amendments thereto. 10

5. The said Court of Errors and Appeals of the State of New Jersey is the highest court of said State in which judgment could be rendered in said proceedings; and said court having affirmed the judgment of the Supreme Court of the State of New Jersey, whereby it was decided that said report, determination or order dated July 9, 1915, of said Board of Public Utility Commissioners was invalid, and having decided that your petitioner was and is not entitled to the rights claimed by virtue of the provisions of the Constitution of the United States and the amendments thereto, as above set forth, your petitioner alleges that it is aggrieved in that, by the proceedings and judgments aforesaid, it has been denied the rights to which it is entitled by virtue of the said provisions of the Constitution of the United States and the amendments thereto. 20 30

6. Your petitioner therefore prays that an order may be made allowing your petitioner to prosecute a writ of error to the United States Supreme Court under and according to the laws of the United States in that behalf made and provided, directed to the said New Jersey Court of Errors and Ap- 40

Erie Railroad Company, Case No. 2.

peals, removing the judgments and proceedings aforesaid, and that your petitioner may have such other relief as may be proper.

And your petitioner will ever pray, etc.

COLLINS & CORBIN,

Attorneys of Petitioner.

BOND.

KNOW ALL MEN BY THESE PRESENTS, That we, ERIE RAILROAD COMPANY, a corporation of the State of New York, as principal, and NATIONAL SURETY COMPANY, a corporation of the State of New York, as surety, are held and firmly bound unto the BOARD OF PUBLIC UTILITY COMMISSIONERS, CITY OF PATERSON and BOARD OF FINANCE OF SAID CITY, in the just and full sum of One thousand dollars (\$1,000) to be paid to them and each of them, their and each of their successors or assigns, to which payment well and truly to be made, we bind ourselves, our successors and assigns jointly and severally firmly by these presents.

20

30

Sealed with our respective corporate seals and dated the 13th day of December, in the year of our Lord, One thousand nine hundred and seventeen.

WHEREAS, lately at the session of the Court of Errors and Appeals of the State of New Jersey in an action pending in said court between Erie Railroad Company, appellant, and Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, respondents, a

40

Erie Railroad Company, Case No. 2.

final judgment was rendered affirming the judgment of the Supreme Court of the State of New Jersey in favor of the said respondents, and the said appellants having obtained from said court a writ of error to reverse the judgment in the aforesaid action and a citation directed to said respondents is about to be issued, citing and admonishing them to be and appear at the Supreme Court of the United States at Washington—

Now the condition of the above obligation is such that if the Erie Railroad Company shall prosecute its writ of error to effect and shall answer all damages and costs that may be awarded against it, if it fails to make its plea good, then the above obligation to be void; otherwise to remain in full force and virtue.

UNITED STATES OF AMERICA, ss.

10 THE PRESIDENT OF THE UNITED
STATES TO THE HONORABLE JUDGES
(SEAL) OF THE COURT OF ERRORS AND AP-
PEALS OF THE STATE OF NEW JERSEY,
GREETING:

20 Because in the record and proceedings as also
in the rendition of the judgment of a plea which
is in the said Court of Errors and Appeals of
the State of New Jersey before you, or some of
you, being the highest court of law or equity of
the said state in which a decision could be had,
in an action between Erie Railroad Company, ap-
pellant, and Board of Public Utility Commis-
sioners, City of Paterson and Board of Finance of
said City, respondents, manifest error hath hap-
pened to the great damage of Erie Railroad Com-
pany, appellant, as by its complaint appears; we,
being willing that error, if any hath been, should be
duly corrected and full and complete justice done
to the parties aforesaid in this behalf, do command
you, if judgment be therein given, that then under
30 your seal, distinctly and openly you send the
records and proceedings aforesaid, with all things
concerning the same, to the Supreme Court of
the United States, together with this writ, so
that you may have the same at Washington on
the fourth day of April, next, in the said Supreme
Court to be then and there held that the record
and proceedings aforesaid being inspected, the
said Supreme Court may cause further to be done
therein to correct that error what of right and
40 according to the laws and Constitution of the
United States should be done.

Writ of Error.

WITNESS, the Honorable Edward Douglas White,
Chief Justice of the United States, the fifth day
of March, Nineteen hundred and eighteen.

Erie Railroad Company, Case No. 2.

Assignments of Error.

Filed March 5, 1918.

**NEW JERSEY COURT OF ERRORS AND
APPEALS.**

10	ERIE RAILROAD COMPANY, <div style="text-align: right;"><i>Appellant,</i></div> <div style="text-align: center;"><i>vs.</i></div> BOARD OF PUBLIC UTILITY COM- MISSIONERS, CITY OF PATERSON and BOARD OF FINANCE OF SAID CITY, <div style="text-align: right;"><i>Respondents.</i></div>	}	<i>Assignments of Error.</i> <i>(Case No. 2.)</i>
----	--	---	--

20 ERIE RAILROAD COMPANY, by Collins & Corbin,
its attorneys, comes and files the following assign-
ments of error upon which it will rely:

1. The said Court of Errors and Appeals of
the State of New Jersey erred in affirming the
judgment of the Supreme Court of the State of
New Jersey, which had affirmed a certain report,
determination or order made by the Board of
Public Utility Commissioners of the State of New
Jersey dated July 9, 1915, and brought up to
the said Supreme Court by the writ of certiorari
30 issued out of that court.

2. The said Court of Errors and Appeals of
the State of New Jersey erred in not reversing
the said judgment of the said Supreme Court of
the State of New Jersey, for the several grounds
of appeal, or for one or more thereof, filed by
the appellant, and in not sustaining the said
grounds of appeal, or some one or more of them.

3. The said Court of Errors and Appeals
40 erred in holding that the said report, determina-
tion or order made by said Board of Public

Assignments of Error.

Utility Commissioners dated July 9, 1915, denying an application by Erie Railroad Company for a rehearing of the proceeding entitled "In the Matter of the Application of the City of Paterson for alteration of grade crossings on the line of the Erie Railroad," which resulted in an order of said Board dated April 20, 1915, and the statute of the State of New Jersey whereon the last mentioned order was based, did not violate the rights of the appellant secured to it by the Constitution of the United States and the several amendments thereto. 10

4. Said Court of Errors and Appeals erred in holding that the said report, determination or order dated July 9, 1915, and the said order, did not take the private property of the appellant for public use without just or any compensation. 20

5. Said Court of Errors and Appeals erred in holding that the said report, determination or order dated July 9, 1915, and the said statute did not deny to the appellant the equal protection of the law and deprive it of its property without due process of law, and did not abridge its privileges and immunities as a citizen of the United States.

6. Said Court of Errors and Appeals erred in holding that the said report, determination or order dated July 9, 1915, and the said statute were not contrary to Article I, Section 10, paragraph 1 of said Constitution in that they impaired the obligation of contracts. 30

7. Said Court of Errors and Appeals erred in holding that the said report, determination or order dated July 9, 1915, and the said statute did not require the property of the appellant to be taken for the private use of other persons or corporations. 40

Erie Railroad Company, Case No. 2.

8. Said Court of Errors and Appeals erred in holding that said report, determination or order dated July 9, 1915, and the said statute did not create a burden upon and operate as a regulation of and an interference with the interstate traffic of your petitioner, contrary to Article I, Section VIII, paragraph 3 of the Constitution of the United States, and impair the ability of your petitioner to perform its duty as a common carrier of such interstate traffic.

9. The action of the Board of Public Utility Commissioners in denying the application of the appellant for a rehearing of the order of said Board dated April 20, 1915, was arbitrary and unjustified, and was not supported by the evidence taken before said Board.

10. Said application for a rehearing of said order of April 20, 1915, should have been granted for the purpose of considering the plan proposed by the appellant in said application for a rehearing, in lieu of the plan described in said order, and for the purpose of taking testimony thereon so far as might be necessary.

11. The application of the appellant that the effective date of said order of April 20, 1915, be extended for such reasonable time as would permit a full consideration of said petition for a rehearing, should have been granted.

12. The evidence shows that the action of said Board in denying said application for a hearing was:

- (a) Purely arbitrary.
- (b) Without any reasonable basis upon which to rest.
- (c) Unsupported by the facts laid before said Board.

Assignments of Error.

13. The action of said Board in denying said application for a rehearing was contrary to the undisputed testimony taken before said Board upon said application.

14. Said application of the appellant for a rehearing should have been granted for the reason that the undisputed testimony before said Board taken on such application showed that it was feasible and practicable to remove the danger to public safety and the impediment to public travel at the highway crossings, and each of them, involved in this proceeding, by adopting the plan proposed by the appellant in said application, in lieu of the plan described in said order, dated April 20, 1915. 10

The appellant, ERIE RAILROAD COMPANY, therefore prays that the judgment aforesaid may be reversed, annulled and for nothing holden, and that it may be restored to all things which it may have lost by occasion of said judgment. 20

Petition for Writ of Error.

Filed March 3, 1918.

**NEW JERSEY COURT OF ERRORS AND
APPEALS.**PUBLIC SERVICE RAILWAY COM-
PANY,*Prosecutor-Appellant.*

vs.

20

BOARD OF PUBLIC UTILITY COM-
MISSIONERS AND THE CITY OF
PATERSON,*Defendants-Respondents.**On Certiorari.**Petition for a
Writ of Error
to United
States
Supreme
Court.**To the Honorable Edwin Robert Walker, Chan-
cellor and Presiding Judge of the Court of Er-
rors and Appeals of the State of New Jersey:*

The petition of Public Service Railway Company,
 30 prosecutor-appellant in the above entitled cause,
 respectfully represents that it is a citizen of the
 United States and of the State of New Jersey, and
 is the owner of and engaged in the operation and
 management of a street railway in the streets of
 the City of Paterson, in the State of New Jersey,
 and said railway is laid and operated across the
 railroad tracks of the Erie Railroad Company in
 said city; that at the present June term of this
 court final judgment was rendered in the above
 40 stated cause wherein your petitioner, Public Ser-

Petition for Writ of Error.

vice Railway Company, was prosecutor-appellant, and the Board of Public Utility Commissioners and the City of Paterson were defendants-respondents in the New Jersey Court of Errors and Appeals, which court is the court of last resort in all causes and the highest court of law and equity in the State of New Jersey in which a decision could be had.

10

That said action was upon a writ of certiorari issued by the Supreme Court of New Jersey to the Board of Public Utility Commissioners to review the legality of a certain order made by the said Board dated the twentieth day of April, nineteen hundred and fifteen, requiring Public Service Railway Company to pay ten per centum of the cost of abolishing certain grade crossings of the Erie Railroad in the City of Paterson, to wit, at Park avenue and Market street, Broadway and River street, to which action the Board of Public Utility Commissioners and the City of Paterson were defendants; and that upon the hearing of said suit the Supreme Court of New Jersey affirmed the said order of said Board by its judgment; whereupon your petitioner appealed from said judgment to the Court of Errors and Appeals, and the matter coming on to be heard before that court, the judgment of the said Supreme Court was in all things affirmed.

20

30

And your petitioner further shows that the said action by the said Board of Public Utility Commissioners which ordered your petitioner to pay ten per centum of the cost of abolishing said grade crossings deprived it of its property in violation of the Constitution of the United States, deprived it of its property without due process of law, denied it the equal protection of the laws, took its property for public use without just compensation,

40

Public Service Railway Company Case.

confiscated property of your petitioner employed in serving the public, and impaired the obligation of lawful contracts made and held by your petitioner.

That your petitioner urged in said Supreme Court and said Court of Errors and Appeals that all of the said matters and things were secured to
10 your petitioner under and by virtue of Section 1 of the Fourteenth Amendment of the Constitution of the United States; and that the judgment of the said Supreme Court and the said judgment of the Court of Errors and Appeals, was and is in violation of the Constitution of the United States, and particularly of the aforesaid provisions thereof.

The said New Jersey Court of Errors and Appeals, being the highest court in which such judgment could be rendered in the State of New Jersey, and having decided that the order of said
20 Board of Public Utility Commissioners dated the twentieth day of April, nineteen hundred and fifteen, was valid and effectual in law, and having decided that your petitioner was not entitled to the right claimed in and by virtue of the provisions of the Constitution of the United States hereinbefore referred to, your petitioner alleges that it is aggrieved in that in the proceedings aforesaid said courts have denied to it the right to which it
30 is entitled as a citizen of the United States, all of which will more fully and particularly appear in detail in the record presented herein.

Your petitioner therefore prays that a writ of error may issue from the Supreme Court of the United States, directed to the New Jersey Court of Errors and Appeals, removing the judgments and proceedings aforesaid that there may be done thereof what according to the Constitution of the United States and the laws of the land ought to be

Bond.

done, and that your petitioner may have such other relief as may be proper.

And your petitioner will ever pray, &c.

PUBLIC SERVICE RAILWAY COMPANY,

By FRANK BERGEN,

Attorney for and of Counsel with Prosecutor- 10
Appellant.

Endorsed:

“Filed Mar. 5, 1918.

THOMAS F. MARTIN,
Clerk.”

BOND.

KNOW ALL MEN BY THESE PRESENTS, that we PUBLIC SERVICE RAILWAY COMPANY, a corporation of the State of New Jersey, as principal, and FIDELITY AND DEPOSIT COMPANY OF MARYLAND, a corporation of the State of Maryland, as surety, obligors, are held and firmly bound unto Board of Public Utility Commissioners of the State of New Jersey, and City of Paterson, as obligees, in the full and just sum of five hundred dollars, lawful money of the United States of America, to be paid to the said obligees or their certain attorney or assigns, to which payment, well and truly to be made, the said obligors bind themselves and their successors jointly and severally, firmly by these presents. 20 30

Sealed with their corporate seals and dated this twenty-sixth day of February in the year of our Lord one thousand nine hundred and eighteen.

WHEREAS, lately at a session of the New Jersey Court of Errors and Appeals in a suit depending in said court between Public Service Railway Company, prosecutor-appellant, and Board of Public Utility Commissioners and the City of Paterson, 40

Public Service Railway Company Case.

defendants-respondents, final judgment was rendered against the said Public Service Railway Company, and it having obtained a writ of error and filed a copy thereof in the clerk's office of the said court to reverse the judgment in the aforesaid suit, and a citation directed to the said Board of
 10 Public Utility Commissioners and the City of Paterson, citing and admonishing them to be and appear at a Supreme Court of the United States at Washington within thirty days from the date thereof;

Now, THEREFORE, the condition of the above obligation is such that if the said Public Service Railway Company shall prosecute said writ of error to effect, and answer all damages and costs if it fails to make its plea good, then the above obligation to be void; otherwise to remain in full force
 20 and effect.

PUBLIC SERVICE RAILWAY COMPANY,

Filed March 5, 1918.

UNITED STATES OF AMERICA, SS:

10 THE PRESIDENT OF THE UNITED
STATES to the Honorable the
(SEAL) Judges of the Court of Errors
and Appeals of the State of New
Jersey, GREETING:

20 Because in the record and proceedings, and
also in the rendition of the judgment of a plea
which is in the said Court of Errors and Appeals
of the State of New Jersey before you, or some
of you, being the highest court of law or equity of
the said state in which a decision could be had
in the said suit between Public Service Railway
Company, prosecutor-appellant, and the Board of
Public Utility Commissioners and the City of
Paterson, defendants-respondents, wherein was
drawn in question the validity of a treaty or
statute of, or an authority exercised under, the
United States, and the decision was against their
validity; or wherein was drawn in question the
validity of a statute of, or an authority exercised
30 under, said state, on the ground of their being
repugnant to the constitution, treaties, or laws of
the United States, and the decision was in favor
of such their validity; or wherein was drawn in
question the construction of a clause of the con-
stitution, or of a treaty, or statute of, or commis-
sion held under the United States, and the de-
cision was against the title, right, privilege, or
exemption especially set up or claimed under such
clause of the said constitution, treaty, statute or
40 commission; a manifest error hath happened to

Writ of Error.

the great damage of the said Public Service Railway Company, as by its complaint appears: We being willing that error, if any hath been, should be duly corrected, and full and speedy justice done to the parties aforesaid in this behalf, do command you, if judgment be therein given, that then under your seal, distinctly and openly, you send the record and proceedings aforesaid, with all things concerning the same, to the Supreme Court of the United States, together with this writ, so that you have the same in the said Supreme Court at Washington, within thirty days from the date hereof, that the record and proceedings aforesaid being inspected, the said Supreme Court may cause further to be done therein to correct that error, what of right, and according to the laws and customs of the United States should be done. 10 20

APPEALS.**PUBLIC SERVICE RAILWAY COM-
PANY,*Prosecutor-Appellant,**vs.*BOARD OF PUBLIC UTILITY COM-
MISSIONERS AND THE CITY OF
PATERSON,*Defendants-Respondents.**On Certiorari.**Assignments
of Error.*

10

Now comes the said Public Service Railway
Company, prosecutor-appellant herein, and re-
spectfully submits and shows to the court that
in the record, proceedings, decision and final judg-
ment of the Court of Errors and Appeals of the
State of New Jersey in the above entitled cause
in favor of Board of Public Utility Commissioners
and the City of Paterson and against Public
Service Railway Company, manifest error has
intervened to the great injury and damage of the
prosecutor-appellant, the plaintiff in error here-
after, as follows, to wit:

20

30

First: The said Court of Errors and Appeals
of the State of New Jersey erred in affirming the
judgment of the Supreme Court of the State of
New Jersey, which had affirmed a certain order
made by the Board of Public Utility Commissioners
of the State of New Jersey dated the twentieth
day of April, nineteen hundred and fifteen, and

40

Public Service Railway Company Case.

brought up to the said Supreme Court by the writ of certiorari issued out of that court in this cause.

Second: The said Court of Errors and Appeals of the State of New Jersey erred in not reversing the said judgment of the said Supreme Court of the State of New Jersey in this cause, for the
10 several causes and reasons, or for one or more of the causes and reasons and assignments of error filed by the prosecutor-appellant, and in not sustaining the allegations of error so filed.

Third: The said Court of Errors and Appeals erred in holding that the said order made by the said Board of Public Utility Commissioners, dated the twentieth day of April, nineteen hundred and fifteen, was a lawful exercise of the power and
20 authority of said Board of Public Utility Commissioners, and did not violate rights of the prosecutor-appellant and deprive it of property in violation of the Constitution of the United States.

Fourth: The said Court of Errors and Appeals of New Jersey erred in not holding that the action of the said Board of Public Utility Commissioners in making said order did unlawfully deprive the prosecutor-appellant of its property without due process of law.

Fifth: The said Court of Errors and Appeals
30 of New Jersey erred in not holding that the action of the said Board of Public Utility Commissioners in making said order did deny to the prosecutor-appellant the equal protection of the laws.

Sixth: The said Court of Errors and Appeals of New Jersey erred in not holding that the action of the said Board of Public Utility Commissioners in making said order did have the effect of taking the property of the prosecutor-appellant for public use without just compensation.

Assignments of Error.

Seventh: The said order of the said Board of Public Utility Commissioners, the judgment of the said Supreme Court of New Jersey, and the judgment of the said Court of Errors and Appeals of New Jersey enabled the State of New Jersey to deprive, and do deprive, the prosecutor-appellant of its property without due process of law, and in violation of Section I of the Fourteenth Amendment of the Constitution of the United States. 10

Eighth: The said order of the said Board of Public Utility Commissioners, the said judgment of the said Supreme Court of New Jersey, and the said judgment of the said Court of Errors and Appeals of New Jersey, have the effect of taking, and do in fact take, the property of the prosecutor-appellant for public use without just compensation, in violation of Section I of the Fourteenth Amendment of the Constitution of the United States. 20

Ninth: The said order of the said Board of Public Utility Commissioners, the said judgment of the said Supreme Court of New Jersey, and the said judgment of the said Court of Errors and Appeals of New Jersey, deny to the prosecutor-appellant, which is a corporation of the State of New Jersey and within its jurisdiction, the equal protection of the Constitution and laws of the State of New Jersey, in violation of Section I of the Fourteenth Amendment of the Constitution of the United States. 30

Tenth: The enforcement of the said order of the said Board of Public Utility Commissioners, the said judgment of the said Supreme Court of New Jersey, and the said judgment of the said Court of Errors and Appeals of New Jersey, con-

Public Service Railway Company Case.

10 confiscate valuable property of the prosecutor-appellant, employed in serving the public.

10 Eleventh: The enforcement of the said order of the said Board of Public Utility Commissioners, the said judgment of the said Supreme Court of New Jersey, and the said judgment of the said Court of Errors and Appeals of New Jersey, con-
 20 fiscate, violate, impair and destroy valuable property and property rights of the prosecutor-appellant, acquired, recognized and vested under and by virtue of the Constitution and laws of the State of New Jersey and the Constitution of the United States, prior to the date of the said order.

20 And the said prosecutor-appellant prays that the judgments aforesaid, and each of them, may be reversed, annulled and for nothing holden, and
 20 that the said order made by the said Board of Public Utility Commissioners of the State of New Jersey dated the twentieth day of April, nineteen hundred and fifteen, set forth in the record and proceedings in this cause, may be adjudged to be illegal and void, and that the same be set aside and for nothing holden.

10

PASSAIC WATER COMPANY,

Prosecutor-Appellant,

vs.

BOARD OF PUBLIC UTILITY COM-
MISSIONERS, *et al.*,

Defendants-Respondents.

Per Curiam.

On appeal from the Supreme Court, in which the following per curiam was filed:

20

“In this case there are twelve reasons presented to the court for setting aside the order made by the Board of Public Utility Commissioners. They are, however, argued under four points in prosecutor’s brief. The first and fourth points argued are the statute upon which the order under review is based is invalid and unconstitutional, because it takes the private property of the prosecutor for public use without any compensation, denies the prosecutor the equal protection of the law; impairs the obligation of contracts, &c. All these points are disposed of in the opinion of the court in *Erie Railroad Company v. Board of Public Utility Commissioners*.

30

The second point argued is, the statute is unconstitutional insofar as it deprives the Court of Chancery of its exclusive jurisdiction over the

40

Passaic Water Company Case.

regulation of the use of easements. This point is disposed of in the opinion of the court in the case of the *Erie Railroad Company v. Board of Public Utility Commissioners*.

- 10 The third point argued is, the order is invalid and beyond the jurisdiction of the Board, insofar as it requires the prosecutor to change the location of its water pipes, water mains, &c., arguing that the title of the statute does not truly express the object of the legislation which it embodies, this and the other points under this head are disposed of also in the opinion of the court in the case of the *Erie Railroad Company v. Board of Public Utility Commissioners*.

The order under review will be affirmed with costs."

- 20 For prosecutor-appellant, Humphreys & Sumner.
For defendants-respondents, L. Edward Herrmann and Frank H. Sommer.

Per Curiam:

The judgment under review will be affirmed for the reasons set forth in the opinion of the Supreme Court.

Petition for Writ of Error.

Filed March 5, 1918.

**NEW JERSEY COURT OF ERRORS AND
APPEALS.**

PASSAIC WATER COMPANY,*Appellant,**vs.*20 BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
and BOARD OF FINANCE OF SAID
CITY,*Respondents.**Petition for
Writ of
Error.**To the Honorable Edwin Robert Walker, Chan-
cellor and Presiding Judge of the Court of Errors
and Appeals of the State of New Jersey:*30 PASSAIC WATER COMPANY, a corporation, the ap-
pellant in the above entitled cause, feeling ag-
grieved by the judgment of this court, entered on
the fifth day of March, 1918, affirming the final
judgment of the Supreme Court of the State of
New Jersey herein, dated June 28, 1916, which
judgment affirmed an order of the Board of Public
Utility Commissioners, dated April 20, 1915, in
a certain proceeding entitled, "In the Matter of
the Application of the City of Paterson for altera-
40 tion of grade crossings on the line of the Erie

Petition for Writ of Error.

Railroad," whereby the Erie Railroad Company was ordered to alter certain grade crossings, according to the plan therefor annexed to said order and made part thereof, and whereby certain other of the parties to said proceeding, including the petitioner herein, were ordered to make certain changes in their property and construction and to comply with all of the requirements of said order, comes now, by Humphreys & Sumner, its attorneys, and respectfully represents as follows: 10

1. The said cause was upon a writ of certiorari issued by the Supreme Court of the State of New Jersey to the Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, to review the legality of the said order of said Board, dated April 20, 1916, requiring your petitioner to change or remove its property or construction to carry said order into effect, according to a certain plan thereto annexed and made part thereof; and further requiring your petitioner to proceed with due diligence to the execution of said order and to comply with all of the requirements thereof and the duties imposed upon it thereby, and by the statute under which said order was made, and the laws of the State of New Jersey, and that to that end it exercise in good faith all of the powers conferred upon it by the laws of said State. 20 30

2. Upon the hearing of said writ of certiorari the Supreme Court of the State of New Jersey affirmed the said order of said Board and thereupon your petitioner appealed from said judgment to the Court of Errors and Appeals of the State of New Jersey, and the matter having been heard by said court, the judgment of the said Supreme Court was in all things affirmed.

Passaic Water Company Case.

3. Your petitioner shows that the said order of said Board of Public Utility Commissioners, and the statute of the State of New Jersey (being Chapter 57 of the Laws of 1913), upon which such order purported to be based, insofar as the same or either of them affect the rights and property of your petitioner, are invalid, and in violation of the Constitution of the United States in that:

(a) Said order and statute take the private property of your petitioner for public use without just or any compensation;

(b) Said order and statute deny to your petitioner the equal protection of the law and deprive it of its property without due process of law, and abridge its privileges and immunities as a citizen of the United States;

(c) Said order and statute are contrary to Article I, Section 10, paragraph 1 of said Constitution, in that they impair the obligation of contracts;

(d) Said order and statute require the property of your petitioner to be taken for the private use of other persons or corporations;

4. Your petitioner urged in said Supreme Court and said Court of Errors and Appeals of the State of New Jersey that all of the said matters and things were secured to your petitioner by virtue of the provisions of the Constitution of the United States and the amendments thereto, and that the judgments of the said Supreme Court and of the Court of Errors and Appeals were and are in violation of the Constitution of the United States and the amendments thereto.

5. The said Court of Errors and Appeals of the State of New Jersey is the highest court of said State in which judgment could be rendered in said

Petition for Writ of Error.

proceeding; and said court having affirmed the judgment of the Supreme Court of the State of New Jersey, whereby it was decided that said order of said Board of Public Utility Commissioners was valid, and having decided that your petitioner was and is not entitled to the rights claimed by virtue of the provisions of the Constitution of the United States and the amendments thereto, as above set forth, your petitioner alleges that it is aggrieved in that, by the proceedings and judgments aforesaid, it has been denied the rights to which it is entitled by virtue of the said provisions of the Constitution of the United States and the amendments thereto. 10

6. Your petitioner therefore prays that an order may be made allowing your petitioner to prosecute a writ of error to the United States Supreme Court under and according to the laws of the United States in that behalf made and provided, directed to the said New Jersey Court of Errors and Appeals, removing the judgments and proceedings aforesaid, and that your petitioner may have such other relief as may be proper. 20

And your petitioner will ever pray, etc.

CITY,
<div style="text-align: right;"><i>Respondents.</i></div> | } | <i>Assignments
of Error.</i> |
|----|--|---|----------------------------------|

- 20 PASSAIC WATER COMPANY, by Humphreys & Sumner, its attorneys, comes and files the following assignments of error upon which it will rely:

1. The said Court of Errors and Appeals of the State of New Jersey erred in affirming the judgment of the Supreme Court of the State of New Jersey, which had affirmed a certain report, determination or order made by the Board of Public Utility Commissioners of the State of New Jersey dated July 9, 1915, and brought up to the said Supreme Court by the writ of certiorari issued out of that court.
- 30

2. The said Court of Errors and Appeals of the State of New Jersey erred in not reversing the said judgment of the said Supreme Court of the State of New Jersey, for the several grounds of appeal, or for one or more thereof, filed by the appellant, and in not sustaining the said grounds of appeal, or some one or more of them.

- 40 3. The said Court of Errors and Appeals erred in holding that the said order made by said Board

Assignments of Error.

of Public Utility Commissioners dated April 20, 1915, and the statute of the State of New Jersey whereon the same was based, did not violate the rights of the appellant secured to it by the Constitution of the United States and the several amendments thereto.

4. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deprive the appellant of its liberty and property without due process of law, contrary to the Fifth and Fourteenth Amendments of the Constitution of the United States, reading as follows: 10

“ARTICLE V.

“No person shall be * * * deprived of life, liberty or property, without due process of law.” 20

“ARTICLE XIV.

“Nor shall any State deprive any person of life, liberty or property without due process of law.”

5. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deny to appellant the equal protection of the laws, contrary to the Fourteenth Amendment of the Constitution, reading as follows: 30

“Nor shall any State deny to any person within its jurisdiction the equal protection of the laws.”

6. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not abridge the privileges or immunities of the appellant, contrary 40

Passaic Water Company Case.

to the Fourteenth Amendment of the Constitution, reading as follows:

“No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States.”

7. The said Court of Errors and Appeals erred
10 in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not take the private property of the appellant for public use without just compensation, contrary to the Fifth Amendment of the said Constitution, reading as follows:

“Nor shall private property be taken for public use without just compensation.”

8. The said Court of Errors and Appeals erred
20 in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not impair the obligation of contracts between the State of New Jersey and the appellant, contrary to Article I, Section X, paragraph 1, reading as follows:

“No State shall pass any . . . law impairing the obligation of contracts.”

The appellant, PASSAIC WATER COMPANY, there-
fore prays that the judgment aforesaid may be
30 reversed, annulled and for nothing holden, and that it may be restored to all things that it may have lost by occasion of said judgment.

Prosecutor-Appellant,

vs.

BOARD OF PUBLIC UTILITY COM-
MISSIONERS, *et al.*,

Defendants-Respondents.

No. 52.
November
Term, 1916.
Per Curiam.

10

On appeal from the Supreme Court, in which the following per curiam was filed: 20

"In this case, there are eleven reasons presented to the court for setting aside the order made by the Board of Public Utility Commissioners. They are in the main identical with the reasons presented by the prosecutor, the Passaic Water Company, except an additional reason, viz., the order is invalid, because it imposes a burden upon the interstate traffic of the prosecutor, interferes with and impairs its ability to perform its duty as a common carrier of such traffic. 30

They are, however, argued under five points, in prosecutor's brief. The first four points are constitutional questions, all of which are disposed of in the opinion of the court in the case of *Eric Railroad Company v. Board of Public Utility Commissioners*.

The fifth point is, the order is invalid, stating six reasons; these, also, have been disposed of in

40

Western Union Telegraph Company Case.

the opinion of the court in the case of *Erie Railroad Company v. Board of Public Utility Commissioners*. They had no further discussion.

The order under review will be affirmed with costs."

For prosecutor-appellant, Collins & Corbin.

10 For defendants-respondents, L. Edward Herrmann and Frank H. Sommer.

Per Curiam:

The judgment under review will be affirmed for the reasons set forth in the opinion of the Supreme Court.

lor and Presiding Judge of the Court of Errors
and Appeals of the State of New Jersey:*

30

WESTERN UNION TELEGRAPH COMPANY, a cor-
poration, the appellant in the above entitled cause,
feeling aggrieved by the judgment of this court,
entered on the Fifth day of March, 1918, affirming
the final judgment of the Supreme Court of the
State of New Jersey herein, dated June 28th, 1916,
which judgment affirmed an order of the Board
of Public Utility Commissioners, dated April 20,
1915, in a certain proceeding entitled "In the
Matter of the Application of the City of Paterson
for alteration of grade crossings on the line of
40 the Erie Railroad," whereby the Erie Railroad

Petition for Writ of Error.

Company was ordered to alter certain grade crossings, according to the plan therefor annexed to said order and made part thereof, and whereby certain other of the parties to said proceeding, including the petitioner herein, were ordered to make certain changes in their property and construction and to comply with all of the requirements of said order, comes now, by Collins & Corbin, its attorneys, and respectfully represents as follows: 10

1. The said cause was upon a writ of certiorari issued by the Supreme Court of the State of New Jersey to the Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, to review the legality of the said order of said Board dated April 20, 1915, requiring your petitioner to change or remove its property or construction to carry said order into effect, according to a certain plan thereto annexed and made part thereof; and further requiring your petitioner to proceed with due diligence to the execution of said order and to comply with all of the requirements thereof and the duties imposed upon it thereby, and by the statute under which said order was made, and the laws of the State of New Jersey, and that to that end it exercises in good faith all of the powers conferred upon it by the laws of said state. 20

2. Upon the hearing of said writ of certiorari the Supreme Court of the State of New Jersey affirmed the said order of said Board and thereupon your petitioner appealed from said judgment to the Court of Errors and Appeals of the State of New Jersey, and the matter having been heard by said court the judgment of the said Supreme Court was in all things affirmed. 30

Western Union Telegraph Company Case.

3. Your petitioner shows that the said order of said Board of Public Utility Commissioners and the statute of the State of New Jersey (being Chapter 57 of the Laws of 1913) upon which such order purported to be based, in so far as the same or either of them affect the rights and property of your petitioner, are invalid, and in violation of the Constitution of the United States in that:

(a) Said order and statute take the private property of your petitioner for public use without just or any compensation;

(b) Said order and statute deny to your petitioner the equal protection of the law and deprive it of its property without due process of law, and abridge its privileges and immunities as a citizen of the United States;

(c) Said order and statute are contrary to Article I, Section 10, paragraph 1 of said Constitution, in that they impair the obligation of contracts;

(d) Said order and statute require the property of your petitioner to be taken for the private use of other persons or corporations;

(e) Said order and statute impose a burden upon the interstate traffic of your petitioner and interfere with and impair its ability to perform its duty as a common carrier of such interstate traffic.

4. Your petitioner urged in said Supreme Court and said Court of Errors and Appeals of the State of New Jersey that all of the said matters and things were secured to your petitioner by virtue of the provisions of the Constitution of the United States and the amendments thereto, and that the judgments of the said Supreme Court and

Petition for Writ of Error.

of the Court of Errors and Appeals were and are in violation of the Constitution of the United States and the amendments thereto.

5. The said Court of Errors and Appeals of the State of New Jersey is the highest court of said state in which judgment could be rendered in said proceeding; and said court having affirmed the judgment of the Supreme Court, of the State of New Jersey, whereby it was decided that said order of said Board of Public Utility Commissioners was valid, and having decided that your petitioner was and is not entitled to the rights claimed by virtue of the provisions of the Constitution of the United States and the amendments thereto, as above set forth, your petitioner alleges that it is aggrieved in that, by the proceedings and judgments aforesaid, it has been denied the rights to which it is entitled by virtue of the said provisions of the Constitution of the United States and the amendments thereto.

6. Your petitioner therefore prays that an order may be made allowing your petitioner to prosecute a writ of error to the United States Supreme Court under and according to the laws of the United States in that behalf made and provided, directed to the said New Jersey Court of Errors and Appeals, removing the judgments and proceedings aforesaid, and that your petitioner may have such other relief as may be proper.

And your petitioner will ever pray, etc.

Bond.

BOND.

KNOW ALL MEN BY THESE PRESENTS, That we, WESTERN UNION TELEGRAPH COMPANY, a corporation of the State of New York, as principal, and NATIONAL SURETY COMPANY, a corporation of the State of New York, as surety, are held and firmly bound unto BOARD OF PUBLIC UTILITY COMMISSIONERS, CITY OF PATERSON and BOARD OF FINANCE OF SAID CITY, in the just and full sum of five hundred dollars (\$500), to be paid to them and each of them, their and each of their successors or assigns, to which payment well and truly to be made, we bind ourselves, our successors and assigns jointly and severally firmly by these presents. 10

Sealed with our respective corporate seals and dated the thirteenth day of December, in the year of our Lord, one thousand nine hundred and seventeen. 20

WHEREAS, lately at the session of the Court of Errors and Appeals of the State of New Jersey in an action pending in said court between Western Union Telegraph Company, appellant, and Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, respondents, a final judgment was rendered affirming the judgment of the Supreme Court of the State of New Jersey in favor of the said respondents, and the said appellant having obtained from said court a writ of error to reverse the judgment in the aforesaid action, and a citation directed to said respondents is about to be issued, citing and admonishing them to be and appear at a Supreme Court of the United States at Washington; 30

Now, the condition of the above obligation is such that if the Western Union Telegraph Company shall prosecute its writ of error to effect and 40

Western Union Telegraph Company Case.

shall answer all damages and costs that may be awarded against it, if it fails to make its plea good, then the above obligation to be void; otherwise to remain in full force and virtue.

UNITED STATES OF AMERICA, *ss.:*

THE PRESIDENT OF THE UNITED STATES TO THE HONORABLE JUDGES OF THE COURT OF ERRORS AND APPEALS OF THE STATE OF NEW JERSEY, GREETING: 30

Because in the record and proceedings as also in the rendition of the judgment of a plea which is in the said Court of Errors and Appeals of the State of New Jersey before you, or some of you, being the highest court of law or equity of the 40

Western Union Telegraph Company Case.

said State in which a decision could be had, in an action between Western Union Telegraph Company, appellant, and Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, respondents—manifest error hath happened to the great damage of Western Union

10 Telegraph Company, appellant, as by its complaint appears; we, being willing that error, if any hath been, should be duly corrected and full and complete justice done to the parties aforesaid in this behalf, do command you, if judgment be therein given, that then under your seal, distinctly and openly you send the records and proceedings aforesaid, with all things concerning the same, to the Supreme Court of the United States, together with

20 this writ, so that you may have the same at Washington on the fourth day of April, next, in the said Supreme Court to be then and there held that the record and proceedings aforesaid being inspected, the said Supreme Court may cause further to be done therein to correct that error what of right and according to the laws and Constitution of the United States should be done.

WITNESS, the Honorable Edward Douglas White, Chief Justice of the United States, the fifth day of March, Nineteen hundred and eighteen.

PANY, | } | <i>Appellant,</i> |
| | <i>vs.</i> | | |
| | BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
and BOARD OF FINANCE OF SAID
CITY, | } | <i>Assignments
of Error.</i> |
| | <i>Respondents.</i> | | |

- 20 WESTERN UNION TELEGRAPH COMPANY, by Collins & Corbin, its attorneys, comes and files the following assignments of error upon which it will rely:

1. The said Court of Errors and Appeals of the State of New Jersey erred in affirming the judgment of the Supreme Court of the State of New Jersey, which had affirmed a certain report, determination or order made by the Board of Public Utility Commissioners of the State of New Jersey dated July 9, 1915, and brought up to the said Supreme Court by the writ of certiorari issued out of that court.
- 30

2. The said Court of Errors and Appeals of the State of New Jersey erred in not reversing the said judgment of the said Supreme Court of the State of New Jersey, for the several grounds of appeal, or for one or more thereof, filed by the appellant, and in not sustaining the said grounds of appeal, or some one or more of them.

- 40 3. The said Court of Errors and Appeals erred in holding that the said order made by said Board

Assignments of Error.

of Public Utility Commissioners dated April 20, 1915, and the statute of the State of New Jersey whereon the same was based, did not violate the rights of the appellant secured to it by the Constitution of the United States and the several amendments thereto.

4. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deprive the appellant of its liberty and property without due process of law, contrary to the Fifth and Fourteenth Amendments of the Constitution of the United States, reading as follows: 10

"ARTICLE V.

"No person shall be * * * deprived of life, liberty or property, without due process of law." 20

"ARTICLE XIV.

"Nor shall any State deprive any person of life, liberty or property without due process of law."

5. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute hereon the same was based did not deny to appellant the equal protection of the laws, contrary to the Fourteenth Amendment of the Constitution, reading as follows: 30

"Nor shall any State deny to any person within its jurisdiction the equal protection of the laws."

6. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not abridge 40

Western Union Telegraph Company Case.

the privileges or immunities of the appellant, contrary to the Fourteenth Amendment of the Constitution, reading as follows:

"No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

- 10 7. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not take the private property of the appellant for public use without just compensation, contrary to the Fifth Amendment of the said Constitution, reading as follows:

"Nor shall private property be taken for public use without just compensation."

- 20 8. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not create a burden upon and operate as a regulation of, and an interference with interstate commerce, contrary to Article I, Section VIII, paragraph 3, reading as follows:

"The Congress shall have power * * *

- 30 3. To regulate commerce with foreign nations, and among the several states, and with the Indian Tribes."

9. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not impair the obligation of contracts between the State of New Jersey and the appellant, contrary to Article I, Section X, paragraph 1, reading as follows:

"No State shall pass any * * * law impairing the obligation of contracts."

Citation.

The appellant, WESTERN UNION TELEGRAPH COMPANY, therefore prays that the judgment aforesaid may be reversed, annulled and for nothing holden, and that it may be restored to all things which it may have lost by occasion of said judgment.

**NEW JERSEY COURT OF ERRORS AND
APPEALS.**

D. FULLERTON & COMPANY, Prosecutor-Appellant,	}	No. 139.	10
vs.		November	
BOARD OF PUBLIC UTILITY COM- MISSIONERS, et al., Defendants-Respondents.		Term, 1916.	
		Per Curiam.	

On appeal from the Supreme Court in which the following *per curiam* was filed:

"In this case, there are eight reasons presented to the court for setting aside the order made by the Board of Public Utility Commissioners. They are, however, argued under four points in prosecutor's brief.

The first point argued is that the order, if construed to require prosecutor to make changes in its building necessary to have the same conform to the side track of the Erie Railroad, when reconstructed, is invalid, because the prosecutor is not a public utility and the Board has no power to order it to make such changes.

The second point argued is that the order, if construed to require the prosecutor at its own expense to reconstruct the existing side track, it is without the jurisdiction of the Board. The work commanded to be done by the order in altering the crossing is specifically (a) the changing of the highways and (b) the reconstruction of the railroad.

20

30

40

D. Fullerton & Company Case.

The third point argued is, the order under review takes the private property of the prosecutor for public use, without just or any compensation, and takes the property of the prosecutor for private use of other companies.

- 10 The fourth point argued is the order under review takes the property of the prosecutor without due process of law and deprives the prosecutor of the equal protection of the law. All these points are disposed of in the opinion of the court in the case of *Erie Railroad Company v. Board of Public Utility Commissioners*.

The order under review will be affirmed with costs."

For prosecutor-appellant, Hudson & Joelson.

- 20 For defendants-respondents, L. Edward Herrmann and Frank H. Sommer.

Per Curiam:

The judgment under review will be affirmed for the reasons set forth in the opinion of the supreme court.

and Presiding Judge of the Court of Errors
and Appeals of the State of New Jersey:*

30

D. FULLERTON & Co., a corporation, the appellant
in the above entitled cause, feeling aggrieved by
the judgment of this court, entered on the fifth
day of March, 1918, affirming the final judgment of
the Supreme Court of the State of New Jersey
herein, dated June 28, 1916, which judgment af-
firmed an order of the Board of Public Utility
Commissioners, dated April 20, 1915, in a certain
proceeding entitled "In the Matter of the Appli-

40

cation of the City of Paterson for alteration of

Petition for Writ of Error.

grade crossings on the line of the Erie Railroad'', whereby the Erie Railroad Company was ordered to alter certain grade crossings, according to the plan therefor annexed to said order and made part thereof, and whereby certain other of the parties to said proceeding, including the petitioner herein, were ordered to make certain changes in their property and construction and to comply with all of the requirements of said order, comes now, by Hudson & Joelson, its attorneys, and respectfully represents as follows: 10

1. The said cause was upon a writ of certiorari issued by the Supreme Court of the State of New Jersey to the Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, to review the legality of the said order of said Board dated April 20, 1915, requiring your petitioner to change or remove its property or construction to carry said order into effect, according to a certain plan thereto annexed and made part thereof; and further requiring your petitioner to proceed with due diligence to the execution of said order and to comply with all of the requirements thereof and the duties imposed upon it thereby, and by the statute under which said order was made, and the laws of the State of New Jersey, and that to that end it exercise in good faith all of the powers conferred upon it by the laws of said State. 20 30

2. Upon the hearing of said writ of certiorari the Supreme Court of the State of New Jersey affirmed the said order of said Board and thereupon your petitioner appealed from said judgment to the Court of Errors and Appeals of the State of New Jersey, and the matter having been heard by said court the judgment of the said Supreme Court was in all things affirmed. 40

D. Fullerton & Company Case.

3. Your petitioner shows that the said order of said Board of Public Utility Commissioners, and the statute of the State of New Jersey (being Chapter 57 of the Laws of 1913) upon which such order purported to be based, in so far as the same or either of them affect the rights and property
10 of your petitioner, are invalid, and in violation of the Constitution of the United States in that:

(a) Said order and statute take the private property of your petitioner for public use without just or any compensation;

(b) Said order and statute deny to your petitioner the equal protection of the law and deprive it of its property without due process of law, and abridge its privileges and immunities as a citizen of the United States;

20 (c) Said order and statute are contrary to Article I, Section 10, Paragraph 1 of said Constitution, in that they impair the obligation of contracts;

(d) Said order and statute require the property of your petitioner to be taken for the private use of other persons or corporations.

4. Your petitioner urged in said Supreme Court and said Court of Errors and Appeals of the State of New Jersey that all of the said matters and
30 things were secured to your petitioner by virtue of the provisions of the Constitution of the United States and the amendments thereto, and that the judgments of the said Supreme Court and of the Court of Errors and Appeals were and are in violation of the Constitution of the United States and the amendments thereto.

5. The said Court of Errors and Appeals of the State of New Jersey is the highest court of said State in which judgment could be rendered in said
40 proceeding; and said court having affirmed the

Petition for Writ of Error.

judgment of the Supreme Court of the State of New Jersey, whereby it was decided that said order of said Board of Public Utility Commissioners was valid, and having decided that your petitioner was and is not entitled to the rights claimed by virtue of the provisions of the Constitution of the United States and the amendments thereto, as above set forth, your petitioner alleges that it is aggrieved in that, by the proceedings and judgments aforesaid, it has been denied the rights to which it is entitled by virtue of the said provisions of the Constitution of the United States and the amendments thereto. 10

6. Your petitioner therefore prays that an order may be made allowing your petitioner to prosecute a writ of error in the United States Supreme Court under and according to the laws of the United States in that behalf made and provided, directed to the said New Jersey Court of Errors and Appeals, removing the judgments and proceedings aforesaid, and that your petitioner may have such other relief as may be proper. 20

And your petitioner will ever pray, etc.

BOND.

KNOW ALL MEN BY THESE PRESENTS, That we, D. FULLERTON & Co., a corporation of the State of New Jersey, as principal, and NATIONAL SURETY COMPANY, a corporation of the State of New York, as surety, are held and firmly bound unto BOARD OF PUBLIC UTILITY COMMISSIONERS, CITY OF PATERSON and BOARD OF FINANCE OF SAID CITY, in the just and full sum of Five hundred dollars (\$500.) to be paid to them and each of them, their and each of their successors or assigns, to which payment well and truly to be made, we bind ourselves, our successors and assigns jointly and severally firmly by these presents.

10

Sealed with our respective corporate seals and dated the 13th day of December, in the year of our Lord, One thousand nine hundred and seventeen.

20

WHEREAS, lately at the session of the Court of Errors and Appeals of the State of New Jersey in an action pending in said Court between D. Fullerton & Co., appellant, and Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, respondents, a final judgment was rendered affirming the judgment of the Supreme Court of the State of New Jersey in favor of said respondents, and the said appellant having obtained from said Court a writ of error to reverse the judgment in the aforesaid action and a citation directed to said respondents is about to be issued, citing and admonishing them to be and appear at a Supreme Court of the United States at Washington—

30

Now the condition of the above obligation is such that if D. Fullerton & Co. shall prosecute its writ of error to effect and shall answer all damages

40

D. Fullerton & Company Case.

and costs that may be awarded against it, if it fails to make its plea good, then the above obligation to be void; otherwise to remain in full force and virtue.

10

D. FULLERTON & Co.,*Appellant,**vs.***BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
and BOARD OF FINANCE OF SAID
CITY,***Respondents.**Assignments
of Error.*

20

D. FULLERTON & Co., by Hudson & Joelson, its attorneys, comes and files the following assignments of error upon which it will rely:

30 1. The said Court of Errors and Appeals of the State of New Jersey erred in affirming the judgment of the Supreme Court of the State of New Jersey, which had affirmed a certain report, determination or order made by the Board of Public Utility Commissioners of the State of New Jersey dated July 9, 1915, and brought up to the said Supreme Court by the writ of certiorari issued out of that court.

40 2. The said Court of Errors and Appeals of the State of New Jersey erred in not reversing the said judgment of the said Supreme Court of the State of New Jersey, for the several grounds of appeal, or for one or more thereof, filed by the appellant, and in not sustaining the said grounds of appeal, or some one or more of them.

Assignments of Error.

3. The said Court of Errors and Appeals erred in holding that the said order made by said Board of Public Utility Commissioners dated April 20, 1915, and the statute of the State of New Jersey whereon the same was based, did not violate the rights of the appellant secured to it by the Constitution of the United States and the several amendments thereto. 10

4. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deprive the appellant of its liberty and property without due process of law, contrary to the Fifth and Fourteenth Amendments of the Constitution of the United States, reading as follows:

"ARTICLE V. 20

"No person shall be * * * deprived of life, liberty or property, without due process of law."

"ARTICLE XIV.

"Nor shall any State deprive any person of life, liberty or property without due process of law."

5. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deny to appellant the equal protection of the laws, contrary to the Fourteenth Amendment of the Constitution, reading as follows: 30

"Nor shall any State deny to any person within its jurisdiction the equal protection of the laws."

6. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute 40

D. Fullerton & Company Case.

whereon the same was based did not abridge the privileges or immunities of the appellant, contrary to the Fourteenth Amendment of the Constitution, reading as follows:

10 "No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

7. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not take the private property of the appellant for public use without just compensation, contrary to the Fifth Amendment of the said Constitution, reading as follows:

"Nor shall private property be taken for public use without just compensation."

20 8. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not impair the obligation of contracts between the State of New Jersey and the appellant, contrary to Article I, Section X, paragraph 1, reading as follows:

"No State shall pass any . . . law impairing the obligation of contracts."

30 The appellant, D. FULLERTON & Co., therefore prays that the judgment aforesaid may be reversed, annuled and for nothing holden, and that it may be restored to all things that it may have lost by occasion of said judgment.

*Petition for
Writ of Error.*

30

*To the Honorable Edwin Robert Walker, Chan-
cellor and Presiding Judge of the Court of Er-
rors and Appeals of the State of New Jersey:*

JACOB MEYER and KOMMER DE VOGEL, partners as
Meyer & De Vogel, appellants in the above entitled
cause, feeling aggrieved by the judgment of this
court, entered on the day of December, 1917,
affirming the final judgment of the Supreme Court
of the State of New Jersey herein, dated June 28,
1916, which judgment affirmed an order of the
Board of Public Utility Commissioners, dated April
40 20, 1915, in a certain proceeding entitled "In the

Petition for Writ of Error.

Matter of the Application of the City of Paterson for alteration of grade crossings on the line of the Erie Railroad," whereby the Erie Railroad Company was ordered to alter certain grade crossings, according to the plan therefor annexed to said order and made part thereof, and whereby certain other of the parties to said proceeding, including the petitioners herein, were ordered to make certain changes in their property and construction and to comply with all of the requirements of said order, comes now, by William B. Gourley, their attorney and respectfully represent as follows: 10

1. The said cause was upon a writ of certiorari issued by the Supreme Court of the State of New Jersey to the Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, to review the legality of the said order of said Board dated April 20, 1915, requiring your petitioners to change or remove their property or construction to carry said order into effect, according to a certain plan thereto annexed and made part thereof; and further requiring your petitioners to proceed with due diligence to the execution of said order and to comply with all of the requirements thereof and the duties imposed upon it thereby, and by the statute under which said order was made, and the laws of the State of New Jersey, and that to that end it exercise in good faith all of the powers conferred upon it by the laws of said State. 20 30

2. Upon the hearing of said writ of certiorari the Supreme Court of the State of New Jersey affirmed the said order of said Board and thereupon your petitioners appealed from said judgment to the Court of Errors and Appeals of the State of New Jersey, and the matter having been heard by said court the judgment of the said Supreme Court was in all things affirmed. 40

Meyer & De Vogel Case.

10 3. Your petitioners show that the said order of said Board of Public Utility Commissioners, and the statute of the State of New Jersey (being Chapter 57 of the Laws of 1913) upon which such order purported to be based, in so far as the same or either of them affect the rights and property of your petitioners, are invalid and in violation of the Constitution of the United States in that:

(a) Said order and statute take the private property of your petitioners for public use without just or any compensation;

(b) Said order and statute deny to your petitioners the equal protection of the law and deprive them of their property without due process of law, and abridge their privileges and immunities as a citizen of the United States;

20 (c) Said order and statute are contrary to Article I, Section 10, Paragraph 1 of said Constitution, in that they impair the obligation of contracts;

(d) Said order and statute require the property of your petitioners to be taken for the private use of other persons or corporations.

30 4. Your petitioners urged in said Supreme Court and said Court of Errors and Appeals of the State of New Jersey that all of the said matters and things were secured to your petitioners by virtue of the provisions of the Constitution of the United States and the amendments thereto, and that the judgments of the said Supreme Court and of the Court of Errors and Appeals were and are in violation of the Constitution of the United States and the amendments thereto.

40 5. The said Court of Errors and Appeals of the State of New Jersey is the highest court of said State in which judgment could be rendered in said

Petition for Writ of Error.

proceeding; and said court having affirmed the judgment of the Supreme Court of the State of New Jersey, whereby it was decided that said order of said Board of Public Utility Commissioners was valid, and having decided that your petitioners were not and are not entitled to the rights claimed by virtue of the provisions of the Constitution of the United States and the amendments thereto, as above set forth, your petitioners allege that they are aggrieved in that, by the proceedings and judgments aforesaid, they have been denied the rights to which they are entitled by virtue of the said provisions of the Constitution of the United States and the amendments thereto. 10

6. Your petitioners therefore pray that an order may be made allowing your petitioners to prosecute a writ of error to the United States Supreme Court under and according to the laws of the United States in that behalf made and provided, directed to the said New Jersey Court of Errors and Appeals, removing the judgments and proceedings aforesaid, and that your petitioners may have such other relief as may be proper. 20

And your petitioners will ever pray, etc.

VOGEL, partners, &c., as MEYER
& DE VOGEL, <i>Appellants,</i></p> <p style="text-align: center;"><i>vs.</i></p> <p>BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
and BOARD OF FINANCE OF SAID
CITY, <i>Respondents.</i></p> | } | <p><i>Assignments
of Error.</i></p> |
|----|--|---|---|

- 20 JACOB MEYER and KOMMER DEVOGEL, partners, &c., as MEYER & DEVOGEL, by William B. Gourley, their attorney, come and file the following assignments of error upon which they will rely:

1. The said Court of Errors and Appeals of the State of New Jersey erred in affirming the judgment of the Supreme Court of the State of New Jersey, which had affirmed a certain report, determination or order made by the Board of Public Utility
- 30 Commissioners of the State of New Jersey dated July 9, 1915, and brought up to the said Supreme Court by the writ of certiorari issued out of that court.

2. The said Court of Errors and Appeals of the State of New Jersey erred in not reversing the said judgment of the said Supreme Court of the State of New Jersey, for the several grounds of appeal, or for one or more thereof, filed by the appellants, and in not sustaining the said grounds
- 40 of appeal, or some one or more of them.

Assignments of Error.

3. The said Court of Errors and Appeals erred in holding that the said order made by said Board of Public Utility Commissioners dated April 20, 1915, and the statute of the State of New Jersey whereon the same was based, did not violate the rights of the appellants secured to them by the Constitution of the United States and the several amendments thereto. 10

4. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deprive the appellants of their liberty and property without due process of law, contrary to the Fifth and Fourteenth Amendments of the Constitution of the United States, reading as follows:

"ARTICLE V.

20

"No person shall be * * * deprived of life, liberty or property, without due process of law."

"ARTICLE XIV.

"Nor shall any State deprive any person of life, liberty or property without due process of law."

5. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deny to the appellants the equal protection of the laws, contrary to the Fourteenth Amendment of the Constitution, reading as follows: 30

"Nor shall any State deny to any person within its jurisdiction the equal protection of the laws."

6. The said Court of Errors and Appeals erred in not holding that the said order of said Board 40

Meyer & De Vogel Case.

of Public Utility Commissioners and the statute whereon the same was based did not abridge the privileges or immunities of the appellants, contrary to the Fourteenth Amendment of the Constitution, reading as follows:

- 10 "No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

7. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not take the private property of the appellants for public use without just compensation, contrary to the Fifth Amendment of the said Constitution, reading as follows:

- 20 "Nor shall private property be taken for public use without just compensation."

8. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not impair the obligation of contracts between the State of New Jersey and the appellants, contrary to Article I, Section X, paragraph 1, reading as follows:

- 30 "No State shall pass any . . . law impairing the obligation of contracts."

The appellants, JACOB MEYER and KOMMER DE-VOGEL, partners, &c., as KOMMER & DE VOGEL, therefore pray that the judgment aforesaid may be reversed, annulled and for nothing holden, and that they may be restored to all things that they may have lost by occasion of said judgment.

(SEAL) THE PRESIDENT OF THE UNITED STATES
TO BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON, AND
BOARD OF FINANCE OF SAID CITY,
GREETING:

You are hereby cited and admonished to be and
appear at a Supreme Court of the United States,
at Washington, on the fourth day of April, A. D.,
nineteen hundred and eighteen, pursuant to a writ
of error filed in the Clerk's office of the Court of
Errors and Appeals of the State of New Jersey,
wherein Jacob Meyer and Konner DeVogel, part-
ners, &c., as Meyer & DeVogel, are plaintiffs in
error, and you are defendants in error, to show
cause, if any there be, why the judgment in the
said writ of error mentioned should not be cor-
rected and speedy justice should not be done to
the parties in that behalf.

WITNESS, THE HONORABLE EDWARD DOUGLAS
WHITE, Chief Justice of the United States of
America, this fifth day of March, A. D., nineteen
hundred and eighteen.

E. R. WALKER,
*Chancellor, Presiding Judge of the New
Jersey Court of Errors and Appeals.*

Per Curiam.

10

An appeal from the Supreme Court, in which the following *per curiam* was filed:

"In each of these cases, there are eight reasons presented to the court for setting aside the order made by the Board of Public Utility Commissioners. They are identical with the reasons presented in the case of D. Fullerton & Co., prosecutor, except in the case of Fuller's Express Co., prosecutor, presents an additional reason, viz: the order directing changes, relocation, &c., is invalid because it imposes a burden upon the interstate traffic of the prosecutor, interferes with and impairs its ability to perform its duty, as a common carrier of such interstate traffic. These cases were argued orally before the court by Mr. Gourley. All the points in these cases are disposed of in the opinion of the court in the case of the *Erie Railroad Company v. Board of Public Utility Commissioners*. The order under review will be affirmed with costs."

*To the Honorable Edwin Robert Walker, Chancel-
lor and Presiding Judge of the Court of Errors
and Appeals of the State of New Jersey:*

30 **MORRIS & COMPANY**, a corporation, the appellant
in the above-entitled cause, feeling aggrieved by
the judgment of this court, entered on the fifth
day of December, 1918, affirming the final judgment
of the Supreme Court of the State of New Jersey
herein, dated June 28, 1916, which judgment af-
firmed an order of the Board of Public Utility
Commissioners, dated April 20, 1915, in a certain
proceeding entitled, "In the Matter of the Appli-
cation of the City of Paterson for alteration of
grade crossings on the line of the Erie Railroad,"
whereby the Erie Railroad Company was ordered
to alter certain grade crossings, according to the
plan therefor annexed to said order and made part
40 thereof, and whereby certain other of the parties

Petition for Writ of Error.

to said proceeding, including the petitioner herein, were ordered to make certain changes in their property and construction and to comply with all of the requirements of said order, comes now, by William B. Gourley, its attorney, and respectfully represents as follows:

1. The said cause was upon a writ of certiorari issued by the Supreme Court of the State of New Jersey to the Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, to review the legality of the said order of said Board, dated April 20, 1915, requiring your petitioner to change or remove its property or construction to carry said order into effect, according to a certain plan thereto annexed and made part thereof; and further requiring your petitioner to proceed with due diligence to the execution of said order and to comply with all of the requirements thereof and the duties imposed upon it thereby, and by the statute under which said order was made, and the laws of the State of New Jersey, and that to that end it exercise in good faith all of the powers conferred upon it by the laws of said State. 10 20

2. Upon the hearing of said writ of certiorari the Supreme Court of the State of New Jersey affirmed the said order of said Board and thereupon your petitioner appealed from said judgment to the Court of Errors and Appeals of the State of New Jersey, and the matter having been heard by said Court the judgment of the said Supreme Court was in all things affirmed. 30

3. Your petitioner shows that the said order of said Board of Public Utility Commissioners, and the statute of the State of New Jersey (being Chapter 57 of the Laws of 1913), upon which such 40

Morris & Company Case.

order purported to be passed, insofar as the same or either of them, affect the rights and property of your petitioner, are invalid, and in violation of the Constitution of the United States in that:

10 (a) Said order and statute take the private property of your petitioner for public use without just or any compensation;

(b) Said order and statute deny to your petitioner the equal protection of the law and deprive it of its property without due process of law, and abridge its privileges and immunities as a citizen of the United States;

(c) Said order and statute are contrary to Article I, Section 10, paragraph 1 of said Constitution, in that they impair the obligation of contracts;

20 (d) Said order and statute require the property of your petitioner to be taken for the private use of other persons or corporations.

4. Your petitioner urged in said Supreme Court and said Court of Errors and Appeals of the State of New Jersey that all of the said matters and things were secured to your petitioner by virtue of the provisions of the Constitution of the United States and the amendments thereto, and that the judgments of the said Supreme Court and of the
30 Court of Errors and Appeals were and are in violation of the Constitution of the United States and the amendments thereto.

5. The said Court of Errors and Appeals of the State of New Jersey is the highest court of said State in which judgment could be rendered in said proceeding; and said court having affirmed the judgment of the Supreme Court of the State of New Jersey, whereby it was decided that said order of said Board of Public Utility Commissioners was
40

Petition for Writ of Error.

valid, and having decided that your petitioner was and is not entitled to the rights claimed by virtue of the provisions of the Constitution of the United States and the amendments thereto, as above set forth, your petitioner alleges that it is aggrieved in that, by the proceedings and judgments aforesaid, it has been denied the rights to which it is entitled by virtue of the said provisions of the Constitution of the United States and the amendments thereto. 10

6. Your petitioner therefore prays that an order may be made allowing your petitioner to prosecute a writ of error to the United States Supreme Court under and according to the laws of the United States in that behalf made and provided, directed to the said New Jersey Court of Errors and Appeals, removing the judgments and proceedings aforesaid, and that your petitioner may have such other relief as may be proper. 20

And your petitioner will ever pray, etc.

WILLIAM B. GOURLEY,
Attorney for Appellant.

Bond.

KNOW ALL MEN BY THESE PRESENTS, That we MORRIS & COMPANY, a corporation of the State of New Jersey, as principal, and NATIONAL SURETY COMPANY, a corporation of the State of New York, as surety, are held and firmly bound unto BOARD OF PUBLIC UTILITY COMMISSIONERS, CITY OF PATERSON and BOARD OF FINANCE OF SAID CITY, in the just and full sum of Five hundred dollars (\$500.00), to be paid to them and each of them, their and each of their successors or assigns, to which payment well and truly to be made, we bind ourselves, our successors and assigns jointly and severally firmly by these presents. 10

Sealed with our respective corporate seals and dated the 13th day of December, in the year of our Lord, One thousand nine hundred and seventeen.

WHEREAS, lately at the session of the Court of Errors and Appeals of the State of New Jersey in an action pending in said court between Morris & Company, appellant, and Board of Public Utility Commissioners, City of Paterson and Board of Finance of said City, respondents, a final judgment was rendered affirming the judgment of the Supreme Court of the State of New Jersey in favor of the said respondents, and the said appellant having obtained from said court a writ of error to reverse the judgment in the aforesaid action and a citation directed to said respondents is about to be issued, citing and admonishing them to be and appear at a Supreme Court of the United States at Washington; 20 30

Now, the condition of the above obligation is such that if Morris & Company shall prosecute its writ of error to effect and shall answer all damages and costs that may be awarded against it, if it fails to make its plea good, then the above 40

Morris & Company Case.

obligation to be void; otherwise to remain in full force and virtue.

10

MORRIS & COMPANY,

Appellant,

vs.

BOARD OF PUBLIC UTILITY COM-
MISSIONERS, CITY OF PATERSON
and BOARD OF FINANCE OF SAID
CITY,

Respondents.

*Assignments
of Error.*

20

MORRIS AND COMPANY, by William B. Gourley, its attorney, comes and files the following assignments of error upon which it will rely:

1. The said Court of Errors and Appeals of the State of New Jersey erred in affirming the judgment of the Supreme Court of the State of New Jersey, which had affirmed a certain report, determination or order made by the Board of Public Utility Commissioners of the State of New Jersey, dated July 9, 1915, and brought up to the said Supreme Court by the writ of certiorari issued out of that court.

30

2. The said Court of Errors and Appeals of the State of New Jersey erred in not reversing the said judgment of the said Supreme Court of the State of New Jersey, for the several grounds of appeal, or for one or more thereof, filed by the appellant, and in not sustaining the said grounds of appeal, or some one or more of them.

40

Assignments of Error.

3. The said Court of Errors and Appeals erred in holding that the said order made by said Board of Public Utility Commissioners, dated April 20, 1915, and the statute of the State of New Jersey whereon the same was based, did not violate the rights of the appellant secured to it by the Constitution of the United States and the several amendments thereto. 10

4. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deprive the appellant of its liberty and property without due process of law, contrary to the Fifth and Fourteenth Amendments of the Constitution of the United States, reading as follows:

"ARTICLE V.

20

"No person shall be * * * deprived of life, liberty or property, without due process of law."

"ARTICLE XIV.

"Nor shall any State deprive any person of life, liberty or property without due process of law."

5. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not deny to appellant the equal protection of the laws, contrary to the Fourteenth Amendment of the Constitution, reading as follows: 30

"Nor shall any State deny to any person within its jurisdiction the equal protection of the laws."

6. The said Court of Errors and Appeals erred in not holding that the said order of said Board 40

Morris & Company Case.

of Public Utility Commissioners and the statute whereon the same was based did not abridge the privileges or immunities of the appellant, contrary to the Fourteenth Amendment to the Constitution, reading as follows:

- 10 "No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States."

7. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not take the private property of the appellant for public use without just compensation, contrary to the Fifth Amendment of the said Constitution, reading as follows:

- 20 "Nor shall private property be taken for public use without just compensation."

8. The said Court of Errors and Appeals erred in not holding that the said order of said Board of Public Utility Commissioners and the statute whereon the same was based did not impair the obligation of contracts between the State of New Jersey and the appellant, contrary to Article 1, Section 10, paragraph 1, reading as follows:

- 30 "No State shall pass any . . . law impairing the obligation of contracts."

The appellant, MORRIS AND COMPANY, therefore prays that the judgment aforesaid may be reversed, annulled and for nothing holden, and that it may be restored to all things that it may have lost by occasion of said judgment.
